

**Format for reports of Parties on implementation of the
Convention on the Conservation of Migratory Species
of Wild Animals (revision of June 2003)**

Reporting format agreed by the Standing Committee at its 26th Meeting (Bonn, June 2003) for mandatory use by Parties, for reports submitted to the Eighth Meeting of the Conference of the Parties (COP8) (Nairobi, 2005).

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

Please refer to the separate instructions on completing the report. Parties are encouraged to respond to all questions, since it cannot be assumed that the absence of a response indicates that no activities taken have place in the current reporting period. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

Which agency has been primarily responsible for the preparation of this report? Nature Protection Department of Ministry of Environment List any other agencies that have provided input:

I(a). General Information

Please complete any unfilled boxes and amend and/or update as appropriate the information provided in the table below:

Reports submitted:	2002
Period covered by this report:	till 1 January, 2005
Date of entry into force of the Convention in Latvia:	1 July 1999
Territory to which the Convention applies:	Latvia
Reservations (against species listings)	No
Designated Focal Point: Mr. Vilnis Bernards Ministry of Environment of Latvia Peldu 25 1494 Riga Latvia Tel.: (+371) 702 65 24 Fax: (+371) 782 04 42 E-mail: vilnis.bernards@vidm.gov.lv	Appointment to the Scientific Council: Dr. Otars Opermanis Laboratory of Ornithology Institute of Biology Miera Str. 3 2169 Salaspils Latvia Tel.: (+371) 294 54 37/ (+371) 948 56 26 Fax: (+371) 783 02 91 E-mail: otars@parks.lv
Membership of the Standing Committee:	Not applicable
Competent authority:	Ministry of Environment
Implementing legislation:	Law on the Convention on the Conservation of Migratory Species of Wild Animals (adopted 11 March 1999) Law on Species and Habitat Protection (2000)

	<p>Cabinet of Ministers Regulations No. 396 "On list of specially protected species and species with exploitation limits" (2000)</p> <p>Cabinet of Ministers Regulations No. 421 "On list of specially protected habitats" (2000)</p> <p>Cabinet of Ministers Regulations No. 45 "On establishment, management and protection of Micro Reserves" (2001)</p> <p>Cabinet of Ministers Regulations No. 345 "On compensation for significant damage for land users caused by the specially protected non-game species and migratory species" (2001)</p> <p>Law on Specially Protected Nature Territories (1993)</p> <p>Cabinet of Ministers Regulations No. 415 "On the General Protection and Use of Specially Protected Nature Territories"(2003)</p> <p>Hunting Law(2003)</p> <p>Cabinet of Ministers Regulations No. 760 "Hunting Regulations"(2003)</p> <p>Cabinet of Ministers Regulations No. 10 "Regulations on the Agreement on the Conservation of Bats in Europe"(2003)</p>
Other relevant conventions/agreements (apart from CMS) to which Latvia is a Party:	CBD, Ramsar Convention, Bern Convention On Conservation o European Wildlife and Natural Habitats
National policy instruments (e.g. national biodiversity conservation strategy, etc.):	National Programme on Biological Diversity (Accepted by Cabinet of Ministers in 1 February, 2000)

Membership of other committees or working groups:	

I(b). Additional General Information

1	<p>Which other government departments are involved in activities/initiatives for the conservation of migratory species in your country? (Please list.)</p> <p>Nature Protection Board, State Forest Service, State Fisheries Board</p> <p>The Ministry of Environment has been appointed as coordinator for implementation of the Convention.</p>
1a	<p>If more than one government department is involved, describe the interaction/relationship between these government departments:</p> <p>State Fisheries Board is responsible on fisheries issues. State Forest Service on hunting issues. Nature Conservation Board on elaboration of species management plans, issuance of permits etc.</p>
2	<p>List the main non-governmental organizations actively involved in initiatives for the conservation of migratory species in your country, and describe their involvement:</p> <p>The Institute of Biology (University of Latvia), Latvian Fund for Nature, Latvian Ornithological Society, Terriological Society, Specially Protected Nature Territories Administrations and other partners carried out research activities. WWF Latvia and Latvian Fund for Nature are implementing EU Life Nature projects.</p>
3	<p>Describe any involvement of the private sector in the conservation of migratory species in your country:</p> <p>Microreserves and Specially Protected Nature Territories for migratory species conservation are established also on private property.</p>
4	<p>Note any interactions between these sectors in the conservation of migratory species in your country:</p> <p>Private land owners are involved in the conservation of migratory species with compensation system for significant damage for land users caused by the specially protected non-game species and migratory species. Compensation funded by State Environmental Protection Fund (State budget).</p>

