PLANO DE ACÇÃO NACIONAL PARA A CONSERVAÇÃO DA CHITA E DO
MABECO EM ANGOLA

**REVIEW OF THE LEGISLATION THAT SUPPORTS THE
CONSERVATION OF CHEETAH AND AFRICAN WILD DOG**

Challenges / Threats

We cannot maintain the stability of large carnivores without ending unsustainable hunting.

We cannot restore population stability to large carnivores without considerable restoration of their habitats.

We cannot achieve conservation success without the full engagement of local communities.

I protect our wildlife and our future!

OBRIGADA!

THANK YOU!

MERCI BEAUCOUP!
