FORMAT FOR NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

Reporting format agreed by the Standing Committee at its 32nd Meeting (Bonn, November 2007) for mandatory use by Parties, for reports submitted to the Tenth Meeting of the Conference of the Parties (COP10) (Norway, 2011).

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

COP Resolution 9.4 adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. If the development of an online reporting system advances sufficiently, Parties may have the option of reporting in this manner. There are however no guarantees at this stage that this will be the case.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

This document has been designed with semi-automated text-form fields. Please double click on the grey boxes to enter the field. You can then enter the required information. Continue to do so with each text-field or jump to the next field directly by using the tab key. Where checkboxes are available you might check these with a single click.

Please enter here the name of your country**: Bailiwick of Guernsey**

Which agency has been primarily responsible for the preparation of this report?
Environment Department, Sir Charles Frossard House, La Charroterie, St Peter Port, Guernsey

Please list any other agencies that have provided input:
Guernsey Biological Records Centre, La Ramée, St Peter Port, Guernsey

I(b). Information about involved Authorities

II.   Appendix I species

1.   BIRDS

1.1   General questions on Appendix I bird species

1	Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)? If *other* legislation is relevant, please provide details:	☐ Yes ☐ No
1a	If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7):	☐ Yes ☐ No
2	Identify any obstacles to migration that exist in relation to Appendix I bird species: By-catch ☐ Electrocution ☐ Habitat destruction ☐ Wind turbines ☐ Pollution ☐ Other (please provide details)	
2a	What actions are being undertaken to overcome these obstacles?	
2b	Please report on the progress / success of the actions taken.	
2c	What assistance, if any, does your country require in order to overcome these obstacles?	
3	What are the major threats to Appendix I bird species (transcending mere obstacles to migration)? Illegal trade ☐ Poaching ☐ Other (please specify)	
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour?	
3b	Please report on the progress / success of the actions taken.	
3c	Describe any factors that may limit action being taken in this regard:	
3d	What assistance, if any, does your country require to overcome these factors?	

1.2   Questions on specific Appendix I bird species

In the following section, using the table format below, please fill in each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

Species name – Common Name(s) Acrocephalus paludicola – Aquatic Warbler	
1	Please provide published distribution reference: http://www.guernseybirds.org.gg/species_accounts/load_account.php?euring=12420
2a	Summarise information on population size (if known): increasing ☐ decreasing ☐ stable ☐ not known ☒ unclear ☐
2b	Summarise information on distribution (if known): increasing ☐ decreasing ☐ stable ☐ not known ☐ unclear ☐
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research ☐ Identification and establishment of protected areas ☐ Monitoring ☐ Education/awareness rising ☐ Species protection ☐ Control hunting / poaching ☐ Species restoration ☐ Habitat protection ☐ Habitat restoration ☐ Other ☐
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? Best habitats in private ownership
5	Describe any future activities that are planned for this species:
Species name – Common Name(s) Ferruginous Duck Aythya nyroca	
1	Please provide published distribution reference: http://www.geocities.com/mplawlorgue/CIbirdlistDec2006.doc
2a	Summarise information on population size (if known): increasing ☐ decreasing ☐ stable ☐ not known ☒ unclear ☐ Jersey 1 record, 15/11-16/12/1986. Alderney 1 record, 29/9/1991.
2b	Summarise information on distribution (if known): increasing ☐ decreasing ☐ stable ☐ not known ☐ unclear ☐

3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

Annex: Updating Data on Appendix II Species

The tables below contain the list of all species listed in Appendix II.

New Parties which have acceded since COP9 in 2008 and Parties which did not submit a National Report in 2008 are requested to complete the entire form.

Parties that did submit a report in 2008 need only which information has changed (e.g. new published distribution references and details concerning species added to Appendix II at COP8 and COP9).

All species of each of the Families below are listed in Appendix II. If your country is a Range State for any of the species in these Families, please enter the species name in the first column, under the relevant Family heading. Please indicate (with a 'X') whether your country is a Range State or the species is extinct and, where appropriate, please provide published distribution references. (Space is provided for ten species in each Family. If additional lines are required, please attach the information as an annex).
