

32ème réunion du Comité permanent

Bonn, 8-9 novembre 2007

CMS/StC32/13 Point 9.b de l'ordre du jour

NOUVEAU FORMAT DES RAPPORTS NATIONAUX DE LA CMS

Introduction

- 1. Le principal objectif des rapports nationaux est de fournir des renseignements sur les mesures prises concernant l'application de la Convention et l'efficacité de ces mesures. L'Article VI de la Convention demande aux Parties, qui sont Etats de l'aire de répartition des espèces migratrices inscrites à l'Annexe I ou à l'Annexe II, d'informer la Conférence des Parties par l'intermédiaire du Secrétariat, au moins six mois avant chaque réunion ordinaire de la Conférence, des mesures qu'ils ont prises pour appliquer les dispositions de cette Convention pour ces espèces. Une liste des Etats de l'aire de répartition des espèces migratrices inscrites aux Annexes I et II sera tenue à jour par le Secrétariat en utilisant les renseignements qu'il aura reçus des Parties.
- En conséquence, la Résolution 8.24 de CdP8 de la CMS sur "Les rapports nationaux 2. pour les huitième et neuvième sessions de la Conférence des Parties" a souligné le rôle important des rapports nationaux en tant qu'indicateurs essentiels de la Convention et a formulé un certain nombre de recommandations sur la disponibilité, le processus de soumission et le format des rapports nationaux. La CdP a donné instruction au Secrétariat de réaliser une analyse des rapports reçus et d'utiliser cette analyse comme base pour développer un nouveau format qui "devrait rechercher également, via le cadre du groupe de liaison sur la biodiversité et en consultation avec le PNUE-CMSC, à faire progresser l'harmonisation du système de rapport avec d'autres accords internationaux sur la biodiversité par le développement de modules communs de rapports". Une analyse des rapports reçus au 31 décembre 2005 a été effectuée en réponse au 2 de la Résolution 8.24 et les résultats en sont disponibles http://www.cms.int/documents/national_reports.htm pour information et pour faciliter la prise de décision. Les progrès accomplis à ce jour par le Secrétariat dans l'application de cette résolution sont exposés ci-dessous.
- 3. Il y a deux processus conduits simultanément et concernant l'amendement des rapports nationaux demandé par la CMS à ses Parties :
 - (i) CMS/ Famille en ligne
 - (ii) Harmonisation avec les AME

Progrès

- 4. Dans la Résolution 8.11, la COP de la CMS invitait le secrétaire exécutif, en collaboration avec le Groupe de liaison sur la biodiversité (BLG) et le PNUE à faire progresser les travaux sur l'harmonisation du système de rapports au sein de la famille d'Accords PNUE-CMS et entre les conventions pertinentes. Ce projet vise à améliorer la qualité de l'information, dont les cartes de répartition des espèces migratrices et des écosystèmes, à faciliter l'accès aux renseignements disponibles au sein de la CMS et de ses Accords, à permettre aux spécialistes de travailler sur plusieurs sujets simultanément et de minimiser les chevauchements possibles dans le format de questionnaire.
- 5. A cette fin, la CMS et l'AEWA ont proposé d'établir le tout premier système de rapports nationaux en ligne (SONAR) pour une famille d'Accords multilatéraux sur l'environnement, à introduire en 2008.
- 6. Le PNUE/CMS a travaillé à la rédaction d'un nouveau projet de format de rapport national (voir Annexe 1) susceptible d'être utilisé en ligne. Ceci conduit à un certain nombre d'altérations dans la structure et le contenu du format de rapport. Une autre source d'altération est le Plan stratégique de la CMS 2006-2011. Un exemple incorpore les indicateurs mentionnés dans le Plan stratégique, tels que l'identification et l'étude des principales menaces à l'égard des espèces migratrices et des obstacles à la migration, les questions relatives au renforcement des capacités et à l'éducation, etc. Le PNUE/CMS est actuellement dans la phase de coordination avec le CMSC sur le projet d'harmonisation pour réduire le plus possible les chevauchements. Les rapports devront être concis, centrés, simplifiés, pour éviter les doublons et ouverts pour l'application de mesures de conservation.

