

ADDENDUM 1

SCIENTIFIC COUNCIL COMMENTS
(arising from ScC-SC6)

**REPORT ON THE IMPLEMENTATION OF THE
CONCERTED ACTION FOR THE GIRAFFE (*Giraffa camelopardalis*)**

UNEP/CMS/COP14/Doc.32.2.2

RECOMMENDATIONS TO COP14

Recommended for renewal.

GENERAL COMMENTS ON THE DOCUMENT

The Scientific Council recommended that COP14 renews this Concerted Action.

The Kavango-Zambezi Transfrontier Conservation Area (KAZA) Giraffe Management Plan was noted to be a good example of transboundary cooperation for Giraffe conservation in Southern Africa that other Range States of the Concerted Action for the Giraffe could use when implementing their activities.
