36AAA Criteria for fixing administrative charges

- (1) When fixing charges under section 36, a local authority must have regard to the criteria set out in this section.
- (2) The sole purpose of a charge is to recover the reasonable costs incurred by the local authority in respect of the activity to which the charge relates.
- (3) A particular person or particular persons should be required to pay a charge only—
 - (a) to the extent that the benefit of the local authority's actions to which the charge relates is obtained by those persons as distinct from the community of the local authority as a whole; or
 - (b) where the need for the local authority's actions to which the charge relates results from the actions of those persons; or
 - (c) in a case where the charge is in respect of the local authority's monitoring functions under section 35(2)(a) (which relates to monitoring the state of the whole or part of the environment),—
 - (i) to the extent that the monitoring relates to the likely effects on the environment of those persons' activities; or
 - (ii) to the extent that the likely benefit to those persons of the monitoring exceeds the likely benefit of the monitoring to the community of the local authority as a whole.
- (4) The local authority may fix different charges for different costs it incurs in the performance of its various functions, powers, and duties under this Act—
 - (a) in relation to different areas or different classes of applicant, consent holder, requiring authority, or heritage protection authority; or

- (b) where any activity undertaken by the persons liable to pay any charge reduces the cost to the local authority of carrying out any of its functions, powers, and duties.

Section 36AAA: inserted, on 19 April 2017, by section 21 of the Resource Legislation Amendment Act 2017 (2017 No 15).

36AAB Other matters relating to administrative charges

- (1) A local authority may, in any particular case and in its absolute discretion, remit the whole or any part of any charge of a kind referred to in section 36 that would otherwise be payable.
- (2) Where a charge of a kind referred to in section 36 is payable to a local authority, the local authority need not perform the action to which the charge relates until the charge has been paid to it in full.
- (3) However, subsection (2) does not apply to a charge to which section 36(1)(ab)(ii), (ad)(ii), or (cb)(iv) applies (relating to independent hearings commissioners requested by submitters or reviews required by a court order).
- (4) A local authority must publish and maintain, on an Internet site to which the public has free access, an up-to-date list of charges fixed under section 36.

Section 36AAB: inserted, on 19 April 2017, by section 21 of the Resource Legislation Amendment Act 2017 (2017 No 15).

36AA Local authority policy on discounting administrative charges

 - (a) a local authority that has not adopted a policy under subsection (3) must provide a discount if regulations under section 360(1)(hj) require the local authority to provide a discount:
 - (b) a local authority that has adopted a policy under subsection (3) must provide a discount under whichever of the policy and regulations under section 360(1)(hj) is more generous in the circumstances of the particular case.
- (2) The Minister must recommend to the Governor-General within 9 months of the commencement of section 32 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 that regulations be made under section 360(1)(hj) and the Minister must, before making the recommendation, consult with local authorities about the proposed regulations.
- (2A) The Minister must ensure that regulations made under section 360(1)(hj) remain in force, but this subsection does not prevent regulations made under section 360(1)(hj) (including the regulations made in compliance with subsection (2)) from being amended or from being revoked and replaced by another set of regulations made under section 360(1)(hj).

- (3) A local authority may adopt, in accordance with the special consultative procedure set out in section 83 of the Local Government Act 2002, a policy in respect of discounting administrative charges imposed under section 36 of this Act in the circumstances where—
- (a) an application for a resource consent or an application to change or cancel conditions under section 127 is not processed within the time frames set out in this Act; and
 - (b) the responsibility for the failure rests with the local authority.
- (4) The policy must specify—
- (a) the discount, or the method for determining the discount, that would be given for any application fees or charges paid or owing; and
 - (b) the procedure an applicant must follow to obtain the discount.

- (5) However, the court does not need to make an order under subsection (3) or (4) if it considers that the inconsistency, or failure to give effect to the other policy statement or a national planning standard, is of minor significance that does not affect the general intent and purpose of the policy statement, national planning standard, plan, or water conservation order concerned.

This Part applies subject to Part 6A.

Section 87AA: inserted, on 26 March 2002, by section 7 of the Resource Management (Aquaculture Moratorium) Amendment Act 2002 (2002 No 5).

