The deadline for submission of the reports is 1 May 2014. The reporting period is 15 June 2011 to 1 May 2014.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

Reporting format agreed by the Standing Committee at its 40th Meeting (Bonn, November 2012) for mandatory use by Parties, for reports submitted to the Eleventh Meeting of the Conference of the Parties (COP11) 2014.

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

COP Resolution 9.4 adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. The CMS Family Online Reporting System (ORS) has been successfully implemented and used by AEWA in their last Meeting of the Parties (MOP 5, 2012) reporting cycle. CMS now offers the Convention’s Parties to use the ORS for submitting their national reports for the COP11 (2014) reporting cycle.

Please enter here the name of your country
› Czech Republic

Which agency has been primarily responsible for the preparation of this report?
› Ministry of Environment

Please list any other agencies that have provided input
› Krkonose National Park Administration
I(a). General Information
Please enter the required information in the table below:

**Party**

Date of entry into force of the Convention in your country
› 1 May 1994

Period covered
› 1 May 2011 to 30 April 2014

Territories to which the Convention applies
› Czech Republic

**Designated National Focal Point**

Full name of the institution
› Ministry of the Environment of the Czech Republic

Name and title of designated Focal Point
› Libuse Vlasakova, Mgr.

Mailing address
› Vrsovicke 65

Involvement of other government departments/NGOs/private sector

1. Which other government departments are involved in activities/initiatives for the conservation of migratory species in your country? (Please list.)  
› Ministry of the Agriculture  (partly)

2. If more than one government department is involved, describe the interaction/relationship between these government departments:  
› Ad hoc meetings.

3. Has a national liaison system or committee been established in your country?  
☑ Yes  
› The working group for implementation of CMS, AEWA, EUROBATS and MoU on the Great Bustard has been established under the Ministry of the Environment that is a responsible body for implementation of these MEAs. NFP for CMS is responsible for coordination of the WG. Simultaneously there is a working group for EUROBATS that is coordinated by NFP for CMS as well.

   Once a year the meeting of NFPs of all MEAs is organised by NFP for CMS at the Ministry of the Environment to exchange information and evaluate progress in implementation of all conventions and to prepare and approve a working plan and projects for next year(s).

4. List the main non-governmental organizations actively involved in activities/initiatives for the conservation of migratory species in your country, and describe their involvement:  
   (1) Czech Society for Ornithology (CSO). It is an NGO of amateurs and professionals interested in conservation and research of birds. CSO is the Czech national partner of the BirdLife International (see www.birdlife.cz). Members of the CSO provide an expert support for implementation of the CMS, incl. AEWA and the MoU on the Great Bustard, and coordinate research and studies on CMS species. CSO is also responsible for general coordination of the Pan-European Common Bird Monitoring (for details see www.ebcc.info/pecbm.html).

   (2) Bird Ringing Centre, National Museum Prague. It is a governmental institution that coordinates all bird-ringing activities in the Czech Republic and analyses and processes data on migratory birds.

   (3) Czech Bat Conservation Trust (CESON). It is an NGO of professionals and amateurs interested in conservation and research of bats (see www.ceson.org). CESON provides expert's support for implementation of EUROBATS and organises European Bat Nights.

   (4) Czech Union of Nature Conservationists (CSOP). It is an NGO of professionals and amateurs interested in nature conservation (see www.csop.cz). CSOP coordinates some programmes on biodiversity conservation at the national level.
4a. Please provide detail on any devolved government/overseas territory authorities involved.

› (1) Agency for Nature Conservation and Landscape Protection of the Czech Republic (AOPK) is a governmental body established by the Ministry of the Environment. Its main aim is to protect and conserve nature and landscape on the whole territory of the Czech Republic. The AOPK’s scope of operations includes namely:
- Monitoring the status, changes and trends in selected habitats and their types and in populations of specially protected wildlife species.
- Technical and expert support of the state administration performance, incl. methodological and expert activities.
- Performance of the state administration in nature conservation and landscape protection within the Protected Landscape Areas as well as on the rest of the country’s territory.
- Administration of the Nature Conservancy Central Register and the central governmental documentation on nature conservation and landscape protection.
- Design, development and management of the Nature Conservancy Information System.
- Administration of national subsidy programmes as well as some European Community funds serving to conserve nature and to protect landscape.
- Payment of financial compensations for the damages caused by specially protected animals and for loss of property in agriculture, forestry and fishpond management.
- State property management in the Specially Protected Areas.
- Awareness raising, communication and education in nature conservation and landscape protection.
- International cooperation in nature conservation and landscape protection (Scientific Authority of the CITES).

› (2) Administrations of National Parks (4 NPs) – nature and landscape conservation, monitoring of status, changes and trends in selected habitats and populations of specially protected wildlife species.

› (3) Administrations of Protected Landscape Areas (25 PLAs) – nature and landscape conservation, monitoring of status, changes and trends in selected habitats and populations of specially protected wildlife species.

5. Describe any involvement of the private sector in the conservation of migratory species in your country:

› None.

6. Note any interactions between these sectors in the conservation of migratory species in your country:

› None.
I(b). Information about involved Authorities

Identify the ministry, agency/department or organization that is responsible for leading actions relating to Appendix I species

1- Birds
› Ministry of the Environment (Dept. Conservation of Species and Implementation of International Agreements)
  Agency of Nature Conservation and Landscape Protection
  Administrations of National Parks
  Administrations of Landscape Protected Areas
  Czech Society for Ornithology

2- Aquatic Mammals
› Not relevant.

3- Reptiles
› Not relevant.

