The Secretariat of the Convention on the Conservation of Migratory Species of Wild Animals (UNEP/CMS) would like to draw attention to a call from the Intergovernmental Platform on Biodiversity and Ecosystem Services (IPBES) to take part in the review of the [draft scoping report for the thematic assessment of the sustainable use of biodiversity](#), which was produced at a meeting held in Bonn, Germany from 2-4 August 2016.

IPBES invites Governments and other stakeholders to use this [template](#) and send their comments to felice.vanderplaat@ipbes.net no later than 2 October 2016.

Furthermore, the CMS Secretariat would like to draw attention to the release of the final versions of the Summaries for Policymakers (SPM) of the IPBES [methodological assessment of scenarios and models of biodiversity and ecosystem services](#) and the [thematic assessment on pollinators, pollination and food production](#), which were approved by the IPBES Plenary in Malaysia in February 2016.

The sharing of the SPMs – especially with relevant policymakers in your respective networks and countries – would be highly appreciated.
