

CMS 2ETF MEETING PRESENTATION

***MONITORING IMPLEMENTATION AND IMPEDIMENTS TO
IMPLEMENTATION OF CMS RESOLUTIONS IN KENYA***

**Stephen Manegene
Director, Wildlife Conservation
Ministry of Environment and Natural Resources
KENYA**

KENYA

Background

- Kenya ratified CMS in 1999 (party No:58) hence as party to CMS and AEWA, fully recognizes the need to mainstream conservation of migratory species and implementation of renewable energy technologies (RET);
- Kenya is a medium-income developing country where demand for energy development;
- Biodiversity Conservation hotspot and important pathway for migratory species.

Shorebirds

Landbirds

How is Kenya Implementing CMS Resolutions?

- Res: 7.4 Electrocution of Migratory birds
- Res: 7.5 Wind turbines and migratory species
- Res: 10.11 Powerlines and migratory species
- Res: 11.27 Renewable energy and migratory species
- Policy & Oversight: Ministry of Environment and Natural Resources;
- Implementation Enforcement: Kenya Wildlife Service; NEMA; and County Governments.

Lessons Learned

- Enabling policy and legislation
 - Policies, Legislation and Guidelines; International best practices & case studies
- Institutional infrastructure
 - Mandates; Role of National and County Governments; Coordination
- Knowledge (best practices) and capacity
- Planning, Impact Assessment and Monitoring EMP

Barriers to Implementation

- Policy and Legislation;
- Financial;
- Technical;
- Awareness and knowledge – the net-gain concept, sustainability
- Institutional (coordination e.t.c) –Clarity on roles of actors, silo/bloc mentality

Reflections and Recommendations to ETF

- ETF has potential to demonstrate value for multidisciplinary approach;
- Highlight need for platform for sensitization, capacity building, tracking reporting and assessment of implementing the CMS Resolutions;
- Platform for sharing best practices on integrating climate change mitigation, biodiversity conservation.