87AAB Meaning of boundary activity and related terms

- (1) An activity is a **boundary activity** if—
- (a) the activity requires a resource consent because of the application of 1 or more boundary rules, but no other district rules, to the activity; and
 - (b) no infringed boundary is a public boundary.
- (2) In this section,—
- boundary rule** means a district rule, or part of a district rule, to the extent that it relates to—
- (a) the distance between a structure and 1 or more boundaries of an allotment; or

- (b) the dimensions of a structure in relation to its distance from 1 or more boundaries of an allotment

infringed boundary, in relation to a boundary activity,—

- (a) means a boundary to which an infringed boundary rule applies:
- (b) if there is an infringement to a boundary rule when measured from the corner point of an allotment (regardless of where the infringement is to be measured from under the district plan), means every allotment boundary that intersects with the point of that corner:
- (c) if there is an infringement to a boundary rule that relates to a boundary that forms part of a private way, means the allotment boundary that is on the opposite side of the private way (regardless of where the infringement is to be measured from under the district plan)

public boundary means a boundary between an allotment and any road, river, lake, coast, esplanade reserve, esplanade strip, other reserve, or land owned by the local authority or by the Crown.

87AAC Meaning of fast-track application

- (1) An application is a **fast-track application** if—
 - (a) the application is for a resource consent for 1 or both of the following, but no other, activities:
 - (i) a controlled activity that requires consent under a district plan (other than a subdivision of land):
 - (ii) an activity prescribed, or identified in the manner prescribed, under section 360G(1)(a); and
 - (b) the application includes an address for service that is an electronic address.
- (2) An application described in subsection (1) ceases to be a fast-track application if—
 - (a) a consent authority gives public or limited notification of the application; or
 - (b) a hearing is to be held for the application; or
 - (c) at the time the application is lodged, the applicant notifies the consent authority that the applicant wishes to opt out of the fast track process.
- (3) To avoid doubt, if an application ceases to be a fast-track application under subsection (2)(a) or (b),—
 - (a) the application is not incomplete by reason only that it does not include the information referred to in section 88(2)(c); but

- (b) a consent authority may, under section 92, request the applicant to provide any of the information referred to in section 88(2)(c).
- (4) To avoid doubt, when an application ceases to be a fast-track application,—
 - (a) the application becomes subject to the standard processing requirements (including any time periods for doing anything) under this Act that would have applied if the application had not been a fast-track application; and
 - (b) those time periods are deemed to have been running from the time they would have begun if this section had not applied and are not reset as from the time the application ceases to be fast-track.

Section 87AAC: inserted, on 18 October 2017, by section 134 of the Resource Legislation Amendment Act 2017 (2017 No 15).

 - (a) the activity may be a permitted activity if the requirements of section 87BA are satisfied;
 - (b) there are restrictions on who may be notified of an application for a resource consent for the activity (*see* sections 95A(4) and (5) and 95B(7));
 - (c) the right of appeal under section 120 against the whole or any part of a decision of a consent authority is excluded unless the decision relates to a resource consent for a non-complying activity.
- (2) If an application is a fast-track application,—
 - (a) a consent authority must, within the time limit specified in section 95 for fast-track applications, decide whether to give public or limited notification of the application; and
 - (b) notice of a decision on the application must be given within the time limit specified in section 115(4A); and
 - (c) except as provided for in paragraphs (a) and (b), this Act applies to the application in the same way as it applies to any other application for a resource consent.
- (3) This overview is by way of explanation only. If any provision of this Act conflicts with this overview, that provision prevails.

87G Environment Court determines application

- (1) Subsection (2) applies to an applicant who—
 - (a) receives a report provided under section 87F(5); and
 - (b) continues to want the application to be determined by the Environment Court instead of by a consent authority.
- (2) The application is referred to the Environment Court by the applicant,—
 - (a) within 15 working days after receiving the report, lodging with the Environment Court a notice of motion in the prescribed form applying for the grant of the resource consent (or the change or cancellation of the condition) and specifying the grounds upon which the application for the grant of the resource consent (or the change or cancellation of the condition) is made, and a supporting affidavit as to the matters giving rise to that application; and
 - (b) as soon as is reasonably practicable after lodging the notice of motion, serving a copy of the notice of motion and affidavit on—
 - (i) the consent authority that granted the applicant's request under section 87D; and
 - (ii) every person who made a submission to the authority on the application; and
 - (c) telling the Registrar of the Environment Court by written notice when the copies have been served.
- (3) A consent authority served under subsection (2)(b)(i) must, without delay, provide the Environment Court with—
 - (a) the application to which the notice of motion relates; and
 - (b) the authority's report on the application; and
 - (c) all the submissions on the application that the authority received; and
 - (d) all the information and reports on the application that the authority was supplied with.
- (4) Section 274 applies to the notice of motion, and any person who has made a submission to the consent authority on the application and wishes to be heard on the matter by the Environment Court must give notice to the court in accordance with that section.
- (5) Parts 11 and 11A apply to proceedings under this section.
- (6) If considering a matter that is an application for a resource consent, the court must apply sections 104 to 112 and 138A as if it were a consent authority.

