

# 2014 NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

**The deadline for submission of the reports is 1 May 2014. The reporting period is 15 June 2011 to 1 May 2014.**

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

Reporting format agreed by the Standing Committee at its 40th Meeting (Bonn, November 2012) for mandatory use by Parties, for reports submitted to the Eleventh Meeting of the Conference of the Parties (COP11) 2014.

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

COP Resolution 9.4 adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. The CMS Family Online Reporting System (ORS) has been successfully implemented and used by AEWA in their last Meeting of the Parties (MOP 5, 2012) reporting cycle. CMS now offers the Convention's Parties to use the ORS for submitting their national reports for the COP11 (2014) reporting cycle.

Please enter here the name of your country

> Bulgaria

Which agency has been primarily responsible for the preparation of this report?

> Ministry of Environment and water

Please list any other agencies that have provided input

> Bulgarian Academy of Science

Bulgarian Society for the Protection of Birds/BirdsLife Bulgaria

## **I(a). General Information**

Please enter the required information in the table below:

### **Party**

Date of entry into force of the Convention in your country  
> 01/11/1999

Period covered  
> 2011-2014

Territories to which the Convention applies  
> Bulgaria

### **Designated National Focal Point**

Full name of the institution  
> Ministry of Environment and Water

Name and title of designated Focal Point  
> Ruslan Serbezov  
State expert

Mailing address  
> 22, Maria Luisa Blvd, Sofia 1000

Telephone  
> (+ 359 2) 940 6129

Fax  
> (+ 359 2) 940 6127

E-mail  
> serbezov@moew.government.bg

### **Appointment to the Scientific Council**

Full name of the institution  
>

Name and title of contact officer  
>

Mailing address  
>

Telephone  
>

Fax  
>

E-mail  
>

### **Submission**

#### **Name and Signature of officer responsible for submitting national report**

Name:  
> Ruslan Serbezov State expert

Address:  
> 22, Maria Luisa Blvd, Sofia 1000

Tel.:

> (+ 359 2) 940 6129

Fax:

> (+ 359 2) 940 6127

E-mail:

> serbezov@moew.government.bg

### **Date of submission**

>

### **Membership of the Standing Committee (if applicable):**

Name:

>

Address

>

Tel

>

Fax

>

E-mail

>

### **Implementation**

Competent Authority:

> Ministry of Environmenta and Water

Relevant implemented legislation:

> Biological Diversity Act

Other relevant Conventions/ Agreements (apart from CMS) to which your country is a Party:

> Convention on the Conservation of European Wildlife and Natural Habitats 1979 (Bern Convention)

Convention on International Trade in Endangered Species of Wild Flora and Fauna

Ramsar Convention on Wetlands

Convention on Biological Divesity

National policy instruments (e.g. national biodiversity conservation strategy, etc.):

> The National Strategy for Biodiversity Conservation (1994)

The National Biodiversity Action Plan (2006 - 2010)

### **CMS Agreements/MoU**

**Please indicate whether your country is part of the following Agreements/MoU. If so, please indicate the competent national institution**

#### **Wadden Sea Seals (1991)**

### Involvement of other government departments/NGOs/private sector

1. Which other government departments are involved in activities/initiatives for the conservation of migratory species in your country? (Please list.)

> Regional Inspectorate of Environment and Water  
Executive Agency of Environment and Water  
Bulgarian Academy of Science

2. If more than one government department is involved, describe the interaction/relationship between these government departments:

> N/A

3. Has a national liaison system or committee been established in your country?

*Please select only one option*

Yes

>

No

Please provide contact information

>

4. List the main non-governmental organizations actively involved in activities/initiatives for the conservation of migratory species in your country, and describe their involvement:

> Balkani Wildlife Society  
Bulgarian Society of Protection of Birds (BSPB) -partner of Birdlife International  
Green Balkans Federation

Le Balkan Foundation

All these NGOs implements projects related to the protection of migratory bird species and their habitats. They actively participate in the monitoring of the birds.

