

## **LIST OF DOCUMENTS CONSIDERED BY THE MEETING AT AGADIR**

### **List of available documents :**

1. Sites of major importance for the conservation and restoration of Sahelo-Saharan Antelopes (Djerba document);
2. Advantages and disadvantages of developing an agreement under the terms of the CMS Convention;
3. Research and monitoring (Djerba document);
4. Valorisation des Antilopes Sahelo-Sahariennes (Djerba document);
5. Djerba Declaration;
6. Reports on the conservation status of Sahelo-Saharan Antelopes, with maps of historical and current distribution;
7. Revised Action Plan to be completed;
8. Annotated provisionnal agenda.

Remark : Of the documents distributed at the second meeting of Agadir, only the two first documents " Sites of major importance for the conservation and restoration of Sahelo-Saharan Antelopes " and " Advantages and disadvantages of developing an agreement under the terms of the CMS Convention " are integrated in this report (p28).

All the other documents are either to be found in previous CMS technical publications, or will be included in the next CMS technical publication.

An additional document " La réintroduction de l'Addax et de la Gazelle dama au Maroc dans le cadre du Plan d'Action "Antilopes Sahélo-Sahariennes" de la Convention sur les Espèces Migratrices (CMS), produced by IRSNB, was distributed during the seminar. It is included in this report as an annex.
