

Three top thematic issues in Asia

AEMLWG 2nd Meeting

South Asia

- Identifying and monitoring breeding sites of migrant land birds of S Asia to **establish their stopover & wintering sites**
- Formulate **National Land Bird Monitoring Programme to identify major breeding sites** in S Asia for the land bird migrant species migrating to Africa, and to understand the trends in their population, in collaboration with the other range countries
- **Prevent Hunting** through legislation and awareness

E Asia/Russia

- Further development of the **Land Bird Monitoring Scheme** launched in March 2015
- **Strengthen law enforcement to prevent illegal hunting** of migratory birds, especially in **China** (via bilateral agreements)
- Study the migration of key species such as the **Yellow-breasted Bunting** for better knowledge for conservation
