

2017 - NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

The deadline for submission of the reports is 24 April 2017. The reporting period is from May 2014 to April 2017.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

The reporting format was agreed by the Standing Committee at its 40th Meeting (Bonn, November 2012) for mandatory use by Parties, for reports submitted to the Eleventh Meeting of the Conference of the Parties (COP11). The 45th meeting of the Standing Committee recommended the use of the same format for reports submitted to COP12, with necessary adjustments to take into account relevant COP11 decisions, in particular amendments to the Appendices and resolutions.

COP Resolution 9.4 adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. The CMS Family Online Reporting System (ORS) has been successfully implemented and used by AEWA in their last Meeting of the Parties (MOP 5, 2012) reporting cycle. CMS now offers the Convention's Parties to use the ORS for submitting their national reports for the COP11 (2014) reporting cycle.

Please enter here the name of your country
> Liechtenstein

Which agency has been primarily responsible for the preparation of this report?
> National Office of Environment

Please list any other agencies that have provided input
> -

I(a). General Information

Please enter the required information in the table below:

Party

Date of entry into force of the Convention in your country

> 1.11.1997

Period covered

> 2011-2017

Territories to which the Convention applies

> Liechtenstein

Designated National Focal Point

E-mail:

> oliver.mueller@llv.li

Date of submission

> 04.01.2017

Implementation

Competent Authority:

> National Office of Environment

Relevant implemented legislation:

> Law on the protection of nature and landscape (Gesetz zum Schutz von Natur und Landschaft, LGBl. 1996, Nr. 117)

Regulation on specifically protected plant and animal species (Verordnung über besonders geschützte Pflanzen- und Tierarten, LGBl. 1996, Nr. 136)

Regulation on the nature watch (Verordnung über die Naturwacht, LGBl. 2010, Nr. 198)

Game law (Jagdgesetz, LGBl. 1962, Nr. 4)

Other relevant Conventions/ Agreements (apart from CMS) to which your country is a Party:

> The Convention on Wetlands of International Importance, especially as Waterfowl Habitat (Ramsar Convention)

International Union for Conservation of Nature and Natural Resources (IUCN)

Convention on the Conservation of European Wildlife and Natural Habitats (Bern Convention)

Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES)

Convention on Biological Diversity (CBD)

National policy instruments (e.g. national biodiversity conservation strategy, etc.):

> The national climate change adaption strategy will be released later in 2017.

Involvement of other government departments/NGOs/private sector

1. Which other government departments are involved in activities/initiatives for the conservation of migratory species in your country? (Please list.)

> -

2. If more than one government department is involved, describe the interaction/relationship between these government departments:

> -

3. Has a national liaison system or committee been established in your country?

No

4. List the main non-governmental organizations actively involved in activities/initiatives for the conservation of migratory species in your country, and describe their involvement:

> Liechtensteinische Gesellschaft für Umweltschutz (LGU) does public relations work and activities on environmental protection and nature conservation issues in Liechtenstein.

The Botanisch-Zoologische Gesellschaft (BZG) is an important partner for scientific investigations.

4a. Please provide detail on any devolved government/overseas territory authorities involved.

> -

5. Describe any involvement of the private sector in the conservation of migratory species in your country:

> Various private offices are involved in investigations on protected species, their habitats and other ecological issues.

6. Note any interactions between these sectors in the conservation of migratory species in your country:

> There is an established cooperation and networking between these organisations.

I(b). Information about involved Authorities

Identify the ministry, agency/department or organization that is responsible for leading actions relating to Appendix I species

1- Birds

> National Office of Environment

2- Aquatic Mammals

> National Office of Environment

3- Reptiles

> National Office of Environment

4- Terrestrial Mammals

> National Office of Environment

5- Fish

> National Office of Environment

II. Appendix I species

1. BIRDS

1.1 General questions on Appendix I bird species

1. Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)?

Yes

If other legislation is relevant, please provide details:

> Law on the protection of nature and landscape (Gesetz zum Schutz von Natur und Landschaft, LGBl. 1996, Nr. 117)

Regulation on specifically protected plant- and animal species (Verordnung über besonders geschützte Pflanzen- und Tierarten, LGBl. 1996, Nr. 136)

1a. If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition?

No

If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):

> -

2. Identify any obstacles to migration that exist in relation to Appendix I bird species:

Habitat destruction

2a. What actions are being undertaken to overcome these obstacles?

> 2 new nature protection areas have been established in 2011 ("Matilaberg" in Triesen) and 2012 ("Mareewiesen" in Vaduz).

2b. Please report on the progress / success of the actions taken.

> Some parcels of land in the largest conservation area, the wetland Ruggeller Riet, are still owned by private persons. Management measures are regulated by different laws for environmental protection. Also, the government is steadily buying parcels of land back to assure long term protection of the area.

2c. What assistance, if any, does your country require in order to overcome these obstacles?

> -

3. What are the major pressures to Appendix I bird species (transcending mere obstacles to migration)?

Other

> None. The species recorded in Liechtenstein that is listed in Appendix I is an irregular visitor and not breeding in Liechtenstein.

3a. What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour?

> See 2b.

3b. Please report on the progress / success of the actions taken.

> See 2b.

3c. Describe any factors that may limit action being taken in this regard:

> Disturbance caused by walkers might be relevant for breeding activities. Regular controlling by the []Nature Watch[] in protected areas might prevent walkers from leaving trails and unleashing their dogs. Furthermore, new signs with clear explanations of the do's and don't's have been installed around all protected areas.

3d. What assistance, if any, does your country require to overcome these factors?

> -

1.2 Questions on specific Appendix I bird species

In the following section, using the table format below, please fill in each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided

in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

Species name: Aythya nyroca

1. Please provide published distribution reference:

> Personal communication with G. Willi

2a. Summarise information on population size (if known):

- increasing
- decreasing
- stable
- not known
- unclear

> last record from 1996; probably a refugee from captive breeding

2b. Summarise information on distribution (if known):

- not known

> see answer above

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

- Monitoring

> Sightings are recorded

- Species protection

> It is not allowed to catch or kill this species.

- Control hunting / poaching

> The national Nature Watch controls the protected areas on a regular basis

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

> Liechtenstein is presumably not a range state of this species. See explanation in chapter "Miscellaneous information or comments on Appendix I birds in general".

5. Describe any future activities that are planned for this species:

> No additional activities are planned.

Species name: Falco vespertinus

1. Please provide published distribution reference:

> Personal communication with G. Willi, Ornithologischer Informationsdienst 2013 Nr. 1

You have attached the following documents to this answer.

[OI I 13.pdf](#) - Newsletter Avifauna in Liechtenstein 2013/1

2a. Summarise information on population size (if known):

- unclear

> Irregular visitor; the last sighting occurred in May 2015

2b. Summarise information on distribution (if known):

- increasing
- decreasing
- stable
- not known
- unclear

> Irregular visitor

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

- Monitoring

> Sightings are recorded

- Species protection

- > The species is protected by law.
- Control hunting / poaching
- > The species is not allowed to be hunted.

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

> -

5. Describe any future activities that are planned for this species:

> No future activities are planned.

Miscellaneous information or comments on Appendix I birds in general:

> We do not think that Liechtenstein is a range state for *Aythya nyroca*. Neither the main distribution area nor the a natural migration route is located in Liechtenstein. No records of natural occurrences are known from the last 50 years of this species. All known records refer to presumably discarded or escaped animals kept for breeding.

6. LISTING OF OTHER ENDANGERED MIGRATORY SPECIES IN APPENDIX I

1. Is your country a Range State for any other endangered migratory species currently listed in Appendix I?

(according to the latest IUCN red data list). N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.

No

If Yes, please provide details:

> -

1a. Is your country taking any steps to propose listing any of these species?

No

If yes, please provide details:

> -

1b. What assistance/measures, if any, does your country require to initiate the listing of these species?

> -

III. Appendix II Species

2. QUESTIONS ON CMS AGREEMENTS

Questions on the development of new CMS Agreements relating to Bird Species

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Bird Species ?
 No
2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Bird Species ?
 No
4. Is the development of any CMS Agreement for Bird Species, including Memoranda of Understanding, planned by your country in the foreseeable future?
 No

Questions on the development of new CMS Agreements relating to Marine Mammal Species

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Marine Mammal Species ?
 No
2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Marine Mammal Species ?
 No
4. Is the development of any CMS Agreement for Marine Mammal Species, including Memoranda of Understanding, planned by your country in the foreseeable future?
 No

Questions on the development of new CMS Agreements relating to Marine Turtle Species

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Marine Turtle Species ?
 No
2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Marine Turtle Species ?
 No
4. Is the development of any CMS Agreement for Marine Turtle Species, including Memoranda of Understanding, planned by your country in the foreseeable future?
 No

Questions on the development of new CMS Agreements relating to Terrestrial Mammal (other than bats) Species

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Terrestrial Mammal (other than bats) Species ?
 No
2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Terrestrial Mammal (other than bats) Species ?
 No

4. Is the development of any CMS Agreement for Terrestrial Mammal (other than bats) Species, including Memoranda of Understanding, planned by your country in the foreseeable future?

No

Questions on the development of new CMS Agreements relating to Bat Species

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Bat Species ?

No

2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Bat Species ?

No

4. Is the development of any CMS Agreement for Bat Species, including Memoranda of Understanding, planned by your country in the foreseeable future?

No

Questions on the development of new CMS Agreements relating to Fish

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Fish ?

No

2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Fish ?

No

4. Is the development of any CMS Agreement for Fish, including Memoranda of Understanding, planned by your country in the foreseeable future?

No

3. LISTING OF MIGRATORY SPECIES IN APPENDIX II

1. Is your country a Range State for any migratory species that has an unfavourable conservation status, but is not currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation?

N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.

No

1a. Is your country taking any steps to propose the listing of this/these species in Appendix II?