Appendix I species

1. BIRDS

1.1 General questions on Appendix I bird species

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I bird species: Ministry of Environment Nature Protection Department and Nature Protection Board
2	Is the taking of all Appendix I bird species prohibited by the national implementing Legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No Law on Species and Habitats Protection (2000) Cabinet of Ministers Regulations No. 396 "On list of specially protected species and species with exploitation limits" (2000) If <i>other</i> legislation is relevant, please provide details: Cabinet of Ministers Regulations No. 117 "On Recompense of Damage for Spoilage or Destruction of individuals of Specially Protected Species and Habitats"(2001)
2a	If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):
3	Identify any obstacles to migration that exist in relation to Appendix I bird species: N/A
3a	What actions are being undertaken to overcome these obstacles? N/A
3b	What assistance, if any, does your country require in order to overcome these obstacles? N/A
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))? Introduction of non- native species is prohibited by Law on Species and Habitats Protection (Article, 18) Hunting season for two invasive species (<i>Mustela vision</i> and <i>Nyctereutes procyonoides</i>) is open whole year. Natural habitats are being protected (see "Other remarks" section).
4a	Describe any factors that may limit action being taken in this regard: Luck of interests from stakeholders
4b	What assistance, if any, does your country require to overcome these factors?

1.2 Questions on specific Appendix I bird species

The following section contains a table for each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species</i> <i>Haliaeetus albicilla</i> – Common Name(s) White-tailed Eagle

1	Is your country a Range State for this species? X Yes <input type="checkbox"/> No
2	Please provide published distribution reference: BirdLife International (2004) <i>Birds in Europe: population estimates, trends and conservation status</i> . Cambridge, UK: BirdLife International (BirdLife Conservation Series No.12)
3	Summarise information on population size, trends and distribution (if known): The breeding population is estimated at 30-40 pairs, population increasing
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research X Monitoring X Species protection <input type="checkbox"/> Species restoration X Habitat protection Breeding sites are under protection. In accordance with Cabinet of Ministers Regulations No. 45 "On establishment, management and protection of Micro Reserves" (2001), nest protection micro-reserves must be established for <i>Haliaeetus albicilla</i> (area size 50-200 ha). <input type="checkbox"/> Habitat restoration X Other The White-tailed Eagle is a specially protected species in Latvia.
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:

Species <i>Aquila clanga</i> – Common Name(s) Greater Spotted Eagle	
1	Is your country a Range State for this species? X Yes <input type="checkbox"/> No
2	Please provide published distribution reference: BirdLife International (2004) <i>Birds in Europe: population estimates, trends and conservation status</i> . Cambridge, UK: BirdLife International (BirdLife Conservation Series No.12)
3	Summarise information on population size, trends and distribution (if known): The population is estimated to be 0-5 pairs.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input type="checkbox"/> Monitoring X Species protection <input type="checkbox"/> Species restoration X Habitat protection The breeding sites are under protection. In accordance with Cabinet Ministers Regulations No. 45 "On establishment, management and protection of Micro Reserves" (2001), nest protection micro-reserves must be established for <i>Aquila clanga</i> (area size 10-200 ha). <input type="checkbox"/> Habitat restoration X Other The Greater Spotted Eagle is a specially protected species in Latvia.
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

6	Describe any future activities that are planned for this species:
---	---

<i>Species Anser erythropus</i> – Common Name(s) Lesser White-fronted Goose	
1	Is your country a Range State for this species? X Yes <input type="checkbox"/> No
2	Please provide published distribution reference: Celmins,A.,Matrozis, R.,(Latvijas putni.) Internet site: http://www.putni.lv
3	Summarise information on population size, trends and distribution (if known): Breeding has never been recorded in Latvia. Very few records during migration. Irregular migrant.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input type="checkbox"/> Monitoring X Species protection <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration X Other The Lesser White-fronted Goose is a specially protected species in Latvia.
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:

