2014 NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

The deadline for submission of the reports is 1 May 2014. The reporting period is 15 June 2011 to 1 May 2014.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

Reporting format agreed by the Standing Committee at its 40th Meeting (Bonn, November 2012) for mandatory use by Parties, for reports submitted to the Eleventh Meeting of the Conference of the Parties (COP11) 2014.

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

COP Resolution 9.4 adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. The CMS Family Online Reporting System (ORS) has been successfully implemented and used by AEWA in their last Meeting of the Parties (MOP 5, 2012) reporting cycle. CMS now offers the Convention’s Parties to use the ORS for submitting their national reports for the COP11 (2014) reporting cycle.

Please enter here the name of your country
› Bulgaria

Which agency has been primarily responsible for the preparation of this report?
› Ministry of Environment and water

Please list any other agencies that have provided input
› Bulgarian Academy of Science
› Bulgarian Society for the Protection of Birds/BirdsLife Bulgaria
I(a). General Information
Please enter the required information in the table below:

Implementation

Competent Authority:
Ministry of Environment and Water

Relevant implemented legislation:
Biological Diversity Act

Other relevant Conventions/Agreements (apart from CMS) to which your country is a Party:
Convention on the Conservation of European Wildlife and Natural Habitats 1979 (Bern Convention)
Convention on International Trade in Endangered Species of Wild Flora and Fauna
Ramsar Convention on Wetlands
Convention on Biological Diveristy

National policy instruments (e.g. national biodiversity conservation strategy, etc.):
The National Strategy for Biodiversity Conservation (1994)

CMS Agreements/MoU
Please indicate whether your country is part of the following Agreements/MoU. If so, please indicate the competent national institution

Involvement of other government departments/NGOs/private sector

1. Which other government departments are involved in activities/initiatives for the conservation of migratory species in your country? (Please list.)
   - Regional Inspectorate of Environment and Water
   - Executive Agency of Environment and Water
   - Bulgarian Academy of Science

2. If more than one government department is involved, describe the interaction/relationship between these government departments:
   - N/A

3. Has a national liaison system or committee been established in your country?
   Please select only one option
   - Yes
   - No

Please provide contact information

4. List the main non-governmental organizations actively involved in activities/initiatives for the conservation of migratory species in your country, and describe their involvement:
   - Balkani Wildlife Society
   - Bulgarian Society of Protection of Birds (BSPB) –partner of Birdlife International
   - Green Balkans Federation
Le Balkan Foundation
All these NGOs implements projects related to the protection of migratory bird species and their habitats. They actively participate in the monitoring of the birds.

4a. Please provide detail on any devolved government/overseas territory authorities involved.

5. Describe any involvement of the private sector in the conservation of migratory species in your country:

6. Note any interactions between these sectors in the conservation of migratory species in your country:
I(b). Information about involved Authorities
Identify the ministry, agency/department or organization that is responsible for leading actions relating to Appendix I species

1- Birds
   › Ministry of Environment and Water

2- Aquatic Mammals
   › Ministry of Environment and Water

3- Reptiles
   › Ministry of Environment and Water

4- Terrestrial Mammals
   › Ministry of Environment and Water

5- Fish
   › Ministry of Environment and Water
II. Appendix I species

1. BIRDS

1.1 General questions on Appendix I bird species

1. Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)?
   
   Please select only one option
   ☐ Yes
   ☐ No

   If other legislation is relevant, please provide details:

1a. If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition?
   
   Please select only one option
   ☐ Yes
   ☐ No

   If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7):

2. Identify any obstacles to migration that exist in relation to Appendix I bird species:
   ☐ By-catch
   ☐ Electrocution
   ☐ Habitat destruction
   ☐ Wind turbines
   ☐ Pollution
   ☐ Other (please provide details):

2a. What actions are being undertaken to overcome these obstacles?
   > 1. Restoration of Wetlands; 2. Installation of safety platforms for building the stork nests on electric power line; 3. Isolation of electric power wires in some region aiming to prevent mortality of the migratory bird species. 4. Environment assessment for investment proposals for construction of Wind turbines.

You have attached the following documents to this answer.
2a.doc - Actions under 2a
2a_MOEW.doc

2b. Please report on the progress / success of the actions taken.
   > Common practice in different region of the country were conducted for installation of safety platforms for Stork nesting on the powerline. It have reduced mortality of the storks during the nesting period and prevent the nests from direct contact with the powerline cables. Electrocution: Bulgarian Society for the Protection of Birds (BSPB) together with electricity companies started to replace dangerous electricity lines with safety ones in th emost problematic areas in Southern Bulgaria in 2010; Habitat destruction: NGOs report to the government for any project that is dangerous for migratory birds because of habitat destruction; MoEW ask for an EIA procedure when risk of significant impacts on birds is possible to exist; Wind turbines: Internal instructions have been developed by MoEW for assessment of wind farm projects; Strategic Environmental Assessment of the National Action Plan on Renewable Energy Development 2010 – 2020 is elaborated (procedure is not finalized). Large national-scale project started in 2011 for minimizing risks for wild birds due to windfarm development, including elaboration of a sensitivity map

You have attached the following documents to this answer.
2b.doc - 2b

2c. What assistance, if any, does your country require in order to overcome these obstacles?