Action requise

Le Comité permanent est prié :

- (a) d'examiner et d'approuver le nouveau format de rapport national ;
- (b) de promouvoir le nouveau format en ligne de la Famille de la CMS et son utilisation par les Parties quand elles préparent les renseignements pour la neuvième Conférence des Parties, en 2008.

Convention on the Conservation of Migratory Species of Wild Animals

National Report of Parties on the implementation of the Convention on the Conservation of Migratory Species of Wild Animals

At its sixth meeting, the Conference of the Parties welcomed the work of the United Nations Environment Programme on the harmonization of environmental reporting and encouraged its continuation. Meanwhile the sixth meeting of the Conference of the Parties recognized the need to ensure that this does not affect the ability of the Conference of the Parties to adjust national reporting procedures under the Convention in order to better meet the needs of the Parties.

Reporting format agreed by the Standing Committee at its 26th Meeting (Bonn, June 2003) for mandatory use by Parties, for reports submitted to the Eighth Meeting of the Conference of the Parties (COP8) (Nairobi, 2005).

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005) COP 8.24, as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

Please refer to the separate instructions on how to complete the report. Parties are encouraged to respond to all questions, since it cannot be assumed that the absence of a response indicates that no activities have taken place in the current reporting period. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

This document has been designed with semi-automated text-form fields. Please double click on the grey boxes to enter the field. You can then enter the required information. Continue to do so with each text-field or jump to the next field directly by using the tab key. Where checkboxes are available you might check these with a single click.

Please enter here the name of your country:

. Which agency has been primarily responsible for the preparation of this report?
Please list any other agencies that have provided input:

I(a). General Information

Please complete any unfilled boxes and amend and/or update as appropriate the information provided in the table below:

	I(b). Additional G	eneral Information	
1	Which other government departments are involved in in your country? (Please list.)	activities/initiatives for the conservation of migratory species	
2	If more than one government department is involved, government departments:	describe the interaction/relationship between these	
3	Has a national liaison system or committee been establyes	olished in your country? Please provide contact information No	
4	List the main non-governmental organizations activel migratory species in your country, and describe their	y involved in activities/initiatives for the conservation of involvement:	
4a	Please provide detail on any devolved government/ov	erseas territory authorities involved.	
5	Describe any involvement of the private sector in the	conservation of migratory species in your country:	
6	Note any interactions between these sectors in the cor	nservation of migratory species in your country:	
I(c). Information about involved Au	ıthorities	
	ntify the ministry, agency/department or or ating to Appendix I species.	ganization that is responsible for leading actions	
1	Birds		
2	Marine Mammals		
3	Marine Turtles		
4	Terrestrial Mammals		
5	Bats		
6	Other Taxa		
7			

Appe	ndix I species
1. BIRDS	
1.1	General questions on Appendix I bird species

1	Is the taking of all Appendix I bird species prohibited by the national implementing Yes No legislation cited in Table I(a) (General Information)?
	If <i>other</i> legislation is relevant, please provide details:
1a	If the taking of Appendix I bird species is prohibited by law, have any exceptions Yes No been granted to the prohibition? If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7):
2	Identify any obstacles to migration that exist in relation to Appendix I bird species: By-catch
2a	What actions are being undertaken to overcome these obstacles?
2b	Please report on the progress / success of the actions taken.
2c	What assistance, if any, does your country require in order to overcome these obstacles?
3	What are the major threats to Appendix I bird species (transcending mere obstacles to migration)? Illegal trade Poaching Other (please specify)
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour?
3b	Please report on the progress / success of the actions taken.
3c	Describe any factors that may limit action being taken in this regard:
3d	What assistance, if any, does your country require to overcome these factors?

1.2 Questions on specific Appendix I bird species

The following section contains a table for each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

Spec	ries name – Common Name(s)
1	Is your country a Range State for this species? N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.
2	Please provide published distribution reference:
3a	Summarise information on population size (if known): increasing decreasing stable not known unclear
3b	Summarise information on trends (if known): increasing decreasing stable not known unclear
3c	Summarise information on distribution (if known): increasing decreasing stable not known unclear unclear
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research Identification and establishment of protected areas Monitoring Education/awareness rising Species protection Control hunting / poaching Species restoration Habitat protection Habitat restoration Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:

If you have information indicating that your country should be considered a Range State for any other bird species that is listed in CMS Appendix I, but which is not included in the tables above, please complete a table (provided below) for each species.