4a. Please provide detail on any devolved government/overseas territory authorities involved.

>

5. Describe any involvement of the private sector in the conservation of migratory species in your country:

>

6. Note any interactions between these sectors in the conservation of migratory species in your country:

>

## **I(b). Information about involved Authorities**

Identify the ministry, agency/department or organization that is responsible for leading actions relating to Appendix I species

### 1- Birds

> Ministry of Environment and Water

### 2- Aquatic Mammals

> Ministry of Environment and Water

### 3- Reptiles

> Ministry of Environment and Water

### 4- Terrestrial Mammals

> Ministry of Environment and Water

### 5- Fish

> Ministry of Environment and Water

## II. Appendix I species

### 1. BIRDS

#### 1.1 General questions on Appendix I bird species

1. Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)?

*Please select only one option*

- Yes  
 No

If other legislation is relevant, please provide details:

>

1a. If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition?

*Please select only one option*

- Yes  
 No

If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7):

>

2. Identify any obstacles to migration that exist in relation to Appendix I bird species:

- By-catch  
 Electrocutation  
 Habitat destruction  
 Wind turbines  
 Pollution  
 Other (please provide details):

> hunting

2a. What actions are being undertaken to overcome these obstacles?

> 1. Restoration of Wetlands; 2. Instalation of safety platforms for building the stork nests on electric power line; 3. Isolation of electric power wires in some region aiming to prevent mortality of the migratory bird species. 4. Environment assessment for investment proposals for construction of Wind turbines.

You have attached the following documents to this answer.

[2a.doc](#) - Actions under 2a

[2a MOEW.doc](#)

2b. Please report on the progress / success of the actions taken.

> Common practice in different region of the country were conducted for instalation of safety platforms for Stork nesting on the powerline. It have redused mortality of the storks during the nesting period and prevent the nests from direct contact with the powerline cabels. Electrocutation: Bulgarian Society for the Protection of Birds (BSPB) together with electricity companies started to replace dangerous electricy lines with safety ones in th emost problematic areas in Southern Bulgaria in 2010; Habitat destruction: NGOs report to the government for any project that is dangerous for migratory birds because of habitat destruction; MoEW ask for an EIA procedure when rick of significant impacts on birds is possible to exist; Wind turbines: Internal instructions have been developed by MoEW for assessment of wind farm projects; Strategic Environmental Assessment of the National Action Plan on Renewable Energy Development 2010 - 2020 is elaborated (procedure is not finalized). Large national-scale project started in 2011 for minimizing risks for wild birds due to windfarm development, including elaboration of a sensitivity map

You have attached the following documents to this answer.

[2b.doc](#) - 2b

2c. What assistance, if any, does your country require in order to overcome these obstacles?

>

3. What are the major pressures to Appendix I bird species (transcending mere obstacles to migration)?

- Illegal trade  
 Poaching  
 Other (please specify)

> Hunting in the roosting sites in the winter season. Wind turbines, electrocution.

3a. What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour?

>

You have attached the following documents to this answer.

[3a.doc](#) - 3a

[Poaching migratory birds 2014.doc](#) - Poachong

[Poster Poaching.pdf](#) - poster poaching

[3a MOEW.doc](#) - Actions from MOEW

3b. Please report on the progress / success of the actions taken.

>

You have attached the following documents to this answer.

[3b.doc](#) - 3b

3c. Describe any factors that may limit action being taken in this regard:

>

3d. What assistance, if any, does your country require to overcome these factors?

>

## 1.2 Questions on specific Appendix I bird species

In the following section, using the table format below, please fill in each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

### Species name: **Pelecanus crispus**

1. Please provide published distribution reference:

> Simeonov et al, 1990 Fauna Bulgarica, Aves Part I, Vol. 20 Academic Publishing house, 84 - 87 p.  
Kostadinova, I., M.Gramatikov (eds.) 2007. Important Birds Areas in Bulgaria and Natura 2000. Bulgarian Society for the Protection of Birds, Conservation Series, Book 11. Sofia, BSPB. 374p.