3. What are the major pressures to Appendix I bird species (transcending mere obstacles to migration)?
   ☐ Illegal trade
   ☐ Poaching
   ☐ Other (please specify)
Hunting in the roosting sites in the winter season. Wind turbines, electrocution.

3a. What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour?

You have attached the following documents to this answer.

3a.doc - 3a
Poaching migratory birds 2014.doc - Poachong
Poster Poaching.pdf - poster poaching
3a MOEW.doc - Actions from MOEW

3b. Please report on the progress / success of the actions taken.

You have attached the following documents to this answer.

3b.doc - 3b

3c. Describe any factors that may limit action being taken in this regard:

3d. What assistance, if any, does your country require to overcome these factors?

1.2 Questions on specific Appendix I bird species

In the following section, using the table format below, please fill in each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

**Species name: Pelecanus crispus**

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):

   *Please select only one option*

   - ☐ increasing
   - ☐ decreasing
   - ☑ stable

   > The monitoring of the population: 2008 - 412 birds; 2009 - 1140; 2010 - 719.
   - ☐ not known
   - ☐ unclear

2b. Summarise information on distribution (if known):

   *Please select only one option*

   - ☐ increasing
   - ☐ decreasing
   - ☑ stable

   > The breeding population is located in Mantained Reserve 'Srebarna' and feeds along the Danube River. Many bird are wintering in the lakes around the town of Burgas, SE Bulgaria.
   - ☐ not known
3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

☐ Research

☑ Identification and establishment of protected areas

Areas identified for the species as Natura 2000 site under EU Birds Directive has been designated

☑ Monitoring

☐ Education/awareness rising

☑ Species protection

Strictly protected species under the Biological Diversity Act.

☑ Control hunting / poaching

The breeding colony and the wintering grounds have been included in the protected areas, Ramsar sites and EU Ecological Network Natura 2000’ Special Protected Sites.

☐ Species restoration

☐ Habitat protection

☐ Habitat restoration

☐ Other

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

☐ N/A

5. Describe any future activities that are planned for this species:

1. Annual monitoring will continue to be carried out.
2. Increasing and maintenance on the breeding ground in the colony
3. Protection of the colony from encroachment of wild boars and medium size carnivores.

Species name: Pelecanus onocrotalus (only Palearctic populations)

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):

Please select only one option

☐ increasing

☐ decreasing

The monitoring of the population: 2008 - 23 birds; 2009 - 0; 2010 - 2.

☐ stable

☐ not known

☐ unclear

2b. Summarise information on distribution (if known):

Please select only one option
3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

☐ Research
☐ Identification and establishment of protected areas
☐ Monitoring
☐ Education/awareness rising

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

5. Describe any future activities that are planned for this species:

**Species name: Anser erythropus**

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):
   - Please select only one option
   - ☐ increasing
   - ☐ decreasing
   - Bulgaria provides wintering places for this species. The monitoring of the population: 2008 - 0 birds; 2009 - 0; 2010 - 5.
   - ☐ stable
2b. Summarise information on distribution (if known):

Please select only one option

☐ increasing

☐ decreasing

☐ stable

☐ not known

Wintering species.

☐ unclear

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

☐ Research

☑ Identification and establishment of protected areas

Shabla Lake Complex and Duranculac Lake were designated as Special Protected Sites for Birds in the EU Ecological Network Natura 2000.

☐ Monitoring

☐ Education/awareness rising

☑ Species protection

Strictly protected species under the Biological Diversity Act.

☐ Control hunting / poaching

☐ Species restoration

☐ Habitat protection

The wintering grounds has been included in protected areas, Ramsar sites and EU Ecological Network Natura 2000' Special Protected Sites.

☐ Habitat restoration

☐ Other

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

5. Describe any future activities that are planned for this species:

1. Annual monitoring; 2. Untipoaching control to be strengthen in the wintering areas of the birds

Species name: Branta ruficollis

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):

Please select only one option

☐ increasing

☐ decreasing

☐ stable

☑ not known

Bulgaria provides wintering places for this species.
The monitoring of the population: 2008 - 15139 birds; 2009 - 11578; 2010 - 23279.

☐ unclear

2b. Summarise information on distribution (if known):

Please select only one option

☐ increasing

☐ decreasing

☐ stable

☑ not known

Wintering species. The main wintering birds could be seen mainly in the wetland and agriculture areas along the Black Sea coast.

☐ unclear

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

☐ Research

☑ Identification and establishment of protected areas

A number of 10 IBAs which are wintering grounds of the species were designated as Special Protected Areas for Birds in the EU Ecological Network Natura 2000.

☐ Monitoring

☐ Education/awareness rising

☑ Species protection

Strictly protected species under the Biological Diversity Act.

☑ Control hunting / poaching

Project for conservation of the species, security and agro-ecological practices.

☐ Species restoration

☑ Habitat protection

The wintering grounds has been included in protected areas, Ramsar sites and EU Ecological Network Natura 2000’ Special Protected Sites.

☑ Habitat restoration

Project for conservation of wintering population of Branta ruficollis in Bulgaria

☐ Other

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5. Describe any future activities that are planned for this species:
   › 1. Annual monitoring;
   2. Untipoaching control to be strengthen in the wintering areas of the birds

**Species name: Aythya nyroca**

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):
   Please select only one option
   ☐ increasing
   ☑ decreasing
   □ stable
   □ not known
   □ unclear

   The monitoring of the population: 2008 - 4 birds; 2009 - 18; 2010 - 3.

