JORDAN/ JORDANIE / JORDANIA

Convention on the Conservation of Migratory Species of Wild Animals

Format for reports of Parties on implementation of the Convention on the Conservation of Migratory Species of Wild Animals (revision of January 2002)

Reporting format agreed by the Standing Committee at its 23^{rd} meeting (Bonn, December 2001) for voluntary use by Parties, on a trial basis, for reports submitted to COP7. Refer to separate instructions on completing the report.

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

Which agency has been primarily responsible for the preparation of this report? *General Corporation For The Environment*

Protection (GCEP)

List any other agencies that have provided input: Royal Society For Conservation of Nature (RSCN)

I(a). General Information

Please complete any unfilled boxes and amend and/or update as appropri ate the information provided in the table below:

Reports submitted:	16 jul.2002
Period covered by this report:	2001-2002
Date of entry into force of the Convention in Jordan:	1 March 2001
Territory to which the Convention applies:	Jordan
Reservations (against species listings):	
General corporation for the env. Protection (GCEP)	Appointment to the Scientific Council:
Amman-jordan p.o(1408)	
Tel;+962-5350149	
Fax;+962-5350084	
E-mail;aloklah@yahoo.com	
Membership of the Standing Committee:	
Competent authority:	
Implementing legislation:	Env. Law
Other relevant conventions/agreements to which Jordan is a Party:	CITES ,AEWA

National policy instruments (e.g. national biodiversity conservation strategy, etc.):	Has been prepared

I(b). Additional General Information

1	Which other government departments are involved in activities/initiatives for the conservation of migratory species in your country? (Please list.) Agriculture Ministry
1a	If more than one government department is involved, describe the interaction/relationship between these government departments:
2	List the main non-governmental organizations actively involved in initiatives for the conservation of migratory species in your country, and describe their involvement: (RSCN)
3	Describe any involvement of the private sector in the conservation of migratory species in your country: none
4	Note any interactions between these sectors in the conservation of migratory species in your country:

II. Appendix I species

1. BIRDS

1.1 General questions on Appendix I bird species

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I bird species: (RSCN)
2	Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)? If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? If Yes, please provide details:
3	Identify any obstacles to migration that exist in relation to Appendix I bird species:
	-Habitat distruction
	-Disturbance to matingareas
	-decrease of water levels due to over pumping
	-hunting
3a	What actions are being undertaken to overcome these obstacles?
	-reserve establishment
	-sustainable use of resources
	-IBAS establishment
	-wetland conservation
3b	What assistance, if any, does your country require in order to overcome these obstacles?
	-fund to continue work on reserves and other protected areas
	-build the capacity for the research teams involved
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))?
	No legislation is present regarding introduction of exotic and introduction species
4a	Describe any factors that may limit action being taken in this regard:
	Enforcement of the already present legislation
4b	What assistance, if any, does your country require to overcome these factors?

1.2 Questions on specific Appendix I bird species

The following section contains a table for each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

Spe	cies Haliaeetus albicilla – Common Name(s) White-tailed Eagle
1	Is your country a Range State for this species?
2	Please provide published distribution reference: birds of the Hashemite Kingdom of Jordan
3	Summarise information on population size, trends and distribution (if known):
	This species is vagrant to Jordan.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) Research
	☐ Monitoring
	Habitat protection
	Habitat restoration
	Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:
Spe	cies Aquila clanga – Common Name(s) Greater Spotted Eagle
1	Is your country a Range State for this species?
2	Please provide published distribution reference: Birds of the Hashemite Kingdom of Jordan
3	Summarise information on population size, trends and distribution (if known):
	Local Status is vagrant
	Distribution : all of Jordan
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) Research
	☐ Monitoring
	Habitat protection through establishment of reserves and the enforcement of law
	Habitat restoration
	Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:
	No activites

Spec	cies Aquila heliaca – Common Name(s) Imperial Eagle
1	Is your country a Range State for this species?
2	Please provide published distribution reference:
3	Summarise information on population size, trends and distribution (if known):
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.)
	Research
	☐ Monitoring
	Habitat protection
	Habitat restoration
	Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:
Spe	cies Falco naumanni – Common Name(s) Lesser Kestrel
1	Is your country a Range State for this species?
2	Please provide published distribution reference: Birds of the Hashemite Kingdom of Jordan
3	Summarise information on population size, trends and distribution (if known):
	Distribution: Southern part of Jordan
	2 surveys were conducted in Dana Nature Reserve: No. of pairs 25, the second one at Mujib Nature Reserve: No. of pairs: 20
	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.)
	Research
	Monitoring
	Habitat protection
	Habitat restoration
	Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:
	Repetition for the two surveys
	cies Geronticus eremita – Common Name(s) Waldrapp, Hermit Ibis
1	Is your country a Range State for this species? Yes No
2	Please provide published distribution reference:

3	Summarise information on population size, trends and distribution (if known):
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.)
	Research
	☐ Monitoring
	☐ Habitat protection
	☐ Habitat restoration
	Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:
Spec	cies Anser erythropus – Common Name(s) Lesser White-fronted Goose
1	Is your country a Range State for this species?
2	Please provide published distribution reference:
3	Summarise information on population size, trends and distribution (if known):
3	Summarise information on population size, trends and distribution (if known).
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the
	reporting period. (Please provide the title of the project and contact details, where available.) Research
	☐ Monitoring
	Habitat protection
	Habitat restoration
	Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
3	in no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:
Spec	cies Marmaronetta angustirostris – Common Name(s) Marbled Teal
1	Is your country a Range State for this species?
2	Please provide published distribution reference: Birds of the Hashemite Kingdom of Jordan
3	Summarise information on population size, trends and distribution (if known):
	National status is passage migrant
	Distribution: All water bodies in Jordan
	Last observation for this species was 1990

4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.)
	Research
	☐ Monitoring
	Habitat protection
	Habitat restoration
	Other Census for waterfowl in Jordan: result for this census show no record
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:
	Regular census for the waterfowl species
Cna	cias Authua numaga Common Nama(s) Formucinous Dochard Formucinous Duals
	cies Aythya nyroca – Common Name(s) Ferruginous Pochard, Ferruginous Duck
1	Is your country a Range State for this species? \(\sum \text{Yes} \text{No} \)
2	Please provide published distribution reference: birds of the Hashemite Kingdom of Jordan
3	Summarise information on population size, trends and distribution (if known):
	Last observation was in 2001 at Aqaba sewage station
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.)
	Research
	☐ Monitoring
	Habitat protection
	Habitat restoration
	Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:
	Regular Water fowl census
Spec	cies Oxyura leucocephala - Common Name(s) White-headed Duck
1	Is your country a Range State for this species?
2	Please provide published distribution reference: birds of the Hashemite Kingdom of Jordan
3	Summarise information on population size, trends and distribution (if known):
	This species is vagrant.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.)
	Research
	☐ Monitoring
	☐ Habitat protection
	☐ Habitat restoration
	Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

6	Describe any future activities that are planned for this species:
Spe	cies Pelecanus onocrotalus - Common Name(s) White Pelican
1	Is your country a Range State for this species?
2	Please provide published distribution reference: birds of the Hashemite Kingdom of Jordan
3	Summarise information on population size, trends and distribution (if known):
	This species is passage migrant
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.)
	Research
	☐ Monitoring
	Habitat protection
	☐ Habitat restoration
	Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:
Spe	cies Vanellus gregarius – Common Name(s) Sociable Plover
1	Is your country a Range State for this species?
2	Is your country a Range State for this species? Yes No Please provide published distribution reference: birds of the Hashemite Kingdom of Jordan
2	Please provide published distribution reference: birds of the Hashemite Kingdom of Jordan
2	Please provide published distribution reference: birds of the Hashemite Kingdom of Jordan Summarise information on population size, trends and distribution (if known):

	Habitat restoration
	Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species:

5 BATS

5.1 General questions on Appendix I bats

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed bats:
2	Is the taking of all Appendix I bats prohibited by the national implementing Legislation cited in Table I(a) (General Information)? If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I bats is prohibited by law, have any exceptions Been granted to the prohibition? If Yes, please provide details:
3	Identify any obstacles to migration that exist in relation to Appendix I bats:
3a	What actions are being undertaken to overcome these obstacles?
3b	What assistance, if any, does your country require in order to overcome these obstacles?
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of bats, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))?
4a	Describe any factors that may limit action being taken in this regard:
4b	What assistance, if any, does your country require to overcome these factors?
	5.2 Questions on specific Appendix I bat species have information indicating that your country should be considered a Range State for any bat species that is listed IS Appendix I, please complete a table (provided below) for each species.
Spec	cies name, Common name(s):
1	Please provide published distribution reference:
2	Summarise information on population size, trends and distribution (if known):
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research Monitoring

4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species?