- (7) If considering a matter that is an application for a change to or cancellation of conditions of a resource consent, the court must apply sections 104 to 112 as if—
- (a) it were a consent authority and the application were an application for resource consent for a discretionary activity; and
 - (b) every reference to a resource consent and to the effects of the activity were, respectively, a reference to the change or cancellation of a condition and the effects of the change or cancellation.
- (8) However, in the case of an application for a coastal permit for aquaculture activities, for the purposes of section 107F(3)(b) or (c), the consent authority must obtain from the Environment Court any additional information, reports, or submissions not previously forwarded or sent under that section and forward or send the information, report, and submissions to the chief executive of the Ministry of Fisheries.

95 Time limit for public notification or limited notification

- (1) A consent authority must, within the time limit specified in subsection (2),—
 - (a) decide, in accordance with sections 95A and 95B, whether to give public or limited notification of an application for a resource consent; and
 - (b) notify the application if it decides to do so.
- (2) The time limit is,—
 - (a) in the case of a fast-track application, 10 working days after the day the application is first lodged; and
 - (b) in the case of any other application, 20 working days after the day the application is first lodged.

Section 95: replaced, on 18 October 2017, by section 137 of the Resource Legislation Amendment Act 2017 (2017 No 15).

95A Public notification of consent applications

- (1) A consent authority must follow the steps set out in this section, in the order given, to determine whether to publicly notify an application for a resource consent.

Step 1: mandatory public notification in certain circumstances

- (2) Determine whether the application meets any of the criteria set out in subsection (3) and,—
- (a) if the answer is yes, publicly notify the application; and
 - (b) if the answer is no, go to step 2.
- (3) The criteria for step 1 are as follows:
- (a) the applicant has requested that the application be publicly notified;
 - (b) public notification is required under section 95C;
 - (c) the application is made jointly with an application to exchange recreation reserve land under section 15AA of the Reserves Act 1977.

Step 2: if not required by step 1, public notification precluded in certain circumstances

- (4) Determine whether the application meets either of the criteria set out in subsection (5) and,—
- (a) if the answer is yes, go to step 4 (step 3 does not apply); and
 - (b) if the answer is no, go to step 3.
- (5) The criteria for step 2 are as follows:
- (a) the application is for a resource consent for 1 or more activities, and each activity is subject to a rule or national environmental standard that precludes public notification;
 - (b) the application is for a resource consent for 1 or more of the following, but no other, activities:
 - (i) a controlled activity;
 - (ii) a restricted discretionary or discretionary activity, but only if the activity is a subdivision of land or a residential activity;
 - (iii) a restricted discretionary, discretionary, or non-complying activity, but only if the activity is a boundary activity;
 - (iv) a prescribed activity (*see* section 360H(1)(a)(i)).
- (6) In subsection (5), **residential activity** means an activity that requires resource consent under a regional or district plan and that is associated with the construction, alteration, or use of 1 or more dwellinghouses on land that, under a district plan, is intended to be used solely or principally for residential purposes.

Step 3: if not precluded by step 2, public notification required in certain circumstances

- (7) Determine whether the application meets either of the criteria set out in subsection (8) and,—
 - (a) if the answer is yes, publicly notify the application; and
 - (b) if the answer is no, go to step 4.
- (8) The criteria for step 3 are as follows:
 - (a) the application is for a resource consent for 1 or more activities, and any of those activities is subject to a rule or national environmental standard that requires public notification;
 - (b) the consent authority decides, in accordance with section 95D, that the activity will have or is likely to have adverse effects on the environment that are more than minor.

Step 4: public notification in special circumstances

- (9) Determine whether special circumstances exist in relation to the application that warrant the application being publicly notified and,—
 - (a) if the answer is yes, publicly notify the application; and
 - (b) if the answer is no, do not publicly notify the application, but determine whether to give limited notification of the application under section 95B.

Section 95A: replaced, on 18 October 2017, by section 137 of the Resource Legislation Amendment Act 2017 (2017 No 15).

95B Limited notification of consent applications

- (1) A consent authority must follow the steps set out in this section, in the order given, to determine whether to give limited notification of an application for a resource consent, if the application is not publicly notified under section 95A.

