

# CONVENTION ON MIGRATORY SPECIES

Distr: General

UNEP/CMS/Resolution 9.1/Rev. 1  
1 December 2008

Original: English

NINTH MEETING OF THE  
CONFERENCE OF THE PARTIES  
Rome, 1-5 December 2008  
Agenda Item 12.0, 26.0

## DRAFT RESOLUTION ON CONCERTED AND COOPERATIVE ACTIONS (Prepared by the CMS Secretariat)

*Recalling* Resolution 3.2 regarding Appendix I species adopted by the Conference of the Parties at its third meeting (Geneva, 1991);

*Recognizing* that Resolution 3.2 decided *inter alia* that at each meeting of the Conference of the Parties a formal review process would be established for a selected number of species listed in Appendix I;

*Noting* that there are species or populations of species listed in Appendix II that have an unfavourable conservation status and which require cooperation at the international level for their conservation and management;

*Aware* that not all species listed in Appendix II are currently the subject of an Agreement or can reasonably be expected, in the short term, to become the subject of an Agreement to assist with their conservation;

*Recalling further* that Resolution 3.2, as updated by Resolution 4.2 (Nairobi, 1994), Resolution 5.1 (Geneva, 1997), Resolution 6.1 (Cape Town, 1999), Resolution 7.1 (Bonn, 2002), Resolution 8.29 (Nairobi, 2005), and that Recommendation 6.2 (Cape Town 1999) as updated by Recommendation 7.1 (Bonn, 2002), Recommendation 8.28 (Nairobi, 2005) instructs and recommends, respectively, the Secretariat and the Scientific Council to encourage and assist Parties to take concerted and cooperative actions to implement the provisions of the Convention and improve the conservation status of migratory species;

*Acknowledging* that the Scientific Council at its 14<sup>th</sup> and 15<sup>th</sup> meetings held in Bonn (March, 2007) and Rome (November, 2008) reviewed the implementation of concerted and cooperative actions for Appendix I and Appendix II species respectively;

*Noting* the conclusions and recommendations of the Scientific Council at its 14<sup>th</sup> and 15<sup>th</sup> meetings, particularly the identification of the following species to be the subject of concerted actions: *Platanista gangetica gangetica*, *Pelecanus crispus*, *Anser cygnoides*, *Marmaronetta angustirostris*); and

Noting further the recommendations of the 14<sup>th</sup> and 15<sup>th</sup> meetings of the Scientific Council that subject to their inclusion in Appendix I and Appendix II, respectively, *Tursiops truncatus ponticus*, *Acinonyx jubatus*, on the one hand, and *Lycaon pictus* on the other hand, also be subject to concerted and cooperative actions, as appropriate.

*The Conference of the Parties to the  
Convention on the Conservation of Migratory Species of Wild Animals*

1. *Resolves* that Concerted and Cooperative actions be carried out for the species listed within this Resolution to improve their conservation status, as appropriate, during the 2009-2011 triennium, and that the Conference of the Parties review the results at its next meeting;
2. *Instructs* the Scientific Council to prepare for each meeting of the Conference of the Parties a list of such Appendix II species or populations of such species for which conclusion of an Agreement is not anticipated during the forthcoming triennium, but which nonetheless require attention within the reporting period;
3. *Directs* the Secretariat to assist the Scientific Council in establishing this review process, ensuring that a regular update of status is provided by the relevant focal point Councillor;
4. *Ratifies* the recommendation of the Scientific Council at its 15<sup>th</sup> meeting that Concerted Actions for species covered by Resolution 8.29 be continued for a further three years (2009-2011), (IF THEY DECIDE SO) and that Concerted Actions be commenced specifically for those species mentioned in the preamble. The complete list of species for which concerted actions should either be continued or commenced, as appropriate, is as appears in the first table attached to this resolution; and
5. *Endorses* the list of species object of cooperative actions for the following 2009-2011 triennium, as it appears in the second table attached to this Resolution.