6 OTHER TAXA

6.1 General questions on Appendix I species belonging to other taxa

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed species belonging to taxa not included in sections 1-5 above:
2	Is the taking of all Appendix I species belonging to taxa not included in sections 1-5 above, prohibited by the national legislation listed as being implementing legislation in Table I(a) (General Information)?
	If other legislation is relevant, please provide details:
2a	If the taking of Appendix I species belonging to taxa not included in Sections 1-5 above is prohibited by law, have any exceptions been granted to the prohibition?
	If Yes, please provide details:
3	Identify any obstacles to migration that exist in relation to Appendix I species belonging to taxa not included in sections 1-5 above:
3a	What actions are being undertaken to overcome these obstacles?
3b	What assistance, if any, does your country require in order to overcome these obstacles?
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species belonging to taxa not included in section 1-5 above, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))?
4a	Describe any factors that may limit action being taken in this regard:
4b	What assistance, if any, does your country require to overcome these factors?
	6.2 Questions on specific Appendix I species belonging to other taxa have information indicating that your country should be considered a Range State for any Appendix I listed species elongs to taxa not included in sections 1-5 above, please complete a table (provided below) for each species.

III. Appendix II Species

1. INFORMATION ON APPENDIX II SPECIES

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the secreta riat each of the Agreement/MoUs to which your country is a Party.

MARINE TURTLES – INDIAN OCEAN / SOUTHEAST ASIA MoU (2001)

4	Is the development of any CMS Agreement for marine mammals, including Memorandum of Understanding, planned by your country in the foreseeable future?	Yes	☐ No			
	If Yes, please provide details:					
	2.3 Questions on CMS Agreements relating to marine turtles					
1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the Conservation needs of Appendix II marine turtles?	Yes	□ No			
	If Yes, what is the current state of development?					
2	In the current reporting period, has your country participated in the development Of any CMS Agreements, including Memoranda of Understanding, which address The conservation needs of Appendix II marine turtles?	∐ Yes	∐ No			
	If Yes, please provide details:					
3	If your country has initiated or is participating in the development of an Agreement or Mem what assistance, if any, does your country require in order to initiate or participate in the ins		· ·			
4	Is the development of any CMS Agreement for marine turtles, including Memorandum of Understanding, planned by your country in the foreseeable future?	☐ Yes	□ No			
	If Yes, please provide details:					
	2.4 Questions on CMS Agreements relating to terrestrial mammals	(other tha	an bats)			
1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation Needs of Appendix II terrestrial mammal species (other than bats)? If Yes, what is the current state of development?	Yes	□ No			
2	In the current reporting period, has your country participated in the development Of any CMS Agreements, including Memoranda of Understanding, which address The conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, please provide details:	Yes	□ No			
3	If your country has initiated or is participating in the development of an Agreement or Mem what assistance, if any, does your country require in order to initiate or participate in the installand.					
4	Is the development of any CMS Agreement for terrestrial mammals (other than bats), Including Memorandum of Understanding, planned by your country in the foreseeable futur If Yes, please provide details:	Yes e?	□ No			
	, , , , , , , , , , , , , , , , , , ,					
	2.5 Questions on CMS Agreements relating to bats					
1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bat species? If Yes, what is the current state of development?	Yes	□ No			
2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bat species? If Yes, please provide details:	Yes	□ No			
3	If your country has initiated or is participating in the development of an Agreement or Mem what assistance, if any, does your country require in order to initiate or participate in the ins					

4	Is the development of any CMS Agreement for bats, including Memorandum of Understanding, planned by your country in the future?								
	If Yes, please provide details:								
	2.6 Questions on CMS Agreements relating to other taxa								
1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II species belonging to taxa not included in sections 1-6 above? If Yes, what is the current state of development?								
2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of species belonging to taxa not included in sections 1-6 above? If Yes, please provide details:								
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?								
4	Is the development of any CMS Agreement for other taxa, including Memorandum of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:								
	3. LISTING OF MIGRATORY SPECIES IN APPENDIX II								
1	Is your country a Range State for any migratory species that has an unfavourable conservation status, but is <u>not</u> currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation?								
	If Yes, please provide details:								
1a	Is your country taking any steps to propose the listing of this/these species in Appendix II? Yes No								
	If Yes, please provide details:								
1b	What assistance, if any, does your country require to initiate the listing of this/these species?								