2b. Summarise information on distribution (if known):
   Please select only one option
   ☐ increasing
   ☑ decreasing
   □ stable
   □ not known
   □ unclear

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
   □ Research
   ☑ Identification and establishment of protected areas
   › A number of 14 IBAs which are breeding and wintering grounds of the species were designated as Special Protected Areas for Birds in the EU Ecological Network Natura 2000.
   ☑ Monitoring
   □ Education/awareness rising
   ☑ Species protection
   › Strictly protected species under the Biological Diversity Act.
   □ Control hunting / poaching
   □ Species restoration
   □ Habitat protection
Some wintering and breeding ground has been included in protected areas, Ramsar sites and EU Ecological Network Natura 2000' Special Protected Sites.

☐ Habitat restoration

☐ Other

The species benefit from the conservation activities undertaken by Balkani Wildlife Society in Aldomirovtsi and Dragoman karst marshes, which are among the biggest natural wetlands in Sofia region and where a stable population of the species exists (several tens of pairs).

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

☐

5. Describe any future activities that are planned for this species:

☐ 1. Annual monitoring;
   2. Action plan;

**Species name: Oxyura leucocephala**

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):

*Please select only one option*

- ✔ increasing
  - Bulgaria is a wintering place of this species. According to data colected during the Annual Middle Winter Waterbird The monitoring of the population: 2008 - 4 birds; 2009 - 4; 2010 - 146.
- □ decreasing
  - □ stable
    - □ not known
    - □ unclear

2b. Summarise information on distribution (if known):

*Please select only one option*

- □ increasing
  - □ decreasing
  - ✔ stable
    - Wintering species. The main area of wintering are located along the Bulgarian Black Sea Coast. The species occurs during migration and winter in 8 IBAs, in 3 of which the number usually exceed 15 individuals. This areas are Burgasko Lake, Mandra-Poda Complex and Duranculac Lake.
- □ not known
  - □ unclear

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

☐ Research

- ✔ Identification and establishment of protected areas
  - A number of 3 IBAs which are wintering ground of the species were designated as Special Protected Areas
for Birds in the EU Ecological Network Natura 2000.

☑ Monitoring

☐ Education/awareness rising

›

☑ Species protection

› Strictly protected species under the Biological Diversity Act.

☐ Control hunting / poaching

›

☐ Species restoration

›

☑ Habitat protection

› The wintering ground has been included in protected areas, Ramsar sites and EU Ecological Network Natura 2000' Special Protected Sites.

☐ Habitat restoration

›

☐ Other

›

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

›

5. Describe any future activities that are planned for this species:

›

Species name: Haliaeetus albicilla

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):

Please select only one option

☐ increasing

›

☐ decreasing

›

☐ stable

›

☐ not known

›

☑ unclear

› Sedentary and migratory species. The monitoring of the population: 2008 - 7 birds; 2009 - 25; 2010 - 22.

2b. Summarise information on distribution (if known):

Please select only one option

☐ increasing

›

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

5. Describe any future activities that are planned for this species:
Scientific researches to be carried out and Elaboration of an Action Plan for preservation of White-tailed Sea Eagle.

Species name: Neophron percnopterus

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):
Please select only one option
☐ increasing
☐ decreasing
☐ stable
☐ not known
☐ unclear

2b. Summarise information on distribution (if known):
Please select only one option
☐ increasing
☐ decreasing
3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
- Research
- Identification and establishment of protected areas
- Monitoring
- Education/awareness rising
- Species protection
- Control hunting / poaching
- Species restoration
- Habitat protection
- Habitat restoration
- Other

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

5. Describe any future activities that are planned for this species:

Species name: Aquila clanga

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):
   Please select only one option
   - increasing
   - decreasing
   - stable
   - not known
   - unclear
   > Migratory species. The monitoring of the population: 2008 - 0 birds; 2009 - 0; 2010 - 0 . .

2b. Summarise information on distribution (if known):
   Please select only one option
   - increasing
3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☐ Research
☐ Identification and establishment of protected areas
☐ Areas identified for the species as Natura 2000 site under EU Birds Directive has been designated
☐ Monitoring
☐ Education/awareness rising
☐ Species protection
☐ Strictly protected species under the Biological Diversity Act.
☐ Control hunting / poaching
☐ Species restoration
☐ Habitat protection
☐ Habitat restoration
☐ Other

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

5. Describe any future activities that are planned for this species:

**Species name: Aquila heliaca**

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):
   Please select only one option
   ☐ increasing
   ☐ decreasing
   ☐ stable
   ☐ Breeding and migratory species. The monitoring of the population: 2008 - 2 birds; 2009 - 0; 2010 - 0.
   ☐ not known
2b. Summarise information on distribution (if known):
Please select only one option
☐ increasing
☐ decreasing
☐ stable
☐ not known
☐ unclear

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☐ Research
☒ Identification and establishment of protected areas
☐ Areas identified for the species as Natura 2000 site under EU Birds Directive has been designated
☒ Monitoring
☐ Education/awareness rising
☐ Species protection
☒ Strictly protected species under the Biological Diversity Act.
☐ Control hunting / poaching
☒ Species restoration
☐ Habitat protection
☒ Part of the breeding places have been included in protected areas and EU Ecological Network Natura 2000' Special Protected Sites.
☐ Habitat restoration
☐ Other

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

5. Describe any future activities that are planned for this species:
1. Monitoring of the breeding population;
2. Nest guarding during the breeding season;
Several big projects for conservation of this species are under way, which include a number of conservation activities - nest-guarding, radio- and satellite telemetry, raising public awareness, control of poaching, habitat restoration (planting of poplar trees) etc..

