The deadline for submission of the reports is 1 May 2014. The reporting period is 15 June 2011 to 1 May 2014.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

Reporting format agreed by the Standing Committee at its 40th Meeting (Bonn, November 2012) for mandatory use by Parties, for reports submitted to the Eleventh Meeting of the Conference of the Parties (COP11) 2014.

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

COP Resolution 9.4 adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. The CMS Family Online Reporting System (ORS) has been successfully implemented and used by AEWA in their last Meeting of the Parties (MOP 5, 2012) reporting cycle. CMS now offers the Convention’s Parties to use the ORS for submitting their national reports for the COP11 (2014) reporting cycle.

Please enter here the name of your country
› Israel

Which agency has been primarily responsible for the preparation of this report?
› Nature and Parks Authority

Please list any other agencies that have provided input
› Ministry of Environmental Protection
I(a). General Information

Please enter the required information in the table below:

**Party**

Date of entry into force of the Convention in your country
› 17/05/1983

Period covered
› 2011-2013

Territories to which the Convention applies
› Israel

**Designated National Focal Point**

Full name of the institution
› Israel Nature and Parks Authority

Name and title of designated Focal Point
› Dr. Simon Nemtzov
   Coordinator for International Treaties

Mailing address
› 3 Am Ve’Olamo Street
   Jerusalem 95463

Telephone
› (+972) 58 5063118 (m)

Fax
› (+972) 2 500 6281

E-mail
› simon@npa.org.il

**Appointment to the Scientific Council**

Full name of the institution
› Israel Nature and Parks Authority

Name and title of contact officer
› Dr. Simon Nemtzov
   Coordinator for International Treaties

Mailing address
› 3 Am Ve’Olamo Street
   Jerusalem 95463

Telephone
› (+972) 58 5063118 (m)

Fax
› (+972) 2 500 6281

E-mail
› simon@npa.org.il

**Submission**

Name and Signature of officer responsible for submitting national report

Name:
› Ms. Ayelet Rosen

Address:
Ministry of Environmental Protection  
Tel.: (+972) 2 65 53 976  
Fax: (+972) 2 65 53 752  
E-mail: ayeletr@sviva.gov.il

Implementation

Competent Authority:  
Israel Nature and Parks Authority

Relevant implemented legislation:
- Wildlife Protection Law, 1955
- Plant Protection Law, 1956
- Water Law, 1959
- Streams and Springs Authorities Law, 1965
- Planning and Building Law, 1965
- Prevention of Marine Pollution by Oil Ordinance, 1980
- Planning and Building Regulations (Environmental Impact Statements), 1982
- Prevention of Marine Pollution (Dumping of Waste) Law, 1983
- Prevention of Marine Pollution from Land Based Sources Law, 1988
- Hazardous Substances Law, 1993

Other relevant Conventions/Agreements (apart from CMS) to which your country is a Party:
- Convention on Wetlands of International Importance (“Ramsar Convention“)
- Convention on Biological Diversity
- Convention for the Protection of the Mediterranean Sea against Pollution (Barcelona Convention)
- Convention on Climate Change
- World Heritage Convention
- Convention to Combat Desertification

National policy instruments (e.g. national biodiversity conservation strategy, etc.):
- National protected areas: nature reserves and national parks.
- National Strategy for the Conservation of Nature and Biodiversity
- National Strategy for Sustainable Development

CMS Agreements/MoU

Please indicate whether your country is part of the following Agreements/MoU. If so, please indicate the competent national institution

High Andean Flamingos MoU (2008)

High Andean Flamingos MoU (2008)
☑ Non Range State

Involvement of other government departments/NGOs/private sector

1. Which other government departments are involved in activities/initiatives for the conservation of migratory species in your country? (Please list.)
› Ministry of Environmental Protection

3. Has a national liaison system or committee been established in your country?
☑ Yes

4. List the main non-governmental organizations actively involved in activities/initiatives for the conservation of migratory species in your country, and describe their involvement:
› Society for the Protection of Nature (SPNI), involved in projects of protection, reintroduction, and rehabilitation of raptors, risks of toxicoses from pesticides and pollutants in raptors, protection of common cranes, preparation of species red list, reports on wild animals status, and in struggles for habitat protection.
Israeli Marine Mammal Research & Assistance Centier (IMMRAC)– involved in surveys and rehabilitation of Mediterranean dolphins.
Rehabilitation Center for Marine Turtles – takes care of stranded and injured marine turtles.

