

# 2014 NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

**The deadline for submission of the reports is 1 May 2014. The reporting period is 15 June 2011 to 1 May 2014.**

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

Reporting format agreed by the Standing Committee at its 40th Meeting (Bonn, November 2012) for mandatory use by Parties, for reports submitted to the Eleventh Meeting of the Conference of the Parties (COP11) 2014.

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

COP Resolution 9.4 adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. The CMS Family Online Reporting System (ORS) has been successfully implemented and used by AEWA in their last Meeting of the Parties (MOP 5, 2012) reporting cycle. CMS now offers the Convention's Parties to use the ORS for submitting their national reports for the COP11 (2014) reporting cycle.

Please enter here the name of your country

> Armenia

Which agency has been primarily responsible for the preparation of this report?

> Management Agency Ministry of Nature Protection of Armenia

Please list any other agencies that have provided input

> Institute of Zoology of the National Academy of Sciences of Armenia.

## I(a). General Information

Please enter the required information in the table below:

### Party

Date of entry into force of the Convention in your country  
> 01.03.2011

Period covered  
> 2011-2014

Territories to which the Convention applies  
> Whole territory of Armenia

### Designated National Focal Point

Full name of the institution  
> Ministry of Nature Protection of Republic of Armenia

Name and title of designated Focal Point  
> Sevak Baloyan, Head of the Animal Resources Management Division Bioresources Management Agency

Mailing address  
> sevbaloyan@rambler.ru  
sevbaloyan30@gmail.com

Telephone  
> +374 77780076, +374 10 580611

Fax  
> +374 10 585469

E-mail  
> sevbaloyan@rambler.ru, sevbaloyan30@gmail.com

### Appointment to the Scientific Council

Full name of the institution  
> Ministry of Nature Protection of Republic of Armenia

Name and title of contact officer  
> Aram Aghasyan, Head of Natural Special Protected Areas Division Bioresources Management Agency

Mailing address  
> agasaram@yahoo.com

Telephone  
> +374 10 580699

Fax  
> +374 10 585469

E-mail  
> agasaram@yahoo.com

### Submission

#### Name and Signature of officer responsible for submitting national report

Name:  
> Sevak Baloyan

Address:  
> Armenia Government Building 3, Republic Square

0010 Yerevan

Tel.:  
> +374 77780076

Fax:  
> +374 10 585469

E-mail:  
> sevbaloyan@rambler.ru, sevbaloyan30@gmail.com

### **Involvement of other government departments/NGOs/private sector**

1. Which other government departments are involved in activities/initiatives for the conservation of migratory species in your country? (Please list.)

> No other governmental bodies are involved in conservation of migratory species.

2. If more than one government department is involved, describe the interaction/relationship between these government departments:

> ----

3. Has a national liaison system or committee been established in your country?

No

4. List the main non-governmental organizations actively involved in activities/initiatives for the conservation of migratory species in your country, and describe their involvement:

> 1."Armenian Society for the Protection of Birds"-Armenian Society for the Protection of Birds (ASPB) is a non-governmental organization which strives to conserve birds, habitats upon which they depend and areas of strategic importance to birds through active involvement of local communities using birds as important advocacy tool. It was established to ensure wise stewardship of birds naturally occurring in the Armenian territory.

Mission: ASPB aims to study, protect and maintain the viable populations of birds, especially those threatened

and vulnerable classified globally and at national level, and areas of strategic importance to birds as a valuable natural resource. It is committed to use birds as an important advocacy medium to leverage the environmental interest and concern.

In pursuit of its objectives, ASPB seeks to:

Study and collect data on the status of birds, those rare, vulnerable or threatened with extinction, identify threats and key factors that have deleterious effect on their population size and trends or jeopardize their very survival. Contribute to create a national strategy for conservation of birds and their habitats in Armenia; technically encourage designation of preserves, reserves and other areas of special protection in those regions. Identify aquatic and terrestrial habitats of high avian diversity or significance. Raise specific and public awareness about Armenian birds and their conservation priorities; Increase education efforts among target groups through their direct involvement.

2. WWF-Armenian Branch-One of the main priorities of WWF-Armenia is conservation of endangered species such as Caucasian leopard, Armenian mouflon, Bezoar goat, Brown bear, etc.