4- Terrestrial Mammals
› Ministry of the Environment (Dept. Conservation of Species and Implementation of International Agreements)
  Agency of Nature Conservation and Landscape Protection
  Administrations of National Parks
  Administrations of Landscape Protected Areas
  Czech Society for Bat Conservation

5- Fish
› Not relevant.
II. Appendix I species

1. BIRDS

1.1 General questions on Appendix I bird species

1. Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)?
☑ Yes

1a. If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition?
☑ No

2. Identify any obstacles to migration that exist in relation to Appendix I bird species:
☑ Electrocution
☑ Habitat destruction
☑ Wind turbines
☑ Other (please provide details):
  ➔ Illegal poisoning

2a. What actions are being undertaken to overcome these obstacles?
  ➔ (1) Establishment of temporary protected areas where necessary.
  ➔ (2) A legislative obligation for energy enterprises (responsible for powerlines) to save all powerlines in the Czech Republic against electrocution till 6 June 2024.
  ➔ (3) National programme “Free Wings” (prepared and organized by the Czech Society for Ornithology) devoted to all illegal human activities negatively influencing bird populations (e.g. birds of prey, hunting, nest robberies, poisoning, trade etc.).
  ➔ (4) Development of the cooperation among the Ministry of the Environment, Ministry of Agriculture and Ministry of Interior on preservation and successful solution of cases of illegal poisoning of birds.

2b. Please report on the progress / success of the actions taken.
  ➔ (1) Temporary protected area for the Great Bustard in the last/potential locality in South Moravia.
  ➔ (3) See www.karbofuran.cz.
  ➔ (4) Interministerial meetings are organised to find a suitable solution and steps against illegal poisoning of birds.

2c. What assistance, if any, does your country require in order to overcome these obstacles?
  ➔ None.

1.2 Questions on specific Appendix I bird species

In the following section, using the table format below, please fill in each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

Species name: Anser erythropus

1. Please provide published distribution reference:
  ➔ Hudec 1994, Hudec et al. 1995

You have attached the following Web links/URLs to this answer.

2a. Summarise information on population size (if known):
☑ not known
  ➔ Irregularly migrating species, observations of 1-7 birds per year.

You have attached the following Web links/URLs to this answer.
http://www.birds.cz/avif - database of the Czech Society for Ornithology

2b. Summarise information on distribution (if known):
3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring
› National waterbird census.
☑ Control hunting / poaching
› Hunting prohibited.

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
› No specific activity prepared for this extremely rare species.

5. Describe any future activities that are planned for this species:
› None.

**Species name: Branta ruficollis**

1. Please provide published distribution reference:
› Hudec 1994, Hudec et al. 1995
You have attached the following Web links/URLs to this answer.

2a. Summarise information on population size (if known):
☑ not known
› Regularly migrating species, up to 15 birds each winter/spring.
You have attached the following Web links/URLs to this answer.
http://www.birds.cz/avif - database of the Czech Society for Ornithology

2b. Summarise information on distribution (if known):
☑ not known
You have attached the following Web links/URLs to this answer.

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring
› National waterbird census.
☑ Control hunting / poaching
› Hunting prohibited.

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
› No specific activity prepared for this extremely rare species.

5. Describe any future activities that are planned for this species:
› None.

**Species name: Aythya nyroca**

1. Please provide published distribution reference:
You have attached the following Web links/URLs to this answer.

2a. Summarise information on population size (if known):
☑ not known
› Rare species: regular occurrence in a breeding season (1-2 pairs), irregular breeding (the last one confirmed in 2014)
in 2004); regularly wintering (up to 10 birds each winter).

You have attached the following Web links/URLs to this answer.
http://www.birds.cz/avif - database of the Czech Society for Ornithology

2b. Summarise information on distribution (if known):
☑ not known

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring
  › National waterbird census.
☐ Species protection
  › Protected by national legislation as a critically endangered species.
☐ Control hunting / poaching
  › Hunting prohibited.
☐ Habitat protection
  › The most important and potential breeding sites are designated as wetlands of international importance (Ramsar sites) and most of them are protected by national legislation.

5. Describe any future activities that are planned for this species:
› None.

**Species name: Haliaeetus albicilla**

1. Please provide published distribution reference:
  › Stastny et al. 2006, Cepak et al. 2008, Belka & Horal 2009, Hora et al. 2010

2a. Summarise information on population size (if known):
☑ increasing
  › Ca 100 breeding pairs, ca 300-500 wintering birds.

2b. Summarise information on distribution (if known):
☑ increasing

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring
  › Regular monitoring of the breeding population in all breeding localities.
☐ Species protection
  › Protected by national legislation as a critically endangered species.
☐ Control hunting / poaching
  › Hunting prohibited.
☐ Habitat protection
  › Majority of nests in the Protected Landscape Areas. If not, temporary legislative protection for a given nest in a given breeding season is secured.

5. Describe any future activities that are planned for this species:
› To sign the Memorandum of Understanding on the Conservation of Migratory Birds of Prey in Africa and Eurasia.

**Species name: Aquila clanga**

1. Please provide published distribution reference:
  › Hudec et al. 1995, Hudec & Stastny 2005

2a. Summarise information on population size (if known):
☐ not known
  › Irregular visitor only; observations of single individuals.

You have attached the following Web links/URLs to this answer.
http://www.birds.cz/avif - database of the Czech Society for Ornithology
2b. Summarise information on distribution (if known):
☑ not known

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Control hunting / poaching
  ‣ Hunting prohibited.

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
☑ No specific activity prepared for this extremely rare species.