2a. Summarise information on population size (if known):

*Please select only one option*

increasing

>

decreasing

>

stable

> The monitoring of the population: 2008 - 412 birds; 2009 - 1140; 2010 - 719.

not known

>

unclear

>

2b. Summarise information on distribution (if known):

*Please select only one option*

increasing

>

decreasing

>

stable

> The breeding population is located in Mantained Reserve 'Srebarna' and feeds along the Danube River. Many bird are wintering in the lakes around the town of Burgas, SE Bulgaria.

not known

>  
 unclear

>

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

Research

>

Identification and establishment of protected areas

> Areas identified for the species as Natura 2000 site under EU Birds Directive has been designated

Monitoring

> The National Monitoring System on biodiversity in Bulgaria. Monitoring of *Pelecanus crispus* takes place during the month of January - 2008, 2009, 2010 and 2011.

Education/awareness rising

>

Species protection

> Strictly protected species under the Biological Diversity Act.

Control hunting / poaching

> The breeding colony and the wintering grounds have been included in the protected areas, Ramsar sites and EU Ecological Network Natura 2000' Special Protected Sites.

Species restoration

>

Habitat protection

>

Habitat restoration

>

Other

>

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

> N/A

5. Describe any future activities that are planned for this species:

> 1. Annual monitoring will continue to be carried out.

2. Increasing and maintenance on the breeding ground in the colony

3. Protection of the colony from encroachment of wild boars and medium size carnivores.

4. Elaboration of a Single Species Action Plan for Dalmatian Pelican

### **Species name: *Pelecanus onocrotalus* (only Palearctic populations)**

1. Please provide published distribution reference:

>

2a. Summarise information on population size (if known):

*Please select only one option*

increasing

>

decreasing

> The monitoring of the population: 2008 - 23 birds; 2009 - 0; 2010 - 2.

stable

>

not known

>

unclear

>

2b. Summarise information on distribution (if known):

*Please select only one option*

increasing

>

decreasing

>

stable

>

not known

## 2. AQUATIC MAMMALS

### 2.1 General questions on Appendix I aquatic mammals

1. Is the taking of all Appendix I aquatic mammals species prohibited by the national implementing legislation cited in Table I(a) (General Information)?

*Please select only one option*

Yes

No

If other legislation is relevant, please provide details:

>

1a. If the taking of Appendix I aquatic mammals species is prohibited by law, have any exceptions been granted to the prohibition?

*Please select only one option*

Yes

No

If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7):

>

2. Identify any obstacles to migration that exist in relation to Appendix I aquatic mammals:

By-catch

Collision with fishing traffic

Pollution

Illegal hunting

Other threats to migration (please provide details)

> Public clash between the community fishing and the need for conservation the species

2a. What actions are being undertaken to overcome these obstacles?

>

You have attached the following documents to this answer.

[2.2a.doc](#)

2b. Please report on the progress / success of the actions taken.

> Activities are under implementation

2c. What assistance, if any, does your country require in order to overcome these obstacles?

>

3. What are the major pressures to Appendix I aquatic mammals species (transcending mere obstacles to migration)?

- Pollution
- By-catch
- Other (please specify)

> Public clash between the community fishing and the need for conservation the species

3a. What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger aquatic mammals species beyond actions to prevent disruption to migrating behaviour?

> Assessment of the importance, the time and the geographical scope of the levels of shipping and comparison of this data with data about distribution, migration and abundance of cetaceans  
Evaluate the interactions between cetaceans and shipping (including direct confrontation and anxiety caused by the noise of vessels) in areas that are critical habitat for cetaceans  
Developing management strategies to reduce the negative impact of vessel traffic on cetaceans in the Black Sea  
Guidelines to reduce the disturbance caused by shipping

3b. Please report on the progress / success of the actions taken.

