

Annex – Protected areas and priority sites

Protected areas and priority sites for the assessed species per country based on response received during the stakeholder survey and literature. Occurrence of species at sites is marked with an x (information is incomplete for some species); priority sites in terms of their importance for particular species and the levels of threats (protected areas or other sites) are marked in red font; red x = of high importance for the respective species; (x) = of high importance in case of future expansion (currently no occurrence of species); – = species does not occur in country. The names of Range States that are Parties to CMS are capitalised (e.g. KAZAKHSTAN).

Protected area/ Priority site	IUCN category*	Bukhara/ Yarkand deer	Wild camel	Wild yak	Cheetah	Snow leopard	Saiga antelope	Argali	Mongolian gazelle	Goitered gazelle	Kulan/ onager	Kiang	Chiru	Przewalski's horse	Tibetan gazelle