<i>Species Branta ruficollis</i> – Common Name(s) Red-breasted Goose	
1	Is your country a Range State for this species? X Yes <input type="checkbox"/> No
2	Please provide published distribution reference: Celmins,A.,Matrozis, R.,(Latvijas putni.) Internet site: http://www.putni.lv
3	Summarise information on population size, trends and distribution (if known): Non-breeding in Latvia. Very few records during migration. Irregular migrant.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input type="checkbox"/> Monitoring X Species protection <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration X Other The Red-breasted Goose is a specially protected species in Latvia.
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

6	Describe any future activities that are planned for this species:
---	---

<i>Species Aythya nyroca</i> – Common Name(s) Ferruginous Pochard, Ferruginous Duck	
1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2	Please provide published distribution reference: Otars Opermanis.2003 Ferruginous duck in Latvia: A historical overview.In: Petkov,N.,Hughes, B. and Gallo-Orsi, U.(editors). Furruginous Duck: From Research to Conservation, Conservation SeriesNr. 6. BirdLife Internacional-BSPB-TWSG, Sofia,pp.77
3	Summarise information on population size, trends and distribution (if known): The Ferruginous Duck is an irregular breeder, last record on one pair in 1992. No regular records.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input type="checkbox"/> Monitoring X Species protection <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration X Other The Ferruginous Duck is a specially protected species in Latvia.
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:

<i>Species Polysticta stelleri</i> – Common Name(s) Steller's Eider	
1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2	Please provide published distribution reference: BirdLife International (2004) <i>Birds in Europe: population estimates, trends and conservation status</i> . Cambridge, UK: BirdLife International (BirdLife Conservation Series No.12)
3	Summarise information on population size, trends and distribution (if known): Steller's Eider appears irregularly. The wintering population 0-20i.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input type="checkbox"/> Monitoring X Species protection <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration X Other Steller's Eider is a specially protected species in Latvia.
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:

--	--

<i>Species Acrocephalus paludicola</i> – Common Name(s) Aquatic Warbler	
1	Is your country a Range State for this species? X Yes <input type="checkbox"/> No
2	Please provide published distribution reference: BirdLife International (2004) <i>Birds in Europe: population estimates, trends and conservation status</i> . Cambridge, UK: BirdLife International (BirdLife Conservation Series No.12)
3	Summarise information on population size, trends and distribution (if known): Lake Liepajas is the only site in which singing males were recorded. Population 0-10 pairs.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input type="checkbox"/> Monitoring X Species protection <input type="checkbox"/> Species restoration X Habitat protection Lake Liepajas is a specially protected nature area. <input type="checkbox"/> Habitat restoration X Other The Aquatic Warbler is a specially protected species in Latvia.
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:

If you have information indicating that your country should be considered a Range State for any other bird species that is listed in CMS Appendix I, but which is not included in the tables above, please complete a table (provided below) for each species.

<i>Species name, Common Name(s):</i> N/A	
1	Please provide published distribution reference:
2	Summarise information on population size, trends and distribution (if known):
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): <input type="checkbox"/> Research <input type="checkbox"/> Monitoring <input type="checkbox"/> Species protection <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species:

--	--

Miscellaneous information or comments on Appendix I birds in general:

2. MARINE MAMMALS

2.1 General questions on Appendix I marine mammals

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed marine mammals: N/A
2	Is the taking of all Appendix I marine mammals prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details: N/A
2a	If the taking of Appendix I marine mammals is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)): N/A
3	Identify any obstacles to migration that exist in relation to Appendix I marine mammals: N/A
3a	What actions are being undertaken to overcome these obstacles? N/A
3b	What assistance, if any, does your country require in order to overcome these obstacles? N/A
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine mammal, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))? N/A
4a	Describe any factors that may limit action being taken in this regard: N/A
4b	What assistance, if any, does your country require to overcome these factors? N/A

2.2 Questions on specific Appendix I marine mammals

If you have information indicating that your country should be considered a Range State for any marine mammal species that is listed in CMS Appendix I, please complete a table (provided below) for each species.