5. Describe any involvement of the private sector in the conservation of migratory species in your country:
› Private companies are supporting projects for management and conservation of raptors, research for the cause of a declining population of mountain gazelles, surveys and rehabilitation of marine mammals.

6. Note any interactions between these sectors in the conservation of migratory species in your country:
› Most of the projects described above are done jointly with the INPA. Rehabilitation centers for all wildlife is supervised by the INPA.
I(b). Information about involved Authorities
Identify the ministry, agency/department or organization that is responsible for leading actions relating to Appendix I species

1- Birds
   › Israel Nature and Parks Authority
II. Appendix I species

1. BIRDS

1.1 General questions on Appendix I bird species

1. Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)?
☑ Yes

1a. If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition?
☑ No

2. Identify any obstacles to migration that exist in relation to Appendix I bird species:
☑ Electrocution
☑ Habitat destruction

2a. What actions are being undertaken to overcome these obstacles?
› Construction of anti-electrocution structures over electric poles; declaration of protected areas;

2b. Please report on the progress / success of the actions taken.
› New lines are constructed in a safe design in IBA, protected areas, near water reservoirs and open landscape. Anti-electrocution should be changed to mounting insulating gear on dangerous pylons and birds divertors to prevent collisions.

3. What are the major pressures to Appendix I bird species (transcending mere obstacles to migration)?
☑ Poaching
☑ Other (please specify)
› There's strong pressure to develop wind farms and it is imperative to help prevent it in such a narrow corridor of migration as in Israel

3a. What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour?
› Power line defense designed and implemented specifically for Golden Eagle Aquila heliaca and White-tailed eagle Haliaeetus albicilla.

3b. Please report on the progress / success of the actions taken.

3c. Describe any factors that may limit action being taken in this regard:
› Unavailability of appropriate habitat

1.2 Questions on specific Appendix I bird species

In the following section, using the table format below, please fill in each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

Species name: Pelecanus onocrotalus (only Palearctic populations)

2a. Summarise information on population size (if known):
☑ stable
› 70,000 - based on migration monitoring

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Research
› research on movement, genetics, physiological condition
☑ Monitoring
› specific monitoring migration in and out of Israel, include by radar
Education/awareness rising
- cooperative program with Fishwries Department and local fisherman to stock fish in a specific reservoir for the birds to feed upon
- Species protection

Species protection
- it is strictly illegal to shoot at Pelicans
- Control hunting / poaching

Control hunting / poaching
- it is strictly illegal to shoot at Pelicans
- Species restoration
- Other
- established specific reservoir for stop-over and feeding (up to 250 tons of fish are stocked specifically for the species to feed upon)

5. Describe any future activities that are planned for this species:
- 2 new academic studies started this year and cooperation with the aquaculture industry and Fisheries Department of the Ministry of Agriculture were established recently

Species name: Marmaronetta angustirostris

2a. Summarise information on population size (if known):
- stable

2b. Summarise information on distribution (if known):
- stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
- Species protection
- Control hunting / poaching
- illegal to hunt
- Species restoration
- constructing artificial islands in artificial reservoir in the Hula Valley

Species name: Aythya nyroca

2a. Summarise information on population size (if known):
- increasing

2b. Summarise information on distribution (if known):
- increasing

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
- Species protection
- Control hunting / poaching
- illegal to hunt
- Species restoration
- A CAPTIVE BREEDING AND RELEASE OF captive bred ducks started in 2013 with release in protected wetlands
- Habitat protection
- Habitat restoration