No

IV. National and Regional Priorities

1. What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues

Low

2. Are migratory species and their habitats addressed by your country's national biodiversity strategy or action plan?

Yes

2.1. If Yes, please indicate and briefly describe the extent to which it addresses the following issues:

Conservation, sustainable use and/or restoration of the habitats of migratory species, including protected areas

> From 2011-2013 two new nature protection sites were established.

Actions to prevent, reduce or control factors that are endangering or are likely to further endanger migratory species (e.g. alien invasive species or by-catch)

> Since 2013 we have a monitoring system for invasive alien species. Most harmful species are tried to eradicate.

3. Does the conservation of migratory species currently feature in any other national or regional policies/plans (apart from CMS Agreements)

Yes

3.1. If Yes, please provide details:

> Conservation of Biodiversity is part of the ALPINE CONVENTION, which is a contract of the Alpine countries to prevent negative influences on the Alpine space. For Details see: Protocol on the Conservation of Nature and the Countryside, Protocol on Mountain Forests

3a. Do these policies/plans cover the following areas?

Exploitation of natural resources (e.g. fisheries, hunting, etc.)

Yes

If Yes, please provide details

> http://www.alpconv.org/en/convention/protocols/Documents/protokoll_naturschutzGB.pdf

Economic development

No

If Yes, please provide details

> http://www.alpconv.org/en/convention/protocols/Documents/protokoll_naturschutzGB.pdf

Land-use planning

Yes

If Yes, please provide details

> http://www.alpconv.org/en/convention/protocols/Documents/protokoll_naturschutzGB.pdf

http://www.alpconv.org/en/convention/protocols/Documents/Protokoll_RaumplanungGB.pdf

Pollution control

Yes

If Yes, please provide details

> http://mountainlex.alpconv.org/images/documents/European_agreements/mountain_forests_protocol.pdf

http://mountainlex.alpconv.org/images/documents/European_agreements/transport_protocol.pdf

Designation and development of protected areas

Yes

If Yes, please provide details

> http://www.alpconv.org/en/convention/protocols/Documents/protokoll_naturschutzGB.pdf

Development of ecological networks

Yes

If Yes, please provide details

> The working group within the Alpine Convention provides plans to connect the Alpine States.
See Article 12: http://www.alpconv.org/en/convention/protocols/Documents/protokoll_naturschutzGB.pdf

Planning of power lines

Yes

If Yes, please provide details

> http://mountainlex.alpconv.org/images/documents/European_agreements/energy_protocol.pdf

Planning of fences

No

If Yes, please provide details

> -

Planning of dams

No

If Yes, please provide details

> -

Other

No

If Yes, please provide details

> <http://www.alpconv.org/en/convention/protocols/default.html>

4. Results - please describe the positive outcomes of any actions taken

> Better ecological network in the Alpine region.

V. Protected Areas

1. Are migratory species taken into account in the selection, establishment and management of protected areas in your country?

Yes

If Yes, please provide details:

> The conservation area of "Ruggeller Riet" has been established not least because of its importance for migrating birds.

1a. Please identify the most important national sites for migratory species and their protection status:

> Conservation area "Ruggeller Riet"

1b. Do these protected areas cover the following areas?

Terrestrial

Yes

If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas

> The Ruggeller Riet is a wetland with micro structures of reeds, shrubs, wood and water areas. It extends on 100 ha.

Aquatic

Yes

If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas

> Within the "Ruggeller Riet" there are small ponds and a number of ditches filled with water.

Marine

No

If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas

> -

1c. Identify the agency, department or organization responsible for leading on this action in your country:

> National Office of Environment

2. Results - please describe the positive outcomes of any actions taken

> Long term protection of potential habitats for migrating bird species.

VI. Policies on Satellite Telemetry

1. In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry?

Yes

If yes what is the state of those projects

completed

Please provide details

> From 2009-2014 67 individuals of *Cervus elaphus* in Liechtenstein, the Canton of Grisons in Switzerland and the federal state of Vorarlberg were fitted with GPS collars. The transnational project documented activities, spatial behaviour and seasonal migrations of the species during the course of the year and tried to understand how populations are linked. The findings are important for the local, regional and international management of the species (hunting, quiet zones).

The final report can be found here:

<http://www.llv.li/files/au/broschure-hirschmarkierung-scrennversion-h.pdf>

https://www.gr.ch/DE/institutionen/verwaltung/bvfd/ajf/dokumentation/Jagd_Publikationen/Raetikon_Endbericht_TeilA_def.pdf

https://www.gr.ch/DE/institutionen/verwaltung/bvfd/ajf/dokumentation/Jagd_Publikationen/Raetikon_Endbericht_TeilB_def.pdf

2. Are any future conservation/research projects planned that will use satellite telemetry?

No

If Yes, please provide details (including the expected timeframe for these projects):

> -

If No, please explain any impediments or requirements in this regard:

> At the moment there are no plans for other telemetry projects.

3. Results - please describe the positive outcomes of any actions taken

> Overall, the involved parties gained insight on the life and behaviour of this species and had a chance to interchange. This is especially important as the three participating countries differ in administration and legislation, also each country has its own game laws. As stated in 1., the research results are used for managing methods of *Cervus elaphus*, for example planning the hunting season.

VII. Membership

1. Have actions been taken by your country to encourage non- Parties to join CMS and its related Agreements?

No

If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.)

> -

1a. Identify the agency, department or organization responsible for leading on this action in your country:

> National Office of Environment

2. Results - please describe the positive outcomes of any actions taken

> -

VIII. Global and National Importance of CMS

1. Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation?

No

If Yes, please provide details:

> -

2. Identify the agency, department or organization responsible for leading on this action in your country:

> National Office of Environment

3. Results - please describe the positive outcomes of any actions taken

> -

IX. Mobilization of Resources

1. Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country?

Yes

If Yes, please provide details (Indicate the migratory species that have benefited from these activities):

> Subsidies for extensive land use instead of intensive farming. Funds to buy areas from private persons that are of interest for conservation purposes.

2. Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition?

No

If Yes, please provide details:

> -

3. Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)?

No

If Yes, please provide details (Indicate the migratory species that have benefited from these activities):

> -

4. Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species?

No

If Yes, please provide details (Indicate the migratory species that have benefited from these activities):

> -

5. Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country?

No

If Yes, please provide details (Indicate the migratory species that have benefited from these activities):

> -

6. Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country?

No

If Yes, please provide details (Indicate the migratory species that have benefited from these activities):

> -

X. Implementation of COP Resolutions and Recommendations

Please provide information about measures undertaken by your country relating to recent Resolutions and Recommendations since the last Report. For your convenience please refer to the list of COP Resolutions and Recommendations listed below:

Strategic and Institutional Matters

Capacity Building Strategy (Res. 9.12 / Res. 10.6)

> -

Strategic Plan for Migratory Species 2015-2023 (Res. 11.2)

> -

Financial and Administrative Matters and Terms of Reference for the Administration of the Trust Fund (Res. 11.1)

> -

Relationship between the CMS Family and the Civil Society (Res. 11.11)

> -

World Migratory Bird Day (Res. 11.9)

> -

Outreach and Communication Issues (Res. 11.8)

> -

Development of CMS Agreements (Res. 11.12)

> -

Concerted and Cooperative Actions (Res. 11.13)

Annex: Updating Data on Appendix II Species

1. The drop-down lists below contain the list of all species listed in Appendix II. Parties which did not submit a National Report in 2014 are requested to complete the entire form. Parties that did submit a report in 2014 are requested to review and update the data (e.g. new published distribution references and details concerning species added to Appendix II at COP11).

Chiroptera

Eidolon helvum (African populations)

Please choose the one that applies.

Not a Range State

Miniopterus schreibersii (African populations)

Please choose the one that applies.

Not a Range State

Vespertilionidae spp (European populations)

Please choose the one that applies.

Range State

Published distribution reference

> http://www.llv.li/files/au/pdf-llv-au-b28_saeugetiere.pdf

Otomops martiensseni (African populations)

Please choose the one that applies.

Not a Range State

Tadarida teniotis

Please choose the one that applies.

Not a Range State

Rhinolophidae spp (European populations)

Please choose the one that applies.

Extinct at National level

Published distribution reference

> http://www.llv.li/files/au/pdf-llv-au-b28_saeugetiere.pdf

Miniopterus majori

Please choose the one that applies.

Not a Range State

Miniopterus natalensis (African populations)

Please choose the one that applies.

Not a Range State

Otomops madagascariensis

Please choose the one that applies.

Not a Range State

Tadarida insignis

Please choose the one that applies.

Not a Range State

Tadarida latouchei

Please choose the one that applies.

Not a Range State

Acipenser gueldenstaedtii

Please choose the one that applies.

Not a Range State

Cetacea

Inia geoffrensis

Please choose the one that applies.

Not a Range State

Pontoporia blainvillei

Please choose the one that applies.

Not a Range State

Berardius bairdii

Please choose the one that applies.

Not a Range State

Hyperoodon ampullatus

Please choose the one that applies.

Not a Range State

Delphinapterus leucas

Please choose the one that applies.

Not a Range State

Monodon monoceros

Please choose the one that applies.

Not a Range State

Cephalorhynchus heavisidii

Please choose the one that applies.

Not a Range State

Delphinus delphis (North and Baltic Sea populations)

Please choose the one that applies.

Not a Range State

Globicephala melas (North and Baltic Sea populations)

Please choose the one that applies.

Not a Range State

Lagenodelphis hosei (south-east Asian populations)

Please choose the one that applies.

Not a Range State

Lagenorhynchus acutus (North and Baltic Sea populations)

Please choose the one that applies.

Not a Range State

Lagenorhynchus albirostris (North and Baltic Sea populations)

Please choose the one that applies.

Not a Range State

Lagenorhynchus australis

Please choose the one that applies.

Not a Range State

Lagenorhynchus obscurus

Please choose the one that applies.

Not a Range State

Orcaella brevirostris

Please choose the one that applies.

