

CONVENTION ON MIGRATORY SPECIES

Distr: GENERAL

UNEP/CMS/Recommendation 8.28

ORIGINAL: ENGLISH

COOPERATIVE ACTIONS FOR APPENDIX II SPECIES

Adopted by the Conference of the Parties at its Eighth Meeting (Nairobi, 20-25 November 2005)

Noting that there are species or populations of species listed in Appendix II that have an unfavourable conservation status and which require cooperation at the international level for their conservation and management;

Aware that not all such species are currently the object of an Agreement or can reasonably be expected in the short term, to become the object of an Agreement to assist with their conservation; and

Noting further the conclusions and recommendations of the 13th meeting of the Scientific Council (Nairobi, November 2005);

The Conference of the Parties to the Convention on the Conservation of Migratory Species of Wild Animals

1. *Recommends* that the Parties undertake cooperative action to improve the conservation status of these species;
2. *Instructs* the Scientific Council to prepare for each meeting of the Conference of the Parties a list of such Appendix II species for which, or for populations of which, conclusion of an Agreement is not anticipated during the forthcoming triennium, but which require attention within the triennium;
3. *Directs* the Secretariat to assist the Scientific Council in establishing this review process, ensuring that a regular update of status is provided by the relevant focal point Councillor; and
4. *Endorses* the list of species to be the object of cooperative actions for the period 2006-2008, as it appears in the table attached to this recommendation.

SPECIES DESIGNATED FOR COOPERATIVE ACTIONS DURING 2006-2008

Scientific name
<i>Miniopterus schreibersii</i>
<i>Otomops martiensseni</i>
<i>Eidolon helvum</i>
<i>Lagenorhynchus australis</i>
<i>Lagenorhynchus obscurus</i>
<i>Phocoena spinipinnis</i>
<i>Phocoena dioptrica</i>
<i>Cephalorhynchus commersonii</i>
<i>Cephalorhynchus eutropia</i>
<i>Neophocaena phocaenoides</i>
<i>Sousa chinensis</i>
<i>Tursiops aduncus</i>
<i>Stenella attenuata</i>
<i>Stenella longirostris</i>
<i>Lagenodelphis hosei</i>
<i>Orcaella brevirostris</i>
<i>Loxodonta africana</i> (Central African populations)
<i>Equus hemionus</i> (s.l.)
<i>Gazella subgutturosa</i>
<i>Procapra gutturosa</i>
<i>Crex crex</i>
<i>Coturnix coturnix coturnix</i>
<i>Cygnus melanocorypha</i>
<i>Acipenser baerii baicalensis</i>
<i>Acipenser gueldenstaedtii</i>
<i>Acipenser medirostris</i>
<i>Acipenser mikadoi</i>
<i>Acipenser naccarii</i>
<i>Acipenser nudiventris</i>
<i>Acipenser persicus</i>
<i>Acipenser ruthenus</i>
<i>Acipenser schrenckii</i>
<i>Acipenser sinensis</i>
<i>Acipenser stellatus</i>
<i>Acipenser sturio</i>
<i>Huso dauricus</i>
<i>Huso huso</i>
<i>Pseudoscaphirhynchus fedtschenkoi</i>
<i>Pseudoscaphirhynchus hermanni</i>
<i>Pseudoscaphirhynchus kaufmanni</i>
<i>Psephurus gladius</i>
