

III. Species on the Convention Appendices

- Please confirm that the list below correctly identifies the **Appendix II** taxa for which your country is a Range State.
- Taxa listed on Appendix II at a level higher than the species have been disaggregated to the species level, in-line with the standard taxonomic references adopted by the Conference of the Parties, and included in the list where they meet the CMS movement criteria.
- In tab 2, please identify the species for which your country is a Range State and which are already included in **Appendix II** but have inadvertently been omitted from the list provided in tab 1”.
- Tab 3 includes a list of avian species that, based on the sources used as a reference for distribution information (Avibase and BirdLife International), have been regarded as vagrants in your country, and have not been included in the list below. The list is provided for reference, and is not expected to be amended. However, if you disagree with the vagrant nature of the occurrence of a species in your country, please confirm this by including the species in the table in tab 2.

- Please only edit columns C-D