IV. National and Regional Priorities

1	Does the conservation of migratory species currently feature in any national or regional policies/plans (apart from CMS Agreements)									
	If Yes, please provide details: protected areas network in Jordan its Bylaws									
1a	Do these policies/plans cover the following areas (if yes, please provide details):									
	Yes	No								
			Economic development							
	\boxtimes		Land-use planning							
	\boxtimes		Designation and development of reserves							
	\boxtimes		Development of ecological networks							
			Planning of powerlines							
			Planning of fences							
			Planning of dams							
			Other							
2	conservation/research projects that use satellite telemetry? If Yes, please provide details (Indicate inter alia the scientific justification for the research, describe briefly the measures taken to ensure that risks to the welfare of individual animals and – in the case of severely depleted populations – to the species are minimised, and summarise the results obtained):									
	satelli	te tele	research to understand the bird migration through tracking emetry xplain any impediments or requirements in this regard:	White Stor	k through					
			X77 N.F. 1. 1.							
	-		VI. Membership							
1			een taken by your country to encourage non-Parties and its related Agreements?	☐ Yes	No					
			provide details. (In particular, describe actions taken to recruit the non-Par Committee as high priorities for recruitment.)	rties that have	been identified by					
1a	Identify	the ag	ency, department or organization responsible for leading on this action in	your country:	,					

VII. Global and National Importance of CMS

1	Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation?							
	If Yes, please provide details:							
2	Identify the agency, department or organization responsible for leading on this action in y	our country:						
	VIII. Mobilization of Resources							
1	Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country? If Yes, please provide details:	⊠ Yes	☐ No					
	-migratory birds known No Boundaries project							
	-bird census in Jordan							
	-For birds and people in the Jordan valley project							
	-Rehablitation of Azraq Oasis							
2	Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition? If Yes, please provide details:	Yes	⊠ No					
3	Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)? If Yes, please provide details:	Yes	⊠ No					
4	Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species? If Yes, please provide details:	Yes	□ No					
5	Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country? If Yes, please provide details:	Yes	⊠ No					
6	Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country?	⊠ Yes	□ No					

IX. Implementation of COP Resolutions and Recommendations

If Yes, please provide details: USAID- MERC 2001-2003 migrating Birds No Boundaries

Please summarize the measures undertaken by your country to implement the substantive, operational Resolutions and Recommendations adopted by the Conference of the Parties, where these have not been mentioned elsewhere in this report, giving particular emphasis to those adopted by at the Sixth Meeting (Cape Town, November 1999).

Other remarks:

Annex: Questions on specific Appendix II species

The tables below contain the list of all species listed in Appendix II. Boxes have been checked to indicate the species for which your country is considered to be a Range State. Please amend the boxes where appropriate. (If you wish to provide further information on any of these species, please attach as an annex.) Please also provide published distribution references where available.

Merops apiaster	\boxtimes							
Coracias garrulus	\boxtimes							
		PSIT	FACIFORMES					
Amazona tucumana		\boxtimes						
PASSERIFORMES								
Hirundo atrocaerulea		\boxtimes						
Acrocephalus paludicola		\boxtimes						
		TE	STUDINATA					
Chelonia depressa		\boxtimes						
Chelonia mydas		\boxtimes						
Caretta caretta		\boxtimes						
Eretmochelys imbricata		\boxtimes						
Lepidochelys kempii		\boxtimes						
Lepidochelys olivacea		\boxtimes						
Dermochelys coriacea		\boxtimes						
Podocnemis expansa		\boxtimes						
		CR	OCODYLIA					
Crocodylus porosus		\boxtimes						
		ACIPE	NSERIFORMES					
Huso huso		\boxtimes						
Huso dauricus		\boxtimes						
Acipenser baerii baicalensis		\boxtimes						
Acipenser fulvescens		\boxtimes						
Acipenser gueldenstaedtii		\boxtimes						
Acipenser medirostris		\boxtimes						
Acipenser mikadoi		\boxtimes						
Acipenser naccarii		\boxtimes						
Acipenser nudiventris		\boxtimes						
Acipenser persicus		\boxtimes						
Acipenser ruthenus		\boxtimes						
(Danube population)								
Acipenser schrenckii								
Acipenser sinensis								
Acipenser stellatus								
Acipenser sturio								
Pseudoscaphirhynchus kaufmanni								
Pseudoscaphirhynchus hermanni								

Species	Range State	Not a Range State	Extinct	No information available	Published distribution reference		
Pseudoscaphirhynchus fedtschenkoi							
Psephurus gladius		\boxtimes					
LEPIDOPTERA							
Danaus plexippus		\boxtimes					
Orectolobiformes							
Rhincodon typus		\boxtimes					

All species of each of the Families below are listed in Appendix II. If your country is a Range State for any of the species in these Families, please enter the species name in the first column, under the relevant Family heading. Please indicate (with a 'X') whether your country is a Range State or the species is extinct and, where appropriate, please provide published distribution references. (Space is provided for ten species in each Family. If additional lines are required, please attach the information as an annex.)
