

**ADDENDUM 1
In-Session Version**

SCIENTIFIC COUNCIL COMMENTS
(arising from ScC-SC4)

AFRICAN CARNIVORES INITIATIVE
UNEP/CMS/COP13/Doc.26.3.1

ScC-SC4 Agenda Item 10.3.1

RECOMMENDATIONS TO COP13

Recommended for adoption with the proposed amendments set out below.

GENERAL COMMENTS ON THE DOCUMENT

The Working Group expressed strong support for the Initiative. In order to avoid duplication and pool resources, the Programme of Work to be developed by the Secretariats of CMS and CITES should ensure the complementary role of both Conventions and clearly allocate responsibilities. The success of the Initiative would also be dependent on benefits arising from the conservation activities for local communities living with the carnivores.