> Activities are under implementation

3c. Describe any factors that may limit action being taken in this regard:

>

3d. What assistance, if any, does your country require to overcome these factors?

>

## 2.2 Questions on specific Appendix I aquatic mammals

In the following section, using the table format below, please fill in each Appendix I aquatic mammals species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

## 6. LISTING OF OTHER ENDANGERED MIGRATORY SPECIES IN APPENDIX I

1. Is your country a Range State for any other endangered migratory species currently listed in Appendix I?

(according to the latest IUCN red data list). N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.

### **III. Appendix II Species**

#### **1. INFORMATION ON APPENDIX II SPECIES**

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the Secretariat of each of the Agreement/MoUs to which your country is a Party.

## 2. QUESTIONS ON CMS AGREEMENTS

### Questions on the development of new CMS Agreements relating to Bird Species

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Bird Species ?

*Please select only one option*

Yes

No

If Yes, what is the current state of development?

>

2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Bird Species ?

*Please select only one option*

Yes

No

If Yes, please provide details:

>

3. If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?

>

4. Is the development of any CMS Agreement for Bird Species, including Memoranda of Understanding, planned by your country in the foreseeable future?

*Please select only one option*

Yes

No

4.1. If Yes, please provide details:

>

### Questions on the development of new CMS Agreements relating to Marine Mammal Species

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Marine Mammal Species ?

*Please select only one option*

Yes

No

If Yes, what is the current state of development?

>

2. In the current reporting period, has your country **participated** in the development of any new CMS

Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Marine Mammal Species ?

*Please select only one option*

- Yes  
 No

If Yes, please provide details:

>

4. Is the development of any CMS Agreement for Bat Species, including Memoranda of Understanding, planned by your country in the foreseeable future?

Please select only one option

- Yes  
 No

4.1. If Yes, please provide details:

>

## Questions on the development of new CMS Agreements relating to Fish

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Fish ?

*Please select only one option*

- Yes  
 No

If Yes, what is the current state of development?

>

2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Fish ?

*Please select only one option*

- Yes  
 No

If Yes, please provide details:

>

3. If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?

>

4. Is the development of any CMS Agreement for Fish, including Memoranda of Understanding, planned by your country in the foreseeable future?

*Please select only one option*

- Yes  
 No

4.1. If Yes, please provide details:

>

### 3. LISTING OF MIGRATORY SPECIES IN APPENDIX II

1. Is your country a Range State for any migratory species that has an unfavourable conservation status, but is not currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation?

N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.

*Please select only one option*

- Yes  
 No

If Yes, please provide details:

>

1a. Is your country taking any steps to propose the listing of this/these species in Appendix II?

*Please select only one option*

- Yes  
 No

If Yes, please provide details:

>

1b. What assistance, if any, does your country require to initiate the listing of this/these species?

>

## IV. National and Regional Priorities

1. What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues

*Please select only one option*

- Low
- Medium
- High

2. Are migratory species and their habitats addressed by your country's national biodiversity strategy or action plan?

*Please select only one option*

- Yes
- No

2.1. If Yes, please indicate and briefly describe the extent to which it addresses the following issues:

Conservation, sustainable use and/or restoration of migratory species

>

Conservation, sustainable use and/or restoration of the habitats of migratory species, including protected areas