Not a Range State

Orcinus orca

Please choose the one that applies.

Not a Range State

Sotalia fluviatilis

Please choose the one that applies.

Not a Range State

Sotalia guianensis

Please choose the one that applies.

Not a Range State

Sousa chinensis

Please choose the one that applies.

Not a Range State

Sousa teuszii

Please choose the one that applies.

Not a Range State

Stenella attenuata (eastern tropical Pacific population)

Please choose the one that applies.

Not a Range State

Stenella clymene (West African population)

Please choose the one that applies.

Not a Range State

Stenella coeruleoalba (eastern tropical Pacific population)

Please choose the one that applies.

Not a Range State

Stenella longirostris (eastern tropical Pacific populations)

Please choose the one that applies.

Not a Range State

Tursiops aduncus (Arafurur/Timor Sea)

Please choose the one that applies.

Not a Range State

Tursiops truncatus (Mediterranean population)

Please choose the one that applies.

Not a Range State

Neophocaena phocaenoides

Please choose the one that applies.

Not a Range State

Phocoena dioptrica

Please choose the one that applies.

Not a Range State

Phocoena phocoena (NW African population)

Please choose the one that applies.

Not a Range State

Phocoena spinipinnis

Please choose the one that applies.

Not a Range State

Phocoenoides dalli

Please choose the one that applies.

Not a Range State

Balaenoptera bonaerensis

Please choose the one that applies.

Not a Range State

Balaenoptera borealis

Please choose the one that applies.

Not a Range State

Balaenoptera edeni

Please choose the one that applies.

Not a Range State

Balaenoptera omurai

Please choose the one that applies.

Not a Range State

Balaenoptera physalus

Please choose the one that applies.

Not a Range State

Caperea marginata

Please choose the one that applies.

Not a Range State

Physter macrocephalus

Please choose the one that applies.

Not a Range State

Platanista gangetica gangetica

Please choose the one that applies.

Not a Range State

Phocoena phocoena (North and Baltic Sea populations)

Please choose the one that applies.

Not a Range State

Phocoena phocoena (western North Atlantic population)

Please choose the one that applies.

Not a Range State

Phocoena phocoena (Black Sea population)

Please choose the one that applies.

Not a Range State

Neophocaena asiaeorientalis

Please choose the one that applies.

Not a Range State

Grampus griseus (North and Baltic Sea populations)

Please choose the one that applies.

Not a Range State

Grampus griseus (Mediterranean population)

Please choose the one that applies.

Not a Range State

Tursiops truncatus (North and Baltic Sea populations)

Please choose the one that applies.

Not a Range State

Tursiops truncatus (Black Sea population)

Please choose the one that applies.

Not a Range State

Stenella attenuata (south-east Asian populations)

Please choose the one that applies.

Not a Range State

Stenella longirostris (south-east Asian populations)

Please choose the one that applies.

Not a Range State

Stenella coeruleoalba (Mediterranean population)

Please choose the one that applies.

Not a Range State

Delphinus delphis (Mediterranean population)

Please choose the one that applies.

Not a Range State

Delphinus delphis (Black Sea population)

Please choose the one that applies.

Not a Range State

Delphinus delphis (eastern tropical Pacific population)

Please choose the one that applies.

Not a Range State

Orcaella heinsohni

Please choose the one that applies.

Not a Range State

Cephaloryhynchus eutropia

Please choose the one that applies.

Not a Range State

Cephalorhynchus commersonii (South American population)

Please choose the one that applies.

Not a Range State

Carnivora

Lycaon pictus

Please choose the one that applies.

Not a Range State

Arctocephalus australis

Please choose the one that applies.

Not a Range State

Halichoerus grypus (Baltic Sea populations)

Please choose the one that applies.

Not a Range State

Monachus monachus

Please choose the one that applies.

Not a Range State

Phoca vitulina (Baltic and Wadden Sea populations)

Please choose the one that applies.

Not a Range State

Otaria flavescens

Please choose the one that applies.

Not a Range State

Ursus maritimus

Please choose the one that applies.

Not a Range State

Proboscidea

Loxodonta africana

Please choose the one that applies.

Not a Range State

Loxodonta cyclotis

Please choose the one that applies.

Not a Range State

Sirenia

Dugong dugon

Please choose the one that applies.

Not a Range State

Trichechus inunguis

Please choose the one that applies.

Not a Range State

Trichechus manatus (Panama and Honduras)

Please choose the one that applies.

Not a Range State

Trichechus senegalensis

Please choose the one that applies.

Not a Range State

Perissodactyla

Equus hemionus (includes E. onager)

Please choose the one that applies.

Not a Range State

Equus kiang

Please choose the one that applies.

Not a Range State

Artiodactyla

Vicugna vicugna

Please choose the one that applies.

Not a Range State

Cervus elaphus yarkandensis (Populations of Kazakhstan, Kyrgyzstan, Turkmenistan, Tajikistan, Uzbekistan and Afghanistan)

Please choose the one that applies.

Not a Range State

Ammotragus lervia

Please choose the one that applies.

Not a Range State

Gazella subgutturosa

Please choose the one that applies.

Not a Range State

Oryx dammah

Please choose the one that applies.

Not a Range State

Procapra gutturosa

Please choose the one that applies.

Not a Range State

Saiga borealis

Please choose the one that applies.

Not a Range State

Saiga tatarica

Please choose the one that applies.

Not a Range State

Ovis ammon

Please choose the one that applies.

Not a Range State

Gazella gazella (Asian populations)

Please choose the one that applies.

Not a Range State

Kobus kob leucotis

Please choose the one that applies.

Not a Range State

Sphenisciformes

Spheniscus demersus

Please choose the one that applies.

Not a Range State

Gaviiformes

Gavia adamsii (W. Palaeartic)

Please choose the one that applies.

Not a Range State

Gavia arctica arctica

Please choose the one that applies.

Not a Range State

Gavia arctica suschkini

Please choose the one that applies.

Not a Range State

Gavia immer immer (NW Europe)

Please choose the one that applies.

Not a Range State

Gavia stellata (W. Palaeartic)

Please choose the one that applies.

Not a Range State

Podicipediformes

Podiceps auritus (W. Palaeartic)

Please choose the one that applies.

Not a Range State

Podiceps grisegena grisegena

Please choose the one that applies.

Not a Range State

Procellariiformes

Diomedea chrysostoma

Please choose the one that applies.

Not a Range State

Diomedea epomophora

Please choose the one that applies.

Not a Range State

Diomedea exulans

Please choose the one that applies.

Not a Range State

Diomedea irrorata

Please choose the one that applies.

Not a Range State

Phoebetria fusca

Please choose the one that applies.

Not a Range State

Phoebetria palpebrata

Please choose the one that applies.

Not a Range State

Macronectes giganteus

Please choose the one that applies.

Not a Range State

Macronectes halli

Please choose the one that applies.

Not a Range State

Procellaria aequinoctialis

Please choose the one that applies.

Not a Range State

Procellaria cinerea

Please choose the one that applies.

Not a Range State

Procellaria parkinsoni

Please choose the one that applies.

Not a Range State

Procellaria westlandica

Please choose the one that applies.

Not a Range State

Diomedea dabbenena

Please choose the one that applies.

Not a Range State

Diomedea antipodensis

Please choose the one that applies.

Not a Range State

Diomedea sanfordi

Please choose the one that applies.

Not a Range State

Phoebastria nigripes

Please choose the one that applies.

Not a Range State

Phoebastria immutabilis

Please choose the one that applies.

Not a Range State

Thalassarche melanophris

Please choose the one that applies.

Not a Range State

Thalassarche impavida

Please choose the one that applies.

Not a Range State

Thalassarche bulleri

Please choose the one that applies.

Not a Range State

Thalassarche cauta

Please choose the one that applies.

Not a Range State

Thalassarche steadi

Please choose the one that applies.

Not a Range State

Thalassarche salvini

Please choose the one that applies.

Not a Range State

Thalassarche eremita

Please choose the one that applies.

Not a Range State

Thalassarche chlororhynchos

Please choose the one that applies.

Not a Range State

Thalassarche carteri

Please choose the one that applies.

Not a Range State

Procellaria conspicillata

Please choose the one that applies.

Not a Range State

Pelecaniformes

Pelecanus crispus

Please choose the one that applies.

Not a Range State

Pelecanus onocrotalus (W. Palaearctic)

Please choose the one that applies.

Not a Range State

Phalacrocorax nigrogularis

Please choose the one that applies.

Not a Range State

Phalacrocorax pygmeus

Please choose the one that applies.

Not a Range State

Ciconiiformes

Ardea purpurea purpurea (Populations breeding in the W Palaearctic)

Please choose the one that applies.

Not a Range State

Published distribution reference

> pers. comm. Willi: exceptional migrant

For more information see page 159 of the linked document (Birds of Liechtenstein).

Ardeola idae

Please choose the one that applies.

Not a Range State

Ardeola rufiventris

Please choose the one that applies.

Not a Range State

Botaurus stellaris stellaris (W. Palaearctic)

Please choose the one that applies.

Not a Range State

Published distribution reference

> No sightings since 2006 (Willi, G.). For more information see page 159 of the linked document (Birds of Liechtenstein).

Casmerodius albus albus (W. Palaearctic)

Please choose the one that applies.

Not a Range State

Egretta vinaceigula

Please choose the one that applies.

Not a Range State

Ixobrychus minutus minutus (W. Palaearctic)

Please choose the one that applies.

Not a Range State

Published distribution reference
> pers. comm. Willi: exceptional migrant

Ixobrychus sturmii

Please choose the one that applies.
 Not a Range State

Ciconia ciconia

Please choose the one that applies.
 Range State

Published distribution reference
> Ciconia ciconia has been breeding again in Liechtenstein for a few years now. There is an estimated 3-6 breeding pairs.