Spec	cies name, Common Name(s):
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing decreasing stable not known unclear
2b	Summarise information on trends (if known): increasing adecreasing stable not known unclear
2c	Summarise information on distribution (if known): increasing decreasing stable not known unclear
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research Identification and establishment of protected areas Monitoring Education/awareness rising Species protection Control hunting / poaching Species restoration Habitat protection Habitat restoration Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species:
Misc	cellaneous information or comments on Appendix I birds in general:

2. MARINE MAMMALS

2.1 General questions on Appendix I marine mammals

1	Is the taking of all Appendix I marine mammals prohibited by the national Yes No
	implementing legislation cited in Table I(a) (General Information)?
	If <i>other</i> legislation is relevant, please provide details:
1a	If the taking of Appendix I marine mammals is prohibited by law, have any exceptions Yes No been granted to the prohibition? If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):
2	Identify any obstacles to migration that exist in relation to Appendix I marine mammals:
	By-catch Collision with fishing traffic
	Pollution
	Other (please provide detail)
2a	What actions are being undertaken to overcome these obstacles?
2b	Please report on the progress / success of the actions taken.
2c	What assistance, if any, does your country require in order to overcome these obstacles?
3	What are the major pressures on Appendix I marine mammal species (transcending mere obstacles to migration)?
	Pollution By-catch
	Other (please specify)
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine mammal beyond actions to prevent disruption to migrating behaviour?
3b	Please report on the progress / success of the actions taken.
3c	Describe any factors that may limit action being taken in this regard:
3d	What assistance, if any, does your country require to overcome these factors?

2.2 Questions on specific Appendix I marine mammals

The following section contains a table for each Appendix I marine mammal species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

Spe	cies name – Common Name(s)
1	Is your country a Range State for this species?

Misc	cellaneous information or comments on Appendix I bats in general:	

6. OTHER TAXA

6.1 General questions on Appendix I species belonging to other taxa

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed species belonging to taxa not included in sections 1-5 above:
2	Is the taking of all Appendix I species belonging to taxa not included in sections 1-5 above, prohibited by the national legislation listed as being implementing legislation in Table I(a) (General Information)? If other legislation is relevant, please provide details:
2a	If the taking of Appendix I species belonging to taxa not included in Sections 1-5 above is prohibited by law, have any exceptions been granted to the prohibition? If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):
3	Identify any obstacles to migration that exist in relation to Appendix I species belonging to taxa not included in sections 1-5 above: Lack of legislation Other (please provide detail)
3a	What actions are being undertaken to overcome these obstacles?
3b	Please report on the progress / success of the actions taken.
3c	What assistance, if any, does your country require in order to overcome these obstacles?
4	What are the major threats to Appendix I species belonging to taxa not included in sections 1-5 above (transcending mere obstacles to migration)? Other (please specify)
4a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species belonging to taxa not included in section 1-5 above beyond actions to prevent disruption to migrating behaviour?
4b	Please report on the progress / success of the actions taken.
4c	Describe any factors that may limit action being taken in this regard:
4d	What assistance, if any, does your country require to overcome these factors?

6.2 Questions on specific Appendix I species belonging to other taxa

The following section contains a table for each Appendix I species belonging to taxa not included in sections 1-5 above, for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

Spec	ies name – Common Name(s)
1	Is your country a Range State for this species? N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.
2	Please provide published distribution reference:
3a	Summarise information on population size (if known): increasing decreasing stable not known unclear
3b	Summarise information on trends (if known): increasing decreasing stable not known unclear
3c	Summarise information on distribution (if known): increasing decreasing stable not known unclear
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research Identification and establishment of protected areas Monitoring Education / awareness rising Species protection Control hunting / poaching Species restoration Habitat protection Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:

Annex

(English only)

If you have information indicating that your country should be considered a Range State for any <u>other</u> Appendix I listed species that belongs to taxa not included in sections 1-5 above, please complete a table (provided below) for each species.