Over the past 10 years WWF has undertaken considerable efforts to assess the status of the Caucasian leopard in the Caucasus. Together with key stakeholders WWF developed the Regional Strategy and the National Action Plan for leopard conservation and started its implementation.

Close partnership of WWF with the Ministry of Nature Protection (MoNP) resulted in great achievements in the field of PAs system development. Four new PAs (Arevik National Park, Zangezur and Khustup State Sanctuaries and Gnishik Protected Landscape) covering the habitats of leopard were established in southern Armenia with the total area of 73,229 ha making 2.5% of the territory of the country.

In the result of WWF partnership with the governments of Armenia and Georgia the first transboundary protected area was established in the Caucasus: Lake Arpi National Park in Armenia and Javakheti National Park in Georgia.

In addition, we support PAs through technical capacity building and staff training to implement different management programmes - protection, research and monitoring, awareness raising and ecotourism.

In order to enforce protection of endangered species WWF assisted Khosrov and Shikahogh State Reserves, Arevik National Park, Zangezur and Khustup Sanctuaries with necessary facilities and equipment (rangers' shelters, off-road vehicles, road blocks, binoculars, photo-cameras, etc.).

4a. Please provide detail on any devolved government/overseas territory authorities involved.

> -----

5. Describe any involvement of the private sector in the conservation of migratory species in your country:

> -----

6. Note any interactions between these sectors in the conservation of migratory species in your country:

> -----

## **I(b). Information about involved Authorities**

Identify the ministry, agency/department or organization that is responsible for leading actions relating to Appendix I species

### 1- Birds

> Ministry of Nature Protection of Republic of Armenia (RA governmental decision N1594-N, 2011)

### 2- Aquatic Mammals

> -----

### 3- Reptiles

> Ministry of Nature Protection of Republic of Armenia (RA governmental decision N1594-N, 2011)

### 4- Terrestrial Mammals

> Ministry of Nature Protection of Republic of Armenia (RA governmental decision N1594-N, 2011)

### 5- Fish

> Ministry of Nature Protection of Republic of Armenia (RA governmental decision N1594-N, 2011)

## II. Appendix I species

### 1. BIRDS

#### 1.1 General questions on Appendix I bird species

1. Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)?

Yes

If other legislation is relevant, please provide details:

You have attached the following documents to this answer.

[legislation.docx](#) - Legislation

1a. If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition?

Yes

You have attached the following documents to this answer.

[law.docx](#) - law

2. Identify any obstacles to migration that exist in relation to Appendix I bird species:

Habitat destruction

Pollution

2a. What actions are being undertaken to overcome these obstacles?

> Till today the legislation has not regulated yet these obstacles. But at present the draft of law "Especially Protected Natural Areas" is in process of accepting in the Parliament of RA. In case of its acceptance ecological corridors will be created.

2b. Please report on the progress / success of the actions taken.

> As the draft of law "Especially Protected Natural Areas" has already been developed and submitted to the parliament, it can be considered as the first step towards success in overcoming these obstacles.

2c. What assistance, if any, does your country require in order to overcome these obstacles?

> Taking into consideration the fact that in RA there are many qualified specialist in this field who can develop necessary projects and drafts, the only problem remains the lack of financial measures.

3. What are the major pressures to Appendix I bird species (transcending mere obstacles to migration)?

Other (please specify)

> Not complete legislation.

3a. What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour?

> Several laws have been accepted up to present which partly regulate these important problems, for example Law on Fauna, Law on Especially Protected Natural Areas, Water Code etc. According to Armenian legislation, hunting is allowed only during the hunting seasons and only on the species listed in the hunting list.

3b. Please report on the progress / success of the actions taken.