Species name: *Falco naumanni*

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):
Please select only one option
2b. Summarise information on distribution (if known):

Please select only one option

☐ increasing

☐ decreasing

☐ stable

☐ not known

☐ unclear

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

☐ Research

☐ Identification and establishment of protected areas

☐ Monitoring

☐ Education/awareness rising

☐ Species protection

☐ Control hunting / poaching

☐ Species restoration

☐ Habitat protection

☐ Habitat restoration

☐ Other

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

5. Describe any future activities that are planned for this species:

**Species name: Falco cherrug (except Mongolian populations)**

1. Please provide published distribution reference:
2a. Summarise information on population size (if known):
*Please select only one option*
☐ increasing
☐ decreasing
☐ stable
☐ not known
☐ unclear

2b. Summarise information on distribution (if known):
*Please select only one option*
☐ increasing
☐ decreasing
☐ stable
☐ not known
☐ unclear

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☐ Research
☐ Identification and establishment of protected areas
☐ Monitoring
☐ Education/awareness rising
☐ Species protection
☐ Control hunting / poaching
☐ Species restoration
☐ Habitat protection
☐ Habitat restoration
☐ Other

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

5. Describe any future activities that are planned for this species:
Species name: Falco vespertinus

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):
   \[Please select only one option\]
   - [ ] increasing
   - [ ] decreasing
   - [ ] stable
   - [ ] not known
   - [ ] unclear

2b. Summarise information on distribution (if known):
   \[Please select only one option\]
   - [ ] increasing
   - [ ] decreasing
   - [ ] stable
   - [ ] not known
   - [ ] unclear

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
   - [ ] Research
   - [ ] Identification and establishment of protected areas
   - [ ] Monitoring
   - [ ] Education/awareness rising
   - [ ] Species protection
   - [ ] Control hunting / poaching
   - [ ] Species restoration
   - [ ] Habitat protection
   - [ ] Habitat restoration
   - [ ] Other

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5. Describe any future activities that are planned for this species:

Species name: Numenius tenuirostris

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):
   Please select only one option
   ☐ increasing
   ☐ decreasing
   ☐ stable
   ☐ not known
   ☐ unclear

2b. Summarise information on distribution (if known):
   Please select only one option
   ☐ increasing
   ☐ decreasing
   ☐ stable
   ☐ not known
   ☐ unclear

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
   ☐ Research
   ☐ Identification and establishment of protected areas
   ☐ Monitoring
   ☐ Education/awareness rising
   ☐ Species protection
   ☐ Control hunting / poaching
   ☐ Species restoration
   ☐ Habitat protection
   ☐ Habitat restoration
   ☐ Other
4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

5. Describe any future activities that are planned for this species:

**Species name: Acrocephalus paludicola**

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):

   Please select only one option
   - [ ] increasing
   - [ ] decreasing
   - [ ] stable
   - [ ] not known
   - [ ] unclear

2b. Summarise information on distribution (if known):

   Please select only one option
   - [ ] increasing
   - [ ] decreasing
   - [ ] stable
   - [ ] not known
   - [ ] unclear

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

   - [ ] Research
   - [ ] Identification and establishment of protected areas
   - [ ] Monitoring
   - [ ] Education/awareness rising
   - [ ] Species protection
   - [ ] Control hunting / poaching
   - [ ] Species restoration
   - [ ] Habitat protection
   - [ ] Habitat restoration
4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

5. Describe any future activities that are planned for this species:

Species name: *Otis tarda* (Middle-European population)

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):  
Please select only one option
- [ ] increasing
- [ ] decreasing
- [ ] stable
- [ ] not known
- [ ] unclear

2b. Summarise information on distribution (if known):  
Please select only one option
- [ ] increasing
- [ ] decreasing
- [ ] stable
- [ ] not known
- [ ] unclear

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
   - [ ] Research
   - [ ] Identification and establishment of protected areas
   - [ ] Monitoring
   - [ ] Education/awareness rising
   - [ ] Species protection
   - [ ] Control hunting / poaching
4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
   - The species is not found breeding in Bulgaria. Wintering appearance of the species are sporadic.

5. Describe any future activities that are planned for this species:

Miscellaneous information or comments on Appendix I birds in general:

You have attached the following documents to this answer.
Miscellaneous 1.2 birds.doc

2. AQUATIC MAMMALS

2.1 General questions on Appendix I aquatic mammals

1. Is the taking of all Appendix I aquatic mammals species prohibited by the national implementing legislation cited in Table I(a) (General Information)?
   - Please select only one option
     - ☑ Yes
     - ☐ No

If other legislation is relevant, please provide details:

1a. If the taking of Appendix I aquatic mammals species is prohibited by law, have any exceptions been granted to the prohibition?
   - Please select only one option
     - ☐ Yes
     - ☑ No

If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7):

2. Identify any obstacles to migration that exist in relation to Appendix I aquatic mammals:
   - ☑ By-catch
   - ☑ Collision with fishing traffic
   - ☑ Pollution
   - ☑ Illegal hunting
   - ☑ Other threats to migration (please provide details)
     - Public clash between the community fishing and the need for conservation the species

2a. What actions are being undertaken to overcome these obstacles?