> Designation of specially protected zones for the European Ecological Network NATURA 2000 and restoration of the habitats. In period 2008 - 2011 adopted four new areas (Natura 2000). Increase the network of birds with 244935.06 ha. In Bulgaria has implemented the projects: Of mapping and determining the conservation status of natural habitats and species and minimize risks to wild birds; Update of the National Action Plan for conservation of wetlands: The update of the Bulgarian national action plan for conservation of wetlands is included as specific action in the implementation of LIFE08 NAT/BG/000277 Ensuring Conservation of Priority Bird Species and Coastal Habitats at the Bourgas Natura 2000 Wetland Sites project; Within the GEF/World Bank project "Pomorie Lake - Conservation, Restoration and Sustainable management" following activities were undertaken: detailed design and restoration of sea-lake canal, detailed design was developed for the freshwater drainage canal and system, detailed design for restoration of nesting habitat for threatened water birds, development of a management plan, establishment of Pomorie Lake Visitor Centre, implementation of environmental education and CEPA program. Management plan is developed but pending approval by relevant authority - MOEW. Detailed design for restoration of nesting habitat for water birds is developed and its execution is planned for 2011. Funding is assured by Operative Program Environment. Creation of nesting islets and platforms are planned and funding by LIFE+ is pending. Same situation is with clearing of invasive species (*Amorpha fruticosa*); Conservation and recovering of 11 habitats - wetlands (Natura 2000) in forestry territories (LIFE08NAT/BG/000281); Conservation of wintering population of *Branta ruficollis* in Bulgaria. Finish procedure for notification of new wetland "Dragoman Marsh Karst Complex". In Bulgaria has 11 wetlands by the criteria of Ramsar Convention on wetlands.

Actions to prevent, reduce or control factors that are endangering or are likely to further endanger migratory species (e.g. alien invasive species or by-catch)

>

Minimizing or eliminating barriers or obstacles to migration

> By orders of the ministry banned the construction of wind farms in 6 zones of the Black Sea coast habitats of migratory birds. Elaboration of sensitivity maps for birds to wind farm developments - project of Bulgarian Society for the Protection of Birds / BirdLife Bulgaria. Electrocution: Bulgarian Society for the Protection of Birds (BSPB) together with electricity companies started to replace dangerous electricity lines with safety ones in the most problematic areas in Southern Bulgaria in 2010; Habitat destruction: NGOs report to the government for any project that is dangerous for migratory birds because of habitat destruction; MoEW ask for an EIA procedure when risk of significant impacts on birds is possible to exist; Wind turbines: Internal instructions have been developed by MoEW for assessment of wind farm projects; Strategic Environmental Assessment of the National Action Plan on Renewable Energy Development 2010 - 2020 is elaborated (procedure is not finalized). Large national-scale project started in 2011 for minimizing risks for wild birds due to windfarm development, including elaboration of a sensitivity map .

Research and monitoring of migratory species

> In Bulgaria work the National Monitoring System on biodiversity. Monitoring of migratory species takes place during the month of January - 2008, 2009, 2010 and 2011.

Transboundary co-operation

>

3. Does the conservation of migratory species currently feature in any other national or regional policies/plans (apart from CMS Agreements)

*Please select only one option*

- Yes

No

3.1. If Yes, please provide details:

> Migratory species are object of the European Ecological Network NATURA 2000 in Bulgaria

### **3a. Do these policies/plans cover the following areas?**

Exploitation of natural resources (e.g. fisheries, hunting, etc.)

## V. Protected Areas

1. Are migratory species taken into account in the selection, establishment and management of protected areas in your country?

*Please select only one option*

- Yes  
 No

If Yes, please provide details:

> All sites in great national and international importance are already in the frame of National Ecological Network. for the the international

1a. Please identify the most important national sites for migratory species and their protection status:

