Summary:

The COP-appointed Councillor for Aquatic Mammals, William Perrin, and the COP-appointed Councillor for Birds, Leon Bennun, have informed the Secretariat that they will not be in a position to continue serving for the next triennium (2015-2017).

The Secretariat has therefore sought nominations for candidates to be appointed for those positions. Three nominations were received for the Aquatic Mammals position and two for the Birds position. A summary of nominations for the COP-appointed Councillors is contained in this document as Annex 1.

The candidatures were reviewed and discussed by the Scientific Council at its 18th Meeting in July 2014.

The Council recommended the appointment of Dr. Giuseppe Notarbartolo di Sciara for the post of COP-appointed Councillor for Aquatic Mammals to be forwarded to COP11 for consideration by the Parties.

In the case of COP-appointed Councillor for Birds, the Council did not reach a decision in favour of either of the candidates. Thus, it was agreed to recommend both candidates, namely Dr. Robert Clay and Dr. Stephen Garnett to COP11 for a final decision.
NOMINATIONS FOR THE COP-APPOINTED COUNCILLORS
FOR AQUATIC MAMMALS AND BIRDS

(Prepared by the UNEP/CMS Secretariat)

1. The COP-appointed Councillors for Aquatic Mammals and Birds, respectively William Perrin and Leon Bennun, have informed the Secretariat that they will not be in a position to continue serving as COP-appointed Councillors for the next term (2015-2017).

2. On the assumption that the 11th Meeting of the Conference of the Parties (COP11) will acknowledge the continued need for appointed councillors for these taxonomic groups, the Secretariat has therefore sought nominations for candidates to be appointed for those positions.

3. In May 2014, a call for nominations went out to all Members of the Scientific Council, as well as the external experts associated with the working groups concerned. It was also brought to the attention of relevant scientific bodies.

4. Terms of reference for Conference-appointed Councillors were included in the mailing and instructions given for nominating candidates, which should include a brief statement justifying the candidature, a CV of the candidate, as well as a declaration by the candidate expressing readiness to accept the appointment if selected. Nominations were accepted until 8 June 2014. A summary of the nominations received is attached as Annex 1.

5. The candidatures were reviewed and discussed by the Scientific Council at its 18th Meeting in July 2014. The Council, while acknowledging that each of the candidates for the position of COP-appointed Councillor for Aquatic Mammals would be able to contribute significantly to the work of the Convention, recommended the appointment of Giuseppe Notarbartolo di Sciara to COP11 for consideration. In the case of COP-appointed Councillor for Birds, the Council did not reach a decision in favour of either of the candidates. Thus, it was agreed to recommend both candidates, namely Robert Clay and Stephen Garnett to COP11 for a final decision.

6. Incumbents of the other seven current positions of COP-appointed Councillors have expressed their readiness to continue serving in that capacity for the next term, should the Conference of the Parties so wish. The list of COP-appointed Councillors is attached to this note as Annex 2.

Action requested:

The Conference of the Parties is requested to:

(a) Review the candidatures for the position of the COP-appointed Councillor for Birds, and make a decision on the appointment.

(b) Consider the recommendation of the Scientific Council as regards the position of COP-appointed Councillor for Aquatic Mammals for the next triennium, and make a decision on the appointment.

(c) Reconfirm the appointment of the existing COP-appointed Councillors for the next triennium.
SUMMARY OF NOMINATIONS FOR THE POSITIONS OF CONFERENCE-APPOINTED COUNCILLORS FOR AQUATIC MAMMALS AND BIRDS

With a view to facilitating a comparative review of the candidatures, a short overview of the candidates is provided in Table 1 (Aquatic Mammals) and Table 2 (Birds), in alphabetical order by last name. The tables were compiled by the Secretariat, and reflect its interpretation of the candidates’ CVs. The contents of the tables have not been reviewed or approved by the candidates. The full submissions, each including the nomination letter, the CV and the declaration of the candidate, can be found in document UNEP/CMS/ScC18/Inf.14.
