

Vulture Multi-species Action Plan European Regional Workshop

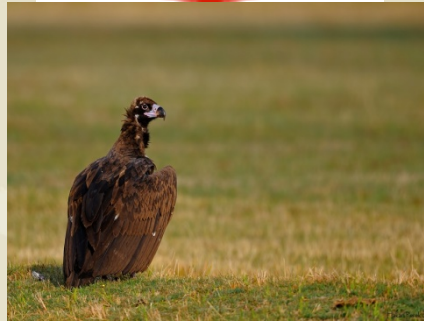

Frameworks for international coordination of the conservation actions on vultures

Vulture Multi-species Action Plan

- 
- 1 - Status: global, national
 - 2 - Legal protection
 - 3 - Species action plans & Policy
 - 4 - Projects

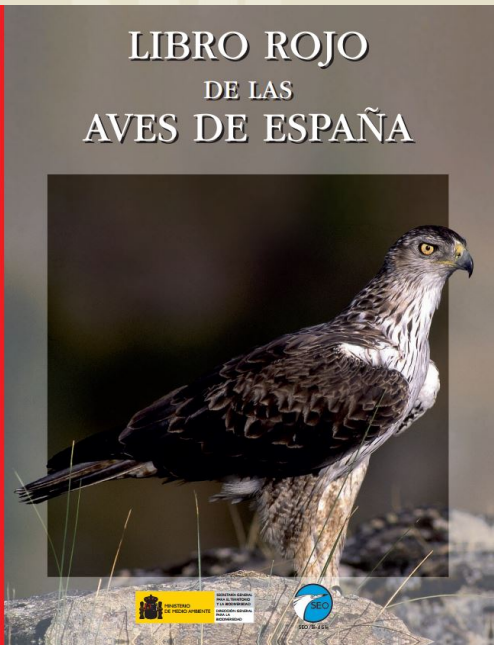

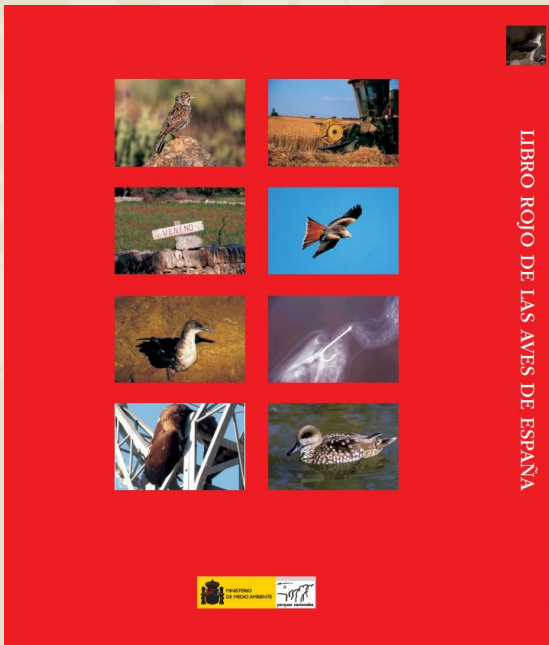

**Vulture conservation at an international scale:
Frameworks**

Vulture Multi-species Action Plan

Status

Vulture Multi-species Action Plan

4 vulture species are all protected

National & International level

Legal protection

Vulture Multi-species Action Plan

International legal Framework

- EU Birds & Habitats Directives
- EU General Food Law Regulation / EU Animal byproducts regulation (CE 142/2011)
- CMS Resolution 11.15 – Preventing Poisoning of Migratory Birds
- CMS Resolution 11.16 – the Prevention of Illegal Killing, Taking and Trade of Migratory Birds
- CMS Resolution 11.27 – Renewable Energy and Migratory Species

ILLEGAL POISONING

A proposal for a EU ACTION PLAN to prevent illegal poisoning of wildlife

II European Workshop on Environmental Crime:
Illegal Poisoning of Wildlife

Unofficial Action Plans

Vulture Multi-species Action Plan

Inform and direct **EU policy - EU Birds & Habitats Directives**

Since 1996 the EU has invested significant financial resources for the conservation of vultures

At least **67 LIFE projects** related with vultures

EU does follow International Species Action Plans priorities

In theory at least other EU sectorial policies should also take in consideration these plans

Rural Development Policies

Common Agricultural Policy

Common Fisheries Policy

.... but that is another story...

Why are these plans important? Because they (should) direct policy and investment

[Get Involved](#)

Welcome

The Migratory Soaring Birds project aims to integrate conservation management objectives into targeted public and private sectors in 11 countries along the Rift Valley / Red Sea flyway. More information can be found on our [project page](#).

The targeted sectors are the following: [Agriculture](#), [Energy](#), [Hunting](#), [Waste Management](#) and [Tourism](#).

Agriculture

Energy

Hunting

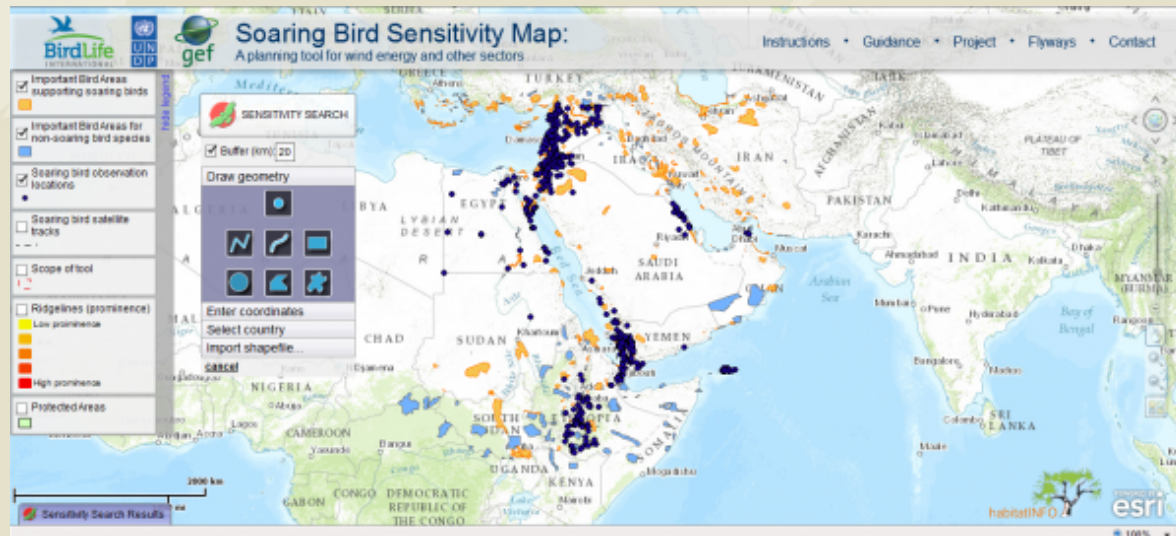

Tourism

Waste Management