> Each of accepted laws regulates different aspects:

1. 2000 Law on Fauna

Secures

- ◆ conservation, protection, natural reproduction of animal genus and species diversity
- ◆ integrity of natural habitats
- ◆ survival of animal species and populations
- ◆ integrity of migration ways

Regulates

- ◆ sustainable use of resources of wild animals
- ◆ rights and responsibilities of plant resource users

2. 2006 Law on Especially Protected Natural Areas

Regulates

- ◆ Conservation of reference sites and ecosystems
- ◆ Protection of natural monuments
- ◆ Scientific research of nature
- ◆ Monitoring of environment

Defines

- ◆ Categories of protected areas
- 3.2002 (1992) Water Code
- ◆ Establish the mechanisms of water resource management
  - ◆ Protect and conserve water resource
  - ◆ Prevent of negative reveal of water
  - ◆ Water resource inventory
  - ◆ Sustainable water supply
  - ◆ Water supply and removal system secure
  - ◆ Hydropower plant use regulation
  - ◆ Water ecosystem management

3c. Describe any factors that may limit action being taken in this regard:

› The lack of necessary financial measures can limit provided actions.

3d. What assistance, if any, does your country require to overcome these factors?

› Methodological, technical and financial assistance.

Miscellaneous information or comments on Appendix I birds in general:

› Analysis of occurring in the Republic of Armenia species, which are included in Appendices I and II of the Convention, and amendment of their list were carried out; and suggestions concerning new species to be included in the list were prepared, they should be discussed by the appropriate research institutes.

## 6. LISTING OF OTHER ENDANGERED MIGRATORY SPECIES IN APPENDIX I

1. Is your country a Range State for any other endangered migratory species currently listed in Appendix I?

(according to the latest IUCN red data list). N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.

No

1a. Is your country taking any steps to propose listing any of these species?

No

1b. What assistance/measures, if any, does your country require to initiate the listing of these species?

› Methodological, technical and financial assistance.

## III. Appendix II Species

### 2. QUESTIONS ON CMS AGREEMENTS

#### Questions on the development of new CMS Agreements relating to Bird Species

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Bird Species ?

Yes

If Yes, what is the current state of development?

> Analysis of occurring in the Republic of Armenia species, which are included in Appendices I and II of the Convention, and amendment of their list were carried out; and suggestions concerning new species to be included in the list were prepared, they should be discussed by the appropriate research institutes. Works on drafting the RA government's protocol decision on Approval of the Concept for Conservation of Migratory Species of Wild Animals and National Action Plan have started.

Meetings and discussions were held with representatives of mapping and specialized organizations to create information and map base concerning the ecological peculiarities and distribution of migratory species of wild animals occurring in the Republic of Armenia.

2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Bird Species ?

No

3. If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?

> Technical, methodological and financial assistance.

4. Is the development of any CMS Agreement for Bird Species, including Memoranda of Understanding, planned by your country in the foreseeable future?

Yes

4.1. If Yes, please provide details:

> Agreement of AEWA of CMS family Agreements now is in the agenda of ecological policy of Armenia and in coming years we will have some progress on this sphere also.

#### Questions on the development of new CMS Agreements relating to Marine Mammal Species

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Marine Mammal Species ?

No

2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Marine Mammal Species ?

No

3. If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?

> Technical, methodological and financial assistance.

4. Is the development of any CMS Agreement for Marine Mammal Species, including Memoranda of Understanding, planned by your country in the foreseeable future?

No

#### Questions on the development of new CMS Agreements relating to Marine Turtle

## Species

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Marine Turtle Species ?

No

2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Marine Turtle Species ?

No

4. Is the development of any CMS Agreement for Marine Turtle Species, including Memoranda of Understanding, planned by your country in the foreseeable future?

No

## Questions on the development of new CMS Agreements relating to Terrestrial Mammal (other than bats) Species

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Terrestrial Mammal (other than bats) Species ?

No

2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Terrestrial Mammal (other than bats) Species ?

No

4. Is the development of any CMS Agreement for Terrestrial Mammal (other than bats) Species, including Memoranda of Understanding, planned by your country in the foreseeable future?

No

## Questions on the development of new CMS Agreements relating to Bat Species

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Bat Species ?

Yes

If Yes, what is the current state of development?

> Agreement of EUROBATS of CMS family Agreements now is in the agenda of ecological policy of Armenia and in coming years we will have some progress on this sphere also.

2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Bat Species ?

No

3. If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?

> Technical, methodological and financial assistance.

4. Is the development of any CMS Agreement for Bat Species, including Memoranda of Understanding, planned by your country in the foreseeable future?