Speci	ies name, Common name(s):
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing decreasing stable not known unclear
2b	Summarise information on trends (if known): increasing decreasing stable not known unclear
2c	Summarise information on distribution (if known): increasing decreasing stable not known unclear
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research Identification and establishment of protected areas Monitoring Education / awareness rising Species protection Control hunting / poaching Species restoration Habitat protection Habitat restoration Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species?
Misce	ellaneous information or comments on Appendix I species that belong to taxa not included in sections 1-5 above:

7 LISTING OF OTHER ENDANGERED MIGRATORY SPECIES IN APPENDIX I

1	Is your country a Range State for any other endangered migratory species
	N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.
1a	Is your country taking any steps to propose listing any of these species? If Yes, please provide details:
1b	What assistance/measures, if any, does your country require to initiate the listing of these species?

III. Appendix II Species 1. INFORMATION ON APPENDIX II SPECIES

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the Secretariat each of the Agreement/MoUs to which your country is a Party.

WADDEN SEA SEALS (1991)	
Date of last report:	Period covered:

2. QUESTIONS ON CMS AGREEMENTS

2.1 Questions on the development of new CMS Agreements relating to birds

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bird species?	☐ Yes	□ No
	If Yes, what is the current state of development?		
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bird species?	☐ Yes	□ No
	If Yes, please provide details:		
3	If your country has initiated or is participating in the development of a new Agree Understanding, what assistance, if any, does your country require in order to initiative instrument's development?		
4	Is the development of any CMS Agreement for birds, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	☐ Yes	□No
2.	2 Questions on the development of new CMS Agreements relating to	marine m	ammals
	1		
1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine mammal species?	☐ Yes	□ No
	If Yes, what is the current state of development?		
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine mammal species?	☐ Yes	□ No
	If Yes, please provide details:		
3	If your country has initiated or is participating in the development of a new Agree Understanding, what assistance, if any, does your country require in order to initi instrument's development?		
4	Is the development of any CMS Agreement for marine mammals, including Memoranda of Understanding, planned by your country in the foreseeable future?	☐ Yes	□ No
	If Yes, please provide details:		
	2.3 Questions on the development of new CMS Agreements relating	to marine t	turtles
1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine turtles?	☐ Yes	□ No
	If Yes, what is the current state of development?		
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address The conservation needs of Appendix II marine turtles?	Yes	□ No
	If Yes, please provide details:		

3	If your country has initiated or is participating in the development of a new Agree Understanding, what assistance, if any, does your country require in order to initianstrument's development?		
4	Is the development of any CMS Agreement for marine turtles, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	☐ Yes	□ No
2.4	Questions on the development of new CMS Agreements relating to (other than bats)	terrestrial	mammals
1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, what is the current state of development?	☐ Yes	□ No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, please provide details:	☐ Yes	□ No
3	If your country has initiated or is participating in the development of a new Agree Understanding, what assistance, if any, does your country require in order to initiatrument's development?		
4	Is the development of any CMS Agreement for terrestrial mammals (other than bats), including Memoranda of Understanding, planned by your country in the foreseeable futu	☐ Yes ure?	□ No
	If Yes, please provide details:		
	2.5 Questions on the development of new CMS Agreements re-	lating to ba	ts
1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bat species?	☐ Yes	□ No
	If Yes, what is the current state of development?		
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bat species?	☐ Yes	□ No
	If Yes, please provide details:		
3	If your country has initiated or is participating in the development of a new Agre Understanding, what assistance, if any, does your country require in order to ini instrument's development?		
4	Is the development of any CMS Agreement for bats, including Memoranda of Understanding, planned by your country in the future?	☐ Yes	□No
	If Yes, please provide details:		

2.6 QUESTIONS ON THE DEVELOPMENT OF NEW CMS AGREEMENTS RELATING TO OTHER TAXA

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II species belonging to taxa not included in sections 1-6 above?	☐ Yes	□ No
	If Yes, what is the current state of development?		
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of species belonging to taxa not included in sections 1-6 above?	☐ Yes	□ No
	If Yes, please provide details:		
3	If your country has initiated or is participating in the development of a new Agreem Understanding, what assistance, if any, does your country require in order to initia instrument's development?		
4	Is the development of any CMS Agreement for other taxa, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	☐ Yes	□ No
	3. LISTING OF MIGRATORY SPECIES IN APPEND	ıx II	
1	Is your country a Range State for any migratory species that has an unfavourable conservation status, but is <u>not</u> currently listed in Appendix II and could ben from the conclusion of an Agreement for its conservation? If Yes, please provide details: N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route")		□ No t be treated
	as Range States. Please refer to Article 1 of the Convention for clarification.		
1a	Is your country taking any steps to propose the listing of this/these species in Appendix III If Yes, please provide details:	Yes	☐ No
1b	What assistance, if any, does your country require to initiate the listing of this/these specie	s?	
	1		