<i>Species name, Common name(s):</i> N/A	
1	Please provide published distribution reference: N/A
2	Summarise information on population size, trends and distribution (if known): N/A
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): <input type="checkbox"/> Research <input type="checkbox"/> Monitoring <input type="checkbox"/> Species protection <input type="checkbox"/> Species restoration

	<input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? N/A
5	Describe any future activities that are planned for this species: N/A

Miscellaneous information or comments on Appendix I marine mammals in general: N/A

3 MARINE TURTLES

3.1 General questions on Appendix I marine turtles

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed marine turtles: N/A
2	Is the taking of all Appendix I marine turtles prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details: N/A
2a	If the taking of Appendix I marine turtles is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)): N/A
3	Identify any obstacles to migration that exist in relation to Appendix I marine turtles: N/A
3a	What actions are being undertaken to overcome these obstacles? N/A
3b	What assistance, if any, does your country require in order to overcome these obstacles? N/A
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine turtles, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))? N/A
4a	Describe any factors that may limit action being taken in this regard: N/A
4b	What assistance, if any, does your country require to overcome these factors? N/A

3.2 Questions on specific Appendix I marine turtles

If you have information indicating that your country should be considered a Range State for any marine turtle species that is listed in CMS Appendix I, please complete a table (provided below) for each species.

<i>Species name, Common name(s):</i> N/A	
1	Please provide published distribution reference: N/A
2	Summarise information on population size, trends and distribution (if known): N/A
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): <input type="checkbox"/> Research <input type="checkbox"/> Monitoring <input type="checkbox"/> Species protection <input type="checkbox"/> Species restoration

	<input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? N/A
5	Describe any future activities that are planned for this species? N/A

Miscellaneous information or comments on Appendix I marine turtles in general: N/A

4 TERRESTRIAL MAMMALS (OTHER THAN BATS)

4.1 General questions on Appendix I terrestrial mammals (other than bats)

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed terrestrial mammals (other than bats): N/A
2	Is the taking of all Appendix I terrestrial mammals (other than bats) prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details: N/A
2a	If the taking of Appendix I terrestrial mammals (other than bats) is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)): N/A
3	Identify any obstacles to migration that exist in relation to Appendix I terrestrial mammals (other than bats): N/A
3a	What actions are being undertaken to overcome these obstacles? N/A
3b	What assistance, if any, does your country require in order to overcome these obstacles? N/A
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of terrestrial mammal (other than bats), including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))? N/A
4a	Describe any factors which limit action being taken in this regard: N/A
4b	What assistance, if any, does your country require to overcome these factors? N/A

4.2 Questions on specific Appendix I terrestrial mammals (other than bats)

If you have information indicating that your country should be considered a Range State for any terrestrial mammal species (other than bats) that is listed in CMS Appendix I, please complete a table (provided below) for each species.

<i>Species name, Common name(s):</i> N/A	
1	Please provide published distribution reference: N/A
2	Summarise information on population size, trends and distribution (if known): N/A
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): <input type="checkbox"/> Research <input type="checkbox"/> Monitoring <input type="checkbox"/> Species protection <input type="checkbox"/> Species restoration

	<input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? N/A
5	Describe any future activities that are planned for this species: N/A

Miscellaneous information or comments on Appendix I terrestrial mammals (other than bats) in general: N/A

5 BATS

5.1 General questions on Appendix I bats

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed bats: N/A
2	Is the taking of all Appendix I bats prohibited by the national implementing Legislation cited in Table I(a) (General Information)? <input type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details: N/A
2a	If the taking of Appendix I bats is prohibited by law, have any exceptions Been granted to the prohibition? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)): N/A
3	Identify any obstacles to migration that exist in relation to Appendix I bats: N/A
3a	What actions are being undertaken to overcome these obstacles? N/A
3b	What assistance, if any, does your country require in order to overcome these obstacles? N/A
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of bats, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))? N/A
4a	Describe any factors that may limit action being taken in this regard: N/A
4b	What assistance, if any, does your country require to overcome these factors? N/A

5.2 Questions on specific Appendix I bat species

If you have information indicating that your country should be considered a Range State for any bat species that is listed in CMS Appendix I, please complete a table (provided below) for each species.

<i>Species name, Common name(s):</i> N/A	
1	Please provide published distribution reference:
2	Summarise information on population size, trends and distribution (if known):
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p><input type="checkbox"/> Research</p> <p><input type="checkbox"/> Monitoring</p> <p><input type="checkbox"/> Species protection</p> <p><input type="checkbox"/> Species restoration</p>

	<input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species?