Yes

4.1. If Yes, please provide details:

> Agreement of EUROBATS of CMS family Agreements now is in the agenda of ecological policy of Armenia and in coming years we will have some progress on this sphere also.

## Questions on the development of new CMS Agreements relating to Fish

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Fish ?

No

2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Fish ?

No

4. Is the development of any CMS Agreement for Fish, including Memoranda of Understanding, planned by your country in the foreseeable future?

No

### **3. LISTING OF MIGRATORY SPECIES IN APPENDIX II**

1. Is your country a Range State for any migratory species that has an unfavourable conservation status, but is not currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation?

N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.

No

1a. Is your country taking any steps to propose the listing of this/these species in Appendix II?

No

## IV. National and Regional Priorities

1. What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues

Medium

2. Are migratory species and their habitats addressed by your country's national biodiversity strategy or action plan?

Yes

2.1. If Yes, please indicate and briefly describe the extent to which it addresses the following issues:

Conservation, sustainable use and/or restoration of the habitats of migratory species, including protected areas

> In the protected areas conservation and natural restoration are implemented

Actions to prevent, reduce or control factors that are endangering or are likely to further endanger migratory species (e.g. alien invasive species or by-catch)

> Strengthening of Transboundary co-operation, creation of ecological corridors of especially protected areas and buffer zone management efficiency

Minimizing or eliminating barriers or obstacles to migration

Research and monitoring of migratory species

> The implementation of research and monitoring of migratory species is done only in Especially protected areas but in the framework of International projects short-term monitorings have been implemented.

Transboundary co-operation

> Cooperation between "Lake Arevik" (Armenia) and "Javakheti" (Georgia) National parks.

3. Does the conservation of migratory species currently feature in any other national or regional policies/plans (apart from CMS Agreements)

Yes

3.1. If Yes, please provide details:

> In the framework of Convention of Biodiversity, Bern Convention and in the framework of agreements of cooperation between Georgia and Iran.

### 3a. Do these policies/plans cover the following areas?

Exploitation of natural resources (e.g. fisheries, hunting, etc.)

No

Economic development

Yes

If Yes, please provide details

> Community development.

Land-use planning

Yes

If Yes, please provide details

> Prevention of land degradation.

Pollution control

No

Designation and development of protected areas

Yes

If Yes, please provide details

> Strengthening of Transboundary co-operation, creation of ecological corridors of especially protected areas

Development of ecological networks

Yes

If Yes, please provide details

> creation of ecological corridors of especially protected areas

Planning of power lines

No

Planning of fences

Yes

If Yes, please provide details

> Planning of fences in National parks

Planning of dams

No

Other

No

4. Results - please describe the positive outcomes of any actions taken

> Conservation of biodiversity became more effective.

## V. Protected Areas

1. Are migratory species taken into account in the selection, establishment and management of protected areas in your country?

Yes

If Yes, please provide details:

> In the protected areas special attention is given to habitats, migration lines of migratory species. The existence of species registered in the red list of IUCN and in the appendixes of conventions of Bern and CMS.

1a. Please identify the most important national sites for migratory species and their protection status:

> All animal species are under protection by National legislation.

### 1b. Do these protected areas cover the following areas?

Terrestrial

Yes

If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas

> 3 Reserves, 4 National parks, 27 sanctuaries, which composes 387 054.4 ha and 13% of territory of the RA.

Aquatic

Yes

If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas

> 127 254.08 ha which composes 4.28% of territory of the RA.

Marine

No

1c. Identify the agency, department or organization responsible for leading on this action in your country:

> Management Agency Ministry of Nature Protection of Armenia

2. Results - please describe the positive outcomes of any actions taken

> State reserves are established in allocated areas to protect the natural course of dynamic processes and rare species of flora and fauna. These are scientific research entities where human activity is restricted. Here a strict protection regime is applied, human intervention is entirely prohibited in favor of natural development.

National parks are areas of ecological, historical-cultural, aesthetic significance and in contrast with state reserves they have protection regimes determined by functional zoning. Usually special zones are designated in national parks: protection zone with strict regime of protection, as well as recreational and economic zones.