Ciconia episcopus microscelis

Please choose the one that applies.
 Not a Range State

Ciconia nigra

Please choose the one that applies.
 Range State

Published distribution reference
> pers. comm. Willi: Migrant
For more information see page 159 of the linked document (Birds of Liechtenstein).

Mycteria ibis

Please choose the one that applies.
 Not a Range State

Geronticus eremita

Please choose the one that applies.
 Not a Range State

Platalea alba (excluding Malagasy population)

Please choose the one that applies.
 Not a Range State

Platalea leucorodia

Please choose the one that applies.
 Not a Range State

Plegadis falcinellus

Please choose the one that applies.
 Not a Range State

Threskiornis aethiopicus aethiopicus

Please choose the one that applies.
 Not a Range State

Anseriformes

Anatidae spp

Please choose the one that applies.
 Range State

Published distribution reference

> For more information on the occurring species see "Birds of Liechtenstein" (<http://www.llv.li/files/au/pdf-llv-au-voegel.pdf>).

Falconiformes

Pandion haliaetus

Please choose the one that applies.

Range State

Published distribution reference

> pers. comm. Willi: exceptional migrant
For more information see page 160 of the linked document (Birds of Liechtenstein).

Cathartidae. spp

Please choose the one that applies.

Not a Range State

Accipitridae spp

Please choose the one that applies.

Range State

Published distribution reference

> For more information on the species occurring in Liechtenstein see "Birds of Liechtenstein" (<http://www.llv.li/files/au/pdf-llv-au-voegel.pdf>).

Falconidae spp

Please choose the one that applies.

Range State

Published distribution reference

> For more information on the species occurring in Liechtenstein see "Birds of Liechtenstein" (<http://www.llv.li/files/au/pdf-llv-au-voegel.pdf>).

Galliformes

Coturnix coturnix coturnix

Please choose the one that applies.

Range State

Published distribution reference

> This species breeds in Liechtenstein. For more information see page 44 of the linked document (Birds of Liechtenstein).

Gruiformes

Aenigmatolimnas marginalis

Please choose the one that applies.

Not a Range State

Crex crex

Please choose the one that applies.

Range State

Published distribution reference

> This species breeds in Liechtenstein. For more information see page 47 of the linked document (Birds of Liechtenstein).

Fulica atra atra (Mediterranean and Black Sea populations)

Please choose the one that applies.

Not a Range State

Porzana parva parva

Please choose the one that applies.

Extinct at National level

Published distribution reference

> last record before 1997

For more information see page 160 of the linked document (Birds of Liechtenstein).

Porzana porzana (Populations breeding in the W Palaearctic)

Please choose the one that applies.

Range State

Published distribution reference

> pers. comm. Willi: exceptional migrant

For more information see page 160 of the linked document (Birds of Liechtenstein).

Porzana pusilla intermedia

Please choose the one that applies.

Extinct at National level

Published distribution reference

> last record before 1997

For more information see page 160 of the linked document (Birds of Liechtenstein).

Sarothrura ayresi

Please choose the one that applies.

Not a Range State

Sarothrura boehmi

Please choose the one that applies.

Not a Range State

Chlamydotis undulata (Asian populations)

Please choose the one that applies.

Not a Range State

Otis tarda

Please choose the one that applies.

Not a Range State

Grus spp

Please choose the one that applies.

Range State

Published distribution reference

> Grus grus is a regular migrant in Liechtenstein. For more information see page 160 of the linked document (Birds of Liechtenstein).

Charadriiformes

Dromas ardeola

Please choose the one that applies.

Not a Range State

Burhinus oedicnemus

Please choose the one that applies.

Not a Range State

Glareola nordmanni

Please choose the one that applies.

Not a Range State

Glareola nuchalis

Please choose the one that applies.

Not a Range State

Glareola pratincola

Please choose the one that applies.

Not a Range State

Chlidonias leucopterus (West Eurasian and African populations)

Please choose the one that applies.

Not a Range State

Chlidonias niger niger

Please choose the one that applies.

Extinct at National level

Published distribution reference

> last record before 1997

For more information see page 161 of the linked document (Birds of Liechtenstein).

Larus armenicus

Please choose the one that applies.

Not a Range State

Larus audouinii

Please choose the one that applies.

Not a Range State

Larus genei

Please choose the one that applies.

Not a Range State

Larus hemprichii

Please choose the one that applies.

Not a Range State

Larus ichthyaetus (West Eurasian and African population)

Please choose the one that applies.

Not a Range State

Larus leucophthalmus

Please choose the one that applies.

Not a Range State

Larus melanocephalus

Please choose the one that applies.

Not a Range State

Sterna albifrons

Please choose the one that applies.

Not a Range State

Sterna balaenarum

Please choose the one that applies.

Not a Range State

Sterna bengalensis (African and Southwest Asian populations)

Please choose the one that applies.

Not a Range State

Sterna bergii (African and Southwest Asian populations)

Please choose the one that applies.

Not a Range State

Sterna caspia (West Eurasian and African populations)

Please choose the one that applies.

Not a Range State

Sterna dougallii (Atlantic population)

Please choose the one that applies.

Not a Range State

Sterna hirundo hirundo (Populations breeding in the W Palaearctic)

Please choose the one that applies.

Extinct at National level

Published distribution reference

> last record before 1997

For more information see page 161 of the linked document (Birds of Liechtenstein).

Sterna nilotica nilotica (West Eurasian and African populations)

Please choose the one that applies.

Not a Range State

Sterna paradisaea (Atlantic population)

Please choose the one that applies.

Not a Range State

Sterna repressa

Please choose the one that applies.

Not a Range State

Sterna sandvicensis sandvicensis

Please choose the one that applies.

Not a Range State

Sterna saundersi

Please choose the one that applies.

Not a Range State

Rynchops flavirostris

Please choose the one that applies.

Not a Range State

Recurvirostridae spp

Please choose the one that applies.

Range State

Charadriidae spp

Please choose the one that applies.

Range State

Scolopacidae spp

Please choose the one that applies.

Range State

Sterna maxima albidorsalis

Please choose the one that applies.

Not a Range State

Columbiformes

Streptopelia turtur turtur

Please choose the one that applies.

Range State

Published distribution reference

> This species breeds in Liechtenstein. For more information see page 57 of the linked document (Birds of Liechtenstein).

Psittaciformes

Amazona tucumana

Please choose the one that applies.

Not a Range State

Coraciiformes

Merops apiaster

Please choose the one that applies.

Range State

Published distribution reference

> pers. comm. Willi: exceptional migrant

Coracias garrulus

Please choose the one that applies.

Extinct at National level

Published distribution reference

> last record before 1997

For more information see page 161 of the linked document (Birds of Liechtenstein).

Passeriformes

Alectrurus risora

Please choose the one that applies.

Not a Range State

Alectrurus tricolor

Please choose the one that applies.

Not a Range State

Polystictus pectoralis pectoralis

Please choose the one that applies.

Not a Range State

Pseudocolopteryx dinellianus

Please choose the one that applies.

Not a Range State

Hirundo atrocaerulea

Please choose the one that applies.

Not a Range State

Sporophila cinnamomea

Please choose the one that applies.

Not a Range State

Sporophila hypochroma

Please choose the one that applies.

Not a Range State

Sporophila palustris

Please choose the one that applies.

Not a Range State

Sporophila ruficollis

Please choose the one that applies.

Not a Range State

Sporophila zelichi

Please choose the one that applies.

Not a Range State

Agelaius flavus

Please choose the one that applies.

Not a Range State

Dolichonyx oryzivorus

Please choose the one that applies.

Not a Range State

Muscicapidae (s.l.) spp.

Please choose the one that applies.

Range State

Cardellina canadensis

Please choose the one that applies.

Not a Range State

Testudinata

Podocnemis expansa

Please choose the one that applies.

Not a Range State

Cheloniidae spp

Please choose the one that applies.

Not a Range State

Dermochelyidae spp

Please choose the one that applies.

Not a Range State

Crocodylia

Crocodylus porosus

Please choose the one that applies.

Not a Range State

Orectolobiformes

Rhincodon typus

Please choose the one that applies.

Not a Range State

Lamniformes

Carcharodon carcharias

Please choose the one that applies.

Not a Range State

Isurus oxyrinchus

Please choose the one that applies.

Not a Range State

Isurus paucus

Please choose the one that applies.

Not a Range State

Lamna nasus

Please choose the one that applies.

Not a Range State

Cetorhinus maximus

Please choose the one that applies.

Not a Range State

Alopias superciliosus

Please choose the one that applies.

Not a Range State

Alopias vulpinus

Please choose the one that applies.

Not a Range State

Alopias pelagicus

Please choose the one that applies.

Not a Range State

Acipenseriformes

Acipenser baerii baicalensis

Please choose the one that applies.

Not a Range State

Acipenser fulvescens

Please choose the one that applies.

Not a Range State

Acipenser medirostris

Please choose the one that applies.

Not a Range State

Acipenser mikadoi

Please choose the one that applies.

Not a Range State

Acipenser naccarii

Please choose the one that applies.

Not a Range State

Acipenser nudiventris

Please choose the one that applies.

Not a Range State

Acipenser persicus

Please choose the one that applies.

Not a Range State

Acipenser ruthenus (Danube population)

Please choose the one that applies.

Not a Range State

Acipenser schrenckii

Please choose the one that applies.

Not a Range State

Acipenser sinensis

Please choose the one that applies.

Not a Range State

Acipenser stellatus

Please choose the one that applies.

Not a Range State

Acipenser sturio

Please choose the one that applies.

Not a Range State

Huso dauricus

Please choose the one that applies.

Not a Range State

Huso huso

Please choose the one that applies.

Not a Range State

Pseudoscaphirhynchus fedtschenkoi

Please choose the one that applies.

Not a Range State

Pseudoscaphirhynchus hermanni

Please choose the one that applies.

Not a Range State

Pseudoscaphirhynchus kaufmanni

Please choose the one that applies.

Not a Range State

Psephurus gladius

Please choose the one that applies.