5. Describe any future activities that are planned for this species:
☑ To sign the Memorandum of Understanding on the Conservation of Migratory Birds of Prey in Africa and Eurasia.

**Species name: Aquila heliaca**

1. Please provide published distribution reference:
   ▶ Stastny et al. 2006, Cepak et al. 2008, Hora et al. 2010

2a. Summarise information on population size (if known):
☑ stable
  ▶ Regularly breeding (3 pairs in last years).

You have attached the following Web links/URLs to this answer.
http://www.birds.cz/avif - database of the Czech Society for Ornithology

2b. Summarise information on distribution (if known):
☑ stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring
  ▶ Regular monitoring of all breeding pairs.
☑ Species protection
  ▶ Not protected by national legislation (new breeding species for the country) but taken as a protected one.
☑ Control hunting / poaching
  ▶ Hunting prohibited.
☑ Habitat protection
  ▶ All nests in protected areas.

5. Describe any future activities that are planned for this species:
☑ To sign the Memorandum of Understanding on the Conservation of Migratory Birds of Prey in Africa and Eurasia.

**Species name: Falco cherrug (except Mongolian populations)**

1. Please provide published distribution reference:

You have attached the following documents to this answer.
Falche ČR Beran etal 2012.pdf - Saker falcon in the Czech Republic 1999-2010

2a. Summarise information on population size (if known):
☑ stable
  ▶ Regularly breeding species (15-20 breeding pairs).

2b. Summarise information on distribution (if known):
☑ increasing

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
Regular monitoring of breeding localities.

Species protection

Protected by national legislation as a critically endangered species.

Control hunting / poaching

Hunting prohibited.

Habitat protection

Support on some breeding localities (individual nest protection in agrocoenoses, nest boxes or nesting pads on powerline pylons).

5. Describe any future activities that are planned for this species:

To prepare an action plan for the species in the Czech Republic.

To sign the Memorandum of Understanding on the Conservation of Migratory Birds of Prey in Africa and Eurasia.

Species name: Falco vespertinus

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):

decreasing

Long-term decrease, the last confirmed breeding in 1973. Regular observations every year but no other breeding confirmed.

You have attached the following Web links/URLs to this answer.

http://www.birds.cz/avif - database of the Czech Society for Ornithology

2b. Summarise information on distribution (if known):

decreasing

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

Monitoring

Collection of all observation data in the database of the CSO (see above).

Species protection

Protected by national legislation as a critically endangered species.

Control hunting / poaching

Hunting prohibited.

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

No specific activity prepared for this rare species.

5. Describe any future activities that are planned for this species:

To sign the Memorandum of Understanding on the Conservation of Migratory Birds of Prey in Africa and Eurasia.

Species name: Acrocephalus paludicola

1. Please provide published distribution reference:

Stastny et al. 2006, Stastny & Hudec 2011, Flousek & Cepak 2013

You have attached the following documents to this answer.

Acro in Czech Republic Flousek Cepak 2013 cor.pdf - Aquatic warbler in the Czech Republic

2a. Summarise information on population size (if known):

decreasing

2b. Summarise information on distribution (if known):

decreasing

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the
reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring
  › Covered by two regular national schemes (waterbird census, Breeding Bird Census Programme).
☑ Species protection
  › Not protected by national legislation (non-breeding species).
☑ Habitat protection
  › The most important stopover sites are included in wetlands of international importance (Ramsar sites) and most of them are protected by national legislation.

5. Describe any future activities that are planned for this species:
  › To sign the Memorandum of Understanding Concerning Conservation Measures for the Aquatic Warbler.

Species name: *Emberiza aureola*

1. Please provide published distribution reference:
  › Czech Republic is not the Range State for the species.

Species name: *Otis tarda (Middle-European population)*

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):
☑ decreasing
  › No breeding confirmed last years (the last one in 2006); irregular wintering (0-2 ind.).

2b. Summarise information on distribution (if known):
☑ decreasing

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring
  › Regular monitoring of the only suitable locality.
☑ Species protection
  › Protected by national legislation as a critically endangered species.
☑ Control hunting / poaching
  › Hunting prohibited.
☑ Habitat protection
  › Temporary protected area established at the former breeding site in South Moravia, near the Czech-Austrian border. Important part of the site bought by the Czech Agency for Nature and Landscape Conservation. Management plan for the site prepared. Continuing informal co-operation with Austrian ornithologists aimed at protection of the species (future existence of the Czech population depends on vitality of the neighbouring population in Austria).
☑ Habitat restoration
  › Negotiations with local farmers to manage their lands in “bustard-friendly” way.

5. Describe any future activities that are planned for this species:
  › None.

5. FISH

5.1 General questions on Appendix I fish species

If other legislation is relevant, please provide details:
  › Czech Republic is not the Range State for any Appendix I fish species.

5.2 Questions on specific Appendix I fish species

In the following section, using the table format below, please fill in each Appendix I fish species, for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)
Species name: Acipenser sturio

1. Please provide published distribution reference:
   ‣ Czech Republic is not the Range State for the species.

6. LISTING OF OTHER ENDANGERED MIGRATORY SPECIES IN APPENDIX I

1. Is your country a Range State for any other endangered migratory species currently listed in Appendix I? (according to the latest IUCN red data list). N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.
   ☑ Yes

   If Yes, please provide details:
   ‣ The Aquatic Warbler is regularly (even in very low numbers) migrating across the Czech Republic and there are several important stopovers of the species in the country. However, the Czech Republic is not still included among the Range States of the species, in spite of it was stressed several times in previous national reports.

