

# *Conservation Priorities – Dugongs & Seagrass*

*Manila, Philippines  
21-22 February 2013*

## Regions:

- ▶ Pacific Islands
- ▶ Southeast Asia
- ▶ South Asia
- ▶ SW Indian Ocean
- ▶ NW Indian Ocean

1. What are the three most pressing conservation issues at a regional level?
2. What are the three most important information gaps?

1. What are the three most pressing conservation issues at a regional level?
2. What are the three most important information gaps?
3. Why does this continue to be a problem? (what needs to be addressed)
4. What are the solutions? (what can be done to resolve the issue)
5. How can the Secretariat assist in the process?

*Thank you for your attention.*