Not a Range State

Lepidoptera

Danaus plexippus

Please choose the one that applies.

Not a Range State

Squaliformes

Squalus acanthias (Northern hemisphere populations)

Please choose the one that applies.

Not a Range State

Phoenicopteriformes

Phoenicopteridae spp

Please choose the one that applies.

Not a Range State

Rajiformes

Manta birostris

Please choose the one that applies.

Not a Range State

Carcharhiniformes

Carcharhinus falciformis

Please choose the one that applies.

Not a Range State

Sphyrna mokarran

Please choose the one that applies.

Not a Range State

Sphyrna lewini

Please choose the one that applies.

Not a Range State

Pristiformes

Anoxypristis cuspidata

Please choose the one that applies.

Not a Range State

Pristis clavata

Please choose the one that applies.

Not a Range State

Pristis pectinata

Please choose the one that applies.

Not a Range State

Pristis zijsron

Please choose the one that applies.

Not a Range State

Pristis pristis

Please choose the one that applies.

Not a Range State

Myliobatiformes

Manta alfredi

Please choose the one that applies.

Not a Range State

Mobula mobular

Please choose the one that applies.

Not a Range State

Mobula japanica

Please choose the one that applies.

Not a Range State

Mobula thurstoni

Please choose the one that applies.

Not a Range State

Mobula tarapacana

Please choose the one that applies.

Not a Range State

Mobula eregoodootenkee

Please choose the one that applies.

Not a Range State

Mobula kuhlii

Please choose the one that applies.

Not a Range State

Mobula hypostoma

Please choose the one that applies.

Not a Range State

Mobula rochebrunei

Please choose the one that applies.

Not a Range State

Mobula munkiana

Please choose the one that applies.

Not a Range State

Anguilliformes

Anguilla anguilla

Please choose the one that applies.

Not a Range State

Published distribution reference

> Anguilla anguilla is not very common in Liechtenstein.

http://www.llv.li/files/au/Sonderdruck_Inhalt_gesamtBd30.pdf

2. All species of each of the Families below are listed in Appendix II. If your country is a Range State for any of the species in these Families, please indicate whether your country is a Range State or the species is extinct and, where appropriate, please provide published distribution references.

Order FALCONIFORMES, Family CATHARTIDAE

Cathartes aura

Published distribution reference

> Liechtenstein is not a Range State for this species.

Coragyps atratus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Vultur gryphus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Sarcoramphus papa

Published distribution reference

> Liechtenstein is not a Range State for this species.

Gymnogyps californianus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Cathartes burrovianus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Cathartes melambrotus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Order FALCONIFORMES, Family ACCIPITRIDAE

Accipiter badius

Published distribution reference
> Liechtenstein is not a Range State for this species.

Accipiter brevipes

Published distribution reference
> Liechtenstein is not a Range State for this species.

Accipiter cooperii

Published distribution reference
> Liechtenstein is not a Range State for this species.

Accipiter fasciatus

Published distribution reference
> Liechtenstein is not a Range State for this species.

Accipiter gentilis

Choose the one that applies.

Range State

Published distribution reference
> The species breeds in Liechtenstein. See page 32 of the linked document (Birds of Liechtenstein).

Accipiter gularis

Published distribution reference
> Liechtenstein is not a Range State for this species.

Accipiter nisus

Choose the one that applies.

Range State

Published distribution reference
> This species breeds in Liechtenstein. See page 33 of the linked document (Birds of Liechtenstein).

Accipiter soloensis

Published distribution reference
> Liechtenstein is not a Range State for this species.

Accipiter striatus

Published distribution reference
> Liechtenstein is not a Range State for this species.

Accipiter virgatus

Published distribution reference
> Liechtenstein is not a Range State for this species.

Aegypius monachus

Published distribution reference
> Liechtenstein is not a Range State for this species.

Aquila adalberti

Published distribution reference
> Liechtenstein is not a Range State for this species.

Aquila chrysaetos

Choose the one that applies.

Range State

Published distribution reference

> This species breeds in Liechtenstein. For more information see page 35 of the linked document (Birds of Liechtenstein).

Aquila clanga

Published distribution reference

> Liechtenstein is not a Range State for this species.

Aquila heliaca

Published distribution reference

> Liechtenstein is not a Range State for this species.

Aquila nipalensis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Aquila pomarina

Published distribution reference

> Liechtenstein is not a Range State for this species.

Aquila rapax

Published distribution reference

> Liechtenstein is not a Range State for this species.

Aviceda jerdoni

Published distribution reference

> Liechtenstein is not a Range State for this species.

Aviceda leuphotes

Published distribution reference

> Liechtenstein is not a Range State for this species.

Butastur indicus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Buteo albonotatus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Buteo auguralis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Buteo buteo

Choose the one that applies.

Range State

Published distribution reference

> This species breeds in Liechtenstein. For more information see page 34 of the linked document (Birds of Liechtenstein).

Buteo hemilasius

Published distribution reference
> Liechtenstein is not a Range State for this species.

Buteo jamaicensis

Published distribution reference
> Liechtenstein is not a Range State for this species.

Buteo lagopus

Published distribution reference
> Liechtenstein is not a Range State for this species.

Buteo lineatus

Published distribution reference
> Liechtenstein is not a Range State for this species.

Buteo platypterus

Published distribution reference
> Liechtenstein is not a Range State for this species.

Buteo polyosoma

Published distribution reference
> Liechtenstein is not a Range State for this species.

Buteo regalis

Published distribution reference
> Liechtenstein is not a Range State for this species.

Buteo rufinus

Published distribution reference
> Liechtenstein is not a Range State for this species.

Buteo swainsoni

Published distribution reference
> Liechtenstein is not a Range State for this species.

Chelictinia riocourii

Published distribution reference
> Liechtenstein is not a Range State for this species.

Circaetus gallicus

Published distribution reference
> Liechtenstein is not a Range State for this species.

Circus aeruginosus

Choose the one that applies.
 Range State

Published distribution reference
> Circus aeruginosus is a regular migrant in Liechtenstein. For more information see page 160 of the linked document (Birds of Liechtenstein).

Circus approximans

Published distribution reference
> Liechtenstein is not a Range State for this species.

Circus assimilis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Circus cyaneus

Choose the one that applies.

Range State

Published distribution reference

› Circus cyaneus is a regular guest in Liechtenstein. For more information see page 160 of the linked document (Birds of Liechtenstein).

Circus macrourus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Circus melanoleucos

Published distribution reference

› Liechtenstein is not a Range State for this species.

Circus pygargus

Choose the one that applies.

Range State

Published distribution reference

› Circus pygargus is an irregular migrant in Liechtenstein. For more information see page 160 of the linked document (Birds of Liechtenstein).

Circus spilonotus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Elanoides forficatus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Elanus caeruleus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Elanus scriptus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Gypaetus barbatus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Gypaetus barbatus meridionalis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Gyps coprotheres

Published distribution reference

› Liechtenstein is not a Range State for this species.

Gyps fulvus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Gyps himalayensis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Gyps rueppellii

Published distribution reference

› Liechtenstein is not a Range State for this species.

Haliaeetus albicilla

Published distribution reference

› Liechtenstein is not a Range State for this species.

Haliaeetus albicilla groenlandicus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Haliaeetus leucocephalus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Haliaeetus leucoryphus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Haliaeetus pelagicus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Hieraaetus pennatus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Ictinia mississippiensis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Ictinia plumbea

Published distribution reference

› Liechtenstein is not a Range State for this species.

Lophoictinia isura

Published distribution reference

› Liechtenstein is not a Range State for this species.

Milvus migrans

Choose the one that applies.

Range State

Published distribution reference

› This species breeds in Liechtenstein. For more information see page 30 of the linked document (Birds of

Liechtenstein).

Milvus milvus

Choose the one that applies.

Range State

Published distribution reference

> This species breeds in Liechtenstein. For more information see page 31 of the linked document (Birds of Liechtenstein).

Neophron percnopterus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Pernis apivorus

Choose the one that applies.

Range State

Published distribution reference

> This species breeds in Liechtenstein. For more information see page 29 of the linked document (Birds of Liechtenstein).

Pernis ptilorhynchus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Spizaetus nipalensis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Terathopius ecaudatus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Order FALCONIFORMES, Family FALCONIDAE

Falco amurensis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Falco biarmicus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Falco cenchroides

Published distribution reference

> Liechtenstein is not a Range State for this species.

Falco cherrug

Published distribution reference

> Liechtenstein is not a Range State for this species.

Falco columbarius

Choose the one that applies.

Range State

Published distribution reference

> *Falco columbarius* is an irregular migrant in Liechtenstein. For more information see page 160 of the linked document (Birds of Liechtenstein).

Falco concolor

Published distribution reference

> Liechtenstein is not a Range State for this species.

Falco eleonora

Published distribution reference

> Liechtenstein is not a Range State for this species.

Falco longipennis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Falco mexicanus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Falco naumanni

Published distribution reference

> Liechtenstein is not a Range State for this species.

Falco pelegrinoides

Published distribution reference

> Liechtenstein is not a Range State for this species.

Falco pelegrinoides babylonicus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Falco peregrinus

Choose the one that applies.

Range State

Published distribution reference

> This species breeds in Liechtenstein. For more information see page 38 of the linked document (Birds of Liechtenstein).

Falco peregrinus anatum

Published distribution reference

> Liechtenstein is not a Range State for this species.

Falco peregrinus peregrinus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Falco peregrinus tundrius

Published distribution reference

> Liechtenstein is not a Range State for this species.

Falco rusticolus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Falco sparverius

Published distribution reference

> Liechtenstein is not a Range State for this species.

Falco subbuteo

Choose the one that applies.

Range State

Published distribution reference

> This species breeds in Liechtenstein. For more information see page 37 of the linked document (Birds of Liechtenstein).

Falco tinnunculus

Choose the one that applies.