   You have attached the following documents to this answer.
   Acrola in Czech Republic_Flousek Cepak 2013_cor.pdf

1a. Is your country taking any steps to propose listing any of these species?
   ☑ No

1b. What assistance/measures, if any, does your country require to initiate the listing of these species?
   ‣ To include the Czech Republic officially among the Range States of the Aquatic Warbler under the respective MoU.
III. Appendix II Species

1. INFORMATION ON APPENDIX II SPECIES

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the Secretariat of each of the Agreement/MoUs to which your country is a Party.

**EUROBATS (1994)**

Date of last report: › September 2010

You have attached the following Web links/URLs to this answer.

Period covered: › 2007-2010

**AEWA (1999)**

Date of last report: › 25 January 2012

You have attached the following Web links/URLs to this answer.

Period covered › 2009-2011

**Middle-European Great Bustard MoU (2001)**

Date of last report: › 20 February 2013

You have attached the following Web links/URLs to this answer.

Period covered: › 21 September 2008 to 20 February 2013

2. QUESTIONS ON CMS AGREEMENTS

Questions on the development of new CMS Agreements relating to Bird Species

1. In the current reporting period, has your country *initiated* the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Bird Species?
   ☑ No

2. In the current reporting period, has your country *participated* in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Bird Species?
   ☐ No

4. Is the development of any CMS Agreement for Bird Species, including Memoranda of Understanding, planned by your country in the foreseeable future?
   ☑ No

Questions on the development of new CMS Agreements relating to Marine Mammal Species

1. In the current reporting period, has your country *initiated* the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Marine Mammal Species?

   ☑ No
Questions on the development of new CMS Agreements relating to Marine Mammal Species

1. In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Marine Mammal Species? ☑ No

2. In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Marine Mammal Species? ☑ No

4. Is the development of any CMS Agreement for Marine Mammal Species, including Memoranda of Understanding, planned by your country in the foreseeable future? ☑ No

Questions on the development of new CMS Agreements relating to Marine Turtle Species

1. In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Marine Turtle Species? ☑ No

2. In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Marine Turtle Species? ☑ No

4. Is the development of any CMS Agreement for Marine Turtle Species, including Memoranda of Understanding, planned by your country in the foreseeable future? ☑ No

Questions on the development of new CMS Agreements relating to Terrestrial Mammal (other than bats) Species

1. In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Terrestrial Mammal (other than bats) Species? ☑ No

2. In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Terrestrial Mammal (other than bats) Species? ☑ No

4. Is the development of any CMS Agreement for Terrestrial Mammal (other than bats) Species, including Memoranda of Understanding, planned by your country in the foreseeable future? ☑ No

Questions on the development of new CMS Agreements relating to Bat Species

1. In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Bat Species? ☑ No

2. In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Bat Species? ☑ No

4. Is the development of any CMS Agreement for Bat Species, including Memoranda of Understanding, planned by your country in the foreseeable future? ☑ No

Questions on the development of new CMS Agreements relating to Fish

1. In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Fish? ☑ No
2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Fish? ☐ No

4. Is the development of any CMS Agreement for Fish, including Memoranda of Understanding, planned by your country in the foreseeable future? ☐ No

### 3. **Listing of Migratory Species in Appendix II**

1. Is your country a Range State for any migratory species that has an unfavourable conservation status, but is not currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation?

   N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification. ☐ No

1a. Is your country taking any steps to propose the listing of this/these species in Appendix II? ☐ No
IV. National and Regional Priorities

1. What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues
☑ High

2. Are migratory species and their habitats addressed by your country's national biodiversity strategy or action plan?
☑ Yes

2.1. If Yes, please indicate and briefly describe the extent to which it addresses the following issues:
☑ Conservation, sustainable use and/or restoration of migratory species
› (1) Establishment of temporary protected areas where necessary.
(2) National programme “Free Wings” (prepared and organized by the Czech Society for Ornithology), concentrating on all illegal human activities negatively influencing bird populations (e.g. birds of prey: hunting, nest robberies, poisoning, trade etc.).
☑ Conservation, sustainable use and/or restoration of the habitats of migratory species, including protected areas
› See Chapter V on Protected areas.
☑ Actions to prevent, reduce or control factors that are endangering or are likely to further endanger migratory species (e.g. alien invasive species or by-catch)
› See further.
☑ Minimizing or eliminating barriers or obstacles to migration
› (1) Protection of birds against electrocution covered by the Czech National Council Act No. 114/1992 on Nature and Landscape Protection in wording of later amendments (§ 5a, para 6), and by the Energy Act No. 159/2009 (chapter 2, para 4) - a legislative obligation for energy enterprises (responsible for powerlines) to save all powerlines in the country against electrocution till 6 June 2024.
(2) Methodological instructions prepared by the Ministry of the Environment to standardize legislative procedures of competent authorities when evaluating wind turbine projects. Methodology for impact assessment of wind turbines on bats (to be agreed by the Ministry of the Environment).
☑ Research and monitoring of migratory species
☑ Transboundary co-operation

You have attached the following Web links/URLs to this answer.
http://www.karbofuran.cz - Free Wings (project of the Czech Society for Ornithology)

3. Does the conservation of migratory species currently feature in any other national or regional policies/plans (apart from CMS Agreements)
☑ Yes

3.1. If Yes, please provide details:
› Energy Policy, State Environmental Policy

3a. Do these policies/plans cover the following areas?

