

**AGREEMENT ON THE CONSERVATION
OF GORILLAS AND THEIR HABITATS
(GORILLA AGREEMENT)**

**AGREEMENT ON THE CONSERVATION OF GORILLAS AND THEIR HABITATS
(GORILLA AGREEMENT)**

THE CONTRACTING PARTIES,

DETERMINED to implement the decision of the Conference of the Parties of the Convention on Migratory Species (CMS) to list gorillas (*Gorilla gorilla s.l.*) on Appendix I of the Convention;

NOTING that this listing was motivated by the unfavourable conservation status of the gorilla (*Gorilla gorilla s.l.*) and the conviction that they would significantly benefit from international cooperation that could be achieved by a multilateral Agreement;

AWARE of the exceptional significance of great apes for the natural and cultural heritage of humankind;

RECOGNISING that numerous and sound efforts have already been devoted both by governments and non-governmental organisations for the preservation of the various populations that constitute *Gorilla gorilla s.l.*;

DEEPLY CONCERNED by the continued rapid decline and persistent fragility of these populations, widely observed in spite of these efforts;

CONVINCED that the conservation of the species is intimately linked to that of the precious and exceptional forest habitats it frequents;

CONSCIOUS that the conservation of great apes has unique implications in terms of interactions with human use of the land and its resources as well as in relation to human health;

CONCERNED by the degradation of conservation status in the hindrance of conservation efforts brought about by the situations of tensions and conflicts within the range of gorillas;

NOTING that great ape populations in a favourable conservation status can constitute a considerable asset for countries and areas that hold them;

ENCOURAGED by the interest of Range States and all actors of African conservation in the preservation of the unique patrimonial value that gorillas represent;

ACKNOWLEDGING the outcome of the First Intergovernmental Meeting on Great Apes and the First Council Meeting of the Great Apes Survival Project (Kinshasa, September 2005), including the Global Strategy for the Survival of Great Apes and their Habitat;

FURTHER ACKNOWLEDGING the decision of the Fifth CMS Conference of the Parties to undertake a Concerted Action on *Gorilla beringei* and the need, noted by the Eighth Conference in Resolution 8.5 to develop an appropriate instrument to support the Concerted Action for *Gorilla gorilla s.l.*;

CONVINCED that the conclusion of a multilateral Agreement and its implementation will contribute significantly to the conservation of gorillas and their habitats in the most efficient manner, and will have benefits for many other species of animals and plants; and

ACKNOWLEDGING that effective implementation of such an Agreement will require assistance to be provided to some Range States for research, training and monitoring of gorillas and their habitats, for the management of those habitats as well as for the establishment or improvement of scientific and administrative institutions for the implementation of this Agreement,

HAVE AGREED AS FOLLOWS:

ARTICLE I

Scope, Definitions and Interpretation

- (j) take all efforts to prevent conflicts between humans and gorillas through appropriate land-use planning. Where human-gorilla conflict occurs, parties must take measures to reduce the conflict, with expert advice.
