16 September 2002

ELEVENTH MEETING OF THE
CMS SCIENTIFIC COUNCIL
Bonn, 14-17 September 2002

Contemporary listing of *Procellaria aequinoctialis* and *Procellaria aequinoctialis conspicillata* on Appendix II

1. On the occasion of the 6th Meeting of the Conference of the Parties to CMS the Government of South Africa proposed the inclusion on Appendix II of CMS of the species *Procellaria aequinoctialis* and *Procellaria conspicillata*.
2. Recommendation 6.1 adopted by the 6th Meeting of the Conference of the Parties to CMS recommends that “if the Conference of the Parties decides to place the proposed *Xanthopsar flavus* and *Procellaria conspicillata* on the Appendices, the names *Agelaius flavus* and *Procellaria aequinoctialis conspicillata* should be used, respectively.”
3. The acceptance of both proposals and the application of the above-mentioned instruction concerning nomenclature has led to the contemporary listing of *Procellaria aequinoctialis* and *Procellaria aequinoctialis conspicillata*.
4. The Meeting is requested to examine this issue and make a proposal on how to solve what appears to be an inconsistency of species listing on Appendix II.