Exploitation of natural resources (e.g. fisheries, hunting, etc.)
☑ No

Economic development
☑ No

Land-use planning
☑ No

Pollution control
☑ No

Designation and development of protected areas
☑ Yes

If Yes, please provide details

You have attached the following Web links/URLs to this answer.
Development of ecological networks
☑ Yes
If Yes, please provide details
› National, regional and local systems of ecological stability included in national legislation on nature and landscape protection (Act No. 114/1992 as amended).

Planning of power lines
☑ Yes
If Yes, please provide details
› Obligation for energy enterprises to save all powerlines against electrocution till 6 June 2024 (Act No. 158/2009).

Planning of fences
☑ No

Planning of dams
☑ No

Other
☑ No
V. Protected Areas

1. Are migratory species taken into account in the selection, establishment and management of protected areas in your country?
☐ Yes

If Yes, please provide details:

› Special Protected Areas (SPA), declared according to the European Council Directive on the Conservation of the Wild Birds 79/409/EC, cover important breeding grounds and important sites of concentration of migrating and wintering birds (for species listed in the Annex I of the Birds Directive).
  At present 41 SPAs are declared by individual decrees of the Government of the Czech Republic.
  Altogether 1075 SCIs are included in the European list at present.

You have attached the following Web links/URLs to this answer.
http://www.natura2000.cz - Natura 2000 in the Czech Republic

1a. Please identify the most important national sites for migratory species and their protection status:
› National Nature Reserve and SPA Lednicke ponds, SPA Nove Mlyny water reservoir, SPA Soutok-Tvrdonicko, Protected Landscape Area (PLA) and SPA Palava, PLA and SPA Trebonsko, SPA Doupovske Mts, SPA Ceskobudejovicke ponds, SPA Ceskolipsko-Dokeske sandstones and wetlands, etc.

1b. Do these protected areas cover the following areas?

Terrestrial
☐ Yes

Aquatic
☐ Yes

Marine
☐ No

1c. Identify the agency, department or organization responsible for leading on this action in your country:
› Czech Ministry of the Environment
   Czech Agency of Nature Conservation and Landscape Protection
VI. Policies on Satellite Telemetry

1. In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry?
☑ Yes

You have attached the following Web links/URLs to this answer.

http://www.orelskalni.cz/ - Return of the Golden Eagle in the Czech Republic

If yes what is the state of those projects
☑ on-going

Please provide details
› (1) Return of the Golden Eagle in the Czech Republic - a project prepared for 2006-10 but four birds equipped for satellite telemetry still in 2011 and 2012 (two ind. each) and some others planned for 2014.
(2) Telemetry of the Corncrake - a project started in 2012 (2 birds equipped in 2012, 3 more in 2013, 5 birds planned for 2014).

2. Are any future conservation/research projects planned that will use satellite telemetry?
☑ Yes

If Yes, please provide details (including the expected timeframe for these projects):
› Two more projects using satellite telemetry are planned for the red kite and the white stork.

3. Results - please describe the positive outcomes of any actions taken
› (1) Golden Eagle - the project was successful (unsuccessful breeding attempts in 2010 and 2011, in 2013 the first successful breeding of the species after more than 100 years in the NE part of the country) but no special outcomes as regards satellite telemetry (Argos and gps-gsm used, incomplete data on bird movements presented on the web site mentioned above).
(2) Corncrake - no results yet (Argos used).
VII. Membership

1. Have actions been taken by your country to encourage non-Parties to join CMS and its related Agreements?
   ☑ No
VIII. Global and National Importance of CMS

1. Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation?
☑ Yes

If Yes, please provide details:
› A new project on conservation, research and sustainable use of wetlands (for 2014-2016) is planned to promote i.a. migratory birds listed in annexes of both the CMS and the AEWA.

Czech Society for Ornithology organises several actions every year to increase national and local awareness of migratory birds (e.g. a campaign "The Bird of the Year" - white and black storks in 2014; a spring programme for families with children "Welcome the Bird Song" devoted to migratory birds returning back to breeding sites; a pan-European project "Spring Alive" devoted to several migratory species; etc.).

Czech Bat Conservation Trust organises "International Night of the Bats" every year (the action is very successful, the number of participants increases every year).

2. Identify the agency, department or organization responsible for leading on this action in your country:
› Ministry of the Environment (Department of Conservation of Species and Implementation of International Agreements)
Czech Society for Ornithology
Czech Bat Conservation Trust

3. Results - please describe the positive outcomes of any actions taken
› Improvement of public awareness of migratory birds and bats in general, on the CMS and its agreements (e.g Eurobats) and relevant MoUs.
IX. Mobilization of Resources

1. Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country?
   ☑ Yes

   If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
   › E.g.:
   Financial support of actual mapping of (declining) breeding colonies of the Black-headed Gull in the Czech Republic, as the first step to their better conservation.
   Project of the Czech Society for Ornithology financing a creation of suitable breeding opportunities (concrete islands) for the Common Tern in gravel pits.

2. Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition?
   ☑ No

3. Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)?
   ☑ No

4. Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species?
   ☑ No

5. Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country?
   ☑ No

6. Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country?
   ☑ No
X. Implementation of COP Resolutions and Recommendations

Please provide information about measures undertaken by your country relating to recent Resolutions and Recommendations since the last Report. For your convenience please refer to the list of COP Resolutions and Recommendations listed below:

**Resolutions**

  - Not relevant.

- **Oil Pollution and Migratory Species (7.3)**
  - Not relevant.

- **Electrocution of Migratory Birds (7.4 / 10.11)**
  - Protection of birds against electrocution is covered by the Czech National Council Act No. 114/1992 on Nature and Landscape Protection in wording of later amendments (§ 5a, para 6), and by the Energy Act No. 159/2009 (chapter 2, para 4).