Step 1: certain affected groups and affected persons must be notified

- (2) Determine whether there are any—
 - (a) affected protected customary rights groups; or
 - (b) affected customary marine title groups (in the case of an application for a resource consent for an accommodated activity).
- (3) Determine—
 - (a) whether the proposed activity is on or adjacent to, or may affect, land that is the subject of a statutory acknowledgement made in accordance with an Act specified in Schedule 11; and
 - (b) whether the person to whom the statutory acknowledgement is made is an affected person under section 95E.
- (4) Notify the application to each affected group identified under subsection (2) and each affected person identified under subsection (3).

Step 2: if not required by step 1, limited notification precluded in certain circumstances

- (5) Determine whether the application meets either of the criteria set out in subsection (6) and,—
 - (a) if the answer is yes, go to step 4 (step 3 does not apply); and
 - (b) if the answer is no, go to step 3.
- (6) The criteria for step 2 are as follows:
 - (a) the application is for a resource consent for 1 or more activities, and each activity is subject to a rule or national environmental standard that precludes limited notification:
 - (b) the application is for a resource consent for either or both of the following, but no other, activities:
 - (i) a controlled activity that requires consent under a district plan (other than a subdivision of land):
 - (ii) a prescribed activity (*see* section 360H(1)(a)(ii)).

Step 3: if not precluded by step 2, certain other affected persons must be notified

- (7) Determine whether, in accordance with section 95E, the following persons are affected persons:
 - (a) in the case of a boundary activity, an owner of an allotment with an infringed boundary; and
 - (b) in the case of any activity prescribed under section 360H(1)(b), a prescribed person in respect of the proposed activity.
- (8) In the case of any other activity, determine whether a person is an affected person in accordance with section 95E.
- (9) Notify each affected person identified under subsections (7) and (8) of the application.

Step 4: further notification in special circumstances

- (10) Determine whether special circumstances exist in relation to the application that warrant notification of the application to any other persons not already determined to be eligible for limited notification under this section (excluding persons assessed under section 95E as not being affected persons), and,—
 - (a) if the answer is yes, notify those persons; and
 - (b) if the answer is no, do not notify anyone else.

Section 95B: replaced, on 18 October 2017, by section 137 of the Resource Legislation Amendment Act 2017 (2017 No 15).

 - (b) subsection (2) or (3) applies.

 - (i) the land in, on, or over which the activity will occur; or
 - (ii) any land adjacent to that land; and
- (b) may disregard an adverse effect of the activity if a rule or national environmental standard permits an activity with that effect; and

 - (f) in respect of a subdivision consent, any condition described in section 220 (notwithstanding any limitation on the imposition of conditions provided for by section 87A(2)(b) or (3)(a)):

- (1) A consent authority must not include a condition in a resource consent for an activity unless—

- (a) the applicant for the resource consent agrees to the condition; or
 - (b) the condition is directly connected to 1 or both of the following:
 - (i) an adverse effect of the activity on the environment;
 - (ii) an applicable district or regional rule, or a national environmental standard; or
 - (c) the condition relates to administrative matters that are essential for the efficient implementation of the relevant resource consent.

- (3) This section does not limit section 77A (power to make rules to apply to classes of activities and specify conditions), 106 (consent authority may refuse subdivision consent in certain circumstances), or 220 (condition of subdivision consents).
- (4) For the purpose of this section, a district or regional rule or a national environmental standard is **applicable** if the application of that rule or standard to the activity is the reason, or one of the reasons, that a resource consent is required for the activity.
- (5) Nothing in this section affects section 108(2)(a) (which enables a resource consent to include a condition requiring a financial contribution).

Section 108AA: inserted, on 18 October 2017, by section 147 of the Resource Legislation Amendment Act 2017 (2017 No 15).

108A Bonds

- (1) A bond required under section 108(2)(b) may be given for the performance of any 1 or more conditions the consent authority considers appropriate and may continue after the expiry of the resource consent to secure the ongoing performance of conditions relating to long-term effects, including—
- (a) a condition relating to the alteration or removal of structures;
 - (b) a condition relating to remedial, restoration, or maintenance work;
 - (c) a condition providing for ongoing monitoring of long-term effects.