Range State

Published distribution reference

> This species breeds in Liechtenstein. For more information see page 36 of the linked document (Birds of Liechtenstein).

Falco vespertinus

Choose the one that applies.

Range State

Published distribution reference

> see Appendix 1

Milvago chimango

Choose the one that applies.

Range State

Published distribution reference

> Liechtenstein is not a Range State for this species.

Order PASSERIFORMES, Family MUSCICAPIDAE

Acrocephalus aedon

Published distribution reference

> Liechtenstein is not a Range State for this species.

Acrocephalus agricola

Published distribution reference

> Liechtenstein is not a Range State for this species.

Acrocephalus arundinaceus

Choose the one that applies.

Range State

Published distribution reference

> Acrocephalus arundinaceus is an exceptional migrant in Liechtenstein. For more information see page 161 of the linked document (Birds of Liechtenstein).

Acrocephalus australis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Acrocephalus bistrigiceps

Published distribution reference
> Liechtenstein is not a Range State for this species.

Acrocephalus concinens

Published distribution reference
> Liechtenstein is not a Range State for this species.

Acrocephalus dumetorum

Published distribution reference
> Liechtenstein is not a Range State for this species.

Acrocephalus griseldis

Published distribution reference
> Liechtenstein is not a Range State for this species.

Acrocephalus melanopogon

Published distribution reference
> Liechtenstein is not a Range State for this species.

Acrocephalus orientalis

Published distribution reference
> Liechtenstein is not a Range State for this species.

Acrocephalus paludicola

Published distribution reference
> Liechtenstein is not a Range State for this species.

Acrocephalus palustris

Choose the one that applies.
 Range State

Published distribution reference
> This species breeds in Liechtenstein. For more information see page 103 of the linked document (Birds of Liechtenstein).

Acrocephalus schoenobaenus

Choose the one that applies.
 Extinct

Published distribution reference
> last record before 1997
For more information see page 161 of the linked document (Birds of Liechtenstein).

Acrocephalus scirpaceus

Choose the one that applies.
 Range State

Published distribution reference
> This species breeds in Liechtenstein. For more information see page 104 of the linked document (Birds of Liechtenstein).

Acrocephalus sorghophilus

Choose the one that applies.
 Range State

Published distribution reference
> Liechtenstein is not a Range State for this species.

Acrocephalus stentoreus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Acrocephalus tangorum

Published distribution reference

› Liechtenstein is not a Range State for this species.

Brachypteryx stellata

Published distribution reference

› Liechtenstein is not a Range State for this species.

Bradypterus luteoventris

Published distribution reference

› Liechtenstein is not a Range State for this species.

Bradypterus tacsanowskii

Published distribution reference

› Liechtenstein is not a Range State for this species.

Bradypterus thoracicus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Catharus fuscescens

Published distribution reference

› Liechtenstein is not a Range State for this species.

Catharus guttatus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Catharus minimus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Catharus mustelinus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Catharus ustulatus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Cercotrichas galactotes

Published distribution reference

› Liechtenstein is not a Range State for this species.

Cettia brunnifrons

Published distribution reference

› Liechtenstein is not a Range State for this species.

Cettia canturians

Published distribution reference

› Liechtenstein is not a Range State for this species.

Cettia cetti

Published distribution reference

› Liechtenstein is not a Range State for this species.

Cettia fortipes

Published distribution reference

› Liechtenstein is not a Range State for this species.

Cettia major

Published distribution reference

› Liechtenstein is not a Range State for this species.

Cettia pallidipes

Published distribution reference

› Liechtenstein is not a Range State for this species.

Chaimarrornis leucocephalus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Cinclidium leucurum

Published distribution reference

› Liechtenstein is not a Range State for this species.

Culicicapa ceylonensis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Cyanoptila cyanomelana

Published distribution reference

› Liechtenstein is not a Range State for this species.

Cyornis concretus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Cyornis rubeculoides

Published distribution reference

› Liechtenstein is not a Range State for this species.

Erithacus akahige

Published distribution reference

› Liechtenstein is not a Range State for this species.

Erithacus rubecula

Choose the one that applies.

Range State

Published distribution reference

› This species breeds in Liechtenstein. For more information see page 89 of the linked document (Birds of Liechtenstein).

Eumyias thalassina

Published distribution reference
> Liechtenstein is not a Range State for this species.

Ficedula albicollis

Published distribution reference
> Liechtenstein is not a Range State for this species.

Ficedula hodgsonii

Published distribution reference
> Liechtenstein is not a Range State for this species.

Ficedula hypoleuca

Choose the one that applies.
 Range State

Published distribution reference
> This species breeds in Liechtenstein. For more information see page 118 of the linked document (Birds of Liechtenstein).

Ficedula mugimaki

Published distribution reference
> Liechtenstein is not a Range State for this species.

Ficedula narcissina

Published distribution reference
> Liechtenstein is not a Range State for this species.

Ficedula parva

Published distribution reference
> Liechtenstein is not a Range State for this species.

Ficedula sapphira

Published distribution reference
> Liechtenstein is not a Range State for this species.

Ficedula semitorquata

Published distribution reference
> Liechtenstein is not a Range State for this species.

Ficedula strophiatea

Published distribution reference
> Liechtenstein is not a Range State for this species.

Ficedula subrubra

Published distribution reference
> Liechtenstein is not a Range State for this species.

Ficedula superciliaris

Published distribution reference
> Liechtenstein is not a Range State for this species.

Ficedula tricolor

Published distribution reference
> Liechtenstein is not a Range State for this species.

Ficedula zanthopygia

Published distribution reference

› Liechtenstein is not a Range State for this species.

Hippolais caligata

Published distribution reference

› Liechtenstein is not a Range State for this species.

Hippolais icterina

Choose the one that applies.

Range State

Published distribution reference

› This species breeds in Liechtenstein. For more information see page 105 of the linked document (Birds of Liechtenstein).

Hippolais languida

Published distribution reference

› Liechtenstein is not a Range State for this species.

Hippolais olivetorum

Published distribution reference

› Liechtenstein is not a Range State for this species.

Hippolais pallida

Published distribution reference

› Liechtenstein is not a Range State for this species.

Hippolais polyglotta

Choose the one that applies.

Range State

Published distribution reference

› This species breeds in Liechtenstein. For more information see page 106 of the linked document (Birds of Liechtenstein).

Hippolais rama

Published distribution reference

› Liechtenstein is not a Range State for this species.

Hodgsonius phaenicuroides

Published distribution reference

› Liechtenstein is not a Range State for this species.

Irania gutturalis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Locustella certhiola

Published distribution reference

› Liechtenstein is not a Range State for this species.

Locustella fasciolata

Published distribution reference

› Liechtenstein is not a Range State for this species.

Locustella fluviatilis

Choose the one that applies.

Range State

Published distribution reference

> This species breeds in Liechtenstein. For more information see page 102 of the linked document (Birds of Liechtenstein).

Locustella lanceolata

Published distribution reference

> Liechtenstein is not a Range State for this species.

Locustella luscinioides

Choose the one that applies.

Extinct

Published distribution reference

> last record in 1997, exceptional migrant

For more information see page 161 of the linked document (Birds of Liechtenstein).

Locustella naevia

Choose the one that applies.

Range State

Published distribution reference

> This species breeds in Liechtenstein. For more information see page 101 of the linked document (Birds of Liechtenstein).

Locustella ochotensis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Locustella pleskei

Published distribution reference

> Liechtenstein is not a Range State for this species.

Luscinia brunnea

Published distribution reference

> Liechtenstein is not a Range State for this species.

Luscinia calliope

Published distribution reference

> Liechtenstein is not a Range State for this species.

Luscinia cyane

Published distribution reference

> Liechtenstein is not a Range State for this species.

Luscinia luscinia

Published distribution reference

> Liechtenstein is not a Range State for this species.

Luscinia megarhynchos

Choose the one that applies.

Range State

Published distribution reference

> This species breeds in Liechtenstein. For more information see page 90 of the linked document (Birds of Liechtenstein).

Luscinia obscura

Published distribution reference

> Liechtenstein is not a Range State for this species.

Luscinia pectardens

Published distribution reference

> Liechtenstein is not a Range State for this species.

Luscinia pectoralis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Luscinia ruficeps

Published distribution reference

> Liechtenstein is not a Range State for this species.

Luscinia sibilans

Published distribution reference

> Liechtenstein is not a Range State for this species.

Luscinia svecica

Published distribution reference

> Liechtenstein is not a Range State for this species.

Megalurus pryeri

Published distribution reference

> Liechtenstein is not a Range State for this species.

Monarcha melanopsis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Monarcha trivirgatus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Monticola cinclorhynchus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Monticola gularis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Monticola rufiventris

Published distribution reference

> Liechtenstein is not a Range State for this species.

Monticola saxatilis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Monticola solitarius

Published distribution reference

› Liechtenstein is not a Range State for this species.

Muscicapa dauurica

Published distribution reference

› Liechtenstein is not a Range State for this species.

Muscicapa ferruginea

Published distribution reference

› Liechtenstein is not a Range State for this species.

Muscicapa griseisticta

Published distribution reference

› Liechtenstein is not a Range State for this species.

Muscicapa muttui

Published distribution reference

› Liechtenstein is not a Range State for this species.

Muscicapa ruficauda

Published distribution reference

› Liechtenstein is not a Range State for this species.

Muscicapa sibirica

Published distribution reference

› Liechtenstein is not a Range State for this species.

Muscicapa striata

Choose the one that applies.

Range State

Published distribution reference

› This species breeds in Liechtenstein. For more information see page 116 of the linked document (Birds of Liechtenstein).

Muscicapella hodgsoni

Published distribution reference

› Liechtenstein is not a Range State for this species.

Myadestes townsendi

Published distribution reference

› Liechtenstein is not a Range State for this species.

Myiagra cyanoleuca

Published distribution reference

› Liechtenstein is not a Range State for this species.