You have attached the following documents to this answer.
2.2a.doc

2b. Please report on the progress / success of the actions taken.
   - Activities are under implementation

2c. What assistance, if any, does your country require in order to overcome these obstacles?

3. What are the major pressures to Appendix I aquatic mammals species (transcending mere obstacles to migration)?
☐ Pollution
☐ By-catch
☐ Other (please specify)

Public clash between the community fishing and the need for conservation the species

3a. What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger aquatic mammals species beyond actions to prevent disruption to migrating behaviour?

Assessment of the importance, the time and the geographical scope of the levels of shipping and comparison of this data with data about distribution, migration and abundance of cetaceans
Evaluate the interactions between cetaceans and shipping (including direct confrontation and anxiety caused by the noise of vessels) in areas that are critical habitat for cetaceans
Developing management strategies to reduce the negative impact of vessel traffic on cetaceans in the Black Sea
Guidelines to reduce the disturbance caused by shipping

3b. Please report on the progress / success of the actions taken.

Activities are under implementation

3c. Describe any factors that may limit action being taken in this regard:

3d. What assistance, if any, does your country require to overcome these factors?

2.2 Questions on specific Appendix I aquatic mammals

In the following section, using the table format below, please fill in each Appendix I aquatic mammals species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

Species name: Tursiops truncatus ponticus

1. Please provide published distribution reference:

Habitat in the Bulgarian part of the Black Sea. We have no precise data about the number.

2a. Summarise information on population size (if known):
Please select only one option
☐ increasing
☐ decreasing
☐ stable
☐ not known
☐ unclear

2b. Summarise information on distribution (if known):
Please select only one option
☐ increasing
☐ decreasing
☐ stable
☐ not known
3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

☐ Research

☐ Identification and establishment of protected areas

☐ Monitoring

☐ Education / awareness rising

☐ Species protection

☐ Control hunting / poaching

☐ Species restoration

☐ Habitat protection

☐ Habitat restoration

☐ Other

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

5. Describe any future activities that are planned for this species:

Species name: Monachus monachus

1. Please provide published distribution reference:

☐ Habitat in the Bulgarian part of the Black Sea. Disappeared from this habitat.

2a. Summarise information on population size (if known):

Please select only one option

☐ increasing

☐ decreasing

☐ stable

☐ not known

☐ unclear

2b. Summarise information on distribution (if known):

Please select only one option

☐ increasing

☐ decreasing

☐ stable

☐ Monitoring
☐ Education / awareness rising
☐ Species protection
☐ Control hunting / poaching
☐ Species restoration
☐ Habitat protection
☐ Habitat restoration
☐ Other

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

5. Describe any future activities that are planned for this species:

Miscellaneous information or comments on Appendix I marine mammals in general:

5. FISH

5.1 General questions on Appendix I fish species

1. Is the taking of all Appendix I fish species prohibited by the national legislation listed as being implementing legislation in Table I(a) (General Information)?
Please select only one option
☐ Yes
☐ No

If other legislation is relevant, please provide details:

1a. If the taking of Appendix I fish species is prohibited by law, have any exceptions been granted to the prohibition?
Please select only one option
☐ Yes
☐ No

If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7):
2. Identify any obstacles to migration that exist in relation to Appendix I fish species:

☐ Lack of legislation
☐ Other threats to migration (please provide details)

2a. What actions are being undertaken to overcome these obstacles?

You have attached the following documents to this answer.
sturgeona.docx

2b. Please report on the progress / success of the actions taken.

2c. What assistance, if any, does your country require in order to overcome these obstacles?

3. What are the major threats to Appendix I fish species (transcending mere obstacles to migration)?

☐ Other (please specify)

3a. What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger fish species beyond actions to prevent disruption to migrating behaviour?

3b. Please report on the progress / success of the actions taken.

3c. Describe any factors that may limit action being taken in this regard:

3d. What assistance, if any, does your country require to overcome these factors?

5.2 Questions on specific Appendix I fish species

In the following section, using the table format below, please fill in each Appendix I fish species, for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

Species name: Acipenser sturio

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):

Please select only one option

☐ increasing

☐ decreasing

☐ stable

☐ not known

☐ unclear
2b. Summarise information on distribution (if known):
Please select only one option

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

5. Describe any future activities that are planned for this species:

Miscellaneous information or comments on Appendix I bats in general:

6. LISTING OF OTHER ENDANGERED MIGRATORY SPECIES IN APPENDIX I

1. Is your country a Range State for any other endangered migratory species currently listed in Appendix I? (according to the latest IUCN red data list). N.B.: States in which a species occurs as a vagrant (i.e. not “on its normal migration route”) should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.
Please select only one option
☐ Yes
☐ No

If Yes, please provide details:

1a. Is your country taking any steps to propose listing any of these species?
Please select only one option
☐ Yes
☐ No

If yes, please provide details:

1b. What assistance/measures, if any, does your country require to initiate the listing of these species?
III. Appendix II Species

1. INFORMATION ON APPENDIX II SPECIES

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the Secretariat of each of the Agreement/MoUs to which your country is a Party.

2. QUESTIONS ON CMS AGREEMENTS

Questions on the development of new CMS Agreements relating to Bird Species

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Bird Species?