> List of sites of international importance for Birds species: 1. Atanasovsko Lake - date of designation as Ramsar sites 28/11/84; Close to the town of Burgas; 1,404 ha; 42°34'N 027°28'E. Partially Maintained Reserve. 2. Belene Islands Complex. - date of designation as Ramsar sites 24/09/02; Pleven District; 6,898 ha; 43°40'N 025°11'E. Reserve, Natural Monument, Natural Park. 3. Durankulak Lake - date of designation as Ramsar sites 28/11/84; Varna District; 350 ha; 43°42'N 028°30'E. 4. Ibisha Island- date of designation as Ramsar sites 24/09/02. Montana District; 372 ha. 43°49'N 023°31'E. Partially Maintained Reserve. 5. Lake Shabla - date of designation as Ramsar sites 19/03/96; 404 ha; 43°35'N 028°33'E. Shablensko ezero (Shabla Lake), Protected Area. 6. Poda - date of designation as Ramsar sites 24/09/02; near the town of Burgas; 307 ha; 42°27'N 027°27'E. Partially Protected Area. 7. Pomorie Wetland Complex - date of designation as Ramsar sites 24/09/02; Burgas District; 814 ha; 42°35'N 027°37'E. Partially Protected Area. 8. Ropotamo Complex (formerly called 'Arkoutino') - date of designation as Ramsar sites 24/09/75; Burgas District; 5,500 ha; 42°19'N 027°45'E. Partially Reserve, Natural Monument, Maintained Reserve and Protected Area. 9. Srebarna- date of designation as Ramsar sites 24/09/75; Silistra District; 1,357 ha; 44°06'N 027°04'E. World Heritage Site, Biosphere Reserve, Maintained Reserve. 10. Vaya Lake - date of designation as Ramsar sites 11/11/02; Close to the town of Burgas; 2,900 ha; 42°30'N 027°25'E. Partially Protected Area. 11. Varna - Beloslav lakes complex -year of designation as Korine Site 1998, Important Bird Area 1997; Close to the town of Varna; 4 681,8 ha; 43°11'N 027°48'E. Partially Protected Area. EU Ecological Network Natura 2000'. 12. Pozharevo island -year of designation as Korine Site 1998, Important Bird Area 1997; Close to the town of village Pozharevo, island of river Dunav ; 975,9 ha; 44°3'N 026°4'E. Partially Protected Area. EU Ecological Network Natura 2000'. 13. Orsoya fish - ponds - year of designation as Korine Site 1998, Important Bird Area 1997; Close to the town of the village Orsoya; 475,5 ha; 43°27'N 023°5'E. EU Ecological Network Natura 2000'. 14. Pyasachnik reservoir - year of designation as Korine Site 1998, Important Bird Area 1997; Close to the town of village Ljuben, Plovdiv District ; 3179,0 ha; 42°25'N 024°33'E. EU Ecological Network Natura 2000'. 15. Studen kladenets - year of designation as Korine Site 1998, Important Bird Area 1989; Between the town of Kurdzhali and Studen kladenets ; 15 995,6 ha; 41°37'N 025°31'E. Partially Protected Area. EU Ecological Network Natura 2000' 16. Plovdiv fish - ponds - year of designation as Important Bird Area 1997; Plovdiv District ; 145,8 ha; 42°11'N 024°45'E. EU Ecological Network Natura 2000' 17. Vardim island - year of designation as Korine Site 1998, Important Bird Area 1989; island of river Dunav, Svishtov District; 1 284,1 ha; 42°9'N 025°53'E. Partially Protected Area. EU Ecological Network Natura 2000' 18. Rozov kladents rezervoir - year of designation as Korine Site 1998, Important Bird Area 1997; Galabovo District; 1 168,0 ha; 43°37'N 025°28'E. Protected Area. EU Ecological Network Natura 2000' 19. Ovcharitsa rezervoir - year of designation as Korine Site 1998, Important Bird Area 1997; Radnevo District; 4 304,5 ha; 42°15'N 026°11'E. Protected Area. EU Ecological Network Natura 2000'. 20. Mechka fish - ponds - year of designation as Korine Site 1998, Important Bird Area 1997; Close to the town of the village Mechka; Ruse District; fish - ponds + 2 island of river Dunav ; 4 304,5 ha; 42°15'N 026°11'E. EU Ecological Network Natura 2000'. 21. Malko Sharkovo reservoir- year of designation as Korine Site 1998, Important Bird Area 1989; Close to the town of the village Malko Sharkovo; Yambol District; 1 662,69 ha; 42°6'N 026°51'E. EU Ecological Network Natura 2000'. 22. Kalimok complex - year of designation as Korine Site 1998, Important Bird Area 1989; Close to the town of the village Nova cherna; Ruse and Silistra Districts; fish - ponds + island + site of river Dunav; 9 431,8 ha; 44°01'N 026°25'E. Partially Protected Area. EU Ecological Network Natura 2000'. 23. Kamchia complex - year of designation as Korine Site 1998, Important Bird Area 1989, Biosphere Reserve 1977; Close to the town of villages Avren and Dolni chiflik; Varna District; forest + site of Black sea and river Kamchia; 10 075,6 ha; 43°0'N 027°49'E. Partially Protected Area. EU Ecological Network Natura 2000'. 24. Kaliakra - year of designation as Korine Site 1998, Important Bird Area 1989; Close to the town of site of Black sea ; Kavarna and Shabla Districts; 16 172,3 ha; 43°24'N 028°26'E. Partially Protected Area. EU Ecological Network Natura 2000'.