Miscellaneous information or comments on Appendix I bats in general:

6 OTHER TAXA

6.1 General questions on Appendix I species belonging to other taxa

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed species belonging to taxa not included in sections 1-5 above:
2	Is the taking of all Appendix I species belonging to taxa not included in sections 1-5 above, prohibited by the national legislation listed as being implementing legislation in Table I(a) (General Information)? <input type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I species belonging to taxa not included in sections 1-5 above is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):
3	Identify any obstacles to migration that exist in relation to Appendix I species belonging to taxa not included in sections 1-5 above:
3a	What actions are being undertaken to overcome these obstacles?
3b	What assistance, if any, does your country require in order to overcome these obstacles?
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species belonging to taxa not included in section 1-5 above, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))?
4a	Describe any factors that may limit action being taken in this regard:
4b	What assistance, if any, does your country require to overcome these factors?

6.2 Questions on specific Appendix I species belonging to other taxa

If you have information indicating that your country should be considered a Range State for any Appendix I listed species that belongs to taxa not included in sections 1-5 above, please complete a table (provided below) for each species.

<i>Species name, Common name(s):</i> N/A	
1	Please provide published distribution reference:
2	Summarise information on population size, trends and distribution (if known):
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): <input type="checkbox"/> Research <input type="checkbox"/> Monitoring

	<input type="checkbox"/> Species protection <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species?

Miscellaneous information or comments on Appendix I species that belong to taxa not included in sections 1-5 above:	

7 LISTING OF OTHER ENDANGERED MIGRATORY SPECIES IN APPENDIX I

1	Is your country a Range State for any other endangered migratory species not currently listed in Appendix I? If Yes, please provide details:	<input type="checkbox"/> Yes X No
1a	Is your country taking any steps to propose listing any of these species? If Yes, please provide details:	<input type="checkbox"/> Yes X No
1b	What assistance, if any, does your country require to initiate the listing of these species?	

III. Appendix II Species

1. INFORMATION ON APPENDIX II SPECIES

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the secretariat each of the Agreement/MoUs to which your country is a Party.

2. QUESTIONS ON CMS AGREEMENTS

2.1 Questions on the development of new CMS Agreements relating to birds

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bird species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bird species? If Yes, please provide details: Latvia in participant in Memorandum of Understanding on the Aquatic Warbler (<i>Acrocephalus paludicola</i>).	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for birds, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

2.2 Questions on the development of new CMS Agreements relating to marine mammals

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine mammal species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine mammal species? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	

4	Is the development of any CMS Agreement for marine mammals, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes X No
---	---	-------------------------------------

2.3 Questions on the development of new CMS Agreements relating to marine turtles

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine turtles? If Yes, what is the current state of development?	<input type="checkbox"/> Yes X No
2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine turtles? If Yes, please provide details:	<input type="checkbox"/> Yes X No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for marine turtles, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes X No

2.4 Questions on the development of new CMS Agreements relating to terrestrial mammals (other than bats)

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, what is the current state of development?	<input type="checkbox"/> Yes X No
2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, please provide details:	<input type="checkbox"/> Yes X No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for terrestrial mammals (other than bats), including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes X No

2.5 Questions on the development of new CMS Agreements relating to bats

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bat species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes X No
2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bat species? If Yes, please provide details:	<input type="checkbox"/> Yes X No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	

4	Is the development of any CMS Agreement for bats, including Memoranda of Understanding, planned by your country in the future? If Yes, please provide details:	<input type="checkbox"/> Yes X No
---	---	-------------------------------------

2.6 Questions on the development of new CMS Agreements relating to other taxa

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II species belonging to taxa not included in sections 1-6 above? If Yes, what is the current state of development?	<input type="checkbox"/> Yes X No
2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of species belonging to taxa not included in sections 1-6 above? If Yes, please provide details:	<input type="checkbox"/> Yes X No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for other taxa, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes X No

3. LISTING OF MIGRATORY SPECIES IN APPENDIX II

1	Is your country a Range State for any migratory species that has an unfavourable conservation status, but is <u>not</u> currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation? If Yes, please provide details:	<input type="checkbox"/> Yes X No
1a	Is your country taking any steps to propose the listing of this/these species in Appendix II? If Yes, please provide details:	<input type="checkbox"/> Yes X No
1b	What assistance, if any, does your country require to initiate the listing of this/these species?	