   Please select only one option
   - Yes
   - No

   If Yes, what is the current state of development?

2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Bird Species?

   Please select only one option
   - Yes
   - No

   If Yes, please provide details:

3. If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument’s development?

4. Is the development of any CMS Agreement for Bird Species, including Memoranda of Understanding, planned by your country in the foreseeable future?

   Please select only one option
   - Yes
   - No

4.1. If Yes, please provide details:

Questions on the development of new CMS Agreements relating to Marine Mammal Species

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Marine Mammal Species?

   Please select only one option
   - Yes
   - No

   If Yes, what is the current state of development?

2. In the current reporting period, has your country **participated** in the development of any new CMS
Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Marine Mammal Species?

Please select only one option
☐ Yes
☑ No

If Yes, please provide details:

3. If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument’s development?

Questions on the development of new CMS Agreements relating to Fish

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Fish?
   *Please select only one option*
   ☐ Yes
   ☑ No
   
   If Yes, what is the current state of development?

2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Fish?
   *Please select only one option*
   ☐ Yes
   ☑ No
   
   If Yes, please provide details:

3. If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument’s development?

4. Is the development of any CMS Agreement for Fish, including Memoranda of Understanding, planned by your country in the foreseeable future?
   *Please select only one option*
   ☐ Yes
   ☑ No
   
   4.1. If Yes, please provide details:

3. LISTING OF MIGRATORY SPECIES IN APPENDIX II

1. Is your country a Range State for any migratory species that has an unfavourable conservation status, but is not currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation?
   
   N.B.: States in which a species occurs as a vagrant (i.e. not “on its normal migration route”) should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.
   *Please select only one option*
   ☐ Yes
   ☑ No
   
   If Yes, please provide details:

1a. Is your country taking any steps to propose the listing of this/these species in Appendix II?
   *Please select only one option*
   ☐ Yes
   ☑ No
   
   If Yes, please provide details:

1b. What assistance, if any, does your country require to initiate the listing of this/these species?
IV. National and Regional Priorities

1. What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues

Please select only one option
- Low
- Medium
- ☐ High

2. Are migratory species and their habitats addressed by your country's national biodiversity strategy or action plan?

Please select only one option
- ☐ Yes
- ☐ No

2.1. If Yes, please indicate and briefly describe the extent to which it addresses the following issues:

☐ Conservation, sustainable use and/or restoration of migratory species

☐ Designation of specialist protective zones for the European Ecological Network NATURA 2000 and restoration of the habitats. In period 2008 - 2011 adopted four new areas (Natura 2000). Increase the network of birds with 244935.06 ha. In Bulgaria has implemented the projects: Of mapping and determining the conservation status of natural habitats and species and minimize risks to wild birds; Update of the National Action Plan for conservation of wetlands: The update of the Bulgarian national action plan for conservation of wetlands is included as specific action in the implementation of LIFE08 NAT/BG/000277 Ensuring Conservation of Priority Bird Species and Coastal Habitats at the Bourgas Natura 2000 Wetland Sites project; Within the GEF/World Bank project “Pomorie Lake – Conservation, Restoration and Sustainable management” following activities were undertaken: detailed design and restoration of sea-lake canal, detailed design was developed for the freshwater drainage canal and system, detailed design for restoration of nesting habitat for threatened water birds, development of a management plan, establishment of Pomorie Lake Visitor Centre, implementation of environmental education and CEPA program. Management plan is developed but pending approval by relevant authority – MOEW. Detailed design for restoration of nesting habitat for water birds is developed and its execution is planned for 2011. Funding is assured by Operative Program Environment. Creation of nesting islets and platforms are planned and funding by LIFE+ is pending. Same situation is with clearing of invasive species (Amorpha fruticosa); Conservation and recovering of 11 habitats – wetlands (Natura 2000) in forestry territories (LIFE08NAT/BG/000281); Conservation of wintering population of Branta ruficollis in Bulgaria. Finish procedure for notification of new wetland “Dragoman Marsh Karst Complex”. In Bulgaria has 11 wetlands by the criteria of Ramsar Convention on wetlands.

☐ Actions to prevent, reduce or control factors that are endangering or are likely to further endanger migratory species (e.g. alien invasive species or by-catch)

☐ Minimizing or eliminating barriers or obstacles to migration

☐ By orders of the ministry banned the construction of wind farms in 6 zones of the Black Sea coast habitats of migratory birds. Elaboration of sensitivity maps for birds to wind farm developments - project of Bulgarian Society for the Protection of Birds / BirdLife Bulgaria. Electrocution: Bulgarian Society for the Protection of Birds (BSPB) together with electricity companies started to replace dangerous electricity lines with safety ones in the most problematic areas in Southern Bulgaria in 2010; Habitat destruction: NGOs report to the government for any project that is dangerous for migratory birds because of habitat destruction; MoEW ask for an EIA procedure when risk of significant impacts on birds is possible to exist; Wind turbines: Internal instructions have been developed by MoEW for assessment of wind farm projects; Strategic Environmental Assessment of the National Action Plan on Renewable Energy Development 2010 – 2020 is elaborated (procedure is not finalized). Large national-scale project started in 2011 for minimizing risks for wild birds due to windfarm development, including elaboration of a sensitivity map.