- **Wind Turbines and Migratory Species (7.5)**
  - Methodological instructions prepared by the Ministry of the Environment to standardize legislative procedures of competent authorities when evaluating wind turbine projects.

  Methodology for impact assessment of wind turbines on bats (under preparation at the Ministry of the Environment).

- **Migratory Species and Highly Pathogenic Avian Influenza (8.27 / 10.22)**
  - No measure.

- **Climate Change Impacts on Migratory Species (8.13 / 9.7 / 10.19)**
  - No measure.

- **Marine Debris (10.4)**
  - Not relevant.

- **Poisoning Migratory Birds (10.26)**
  - National programme “Free Wings” (prepared and organized by the Czech Society for Ornithology), concentrating on all illegal human activities negatively influencing bird populations (e.g. birds of prey: hunting, nest robberies, poisoning, trade etc.).

  You have attached the following Web links/URLs to this answer.
  - [http://www.karbofuran.cz](http://www.karbofuran.cz) - Free Wings (project of the Czech Society for Ornithology)

- **Adverse Anthropogenic Impacts on Cetaceans and other Biota (8.22 / 9.19 / 10.24)**
  - Not relevant.

- **Southern Hemisphere Albatross Conservation (6.3)**
  - Not relevant.

- **Impact Assessment and Migratory Species (7.2)**
  - Impact assessment is a legislatively binding procedure (Act No. 114/1992 as ammended) to assess all activities with an important impact on Natura 2000 sites (European ecological network combining SPAs and SCIs).

- **Antarctic Minke, Bryde’s and Pygmy Right Whales (7.15)**
  - Not relevant.

- **Sustainable Use (8.1)**
  - No measure.

- **Implementation of Existing Agreements and Development of Future Agreements (8.5)**
  - Realised continuously.

- **Concerted Actions for Appendix I Species (8.29)**
  - See relevant species.
Concerted and Cooperative Actions (9.1 / 10.23)
› See relevant species.

Priorities for CMS Agreements (9.2 / 10.16)
› No measure.

Migratory Marine Species (9.9 / 10.15)
› Not relevant.

Saker Falcon (9.20 / 10.28)
› The species is strictly protected in the Czech Republic (regular monitoring, protection of nests against robbery, etc.)

Modus Operandi for Conservation Emergencies (10.2)
› No measure.

Ecological Networks (10.3)
› National, regional and local systems of ecological stability are included in national legislation on nature and landscape protection (Act No. 114/1992 as amended).

Global Flyway Conservation (10.10)
› No measure.

Migratory Freshwater Fish (10.12)
› Not relevant.

Migratory Landbirds in the African Eurasian Region (10.27)
› No measure.

Cooperation with Other Bodies and Processes (7.9)
› Realised continuously.

CMS Strategic Plan 2006-2011 (8.2)
› Realised continuously.

Contribution of CMS in Achieving the 2010 Biodiversity Target (8.7)
› No measure.

Synergies and Partnerships / Cooperation with other Conventions (8.11 / 9.11 / 10.21)
› Realised continuously.

National Reports for the Eighth and Ninth Meetings of the Conference of the Parties (8.24)
› Submitted.

CMS Information Priorities (9.3)
› No measure.

Outreach and Communication Issues (9.5 / 10.7)
› Information materials (roll-ups, leaflets, documentary film on DVD) concerning biology, research, monitoring and protection of bats in the Czech Republic were prepared in the framework of CEPA activities to promote the Eurobats agreement and bats protection in general on the occasion of International Year of the Bat (2012).

Roll-up on the CMS was prepared in 2013 to promote CMS on the occasion of 35 years of the convention and 25 years of the Czech membership in the CMS in 2014.

Communication strategy on the AEWA will be prepared and implemented as a part of the new project on wetlands and their biodiversity (2014-2016).

NFP of the CMS organises meetings of the working group for CMS every year to exchange information, share experience, evaluate activities in the last year and prepare relevant projects for the next year.

Exchange and share of information is ensured also by membership of the Scientific Councillors for the CMS and the AEWA in the Expert Group of the Czech Ramsar Committee.

Capacity Building Strategy (9.12 / 10.6)
Financial and Administrative Matters and Terms of Reference for the Administration of the Trust Fund (10.1)
› No measure.

Future strategies of the CMS Family / “Future Shape” (10.9)
› No measure.

**Recommendations**

Recommendation 7.6 - Improving the Conservation Status of the Leatherback Turtle (Dermochelys coriacea)
› Not relevant.

Recommendation 8.17 - Marine Turtles
› Not relevant.

Recommendation 9.1 - Central Eurasian Aridland Mammals
› Not relevant.

Recommendation 9.2 - Sahelo-Saharan Megafauna
› Not relevant.

Recommendation 9.3 - Tigers and other Asian Big Cats
› Not relevant.

Recommendation 9.5 - Cooperative Action for the Elephant (Loxodonta africana) in Central Africa
› Not relevant.
Annex: Updating Data on Appendix II Species

1. The drop-down lists below contain the list of all species listed in Appendix II. New Parties which have acceded since COP10 in 2011 and Parties which did not submit a National Report in time in 2011 are requested to complete the entire form. Parties that did submit a timely report in 2011 are requested to review and update the data (e.g. new published distribution references and details concerning species added to Appendix II at COP9 and COP10).

Chiroptera

**Rhinolophidae spp (European populations)**

Please choose the one that applies.
☑ Range State

Published distribution reference

› Horacek & Uhrin 2010 (covering all bat species in the Czech Republic)

You have attached the following Web links/URLs to this answer.