IV. National and Regional Priorities

1	What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues?	<input type="checkbox"/> Low <input type="checkbox"/> Medium <input checked="" type="checkbox"/> High																																												
2	Are migratory species and their habitats addressed by your country's national biodiversity strategy or action plan?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No																																												
If Yes, please indicate and briefly describe the extent to which it addresses the following issues:																																														
X Conservation, sustainable use and/or restoration of migratory species																																														
X Conservation, sustainable use and/or restoration of the habitats of migratory species, including protected areas																																														
X Actions to prevent, reduce or control factors that are endangering or are likely to further endanger migratory species (e.g. alien invasive species or by-catch)																																														
X Minimising or eliminating barriers or obstacles to migration																																														
X Research and monitoring of migratory species																																														
X Transboundary co-operation																																														
3	Does the conservation of migratory species currently feature in any other national or regional policies/plans (apart from CMS Agreements)?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No																																												
If Yes, please provide details: National Programme on Biological Diversity																																														
3a	Do these policies/plans cover the following areas (if Yes, please provide details):																																													
<table style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 10%;"></th> <th style="width: 10%; text-align: left;">Yes</th> <th style="width: 10%; text-align: left;">No</th> <th style="width: 80%;"></th> </tr> </thead> <tbody> <tr> <td>X</td> <td><input type="checkbox"/></td> <td></td> <td>Exploitation of natural resources (e.g. fisheries, hunting, etc.)</td> </tr> <tr> <td>X</td> <td><input type="checkbox"/></td> <td></td> <td>Economic development</td> </tr> <tr> <td>X</td> <td><input type="checkbox"/></td> <td></td> <td>Land-use planning</td> </tr> <tr> <td>X</td> <td><input type="checkbox"/></td> <td></td> <td>Pollution control</td> </tr> <tr> <td>X</td> <td><input type="checkbox"/></td> <td></td> <td>Designation and development of protected areas</td> </tr> <tr> <td></td> <td><input type="checkbox"/></td> <td><input type="checkbox"/></td> <td>Development of ecological networks</td> </tr> <tr> <td>X</td> <td><input type="checkbox"/></td> <td></td> <td>Planning of powerlines</td> </tr> <tr> <td></td> <td><input type="checkbox"/></td> <td><input type="checkbox"/></td> <td>Planning of fences</td> </tr> <tr> <td>X</td> <td><input type="checkbox"/></td> <td></td> <td>Planning of dams</td> </tr> <tr> <td></td> <td><input type="checkbox"/></td> <td><input type="checkbox"/></td> <td>Other</td> </tr> </tbody> </table>				Yes	No		X	<input type="checkbox"/>		Exploitation of natural resources (e.g. fisheries, hunting, etc.)	X	<input type="checkbox"/>		Economic development	X	<input type="checkbox"/>		Land-use planning	X	<input type="checkbox"/>		Pollution control	X	<input type="checkbox"/>		Designation and development of protected areas		<input type="checkbox"/>	<input type="checkbox"/>	Development of ecological networks	X	<input type="checkbox"/>		Planning of powerlines		<input type="checkbox"/>	<input type="checkbox"/>	Planning of fences	X	<input type="checkbox"/>		Planning of dams		<input type="checkbox"/>	<input type="checkbox"/>	Other
	Yes	No																																												
X	<input type="checkbox"/>		Exploitation of natural resources (e.g. fisheries, hunting, etc.)																																											
X	<input type="checkbox"/>		Economic development																																											
X	<input type="checkbox"/>		Land-use planning																																											
X	<input type="checkbox"/>		Pollution control																																											
X	<input type="checkbox"/>		Designation and development of protected areas																																											
	<input type="checkbox"/>	<input type="checkbox"/>	Development of ecological networks																																											
X	<input type="checkbox"/>		Planning of powerlines																																											
	<input type="checkbox"/>	<input type="checkbox"/>	Planning of fences																																											
X	<input type="checkbox"/>		Planning of dams																																											
	<input type="checkbox"/>	<input type="checkbox"/>	Other																																											

V. Protected Areas

1	Are migratory species taken into account in the selection, establishment and management of protected areas in your country?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Please provide details: Protection of natural habitats with system of Specially Protected Nature Territories is taken as a base as the most important measure to conserve breeding, wintering and resting habitats of the Appendix I and II species.		
1a	The protected areas cover the following areas? (If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas):	
There are several categories of protected territories, covering 774 189, 05 ha or 11,9 % of total area of Latvia. There are 4 strict nature reserves, three national parks, 250 nature reserves, 38 nature parks and 9 protected landscape areas.		