Sanctuaries can be protected areas of national or local significance with protection regime established in accordance with their purpose

## VI. Policies on Satellite Telemetry

1. In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry?

No

2. Are any future conservation/research projects planned that will use satellite telemetry?

No

If No, please explain any impediments or requirements in this regard:

> Methodological, technical and financial assistance.

3. Results - please describe the positive outcomes of any actions taken

> no positive outcomes of any actions taken

## VII. Membership

1. Have actions been taken by your country to encourage non- Parties to join CMS and its related Agreements?

Yes

If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.)

> Some agreements of CMS family Agreements (AEWA, EUROBATS) now in the agenda of ecological policy of Armenia and in coming years we will have some progress on this sphere also.

1a. Identify the agency, department or organization responsible for leading on this action in your country:

> Management Agency Ministry of Nature Protection of Armenia

2. Results - please describe the positive outcomes of any actions taken

> In this activities have a huge role Scientific Institutions of NAS of Armenia also.

There were many valuable scientific works published by Science-Research organizations.

We will try to combine the results of all these activities and contribute to overall biodiversity conservation.

## VIII. Global and National Importance of CMS

1. Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation?

No

## IX. Mobilization of Resources

1. Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country?

No

2. Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition?

No

3. Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)?

No

4. Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species?

No

5. Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country?

No

6. Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country?

No

## **X. Implementation of COP Resolutions and Recommendations**

**Please provide information about measures undertaken by your country relating to recent Resolutions and Recommendations since the last Report. For your convenience please refer to the list of COP Resolutions and Recommendations listed below:**

### **Resolutions**

Implementation of Existing Agreements and Development of Future Agreements (8.5)

> Some agreements of CMS family Agreements (AEWA, EUROBATS) now in the agenda of ecological policy of Armenia and in coming years we will have some progresson this sphere also.

## Annex: Updating Data on Appendix II Species

1. The drop-down lists below contain the list of all species listed in Appendix II. New Parties which have acceded since COP10 in 2011 and Parties which did not submit a National Report in time in 2011 are requested to complete the entire form.

Parties that did submit a timely report in 2011 are requested to review and update the data (e.g. new published distribution references and details concerning species added to Appendix II at COP9 and COP10).

### Chiroptera

#### Rhinolophidae spp (European populations)

Please choose the one that applies.

Extinct at National level

Published distribution reference

> The Red Data Book of the  
Republik of Armenia,  
2010

#### Vespertilionidae spp (European populations)

Please choose the one that applies.

Range State

Published distribution reference

> The Red Data Book of the  
Republik of Armenia,  
2010

#### Miniopterus schreibersii (African populations)

Please choose the one that applies.

Extinct at National level

Published distribution reference

> The Red Data Book of the  
Republik of Armenia,  
2010

#### Tadarida teniotis

Please choose the one that applies.

Extinct at National level

Published distribution reference

> The Red Data Book of the  
Republik of Armenia,  
2010

### Artiodactyla

#### Ovis ammon

Please choose the one that applies.

Extinct at National level

Published distribution reference

> The Red Data Book of the  
Republik of Armenia,  
2010

### Ciconiiformes

#### Botaurus stellaris stellaris (W. Palaearctic)

Please choose the one that applies.

Range State

Published distribution reference

> A Field Guide to Birds of Armenia M.S. Adamian & D. Klem, Jr., 1997.

### ***Ixobrychus minutus minutus* (W. Palaearctic)**

Please choose the one that applies.

Range State

Published distribution reference

> A Field Guide to Birds of Armenia M.S. Adamian & D. Klem, Jr., 1997.

### ***Casmerodius albus albus* (W. Palaearctic)**

Please choose the one that applies.

Range State

Published distribution reference

> A Field Guide to Birds of Armenia M.S. Adamian & D. Klem, Jr., 1997.

### ***Ardea purpurea purpurea* (Populations breeding in the W Palaearctic)**

Please choose the one that applies.

Range State

Published distribution reference

> A Field Guide to Birds of Armenia M.S. Adamian & D. Klem, Jr., 1997.

### ***Ciconia nigra***

Please choose the one that applies.

Extinct at National level

Published distribution reference

> The Red Data Book of the