Myiagra rubecula

Published distribution reference

› Liechtenstein is not a Range State for this species.

Niltava davidi

Published distribution reference
> Liechtenstein is not a Range State for this species.

Niltava grandis

Published distribution reference
> Liechtenstein is not a Range State for this species.

Niltava macgrigoriae

Published distribution reference
> Liechtenstein is not a Range State for this species.

Oenanthe cypriaca

Published distribution reference
> Liechtenstein is not a Range State for this species.

Oenanthe deserti

Published distribution reference
> Liechtenstein is not a Range State for this species.

Oenanthe finschii

Published distribution reference
> Liechtenstein is not a Range State for this species.

Oenanthe hispanica

Published distribution reference
> Liechtenstein is not a Range State for this species.

Oenanthe isabellina

Published distribution reference
> Liechtenstein is not a Range State for this species.

Oenanthe leucopyga

Published distribution reference
> Liechtenstein is not a Range State for this species.

Oenanthe oenanthe

Choose the one that applies.
 Range State

Published distribution reference
> This species breeds in Liechtenstein. For more information see page 95 of the linked document (Birds of Liechtenstein).

Oenanthe picata

Published distribution reference
> Liechtenstein is not a Range State for this species.

Oenanthe pleschanka

Published distribution reference
> Liechtenstein is not a Range State for this species.

Oenanthe xanthopyrna

Published distribution reference
> Liechtenstein is not a Range State for this species.

Panurus biarmicus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Petroica phoenicea

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phoenicurus alaschanicus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phoenicurus aureus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phoenicurus erythrogaster

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phoenicurus erythronota

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phoenicurus frontalis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phoenicurus hodgsoni

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phoenicurus moussieri

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phoenicurus ochruros

Choose the one that applies.

Range State

Published distribution reference

› This species breeds in Liechtenstein. For more information see page 90 of the linked document (Birds of Liechtenstein).

Phoenicurus phoenicurus

Choose the one that applies.

Range State

Published distribution reference

› This species breeds in Liechtenstein. For more information see page 92 of the linked document (Birds of Liechtenstein).

Phoenicurus schisticeps

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus affinis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus armandii

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus bonelli

Choose the one that applies.

Range State

Published distribution reference

› This species breeds in Liechtenstein. For more information see page 111 of the linked document (Birds of Liechtenstein).

Phylloscopus borealis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus borealoides

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus cantator

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus chloronotus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus collybita

Choose the one that applies.

Range State

Published distribution reference

› This species breeds in Liechtenstein. For more information see page 113 of the linked document (Birds of Liechtenstein).

Phylloscopus coronatus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus davisoni

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus emeiensis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus fulgiventor

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus fuscatus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus griseolus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus humei

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus ibericus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus ijimae

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus inornatus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus lorenzii

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus maculipennis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus magnirostris

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus neglectus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus nitidus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus occipitalis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus orientalis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus plumbeitarsus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus proregulus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus pulcher

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus reguloides

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus ricketti

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phylloscopus schwarzi

Published distribution reference

Published distribution reference

› Liechtenstein is not a Range State for this species.

Gallinago megala

Published distribution reference

› Liechtenstein is not a Range State for this species.

Gallinago nemoricola

Published distribution reference

› Liechtenstein is not a Range State for this species.

Gallinago nigripennis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Gallinago paraguaiae

Published distribution reference

› Liechtenstein is not a Range State for this species.

Gallinago solitaria

Published distribution reference

› Liechtenstein is not a Range State for this species.

Gallinago stenura

Published distribution reference

› Liechtenstein is not a Range State for this species.

Limicola falcinellus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Limnodromus griseus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Limnodromus scolopaceus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Limnodromus semipalmatus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Limosa fedoa

Published distribution reference

› Liechtenstein is not a Range State for this species.

Limosa haemastica

Published distribution reference

› Liechtenstein is not a Range State for this species.

Limosa lapponica

Choose the one that applies.

Extinct

Published distribution reference

› last record before 1997

For more information see page 160 of "Birds of Liechtenstein" (<http://www.llv.li/files/au/pdf-llv-au-voegel.pdf>).

Limosa limosa

Choose the one that applies.

Extinct

Published distribution reference

› last record before 1997

For more information see page 160 of "Birds of Liechtenstein" (<http://www.llv.li/files/au/pdf-llv-au-voegel.pdf>).

Limosa scolopacea

Published distribution reference

› Liechtenstein is not a Range State for this species.

Lymnocyptes minimus

Choose the one that applies.

Range State

Published distribution reference

> Lymnocyptes minimus is an exceptional migrant in Liechtenstein. For more information see page 160 of "Birds of Liechtenstein" (<http://www.llv.li/files/au/pdf-llv-au-voegel.pdf>).

Micropalama himantopus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Numenius americanus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Numenius arquata

Choose the one that applies.

Range State

Published distribution reference

> Numenius arquata is an irregular guest in Liechtenstein. For more information see page 160 of "Birds of Liechtenstein" (<http://www.llv.li/files/au/pdf-llv-au-voegel.pdf>).

Numenius borealis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Numenius madagascariensis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Numenius minutus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Numenius phaeopus

Choose the one that applies.

Extinct

Published distribution reference

> pers. comm. Willi: last record in 1999

For more information see page 160 of "Birds of Liechtenstein" (<http://www.llv.li/files/au/pdf-llv-au-voegel.pdf>).

Numenius tahitiensis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Numenius tenuirostris

Published distribution reference

> Liechtenstein is not a Range State for this species.

Phalaropus fulicaria

Published distribution reference

> Liechtenstein is not a Range State for this species.

Phalaropus fulicarius

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phalaropus lobatus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phalaropus tricolor

Published distribution reference

› Liechtenstein is not a Range State for this species.

Philomachus pugnax

Choose the one that applies.

Extinct

Published distribution reference

› For more information see page 160 of the linked document (Birds of Liechtenstein).

Scolopax arquata

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax cinerea

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax delicata

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax erythropus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax falcinellus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax fedoa

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax flavipes

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax gallinago

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax grisea

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax haemastica

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax hardwickii

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax incana

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax lapponica

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax limosa

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax madagascariensis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax media

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax melanoleuca

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax minima

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax minor

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax nebularia

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax paraguaiae

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax phaeopus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Scolopax rusticola

Choose the one that applies.

Range State

Published distribution reference

> This species breeds in Liechtenstein. For more information see page 52 of the linked document (Birds of Liechtenstein).

Scolopax semipalmata

Published distribution reference

> Liechtenstein is not a Range State for this species.

Scolopax stenura

Published distribution reference

> Liechtenstein is not a Range State for this species.

Scolopax tahitiensis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Scolopax testacea

Published distribution reference

> Liechtenstein is not a Range State for this species.

Scolopax totanus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Steganopus tricolor

Published distribution reference

> Liechtenstein is not a Range State for this species.

Tringa alba

Published distribution reference

> Liechtenstein is not a Range State for this species.

Tringa alpina

Published distribution reference

> Liechtenstein is not a Range State for this species.

Tringa brevipes

Published distribution reference

> Liechtenstein is not a Range State for this species.

Tringa canutus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Tringa cinerea

Published distribution reference

> Liechtenstein is not a Range State for this species.

Tringa erythropus

Choose the one that applies.

Extinct

Published distribution reference

› For more information on this species see page 160 of the linked document (Mammals of Liechtenstein).

Tringa flavipes

Published distribution reference

› Liechtenstein is not a Range State for this species.

Tringa fulicaria

Published distribution reference

› Liechtenstein is not a Range State for this species.

Tringa fuscicollis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Tringa glareola

Choose the one that applies.

Range State

Published distribution reference

› Tringa glareola is an irregular migrant in Liechtenstein. For more information see page 161 of "Birds of Liechtenstein" (<http://www.llv.li/files/au/pdf-llv-au-voegel.pdf>).

Tringa guttifer

Published distribution reference

› Liechtenstein is not a Range State for this species.

Tringa himantopus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Tringa hypoleucos

Choose the one that applies.

Range State

Published distribution reference

› Tringa hypoleucos is a regular migrant in Liechtenstein. For more information see page 161 of "Birds of Liechtenstein" (<http://www.llv.li/files/au/pdf-llv-au-voegel.pdf>).

Tringa incana

Published distribution reference

› Liechtenstein is not a Range State for this species.

Tringa indica

Published distribution reference

› Liechtenstein is not a Range State for this species.

Tringa interpres

Published distribution reference

› Liechtenstein is not a Range State for this species.

Tringa lobata

Published distribution reference

› Liechtenstein is not a Range State for this species.

Tringa longicauda

Published distribution reference
> Liechtenstein is not a Range State for this species.

Tringa macularia

Published distribution reference
> Liechtenstein is not a Range State for this species.

Tringa maritima

Published distribution reference
> Liechtenstein is not a Range State for this species.

Tringa melanoleuca

Published distribution reference
> Liechtenstein is not a Range State for this species.

Tringa melanotos

Published distribution reference
> Liechtenstein is not a Range State for this species.

Tringa miles

Published distribution reference
> Liechtenstein is not a Range State for this species.

Tringa minuta

Published distribution reference
> Liechtenstein is not a Range State for this species.

Tringa minutilla

Published distribution reference
> Liechtenstein is not a Range State for this species.

Tringa nebularia

Choose the one that applies.
 Range State

Published distribution reference
> Tringa nebularia is a regular migrant in Liechtenstein. For more information see page 160 of "Birds of Liechtenstein" (<http://www.llv.li/files/au/pdf-llv-au-voegel.pdf>).

Tringa ochropus

Choose the one that applies.
 Range State

Published distribution reference
> Tringa nebularia is a regular migrant in Liechtenstein. For more information see page 160 of "Birds of Liechtenstein" (<http://www.llv.li/files/au/pdf-llv-au-voegel.pdf>).

Tringa ptilocnemis

Published distribution reference
> Liechtenstein is not a Range State for this species.