	<p>Yes No</p> <p>X <input type="checkbox"/> Terrestrial</p> <p>X <input type="checkbox"/> Aquatic</p> <p>X <input type="checkbox"/> Marine</p>
1b	Identify the agency, department or organization responsible for leading on this action in your country: Department of Nature Protection Ministry of Environment.

VI. Policies on Satellite Telemetry

1	<p>In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry? <input type="checkbox"/> Yes X No</p> <p>If Yes, please provide details (Indicate <i>inter alia</i> the scientific justification for the research, describe briefly the measures taken to ensure that risks to the welfare of individual animals and – in the case of severely depleted populations – to the species are minimised, and summarise the results obtained):</p>
2	<p>Are any future conservation/research projects planned that will use satellite telemetry? X Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (including the expected timeframe for these projects):</p> <p>Ciconia nigra satellite telemetry for two birds. One year project for 8 countries (2005).</p> <p>If No, please explain any impediments or requirements in this regard:</p>

VII. Membership

1	<p>Have actions been taken by your country to encourage non-Parties to join CMS and its related Agreements? <input type="checkbox"/> Yes X No</p> <p>If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.)</p>
1a	Identify the agency, department or organization responsible for leading on this action in your country:

VIII. Global and National Importance of CMS

1	<p>Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation? <input type="checkbox"/> Yes X No</p> <p>If Yes, please provide details:</p>
2	Identify the agency, department or organization responsible for leading on this action in your country:

IX. Mobilization of Resources

1	<p>Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country? X Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities): Several LIFE Nature project were co-financed. List of LIFE Nature project important for migratory species conservation included in section Other remarks. Conservation activities related with Ramsar sites habitat management important for water birds</p>
---	--

	conservation. Activities related to <i>Crex crex</i> , <i>Aquila pomarina</i> , <i>Aquila clanga</i> , <i>Ciconia nigra</i> etc. conservation	
2	Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)? If Yes, please provide details (Indicate the migratory species that have benefited from these activities):	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
4	Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species? If Yes, please provide details (Indicate the migratory species that have benefited from these activities):	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
5	Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country? If Yes, please provide details (Indicate the migratory species that have benefited from these activities):	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
6	Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country? If Yes, please provide details (Indicate the migratory species that have benefited from these activities): EU LIFE Nature projects. Benefit to <i>Crex crex</i> , <i>Aquila pomarina</i> , <i>Aquila clanga</i> , <i>Ciconia nigra</i> and to water birds species (Wetlands management projects)	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

X. Implementation of COP Resolutions and Recommendations

Please summarize the measures undertaken by your country to implement the substantive, operational Resolutions and Recommendations adopted by the Conference of the Parties, where these have not been mentioned elsewhere in this report, giving particular emphasis to those identified below (as appropriate).

Since 1 May 2004 Latvia had started environmental impact assessment of the plans and programmes (so called strategic environmental impact assessment), in accordance with the requirements of Directive 2001/42/EC of the European Parliament and the Council of 27 June 2001 on the assessment of the effects of certain plans and programmes on the environment. Its purpose is to assess possible environmental impacts of the implementation of plans and programmes, to involve the public in the discussion and decision making, and to develop proposals for the prevention or minimisation of possible adverse effects of these plans and programmes. Strategic environmental impact assessment shall be carried out during the preparation of plans and programmes, and before their adoption or submission for the adoption procedure.

Strategic environmental impact assessment shall be carried out for plans and programmes, which may have significant impact on human health and the environment, including plans and programmes, which are prepared for agriculture, forestry, fisheries, energy, industry, transport, waste management, water management, telecommunications, tourism, mining, as well as regional development, land use, town and country planning, including those co-financed by the European Community.

Cabinet of Ministers Regulations No 157 of 23 March 2004 "Procedures for strategic environmental impact assessment" detail the procedures for strategic environmental impact assessment and define competences and responsibilities of all involved parties.