IV. National and Regional Priorities

1	What priority does your country assign to the conservation and, Medium High where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues?
2	Are migratory species and their habitats addressed by your country's national Yes No biodiversity strategy or action plan?
	If Yes, please indicate and briefly describe the extent to which it addresses the following issues:
	Conservation, sustainable use and/or restoration of migratory species
	Conservation, sustainable use and/or restoration of the habitats of migratory species, including protected areas
	Actions to prevent, reduce or control factors that are endangering or are likely to further endanger migratory species (e.g. alien invasive species or by-catch)
	☐ Minimizing or eliminating barriers or obstacles to migration
	Research and monitoring of migratory species
	☐ Transboundary co-operation
3	Does the conservation of migratory species currently feature in any other national Yes No
	or regional policies/plans (apart from CMS Agreements)
	or regional policies/plans (apart from CMS Agreements) If Yes, please provide details:
3a	
3a	If Yes, please provide details:
3a	If Yes, please provide details: Do these policies/plans cover the following areas (if Yes, please provide details):
3a	If Yes, please provide details: Do these policies/plans cover the following areas (if Yes, please provide details): Yes No
3a	If Yes, please provide details: Do these policies/plans cover the following areas (if Yes, please provide details): Yes No Exploitation of natural resources (e.g. fisheries, hunting, etc.)
3a	If Yes, please provide details: Do these policies/plans cover the following areas (if Yes, please provide details): Yes No Exploitation of natural resources (e.g. fisheries, hunting, etc.) Economic development
3a	If Yes, please provide details: Do these policies/plans cover the following areas (if Yes, please provide details): Yes No Exploitation of natural resources (e.g. fisheries, hunting, etc.) Economic development Land-use planning
3a	If Yes, please provide details: Do these policies/plans cover the following areas (if Yes, please provide details): Yes No Exploitation of natural resources (e.g. fisheries, hunting, etc.) Economic development Land-use planning Pollution control
3a	If Yes, please provide details: Do these policies/plans cover the following areas (if Yes, please provide details): Yes No Exploitation of natural resources (e.g. fisheries, hunting, etc.) Economic development Land-use planning Pollution control Designation and development of protected areas Development of ecological networks Planning of power lines
3a	If Yes, please provide details: Do these policies/plans cover the following areas (if Yes, please provide details): Yes No Exploitation of natural resources (e.g. fisheries, hunting, etc.) Economic development Land-use planning Pollution control Designation and development of protected areas Development of ecological networks Planning of power lines Planning of fences
3a	If Yes, please provide details: Do these policies/plans cover the following areas (if Yes, please provide details): Yes No Exploitation of natural resources (e.g. fisheries, hunting, etc.) Economic development Land-use planning Pollution control Designation and development of protected areas Development of ecological networks Planning of power lines

	V. Protected Areas		
1	Are migratory species taken into account in the selection, establishment and management of protected areas in your country? If Yes, please provide details:	Yes	□ No
1a	Please identify the most important national sites for migratory species, their protection si connectivity of these sites?	tatus and the	
1b	Do these protected areas cover the following areas? (If Yes, please provide details and in protected areas coverage and the number of protected areas): Yes No Terrestrial Aquatic Marine	nclude the amo	unt of
1c	Identify the agency, department or organization responsible for leading on this action in	your country:	
	VI. Policies on Satellite Telemetr	y	
1	In the current reporting period, has your country undertaken	Yes	□No
	conservation/research projects that use satellite telemetry? In preparation on-going completed		
2	Are any future conservation/research projects planned that will use satellite telemetry?	Yes	☐ No
	If Yes, please provide details (including the expected timeframe for these projects):		
	If No, please explain any impediments or requirements in this regard:		
	VII. Membership		
1	Have actions been taken by your country to encourage non- Parties	Yes	□No
	to join CMS and its related Agreements?	_	
	If Yes, please provide details. (In particular, describe actions taken to rect that have been identified by the Standing Committee as high priorities for		
1a	Identify the agency, department or organization responsible for leading on this action in	your country:	