☐ Research and monitoring of migratory species

☐ Transboundary co-operation

3. Does the conservation of migratory species currently feature in any other national or regional policies/plans (apart from CMS Agreements)

Please select only one option
- ☐ Yes
3.1. If Yes, please provide details:
› Migratory species are object of the European Ecologic Network NATURA 2000 in Bulgaria

3a. Do these policies/plans cover the following areas?

Exploitation of natural resources (e.g. fisheries, hunting, etc.)

Please select only one option
☑ Yes
☐ No

If Yes, please provide details

Economic development

Please select only one option
☐ Yes
☑ No

If Yes, please provide details

Land-use planning

Please select only one option
☐ Yes
☑ No

If Yes, please provide details

Pollution control

Please select only one option
☑ Yes
☐ No

Planning of dams
Please select only one option
☐ Yes
☐ No

If Yes, please provide details

Other
Please select only one option
☐ Yes
☐ No

If Yes, please provide details

4. Results - please describe the positive outcomes of any actions taken
V. Protected Areas

1. Are migratory species taken into account in the selection, establishment and management of protected areas in your country?

Please select only one option
☐ Yes
☐ No

If Yes, please provide details:

➢ All sites in great national and international importance are already in the frame of National Ecological Network. for the the international

1a. Please identify the most important national sites for migratory species and their protection status:

➢ List of sites of international importance for Birds species: 1. Atanasovsko Lake - date of designation as Ramsar sites 28/11/84; Close to the town of Burgas; 1,404 ha; 42°34'N 027°28'E. Partially Maintained Reserve.

2. Belene Islands Complex - date of designation as Ramsar sites 24/09/02; Pleven District; 6,898 ha; 43°40'N 025°11'E. Reserve, Natural Monument, Natural Park.

3. Durankulak Lake - date of designation as Ramsar sites 28/11/84; Varna District; 350 ha; 43°42'N 028°30'E. 4. Ibisha Island- date of designation as Ramsar sites 24/09/02. Montana District; 372 ha. 43°49'N 023°31'E. Partially Maintained Reserve.

5. Lake Shabla - date of designation as Ramsar sites 19/03/96; 404 ha; 43°35'N 028°33'E. Shablensko ezero (Shabla Lake), Protected Area. 6. Poda - date of designation as Ramsar sites 24/09/02; near the town of Burgas; 307 ha; 42°27'N 027°27'E. Partially Protected Area. 7. Pomorie Wetland Complex - date of designation as Ramsar sites 24/09/02; Burgas District; 814 ha; 42°35'N 027°37'E. Partially Protected Area.

8. Ropotamo Complex (formerly called 'Arkoutino') - date of designation as Ramsar sites 24/09/75; Burgas District; 5,500 ha; 42°19'N 027°45'E. Partially Reserve, Natural Monument, Maintained Reserve and Protected Area.

9. Srebarna- date of designation as Ramsar sites 24/09/75; Silistra District; 1,357 ha; 44°06'N 027°04'E. World Heritage Site, Biosphere Reserve, Maintained Reserve.

10. Vaya Lake - date of designation as Ramsar sites 11/11/02; Close to the town of Burgas; 2,900 ha; 42°30'N 027°25'E. Partially Protected Area. 11. Varna - Beloslav lakes complex -year of designation as Korine Site 1998, Important Bird Area 1997; Close to the town of Varna; 4681.8 ha; 43°11'N 027°48'E. Partially Protected Area.

12. Pozharevo island -year of designation as Korine Site 1998, Important Bird Area 1997; Close to the town of village Pozharevo, island of river Dunav; 975.9 ha; 44°3'N 026°4'E. Partially Protected Area.

15. Studen kladenets - year of designation as Korine Site 1998, Important Bird Area 1989; Between the town of Kurdzhali and Studen kladenets; 15995.6 ha; 41°37'N 025°31'E. Partially Protected Area.

16. Plovdiv fish - ponds - year of designation as Important Bird Area 1997; Plovdiv District; 145.8 ha; 42°11'N 024°45'E. EU Ecological Network Natura 2000'. 17. Vardim island - year of designation as Korine Site 1998, Important Bird Area 1989; island of river Dunav; 975.9 ha; 44°3'N 026°4'E. Partially Protected Area.

18. Rozov kladents rezervoir - year of designation as Korine Site 1998, Important Bird Area 1997; Galabovo District; 1,168.0 ha; 43°37'N 025°28'E. Partially Protected Area.

19. Varna - Beloslav lakes complex - year of designation as Korine Site 1998, Important Bird Area 1997; Galabovo District; 1,168.0 ha; 43°37'N 025°28'E. Partially Protected Area.

1b. Do these protected areas cover the following areas?
If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas

Aquatic

*Please select only one option*

☐ Yes
☐ No

If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas

Marine

*Please select only one option*

☐ Yes
☐ No

If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas

1c. Identify the agency, department or organization responsible for leading on this action in your country:

> Ministry of Environment and Water

2. Results - please describe the positive outcomes of any actions taken

>
VI. Policies on Satellite Telemetry

1. In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry?

   Please select only one option
   ☐ Yes
   ☐ No

   If yes what is the state of those projects
   Please select only one option
   ☐ In preparation
   ☐ on-going
   ☐ completed

   Please provide details
   › N/A

2. Are any future conservation/research projects planned that will use satellite telemetry?

   Please select only one option
   ☐ Yes
   ☐ No

   If Yes, please provide details (including the expected timeframe for these projects):
   ›

   If No, please explain any impediments or requirements in this regard:
   ›

3. Results - please describe the positive outcomes of any actions taken
   › N/A
VII. Membership

1. Have actions been taken by your country to encourage non-Parties to join CMS and its related Agreements?
   Please select only one option
   ☐ Yes
   ☐ No

   If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.)

