TENTH MEETING OF THE
CONFERENCE OF THE PARTIES
Bergen, 20-25 November 2011

LIST OF COMMON NAMES OF SPECIES INCLUDED IN APPENDICES I AND II*(Prepared by the CMS Secretariat)*

1. The Secretariat compiled the attached document for its own purposes and, to the extent that it may also be useful to CMS Parties and others, it is reproduced here. The list is updated after each Meeting of the Conference of the Parties to incorporate the latest amendments to the Appendices, making use of *inter alia* the amendment proposals submitted by Parties. These often provide the common names of the proposed species in several of the five languages included in the attached list (English, French, Spanish, Portuguese and German).
2. The Secretariat would be grateful for any suggestions to complete the missing entries (insofar as common names exist for the species in question) and/or any necessary corrections to the existing entries. These may be sent to the Secretariat (secretariat@cms.int) prior to COP10 or left with the Secretariat during the conference or the preceding Scientific Council.