 - (c) provide that the liability of the holder of the resource consent be not limited to the amount of the bond;
 - (d) require the bond to be given to secure performance of conditions of the consent including conditions relating to any adverse effects on the environment that become apparent during or after the expiry of the consent:

- (e) require the holder of the resource consent to provide such security as the consent authority thinks fit for the performance of any condition of the bond:
 - (f) require the holder of the resource consent to provide a guarantor (acceptable to the consent authority) to bind itself to pay for the carrying out of a condition in the event of a default by the holder or the occurrence of an adverse environmental effect requiring remedy:
 - (g) provide that the bond may be varied or cancelled or renewed at any time by agreement between the holder and the consent authority.
- (3) If a consent authority considers that an adverse effect may continue or arise at any time after the expiration of a resource consent granted by it, the consent authority may require that a bond continue for a specified period that the consent authority thinks fit.

- (3) Where any bond has been given in respect of the completion of any work, or for the purposes of ascertaining whether the work has been completed to the satisfaction of the consent authority, the consent authority may from time to time, under section 171 of the Local Government Act 2002, enter on the land where the work is required to be, or is being, or has been, carried out.
- (4) Where the holder fails, within the period prescribed by the resource consent (or within such further period as the consent authority may allow), to complete, to the satisfaction of the consent authority, any work in respect of which any bond is given (including completion of any interim monitoring required)—

- (a) the consent authority may enter on the land and complete the work and recover the cost thereof from the holder out of any money or securities deposited with the consent authority or money paid by a guarantor, so far as the money or securities will extend; and
 - (b) on completion of the work to the satisfaction of the consent authority, any money or securities remaining in the hands of the consent authority after payment of the cost of the works shall be returned to the holder or the guarantor, as the case may be.

 - (ii) whether the applicant has obtained approval from persons who may be adversely affected by the granting of an extension; and
 - (iii) the effect of the extension on the policies and objectives of any plan or proposed plan.
- (1B) Sections 357A and 357C to 358 apply to subsection (1A)(b).

- (3A) If the resource consent is a coastal permit authorising aquaculture activities to be undertaken in the coastal marine area, no aquaculture decision is required in respect of the application if the application is for a change or cancellation of a condition of the consent and does not relate to a condition that has been speci-

fied under section 186H(3) of the Fisheries Act 1996 as a condition that may not be changed or cancelled until the chief executive of the Ministry of Fisheries makes a further aquaculture decision.

- (4) For the purposes of determining who is adversely affected by the change or cancellation, the consent authority must consider, in particular, every person who—
- (a) made a submission on the original application; and

 - (iii) for any other purpose specified in the consent; or
 - (b) in the case of a coastal, water, or discharge permit, when a regional plan has been made operative which sets rules relating to maximum or minimum levels or flows or rates of use of water, or minimum standards of water quality or air quality, or ranges of temperature or pressure of geothermal water, and in the regional council's opinion it is appropriate to review the conditions of the permit in order to enable the levels, flows, rates, or standards set by the rule to be met; or

- (ba) in the case of a coastal, water, or discharge permit, or a land use consent granted by a regional council, when relevant national environmental standards or national planning standards have been made; or
 - (bb) in the case of a land use consent, in relation to a relevant regional rule; or
 - (c) if the information made available to the consent authority by the applicant for the consent for the purposes of the application contained inaccuracies which materially influenced the decision made on the application and the effects of the exercise of the consent are such that it is necessary to apply more appropriate conditions.
- (2) A consent authority must, in accordance with section 129, serve notice on a consent holder of its intention to review the conditions of a resource consent if required by an order made under section 339(5)(b).
- (3) A regional council must notify the chief executive of the Ministry of Fisheries as soon as is reasonably practicable if it intends to review a condition of a coastal permit authorising an aquaculture activity to be undertaken in the coastal marine area and the condition has been specified under section 186H(1A) of the Fisheries Act 1996 as a condition that may not be changed or cancelled until the chief executive of the Ministry of Fisheries makes a further aquaculture decision.

Section 137(5)(c): amended, on 1 October 2009, by section 150 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).

138 Surrender of consent

- (1) The holder of a resource consent may surrender the consent, either in whole or part, by giving written notice to the consent authority.
- (2) A consent authority may refuse to accept the surrender of part of a resource consent where it considers that surrender of that part would—
 - (a) affect the integrity of the consent; or
 - (b) affect the ability of the consent holder to meet other conditions of the consent; or
 - (c) lead to an adverse effect on the environment.
- (3) A person who surrenders a resource consent remains liable under this Act—
 - (a) for any breach of conditions of the consent which occurred before the surrender of the consent; and
 - (b) to complete any work to give effect to the consent unless the consent authority directs otherwise in its notice of acceptance of the surrender under subsection (4).
- (4) A surrender of a resource consent takes effect on receipt by the holder of a notice of acceptance of the surrender from the consent authority.