1a. Identify the agency, department or organization responsible for leading on this action in your country:

2. Results - please describe the positive outcomes of any actions taken
VIII. Global and National Importance of CMS

1. Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation?

Please select only one option
☐ Yes
☐ No

If Yes, please provide details:

2. Identify the agency, department or organization responsible for leading on this action in your country:

3. Results - please describe the positive outcomes of any actions taken
IX. Mobilization of Resources

1. Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country?

   Please select only one option
   ☑ Yes
   ☐ No

   If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
   › N/A

2. Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition?

   Please select only one option
   ☐ Yes
   ☑ No

   If Yes, please provide details:
   › N/A

3. Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)?

   Please select only one option
   ☐ Yes
   ☑ No

   If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
   › N/A

4. Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species?

   Please select only one option
   ☐ Yes
   ☑ No

   If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
   › N/A

5. Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country?

   Please select only one option
   ☐ Yes
   ☑ No

   If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
   › N/A

6. Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country?

   Please select only one option
   ☑ Yes
   ☐ No

   If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
   › Project for conservation of Phalacrocorax pygmeus habitats on the territory of South Bulgaria. Project founded by MATRA and was implemented in 2007 by Green Balkans NGO. Project: "Partnerships for the European natural heritage". Project founded by European Commission and will be implemented in 2008 by Green Balkans NGO. Project: "Reconnecting the Danube and its People". Project founded by WWF and will be implemented 2008-2012. Different projects of LIFE + and Operational Program Environment.
X. Implementation of COP Resolutions and Recommendations

Please provide information about measures undertaken by your country relating to recent Resolutions and Recommendations since the last Report. For your convenience please refer to the list of COP Resolutions and Recommendations listed below:

Resolutions

Oil Pollution and Migratory Species (7.3)

Electrocution of Migratory Birds (7.4 / 10.11)

Wind Turbines and Migratory Species (7.5)

Migratory Species and Highly Pathogenic Avian Influenza (8.27 / 10.22)

Climate Change Impacts on Migratory Species (8.13 / 9.7 / 10.19)

Marine Debris (10.4)

Poisoning Migratory Birds (10.26)

Adverse Anthropogenic Impacts on Cetaceans and other Biota (8.22 / 9.19 / 10.24)

Southern Hemisphere Albatross Conservation (6.3)

Impact Assessment and Migratory Species (7.2)

Antarctic Minke, Bryde’s and Pygmy Right Whales (7.15)

Sustainable Use (8.1)

Implementation of Existing Agreements and Development of Future Agreements (8.5)

Concerted Actions for Appendix I Species (8.29)

Concerted and Cooperative Actions (9.1 / 10.23)

Priorities for CMS Agreements (9.2 / 10.16)

Migratory Marine Species (9.9 / 10.15)

Saker Falcon (9.20 / 10.28)
Modus Operandi for Conservation Emergencies (10.2)

Ecological Networks (10.3)

Global Flyway Conservation (10.10)

Migratory Freshwater Fish (10.12)

Migratory Landbirds in the African Eurasian Region (10.27)

Cooperation with Other Bodies and Processes (7.9)

CMS Strategic Plan 2006-2011 (8.2)

Contribution of CMS in Achieving the 2010 Biodiversity Target (8.7)

Synergies and Partnerships / Cooperation with other Conventions (8.11 / 9.11 / 10.21)

National Reports for the Eighth and Ninth Meetings of the Conference of the Parties (8.24)

CMS Information Priorities (9.3)

Outreach and Communication Issues (9.5 / 10.7)

Capacity Building Strategy (9.12 / 10.6)

Financial and Administrative Matters and Terms of Reference for the Administration of the Trust Fund (10.1)

Future strategies of the CMS Family / “Future Shape” (10.9)

**Recommendations**

Recommendation 7.6 - Improving the Conservation Status of the Leatherback Turtle (Dermochelys coriacea)

Recommendation 8.17 - Marine Turtles

Recommendation 9.1 - Central Eurasian Aridland Mammals

Recommendation 9.2 - Sahelo-Saharan Megafauna

Recommendation 9.3 - Tigers and other Asian Big Cats

Recommendation 9.5 - Cooperative Action for the Elephant (Loxodonta africana) in Central Africa
Other resolutions/recommendations:

Other remarks:

>
Annex: Updating Data on Appendix II Species

1. The drop-down lists below contain the list of all species listed in Appendix II. New Parties which have acceded since COP10 in 2011 and Parties which did not submit a National Report in time in 2011 are requested to complete the entire form. Parties that did submit a timely report in 2011 are requested to review and update the data (e.g. new published distribution references and details concerning species added to Appendix II at COP9 and COP10).

The text provides information about the status of various bird species under the Convention on the Conservation of Migratory Species of Wild Animals (CMS). Each species is presented with options for selection, including whether they are a Range State, Not a Range State, Extinct at National level, or No information available. The information is presented in a structured format, with options for each species indicating their status.