VIII. Global and National Importance of CMS

1	Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation? If Yes, please provide details:	Yes	□ No
2	Identify the agency, department or organization responsible for leading on this action in you	ır country:	
	IX. Mobilization of Resources		
1	Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country? If Yes, places provide details (Indicate the migratory species that have benefited from these	☐ Yes	☐ No
	If Yes, please provide details (Indicate the migratory species that have benefited from these	activities):	
2	Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition? If Yes, please provide details:	Yes	☐ No
3	Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)? If Yes, please provide details (Indicate the migratory species that have benefited from these	Yes activities):	☐ No
4	Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species? If Yes, please provide details (Indicate the migratory species that have benefited from these	Yes	□No
5	Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country? If Yes, please provide details (Indicate the migratory species that have benefited from these	☐ Yes activities):	□ No
6	Has your country received financial assistance/support from sources other	Yes	☐ No

If Yes, please provide details (Indicate the migratory species that have benefited from these activities):

than the CMS Secretariat for conservation activities having direct benefit for

migratory species in your country?

X. Implementation of COP Resolutions and Recommendations

Please provide detailed and corresponding information about measures undertaken by your country naming the respective Resolution and/or Recommendation since the last Report. For your convenience please refer to the list of COP Resolutions and Recommendations listed below.

Resolutions

Resolution 6.2 – By-catch, and Recommendation 7.2 – Implementation of Resolution 6.2 on By-catch:

Resolution 6.3 – Southern Hemisphere Albatross Conservation:

Resolution 7.2 – Impact Assessment and Migratory Species:

Resolution 7.3 – Oil Pollution and Migratory Species:

Resolution 7.4 – Electrocution of Migratory Birds:

Resolution 7.5 – Wind Turbines and Migratory Species:

Resolution 7.9 – Cooperation with Other Bodies and Processes:

Resolution 7.15 – Future Action on the Antarctic Minke, Bryde's and Pygmy Right Whales under the Convention on Migratory Species:

Resolution 8.1 – Sustainable Use

Resolution 8.2 – CMS Strategic Plan 2006-2010

Resolution 8.5 - Implementation of Existing Agreements and Development of Future Agreements

Resolution 8.7 - Contribution of CMS in Achieving the 2010 Biodiversity

Resolution 8.9 - Review of GROMS (Global Register on Migratory Species)

Resolution 8.11 - Co-operation with other Conventions

Resolution 8.13 - Climate Change and Migratory Species

Resolution 8.14 – By-Catch

Resolution 8.22 - Adverse Human Induced Impacts on Cetaceans

Resolution 8.24 - National Reports for the Eight and Ninth Meetings of the Conference of the Parties

Resolution 8.27 - Migratory Species and Highly Pathogenic Avian Influenza

Resolution 8.29 - Concerted Actions for Appendix I Species

Recommendations

Recommendation 7.5 – Range State Agreement for Dugong (*Dugong dugon*) Conservation

Recommendation 7.6 – Improving the Conservation Status of the Leatherback Turtle (*Dermochelys coriacea*)

Recommendation 7.7 – America Pacific Flyway Programme:

Recommendation 8.12 - Improving the conservation status of raptors and owls in the African Eurasian region

Recommendation 8.16 – Migratory Sharks

Recommendation 8.17 – Marine Turtles

Recommendation 8.23 - Central Eurasian and Aridland Mammals

Recommendation 8.26 - Grassland Bird Species and their Habitats in Southern South America

Recommendation 8.28 - Cooperative Actions for Appendix II Species

Other resolutions/recommendations:

Other remarks:

Annex: Questions on specific Appendix II species

The tables below contain all species listed in Appendix II. Boxes have been checked to indicate the species for which your country is considered to be a Range State. Please amend the boxes where appropriate. (If you wish to provide further information on any of these species, please attach as an annex.) Please also provide published distribution references where available.

Species	Range State	Not a Range State	Extinct	No information available	Published distribution reference

All species of each of the Families below are listed in Appendix II. If your country is a Range State for any of the species in these Families, please enter the species name in the first column, under the relevant Family heading. Please indicate (with a 'X') whether your country is a Range State or the species is extinct and, where appropriate, please provide published distribution references. (Space is provided for ten species in each Family. If additional lines are required, please attach the information as an annex.)