138A Special provisions relating to coastal permits for dumping and incineration

- (1) Without limiting section 104, when considering an application for a coastal permit to do something that would otherwise contravene section 15A(1), the consent authority shall, in having regard to the actual and potential effects of allowing the activity, have regard to—
 - (a) the nature of any discharge of any contaminant which the dumping or incineration may involve and the sensitivity of the receiving environment to adverse effects and the applicant's reasons for making the proposed choice; and
 - (b) any possible alternative methods of disposal or combustion including any involving discharge into any other receiving environment,—

and, without limiting the powers of the consent authority under section 92, it may, at any reasonable time before the hearing (or, if there is no hearing, the determination) of the application, by written notice to the applicant, require the applicant to provide, by way of further information, an explanation of those matters.

- (2) Without limiting section 108, but subject to subsection (5), a coastal permit to which subsection (1) applies may include a condition requiring the holder to adopt the best practicable option to prevent or minimise any actual or likely adverse effect on the environment of any discharge of any contaminant which may occur in the exercise of the permit; provided that before a consent authority decides to grant a coastal permit subject to such a condition, it shall be satisfied that, in the particular circumstances, and having regard to—
- (a) the nature of any discharge of a contaminant and the receiving environment; and
 - (b) other alternatives, including any condition requiring the observance of minimum standards of quality of the receiving environment,—
- the inclusion of the condition is the most efficient and effective means of preventing or minimising any actual or likely adverse effect on the environment.
- (3) In respect of a coastal permit to do something that would otherwise contravene section 15A(1), a consent authority may, at any time specified for that purpose in the permit, in accordance with section 129, serve notice on the holder of the permit of its intention to review the conditions of the permit for the purpose of requiring the holder to adopt the best practicable option to remove or reduce any adverse effect on the environment.
- (4) Subject to subsection (5), sections 129 to 133 shall apply to any review of a coastal permit under subsection (3) and the powers conferred on a consent authority by that subsection are in addition to the powers conferred by section 128.
- (5) Before deciding to grant a coastal permit subject to a condition described in subsection (2) and before deciding to change the conditions of a coastal permit pursuant to subsections (3) and (4), the consent authority shall be satisfied, in the particular circumstances, and having regard to—
- (a) the nature of any discharge of a contaminant and the receiving environment; and
 - (b) the financial implications for the holder of including that condition; and
 - (c) other alternatives, including a condition requiring the observance of minimum standards of quality of the receiving environment—
- that including a condition in the permit requiring the holder to adopt the best practicable option to remove or reduce any adverse effect on the environment is the most efficient and effective means of removing or reducing that adverse effect.

- (6) In every coastal permit to do something that would otherwise contravene section 15A(1), there shall be implied a condition that the holder shall, in the prescribed form and at the cost of the holder in all respects, keep such records and furnish to the Director of Maritime New Zealand such information and returns as may from time to time be required by regulations.

Part 6AA

Proposals of national significance

Part 6AA: inserted, on 1 October 2009, by section 100 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).

140 Outline of this Part

- (1) This section sets out the general scheme and effect of this Part. This section is by way of explanation only and does not limit or affect the other provisions of this Part or this Act.
- (2) This Part provides the Minister with specific powers in relation to applications for resource consents, applications for changes to or cancellation of resource consent conditions, local authority plan changes or variations, requests for plan changes, requests for the preparation of regional plans, and notices of requirement that are or are part of a proposal of national significance.
- (3) If exercised by the Minister, these powers set in motion one of 2 procedures by which the application, change, variation, request, or notice (**the matter**) is decided. Instead of the normal procedures set out in the Act, either a board of inquiry or the Environment Court decides the matter. A decision by a board of inquiry or the Environment Court may be challenged only by an appeal to the High Court on a question of law. If that decision is challenged, a further appeal may be taken to the Supreme Court or the Court of Appeal on a question of law, but only with the leave of the Supreme Court.
- (4) There are 3 ways in which a matter may come to the Minister for his or her decision on whether to make a direction to refer a matter to a board of inquiry or the Environment Court for decision. If the matter has been lodged with a local authority, the Minister may decide to make a direction on his or her own

initiative or in response to a request from the local authority or the applicant. If the matter has been lodged with the Environmental Protection Authority, the Minister may decide to make a direction after receiving a recommendation from the EPA.