Tringa pugnax

Choose the one that applies.
 Range State

Published distribution reference

> *Tringa pugnax* is an irregular migrant in Liechtenstein. For more information see page 160 of "Birds of Liechtenstein" (<http://www.llv.li/files/au/pdf-llv-au-voegel.pdf>).

Tringa pusilla

Published distribution reference

> Liechtenstein is not a Range State for this species.

Tringa ruficollis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Tringa solitaria

Published distribution reference

> Liechtenstein is not a Range State for this species.

Tringa squatarola

Published distribution reference

> Liechtenstein is not a Range State for this species.

Tringa stagnatilis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Tringa subminuta

Published distribution reference

> Liechtenstein is not a Range State for this species.

Tringa subruficollis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Tringa temminckii

Published distribution reference

> Liechtenstein is not a Range State for this species.

Tringa terek

Published distribution reference

> Liechtenstein is not a Range State for this species.

Tringa totanus

Choose the one that applies.

Range State

Published distribution reference

> *Tringa totanus* is an exceptional migrant in Liechtenstein. For more information see page 160 of "Birds of Liechtenstein" (<http://www.llv.li/files/au/pdf-llv-au-voegel.pdf>).

Tringa vanellus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Tringa virgata

Published distribution reference

> Liechtenstein is not a Range State for this species.

Tryngites subruficollis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Order CHIROPTERA, Family RHINOLOPHIDAE (European populations)

Rhinolophus blasii

Published distribution reference

› Liechtenstein is not a Range State for this species.

Rhinolophus euryale

Published distribution reference

› Liechtenstein is not a Range State for this species.

Rhinolophus ferrumequinum

Choose the one that applies.

Extinct

Published distribution reference

› last recorded 1993

For more information on this species see page 50 of the linked document (Mammals of Liechtenstein).

Rhinolophus hipposideros

Choose the one that applies.

Extinct

Published distribution reference

› last recorded 1953

For more information on this species see page 52 of the linked document (Mammals of Liechtenstein).

Rhinolophus mehelyi

Published distribution reference

› Liechtenstein is not a Range State for this species.

Order CHIROPTERA, Family VESPERTILIONIDAE (European populations)

Barbastella barbastellus

Choose the one that applies.

Range State

Published distribution reference

› For more information on this species see page 72 of the linked document (Mammals of Liechtenstein).

Barbastella darjelingensis

Published distribution reference

› Liechtenstein is not a Range State for this species.

Barbastella leucomelas

Published distribution reference

› Liechtenstein is not a Range State for this species.

Eptesicus anatolicus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Eptesicus bottae

Published distribution reference
> Liechtenstein is not a Range State for this species.

Eptesicus isabellinus

Published distribution reference
> Liechtenstein is not a Range State for this species.

Eptesicus nilssonii

Choose the one that applies.
 Range State

Published distribution reference
> For more information on this species see page 86 of the linked document (Mammals of Liechtenstein).

Eptesicus ognevi

Published distribution reference
> Liechtenstein is not a Range State for this species.

Eptesicus serotinus

Choose the one that applies.
 Range State

Published distribution reference
> For more information on this species see page 84 of the linked document (Mammals of Liechtenstein).

Eptesicus sodalis

Published distribution reference
> Liechtenstein is not a Range State for this species.

Hypsugo savii

Choose the one that applies.
 Range State

Published distribution reference
> For more information on this species see page 82 of the linked document (Mammals of Liechtenstein).

Miniopterus haradai

Published distribution reference
> Liechtenstein is not a Range State for this species.

Miniopterus majori

Published distribution reference
> Liechtenstein is not a Range State for this species.

Miniopterus natalensis

Published distribution reference
> Liechtenstein is not a Range State for this species.

Miniopterus oceanensis

Published distribution reference
> Liechtenstein is not a Range State for this species.

Miniopterus schreibersii

Published distribution reference
> Liechtenstein is not a Range State for this species.

Myotis alcathoe

Published distribution reference

› Liechtenstein is not a Range State for this species.

Myotis aurascens

Published distribution reference

› Liechtenstein is not a Range State for this species.

Myotis bechsteini

Published distribution reference

› Liechtenstein is not a Range State for this species.

Myotis bechsteinii

Choose the one that applies.

Range State

Published distribution reference

› For more information on this species see page 62 of the linked document (Mammals of Liechtenstein).

Myotis blythii

Choose the one that applies.

Range State

Published distribution reference

› For more information on this species see page 60 of the linked document (Mammals of Liechtenstein).

Please note that the European species is now called *Myotis oxygnathus*! *Myotis blythii* is the name for the asiatic species. See „Handbuch der Fledermäuse Europas und Nordwestafrikas“ from Dietz/Helversen/Nil

Myotis brandti

Published distribution reference

› Liechtenstein is not a Range State for this species.

Myotis brandtii

Published distribution reference

› Liechtenstein is not a Range State for this species.

Myotis capaccinii

Published distribution reference

› Liechtenstein is not a Range State for this species.

Myotis dasycneme

Published distribution reference

› Liechtenstein is not a Range State for this species.

Myotis daubentonii

Choose the one that applies.

Range State

Published distribution reference

› For more information on this species see page 64 of the linked document (Mammals of Liechtenstein).

Myotis emarginatus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Myotis hajastanicus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Myotis myotis

Choose the one that applies.

Range State

Published distribution reference

> For more information on this species see page 58 of the linked document (Mammals of Liechtenstein).

Myotis mystacinus

Choose the one that applies.

Range State

Published distribution reference

> For more information on this species see page 54 of the linked document (Mammals of Liechtenstein).

Myotis nathalinae

Published distribution reference

> Liechtenstein is not a Range State for this species.

Myotis nattereri

Choose the one that applies.

Range State

Published distribution reference

> For more information on this species see page 56 of the linked document (Mammals of Liechtenstein).

Myotis nipalensis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Myotis petax

Published distribution reference

> Liechtenstein is not a Range State for this species.

Myotis punicus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Myotis schaubi

Published distribution reference

> Liechtenstein is not a Range State for this species.

Myotis surinamensis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Nyctalus lasiopterus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Nyctalus leisleri

Choose the one that applies.

Range State

Published distribution reference

› For more information on this species see page 90 of the linked document (Mammals of Liechtenstein).

Nyctalus noctula

Choose the one that applies.

Range State

Published distribution reference

› For more information on this species see page 92 of the linked document (Mammals of Liechtenstein).

Nyctalus verrucosus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Otonycteris hemprichi

Published distribution reference

› Liechtenstein is not a Range State for this species.

Otonycteris hemprichii

Published distribution reference

› Liechtenstein is not a Range State for this species.

Pipistrellus kuhlii

Choose the one that applies.

Range State

Published distribution reference

› For more information on this species see page 80 of the linked document (Mammals of Liechtenstein).

Pipistrellus nathusii

Choose the one that applies.

Range State

Published distribution reference

› For more information on this species see page 76 of the linked document (Mammals of Liechtenstein).

Pipistrellus pipistrellus

Choose the one that applies.

Range State

Published distribution reference

› For more information on this species see page 54 of the linked document (Mammals of Liechtenstein).

Pipistrellus pygmaeus

Choose the one that applies.

Range State

Published distribution reference

› For more information on this species see page 78 of the linked document (Mammals of Liechtenstein).

Pipistrellus savii

Published distribution reference

› Liechtenstein is not a Range State for this species.

Plecotus ariel

Published distribution reference

› Liechtenstein is not a Range State for this species.

Plecotus auritus

Choose the one that applies.

Range State

Published distribution reference

> For more information on this species see page 66 of the linked document (Mammals of Liechtenstein).

Plecotus austriacus

Choose the one that applies.

Range State

Published distribution reference

> For more information on this species see page 70 of the linked document (Mammals of Liechtenstein).

Plecotus christiei

Published distribution reference

> Liechtenstein is not a Range State for this species.

Plecotus christii

Published distribution reference

> Liechtenstein is not a Range State for this species.

Plecotus homochrous

Published distribution reference

> Liechtenstein is not a Range State for this species.

Plecotus kolombatovici

Published distribution reference

> Liechtenstein is not a Range State for this species.

Plecotus kozlovi

Published distribution reference

> Liechtenstein is not a Range State for this species.

Plecotus macrobullaris

Choose the one that applies.

Range State

Published distribution reference

> For more information on this species see page 68 of the linked document (Mammals of Liechtenstein).

Plecotus ognevi

Published distribution reference

> Liechtenstein is not a Range State for this species.

Plecotus sacrimontis

Published distribution reference

> Liechtenstein is not a Range State for this species.

Plecotus sardus

Published distribution reference

> Liechtenstein is not a Range State for this species.

Plecotus turkmenicus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Plecotus wardi

Published distribution reference

› Liechtenstein is not a Range State for this species.

Vespertilio murinus

Choose the one that applies.

Range State

Published distribution reference

› For more information on this species see page 88 of the linked document (Mammals of Liechtenstein).

Order PHOENICOPTERIFORMES, Family PHOENICOPTERIDAE

Phoenicopterus andinus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Phoenicopterus jamesi

Published distribution reference

› Liechtenstein is not a Range State for this species.

Order TESTUDINATA, Family CHELONIIDAE

Caretta caretta

Published distribution reference

› Liechtenstein is not a Range State for this species.

Chelonia mydas

Published distribution reference

› Liechtenstein is not a Range State for this species.

Eretmochelys imbricata

Published distribution reference

› Liechtenstein is not a Range State for this species.

Lepidochelys kempii

Published distribution reference

› Liechtenstein is not a Range State for this species.

Lepidochelys olivacea

Published distribution reference

› Liechtenstein is not a Range State for this species.

Natator depressus

Published distribution reference

› Liechtenstein is not a Range State for this species.

Order TESTUDINATA, Family DERMOCHELYIDAE

Dermochelys coriacea

Published distribution reference

› Liechtenstein is not a Range State for this species.