Species name: Oxyura leucocephala

2a. Summarise information on population size (if known):
- stable

2b. Summarise information on distribution (if known):
- increasing

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
- Species protection
Species name: *Haliaeetus albicilla*

2a. Summarise information on population size (if known):
☑ stable

2b. Summarise information on distribution (if known):
☑ stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Species restoration
› the species was reintroduced and few captive born eaglets are released each year until self sustained population will settle

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
› Captive breeding and release

5. Describe any future activities that are planned for this species:
› Captive breeding and release

Species name: *Neophron percnopterus*

2a. Summarise information on population size (if known):
☑ stable

2b. Summarise information on distribution (if known):
☑ increasing

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring
☑ Species restoration
› by captive breeding and release in Mt. Carmel where the species was locally extinct for 50 years ago.

Species name: *Aquila clanga*

2a. Summarise information on population size (if known):
☑ stable

2b. Summarise information on distribution (if known):
☑ stable

Species name: *Aquila heliaca*

2a. Summarise information on population size (if known):
☑ stable

2b. Summarise information on distribution (if known):
☑ stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Habitat protection
› areas of concentration of wintering Imperial eagles - power pylons are insulated in order to prevent electrocution

Species name: *Falco naumanni*
2a. Summarise information on population size (if known):
☑ decreasing

2b. Summarise information on distribution (if known):
☑ stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring
☑ Species restoration
› captive breeding, rehabilitation of chicks the fell from nests, reintroduction
☑ Habitat restoration
› nesting boxes in areas with problems with nesting sites due to changes

Species name: *Vanellus gregarius*

2a. Summarise information on population size (if known):
☑ stable

2b. Summarise information on distribution (if known):
☑ stable

Species name: *Serinus syriacus*

2a. Summarise information on population size (if known):
☑ stable

2b. Summarise information on distribution (if known):
☑ stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring
☑ Control hunting / poaching
› Hunting illegal
☑ Habitat protection

2. AQUATIC MAMMALS

2.1 General questions on Appendix I aquatic mammals

1. Is the taking of all Appendix I aquatic mammals species prohibited by the national implementing legislation cited in Table I(a) (General Information)?
☑ Yes

1a. If the taking of Appendix I aquatic mammals species is prohibited by law, have any exceptions been granted to the prohibition?
☑ No

2. Identify any obstacles to migration that exist in relation to Appendix I aquatic mammals:
☑ By-catch
☑ Pollution
☑ Other threats to migration (please provide details)
› Underwater anthropogenic noise from oil and gas exploration

2a. What actions are being undertaken to overcome these obstacles?
› Outreach and enforcement of pollution prevention regulations

2b. Please report on the progress / success of the actions taken.
› Situation improves

2c. What assistance, if any, does your country require in order to overcome these obstacles?
› Guidelines for preventing underwater anthropogenic noise from oil and gas exploration
3. What are the major pressures to Appendix I aquatic mammals species (transcending mere obstacles to migration)?
☐ Other (please specify)
› Underwater anthropogenic noise from oil and gas exploration

2.2 Questions on specific Appendix I aquatic mammals
In the following section, using the table format below, please fill in each Appendix I aquatic mammals species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

Species name: Delphinus delphis (Mediterranean population)
1. Please provide published distribution reference:

Species name: Monachus monachus
2a. Summarise information on population size (if known):
☑ unclear

Miscellaneous information or comments on Appendix I marine mammals in general:

3. REPTILES
3.1 General questions on Appendix I reptiles
1. Is the taking of all Appendix I reptiles species prohibited by the national implementing legislation cited in Table 1(a) (General Information)?
☑ Yes

1a. If the taking of Appendix I reptiles species is prohibited by law, have any exceptions been granted to the prohibition?
☑ No

2. Identify any obstacles to migration that exist in relation to Appendix I reptiles species:
☑ By-catch

2a. What actions are being undertaken to overcome these obstacles?
› Outreach

2b. Please report on the progress / success of the actions taken.
› Situation improves