- (5) If the Minister decides not to make a direction to refer a matter to a board of inquiry or the Environment Court for decision, the matter will be processed by the local authority that, in the normal course of the Act, would be responsible for dealing with it. However, the Minister may still intervene in the process, for example, by making a submission on the matter for the Crown, appointing a project co-ordinator to advise the local authority on any thing relating to the matter, or appointing an additional hearings commissioner.

Section 140: replaced, on 1 October 2009, by section 100 of the Resource Management (Simplifying and Streamlining) Amendment Act 2009 (2009 No 31).

- (4) If considering a matter that is a notice of requirement for a designation or to alter a designation, the court—
 - (a) must have regard to the matters set out in section 171(1) and comply with section 171(1A) as if it were a territorial authority; and
 - (b) may—
 - (i) cancel the requirement; or

 - (7) If the Supreme Court refuses to give leave for an appeal (on the grounds that exceptional circumstances have not been established under section 75 of the Senior Courts Act 2016), but considers that a further appeal from the determination of the High Court is justified, the court may remit the proposed appeal to the Court of Appeal.

 - (b) the board; and
 - (c) the Minister; and
 - (d) the relevant local authority; and

168A Notice of requirement by territorial authority

- (1) This section applies if a territorial authority decides to issue a notice of requirement for a designation—
- (a) for a public work within its district and for which it has financial responsibility; or
 - (b) in respect of any land, water, subsoil, or airspace where a restriction is necessary for the safe or efficient functioning or operation of a public work.
- (1A) The territorial authority must decide whether to notify the notice of requirement under—
- (a) subsection (1AA); or
 - (b) sections 149ZCB(1) to (4), 149ZCC(1) to (4), 149ZCE, and 149ZCF, which apply with all necessary modifications and as if—
 - (i) a reference to an application or notice were a reference to the notice of requirement; and
 - (ii) a reference to an applicant, the Minister, or the EPA were a reference to the territorial authority; and
 - (iii) a reference to an activity were a reference to the designation.
- (1AA) Despite section 149ZCB(1), a territorial authority must publicly notify the notice if—
- (a) it has not already decided whether to give public or limited notification of the notice; and
 - (b) either—
 - (i) further information is requested from the territorial authority under section 92(1), but the territorial authority—

- (A) does not provide the information before the deadline concerned; or
 - (B) refuses to provide the information; or
 - (ii) the territorial authority is notified under section 92(2)(b) in relation to the commissioning of a report, but the territorial authority—
 - (A) does not respond before the deadline concerned; or
 - (B) refuses to agree to the commissioning of the report.
- (1AB) Subsection (1AA) applies despite any rule or national environmental standard that precludes public or limited notification of the notice of requirement.
- (1B) Section 168 applies to the notice of requirement with all necessary modifications.
- (2) Sections 96, 97, and 99 to 103 apply to the notice of requirement with all necessary modifications and as if—
 - (a) a reference to a resource consent were a reference to the requirement; and
 - (b) a reference to an applicant or a consent authority were a reference to the territorial authority; and
 - (c) a reference to an application for a resource consent were a reference to the notice of requirement; and
 - (d) a reference to an activity were a reference to the designation.
- (2AA) However, section 101(2) does not apply to the notice of requirement, and the date for the commencement of the hearing is as follows:
 - (a) if the notice of requirement was not notified, the date must be within 25 working days after the date the notice of requirement was given by the territorial authority;
 - (b) if the notice of requirement was notified and the territorial authority gives a direction under section 41B, the date must be within 40 working days after the closing date for submissions on the notice of requirement;
 - (c) if the notice of requirement was notified and the territorial authority does not give a direction under section 41B, the date must be within 25 working days after the closing date for submissions on the notice of requirement.
- (2A) When considering a requirement and any submissions received, a territorial authority must not have regard to trade competition or the effects of trade competition.
- (3) When considering a requirement and any submissions received, a territorial authority must, subject to Part 2, consider the effects on the environment of allowing the requirement, having particular regard to—