**Vespertilionidae spp (European populations)**

Please choose the one that applies.
☑ Range State

Published distribution reference

› Horacek & Uhrin 2010 (covering all bat species in the Czech Republic)

You have attached the following Web links/URLs to this answer.

**Cetacea**

**Physter macrocephalus**

Please choose the one that applies.
☑ Not a Range State

**Platanista gangetica gangetica**

Please choose the one that applies.
☑ Not a Range State

**Pontoporia blainvillei**

Please choose the one that applies.
☑ Not a Range State

**Inia geoffrensis**

Please choose the one that applies.
☑ Not a Range State

**Delphinapterus leucas**

Please choose the one that applies.
☑ Not a Range State

**Monodon monoceros**

Please choose the one that applies.
☑ Not a Range State

**Phocoena phocoena (North and Baltic Sea populations)**
Please choose the one that applies.
☑ Not a Range State

**Phocoena phocoena (western North Atlantic population)**

Please choose the one that applies.
☑ Not a Range State

**Phocoena phocoena (Black Sea population)**

Please choose the one that applies.
☑ Not a Range State

**Phocoena phocoena (NW African population)**

Please choose the one that applies.
☑ Not a Range State

**Phocoena spinipinnis**

Please choose the one that applies.
☑ Not a Range State

**Phocoena dioptrica**

Please choose the one that applies.
☑ Not a Range State

**Neophocaena phocaenoides**

Please choose the one that applies.
☑ Not a Range State

**Neophocaena asiaeorientalis**

Please choose the one that applies.
☑ Not a Range State

**Phocoenoides dalli**

Please choose the one that applies.
☑ Not a Range State

**Sousa chinensis**

Please choose the one that applies.
☑ Not a Range State

**Sousa teuszii**

Please choose the one that applies.
☑ Not a Range State

**Sotalia fluviatilis**

Please choose the one that applies.
☑ Not a Range State

**Sotalia guianensis**

Please choose the one that applies.
☑ Not a Range State

**Lagenorhynchus albirostris (North and Baltic Sea populations)**

Please choose the one that applies.
☑ Not a Range State
Lagenorhynchus acutus (North and Baltic Sea populations)
Please choose the one that applies.
☑ Not a Range State

Lagenorhynchus obscurus
Please choose the one that applies.
☑ Not a Range State

Lagenorhynchus australis
Please choose the one that applies.
☑ Not a Range State

Grampus griseus (North and Baltic Sea populations)
Please choose the one that applies.
☑ Not a Range State

Grampus griseus (Mediterranean population)
Please choose the one that applies.
☑ Not a Range State

Tursiops aduncus (Arafurur/Timor Sea)
Please choose the one that applies.
☑ Not a Range State

Tursiops truncatus (North and Baltic Sea populations)
Please choose the one that applies.
☑ Not a Range State

Tursiops truncatus (Mediterranean population)
Please choose the one that applies.
☑ Not a Range State

Tursiops truncatus (Black Sea population)
Please choose the one that applies.
☑ Not a Range State

Stenella attenuata (eastern tropical Pacific population)
Please choose the one that applies.
☑ Not a Range State

Stenella attenuata (south-east Asian populations)
Please choose the one that applies.
☑ Not a Range State

Stenella longirostris (eastern tropical Pacific populations)
Please choose the one that applies.
☑ Not a Range State

Stenella longirostris (south-east Asian populations)
Please choose the one that applies.
☑ Not a Range State

Stenella coeruleoalba (Mediterranean population)
Please choose the one that applies.
Not a Range State

**Stenella coeruleoalba (eastern tropical Pacific population)**
Please choose the one that applies.
☑ Not a Range State

**Stenella clymene (West African population)**
Please choose the one that applies.
☑ Not a Range State

**Delphinus delphis (North and Baltic Sea populations)**
Please choose the one that applies.
☑ Not a Range State

**Delphinus delphis (Mediterranean population)**
Please choose the one that applies.
☑ Not a Range State

**Delphinus delphis (Black Sea population)**
Please choose the one that applies.
☑ Not a Range State

**Delphinus delphis (eastern tropical Pacific population)**
Please choose the one that applies.
☑ Not a Range State

**Lagenodelphis hosei (south-east Asian populations)**
Please choose the one that applies.
☑ Not a Range State

**Orcaella brevirostris**
Please choose the one that applies.
☑ Not a Range State

**Orcaella heinsohni**
Please choose the one that applies.
☑ Not a Range State

**Cephalorhynchus commersonii (South American population)**
Please choose the one that applies.
☑ Not a Range State

**Cephalorynhchus eutrophia**
Please choose the one that applies.
☑ Not a Range State

**Cephalorhynchus heavisidii**
Please choose the one that applies.
☑ Not a Range State

**Orcinus orca**
Please choose the one that applies.
☑ Not a Range State
Globicephala melas (North and Baltic Sea populations)
Please choose the one that applies.
☑ Not a Range State

Berardius bairdii
Please choose the one that applies.
☑ Not a Range State

Hyperoodon ampullatus
Please choose the one that applies.
☑ Not a Range State

Balaenoptera bonaerensis
Please choose the one that applies.
☑ Not a Range State

Balaenoptera edeni
Please choose the one that applies.
☑ Not a Range State

Balaenoptera omurai
Please choose the one that applies.
☑ Not a Range State

Balaenoptera borealis
Please choose the one that applies.
☑ Not a Range State

Balaenoptera physalus
Please choose the one that applies.
☑ Not a Range State

Caperea marginata
Please choose the one that applies.
☑ Not a Range State

Carnivora
Arctocephalus australis
Please choose the one that applies.
☑ Not a Range State