### 1b. Do these protected areas cover the following areas?

Terrestrial

*Please select only one option*

- Yes  
 No

If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas

>

#### Aquatic

*Please select only one option*

Yes

No

If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas

>

#### Marine

*Please select only one option*

Yes

No

If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas

>

1c. Identify the agency, department or organization responsible for leading on this action in your country:

> Ministry of Environment and Water

2. Results - please describe the positive outcomes of any actions taken

>

## VI. Policies on Satellite Telemetry

1. In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry?

*Please select only one option*

- Yes
- No

If yes what is the state of those projects

*Please select only one option*

- In preparation
- on-going
- completed

Please provide details

> N/A

2. Are any future conservation/research projects planned that will use satellite telemetry?

*Please select only one option*

- Yes
- No

If Yes, please provide details (including the expected timeframe for these projects):

>

If No, please explain any impediments or requirements in this regard:

>

3. Results - please describe the positive outcomes of any actions taken

> N/A

## VII. Membership

1. Have actions been taken by your country to encourage non- Parties to join CMS and its related Agreements?

*Please select only one option*

- Yes  
 No

If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.)

>

1a. Identify the agency, department or organization responsible for leading on this action in your country:

>

2. Results - please describe the positive outcomes of any actions taken

>

## VIII. Global and National Importance of CMS

1. Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation?

*Please select only one option*

- Yes
- No

If Yes, please provide details:

>

2. Identify the agency, department or organization responsible for leading on this action in your country:

>

3. Results - please describe the positive outcomes of any actions taken

>

## IX. Mobilization of Resources

1. Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country?

*Please select only one option*

- Yes  
 No

If Yes, please provide details (Indicate the migratory species that have benefited from these activities):  
> N/A

2. Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition?

*Please select only one option*

- Yes  
 No

If Yes, please provide details:  
> N/A

3. Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)?

*Please select only one option*

- Yes  
 No

If Yes, please provide details (Indicate the migratory species that have benefited from these activities):  
> N/A

4. Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species?

*Please select only one option*

- Yes  
 No

If Yes, please provide details (Indicate the migratory species that have benefited from these activities):  
> N/A

5. Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country?

*Please select only one option*

- Yes  
 No

If Yes, please provide details (Indicate the migratory species that have benefited from these activities):  
> N/A

6. Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country?

*Please select only one option*

- Yes  
 No

If Yes, please provide details (Indicate the migratory species that have benefited from these activities):  
> Project for conservation of *Phalacrocorax pygmeus* habitats on the territory of South Bulgaria. Project founded by MATRA and was implemented in 2007 by Green Balkans NGO. Project: "Partnerships for the European natural heritage". Project founded by European Commission and will be implemented in 2008 by Green Balkans NGO. Project: "Reconnecting the Danube and its People". Project founded by WWF and will be implemented 2008-2012. Different projects of LIFE + and Operational Program Environment.