- (a) any relevant provisions of—
 - (i) a national policy statement:
 - (ii) a New Zealand coastal policy statement:
 - (iii) a regional policy statement or proposed regional policy statement:
 - (iv) a plan or proposed plan; and
 - (b) whether adequate consideration has been given to alternative sites, routes, or methods of undertaking the work if—
 - (i) the requiring authority does not have an interest in the land sufficient for undertaking the work; or
 - (ii) it is likely that the work will have a significant adverse effect on the environment; and
 - (c) whether the work and designation are reasonably necessary for achieving the objectives of the requiring authority for which the designation is sought; and
 - (d) any other matter the territorial authority considers reasonably necessary in order to make a decision on the requirement.
- (3A) The effects to be considered under subsection (3) may include any positive effects on the environment to offset or compensate for any adverse effects on the environment that will or may result from the activity enabled by the requirement, as long as those effects result from measures proposed or agreed to by the requiring authority.
- (4) The territorial authority may decide to—
- (a) confirm the requirement:
 - (b) modify the requirement:
 - (c) impose conditions:
 - (d) withdraw the requirement.

 - (b) either—
 - (i) the territorial authority requests further information from the requiring authority under section 92(1), but the requiring authority—
 - (A) does not provide the information before the deadline concerned; or
 - (B) refuses to provide the information; or

- (2) The provisions of sections 229 to 237H shall only apply where section 11(1)(a) applies to the subdivision.
- (3) Except as provided by any rule in a district plan made under section 77(1), or a resource consent which waives, or reduces the width of, the esplanade reserve, where any allotment of less than 4 hectares is created when land is subdivided, an esplanade reserve 20 metres in width shall be set aside from that allotment

along the mark of mean high water springs of the sea, and along the bank of any river or along the margin of any lake, as the case may be, and shall vest in accordance with section 231.

- (5) If any rule made under section 77(2) so requires, but subject to any resource consent which waives, or reduces the width of, the esplanade reserve or esplanade strip, where any allotment of 4 hectares or more is created when land is subdivided, an esplanade reserve or esplanade strip shall be set aside or created from that allotment along the mark of mean high water springs of the sea and along the bank of any river and along the margin of any lake, and shall vest in accordance with section 231 or be created in accordance with section 232, as the case may be.

 - (b) shall vest in and be administered by the territorial authority.
- (2) Nothing in this Part shall prevent the change of classification or purpose of an esplanade reserve in accordance with the Reserves Act 1977 or the exercise of any other power under that Act.
- (3) Every survey plan submitted to the territorial authority under section 223 shall show the area of land to be so set aside.

 - (a) be in accordance with Schedule 10; and
 - (b) be in the prescribed form; and
 - (c) be created in favour of the territorial authority; and

 - (f) bind every mortgagee or other person having an interest in the land, without that person's consent.
- (3) Where an esplanade strip is created, that strip may be closed to public entry under section 237C.
- (4) When deciding under section 220(1)(a) which matters shall be provided for in the instrument, the territorial authority shall consider—

- (2) Any instrument creating any existing esplanade strip shall continue in existence and shall apply to a new esplanade strip created under subsection (1) without alteration, except as to location of the strip.
- (3) Every esplanade strip created by subsection (1) shall be of such dimensions and be situated and subject to the same conditions as if it had been created by an instrument continued under subsection (2) and shall extinguish in whole or in part, as the case may require, the existing esplanade strip which would have continued but for the alterations referred to in subsection (1).
- (4) Subject to this section, the provisions of this Act shall apply to every esplanade strip created by subsection (1).

 - (c) any change in circumstances which has made the strip or any of the conditions in the instrument creating the strip inappropriate or unnecessary.
- (6) After considering the application for variation or cancellation of an instrument creating an esplanade strip, the territorial authority—
 - (a) may grant the application, with or without modifications; or

- (b) may decline the application.
- (7) When all the appeals (if any) are finally determined, the territorial authority shall lodge for registration with the Registrar-General of Land a certificate, signed by the chief executive or other authorised officer of the territorial authority, specifying the variations to the instrument or that the instrument is cancelled, as the case may be.

- (2) Where any land has been unlawfully reclaimed from the coastal marine area before the commencement of this Act, the Minister of Conservation or a regional council may seek an enforcement order against the person who reclaimed the land, or the occupier of the reclaimed land, requiring that person to take such action as, in the opinion of the Environment Court, is necessary in order to avoid, remedy, or mitigate any actual or likely adverse effect on the environment caused by the carrying out of the reclamation or by the reclaimed land; and in any such case Part 12 applies with all necessary modifications.

- (5) For the purposes of subsection (4), the period commences on the date on which the plan including the rule becomes operative and ends with the date on which the deemed permit would have expired if it were not surrendered, which end date shall be specified in the plan.
- (6) Every regional council shall—

- (4) Except as provided in subsection (3),—