Otaria flavescens
Please choose the one that applies.
☑ Not a Range State

Phoca vitulina (Baltic and Wadden Sea populations)
Please choose the one that applies.
☑ Not a Range State

Halichoerus grypus (Baltic Sea populations)
Please choose the one that applies.
☑ Not a Range State

Monachus monachus
Please choose the one that applies.
☐ Not a Range State

Lycaon pictus
Please choose the one that applies.
☐ Not a Range State

Proboscidea

Loxodonta africana
Please choose the one that applies.
☐ Not a Range State

Loxodonta cyclotis
Please choose the one that applies.
☐ Not a Range State

Sirenia

Dugong dugon
Please choose the one that applies.
☐ Not a Range State

Trichechus manatus (Panama and Honduras)
Please choose the one that applies.
☐ Not a Range State

Trichechus senegalensis
Please choose the one that applies.
☐ Not a Range State

Trichechus inunguis
Please choose the one that applies.
☐ Not a Range State

Perissodactyla

Equus hemionus (includes E. onager)
Please choose the one that applies.

2. All species of each of the Families below are listed in Appendix II. If your country is a Range State for any of the species in these Families, please indicate whether your country is a Range State or the species is extinct and, where appropriate, please provide published distribution references.

**Order FALCONIFORMES, Family ACCIPITRIDAE**

**Accipiter gentilis**
Choose the one that applies.
☑ Range State

**Accipiter nisus**
Choose the one that applies.
☑ Range State

**Aquila chrysaetos**
Choose the one that applies.
☑ Range State

**Aquila heliaca**
Choose the one that applies.
☑ Range State
Aquila pomarina
Choose the one that applies.
☑ Range State

Buteo buteo
Choose the one that applies.
☑ Range State

Buteo lagopus
Choose the one that applies.
☑ Range State

Circus aeruginosus
Choose the one that applies.
☑ Range State

Circus cyaneus
Choose the one that applies.
☑ Range State

Circus pygargus
Choose the one that applies.
☑ Range State

Haliaeetus albicilla
Choose the one that applies.
☑ Range State

Milvus migrans
Choose the one that applies.
☑ Range State

Milvus milvus
Choose the one that applies.
☑ Range State

Pernis apivorus
Choose the one that applies.
☑ Range State

Order FALCONIFORMES, Family FALCONIDAE

Falco cherrug
Choose the one that applies.
☑ Range State

Falco columbarius
Choose the one that applies.
☑ Range State

Falco naumanni
Choose the one that applies.
☑ Extinct

Falco peregrinus
Choose the one that applies. ☑ Range State

**Falco subbuteo**
Choose the one that applies. ☑ Range State

☑ Range State

**Locustella luscinioides**
Choose the one that applies.
☑ Range State

**Locustella naevia**
Choose the one that applies.
☑ Range State

**Luscinia luscinia**
Choose the one that applies.
☑ Range State

**Luscinia megarhynchos**
Choose the one that applies.
☑ Range State

**Luscinia svecica**
Choose the one that applies.
☑ Range State

**Muscicapa striata**
Choose the one that applies.
☑ Range State

**Oenanthe oenanthe**
Choose the one that applies.
☑ Range State

**Panurus biarmicus**
Choose the one that applies.
☑ Range State

**Phoenicurus ochruros**
Choose the one that applies.
☑ Range State

**Phoenicurus phoenicurus**
Choose the one that applies.
☑ Range State

**Phylloscopus collybita**
Choose the one that applies.
☑ Range State
Phylloscopus sibilatrix
Choose the one that applies.
☑ Range State

Phylloscopus trochiloides
Choose the one that applies.
☑ Range State

Phylloscopus trochilus
Choose the one that applies.
☑ Range State

Regulus ignicapillus
Choose the one that applies.
☑ Range State

Regulus regulus
Choose the one that applies.
☑ Range State

Saxicola rubetra
Choose the one that applies.
☑ Range State

Saxicola torquata
Choose the one that applies.
☑ Range State

Sylvia atricapilla
Choose the one that applies.
☑ Range State

Sylvia borin
Choose the one that applies.
☑ Range State

Sylvia communis
Choose the one that applies.
☑ Range State

Sylvia curruca
Choose the one that applies.
☑ Range State

Sylvia nisoria
Choose the one that applies.
☑ Range State

Turdus iliacus
Choose the one that applies.
☑ Range State

Turdus merula
Choose the one that applies.
☑ Range State

**Turdus philomelos**
Choose the one that applies.
☑ Range State

**Turdus pilaris**
Choose the one that applies.
☑ Range State

**Turdus torquatus**
Choose the one that applies.
☑ Range State

**Order ANSERIFORMES, Family ANATIDAE**

**Anas platyrhynchos**
Choose the one that applies.
☑ Range State

**Anas strepera**
Choose the one that applies.
☑ Range State

**Anser albidrons**
Choose the one that applies.
☑ Range State

**Anser anser**
Choose the one that applies.
☑ Range State

**Anser brachyrhynchus**
Choose the one that applies.
☑ Range State

**Anser erythropus**
Choose the one that applies.
☑ Range State

**Anser fabalis**
Choose the one that applies.
☑ Range State

**Aythya ferina**
Choose the one that applies.
☑ Range State

**Aythya fuligula**
Choose the one that applies.
☑ Range State

**Aythya marila**
Choose the one that applies.