## **X. Implementation of COP Resolutions and Recommendations**

**Please provide information about measures undertaken by your country relating to recent Resolutions and Recommendations since the last Report. For your convenience please refer to the list of COP Resolutions and Recommendations listed below:**

### **Resolutions**

Bycatch (incl. Recommendation) (6.2 / 7.2 / 8.14 / 9.18 / 10.14)

>

Oil Pollution and Migratory Species (7.3)

>

Electrocution of Migratory Birds (7.4 / 10.11)

>

Wind Turbines and Migratory Species (7.5)

>

## **Recommendations**

Recommendation 7.6 - Improving the Conservation Status of the Leatherback Turtle (*Dermochelys coriacea*)

>

Recommendation 8.17 - Marine Turtles

>

Recommendation 9.1 - Central Eurasian Aridland Mammals

>

Recommendation 9.2 - Sahelo-Saharan Megafauna

>

Recommendation 9.3 - Tigers and other Asian Big Cats

>

Recommendation 9.5 - Cooperative Action for the Elephant (*Loxodonta africana*) in Central Africa

>

**Other resolutions/recommendations:**

>

**Other remarks:**

>

## Annex: Updating Data on Appendix II Species

1. The drop-down lists below contain the list of all species listed in Appendix II. New Parties which have acceded since COP10 in 2011 and Parties which did not submit a National Report in time in 2011 are requested to complete the entire form.

Parties that did submit a timely report in 2011 are requested to review and update the data (e.g. new published distribution references and details concerning species added to Appendix II at COP9 and COP10).

### Chiroptera

#### Rhinolophidae spp (European populations)

Please choose the one that applies.

*Please select only one option*

- Range State
- Not a Range State
- Extinct at National level
- No information available

Published distribution reference

>

#### Vespertilionidae spp (European populations)

Please choose the one that applies.

*Please select only one option*

- Range State
- Not a Range State
- Extinct at National level
- No information available

Published distribution reference

> Peshev et al, 2004 Fauna Bulgarica, Mammalia Vol. 27, "Prof. Marin Drinov" Academic Publishing house, 278-282 p.

#### Miniopterus schreibersii (African populations)

Please choose the one that applies.

*Please select only one option*

- Range State
- Not a Range State
- Extinct at National level
- No information available

Published distribution reference

> Peshev et al, 2004 Fauna Bulgarica, Mammalia Vol. 27, "Prof. Marin Drinov" Academic Publishing house, 283-286 p.

#### Miniopterus majori

Please choose the one that applies.

*Please select only one option*

- Range State
- Not a Range State
- Extinct at National level
- No information available

Published distribution reference

>

#### Miniopterus natalensis (African populations)

Please choose the one that applies.

*Please select only one option*

- Range State
- Not a Range State
- Extinct at National level
- No information available

Published distribution reference

>

### **Otomops martiensseni (African populations)**

Please choose the one that applies.

*Please select only one option*

- Range State
- Not a Range State
- Extinct at National level
- No information available

Published distribution reference

>

### **Otomops madagascariensis**

Please choose the one that applies.

*Please select only one option*

- Range State
- Not a Range State
- Extinct at National level
- No information available

Published distribution reference

>

### **Tadarida teniotis**

Please choose the one that applies.

*Please select only one option*

- Range State
- Not a Range State
- Extinct at National level
- No information available

Published distribution reference

> Peshev et al, 2004 Fauna Bulgarica, Mammalia Vol. 27, "Prof. Marin Drinov" Academic Publishing house, 287-289 p.

### **Tadarida insignis**

Please choose the one that applies.

*Please select only one option*

- Range State
- Not a Range State
- Extinct at National level
- No information available

Published distribution reference

>

### **Tadarida latouchei**

Please choose the one that applies.

*Please select only one option*

- Range State
- Not a Range State
- Extinct at National level
- No information available

Published distribution reference

>

### **Eidolon helvum (African populations)**

Please choose the one that applies.

Please select only one option

- Range State
- Not a Range State
- Extinct at National level
- No information available