Total number of wind turbines in country -32

Resolutions

Resolution 6.2 – By-catch, and Recommendation 7.2 – Implementation of Resolution 6.2 on By-catch:

Resolution 6.3 – Southern Hemisphere Albatross Conservation:

Resolution 7.2 – Impact Assessment and Migratory Species:

Resolution 7.3 – Oil Pollution and Migratory Species:

Resolution 7.4 – Electrocuting of Migratory Birds:

Resolution 7.5 – Wind Turbines and Migratory Species:

Resolution 7.9 – Cooperation with Other Bodies and Processes:

Resolution 7.15 – Future Action on the Antarctic Minke, Bryde's and Pygmy Right Whales under the Convention on Migratory Species:

Recommendations

Recommendation 7.5 – Range State Agreement for Dugong (*Dugong dugon*) Conservation:

Recommendation 7.6 – Improving the Conservation Status of the Leatherback Turtle (*Dermochelys coriacea*):

Recommendation 7.7 – America Pacific Flyway Programme:

Other resolutions/recommendations:

Other remarks:

Protection of Natural Habitats [Birds and protected areas]

Protection of natural habitats is taken as a basic and the most important measure to conserve breeding, wintering and resting habitats of the Appendix I and II bird species in the country. There are several categories of protected territories, covering 774189,05 ha or 11,9% of total area of Latvia. There are 4 strict nature reserves, 3 national parks, 250 nature reserves, 38 nature parks and 9 protected landscape areas.

The Lake Kanieris, Lake Engure, Teichi and Pelechare Bogs, Lubana Wetlands Complex, Pape Wetlands Complex and Ziemelu Bogs are designated as internationally important wetlands under the Ramsar Convention.

Survey Activities [Birds and protected areas]

The major survey activities concerning the habitats of migratory species was conducted in the context of Important Bird Areas inventory and inventories under the project Preparation for Latvia's Compliance with the EMERALD and NATURA 2000 Networks of Protected Areas.

In total, 71 Important Bird Area have been identified in Latvia, 64 of them are inland territories with a total of 534,056 hectares comprising 8,3% of the country's land surface. The other seven areas are marine territories with a total coverage of ca. 339,470 hectares of the Baltic Sea waters. All 64 inland Important Bird Areas are at least partially covered by national Specially Protected Nature Territories (SPNTs) and potential Natura 2000 territories. The total IBA surface area covered by SPNTs is 503,833 ha (94,3%)

The Laboratory of Ornithology, Institute of Biology, University of Latvia is performing the monitoring of migratory waterfowl, including population dynamics for important game species. Complex monitoring of Lake Engure nature park (Ramsar site) has been performed by the Laboratory of Ornithology. New State Biodiversity Monitoring Programme is in preparation.

Mobilisation of Finance Resources [List of EU LIFE Nature project beneficial for migratory species conservation]

Wetlands Conservation in Kemer National Park (2002-2005), total budget 1 925 468 Euro

Lubana Wetlands Complex Environment Management (2003-2007), total budget 1 346 208 Euro

Nature Conservation Actions in Teichi region (2001-2004), total budget 834 000 Euro

Conservation and Management of Coastal Habitats of Latvia (2002-2005), total budget 2 270 860 Euro

Conservation and Management of Two Important Bird Areas (2001-2004), total budget 264 265 Euro

Conservation, Management and Development of Lake Pape (2002-2006), total budget 1 014 714 Euro

Implementation of Lake Engure Nature Park Management Plan (2001-2004), total budget 520 270 Euro

Conservation and Management of Ziemeļgauja valley (2003-2007), total budget 1 615 065 Euro

Annex: Questions on specific Appendix II species

The tables below contain the list of all species listed in Appendix II. Boxes have been checked to indicate the species for which your country is considered to be a Range State. Please amend the boxes where appropriate. (If you wish to provide further information on any of these species, please attach as an annex.) Please also provide published distribution references where available.

All species of each of the Families below are listed in Appendix II. If your country is a Range State for any of the species in these Families, please enter the species name in the first column, under the relevant

Family heading. Please indicate (with a 'X') whether your country is a Range State or the species is extinct and, where appropriate, please provide published distribution references. (Space is provided for ten species in each Family. If additional lines are required, please attach the information as an annex.)