3. What are the major pressures to Appendix I reptiles species (transcending mere obstacles to migration)?
☐ Destruction of nesting beaches

3a. What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger reptiles species beyond actions to prevent disruption to migrating behaviour?
› An action plan for sea turtles is implemented

3b. Please report on the progress / success of the actions taken.
› Situation improves

3d. What assistance, if any, does your country require to overcome these factors?
› funding

Miscellaneous information or comments on Appendix I marine turtles in general:
› No updates since last report
4. TERRESTRIAL MAMMALS

4.1 General questions on Appendix I terrestrial mammals

1. Is the taking of all Appendix I terrestrial mammals species prohibited by the national implementing legislation cited in Table I(a) (General Information)?
   ☑ Yes

1a. If the taking of Appendix I terrestrial mammals species is prohibited by law, have any exceptions been granted to the prohibition?
   ☑ No

2. Identify any obstacles to migration that exist in relation to Appendix I terrestrial mammals species:
   ☑ Lack of trans-boundary management
   ☑ Man-made barriers

3. What are the major pressures to Appendix I terrestrial mammals species (transcending mere obstacles to migration)?
   ☑ Habitat fragmentation

3a. What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger terrestrial mammals species beyond actions to prevent disruption to migrating behaviour?
   › Protected areas and management plans for the species

3b. Please report on the progress / success of the actions taken.
   › Slow progress

4.2 Questions on specific Appendix I terrestrial mammals

In the following section, using the table format below, please fill in each Appendix I terrestrial mammal species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

**Species name: Oryx dammah**

1. Please provide published distribution reference:
   › Extinct in the wild. Ex-situ captive breeding population at Hai Bar Yotvata.

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
   ☑ Other
   › Ex-situ captive breeding population at Hai Bar Yotvata.

5. Describe any future activities that are planned for this species:
   › Exports to North African countries.

Miscellaneous information or comments on Appendix I terrestrial mammals in general:
   › No updates since last report

5. FISH

5.1 General questions on Appendix I fish species

1. Is the taking of all Appendix I fish species prohibited by the national legislation listed as being implementing legislation in Table I(a) (General Information)?
   ☑ Yes

1a. If the taking of Appendix I fish species is prohibited by law, have any exceptions been granted to the prohibition?
   ☑ No

Miscellaneous information or comments on Appendix I bats in general:
   › No updates since last report
6. LISTING OF OTHER ENDANGERED MIGRATORY SPECIES IN APPENDIX I

1. Is your country a Range State for any other endangered migratory species currently listed in Appendix I? (according to the latest IUCN red data list). N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.
☑ No

1a. Is your country taking any steps to propose listing any of these species?
☑ No
III. Appendix II Species

1. INFORMATION ON APPENDIX II SPECIES

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the Secretariat of each of the Agreement/MoUs to which your country is a Party.

AEWA (1999)

Date of last report: > 2012

You have attached the following Web links/URLs to this answer.

2. QUESTIONS ON CMS AGREEMENTS

Questions on the development of new CMS Agreements relating to Bird Species

1. In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Bird Species?
☐ No

2. In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Bird Species?
☐ No

4. Is the development of any CMS Agreement for Bird Species, including Memoranda of Understanding, planned by your country in the foreseeable future?
☐ No

Questions on the development of new CMS Agreements relating to Marine Mammal Species

1. In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Marine Mammal Species?
☐ No

2. In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Marine Mammal Species?
☐ No

4. Is the development of any CMS Agreement for Marine Mammal Species, including Memoranda of Understanding, planned by your country in the foreseeable future?
☐ No

Questions on the development of new CMS Agreements relating to Marine Turtle Species

1. In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Marine Turtle Species?
☐ No

2. In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Marine Turtle Species?
☐ No

4. Is the development of any CMS Agreement for Marine Turtle Species, including Memoranda of Understanding, planned by your country in the foreseeable future?
☐ No
Questions on the development of new CMS Agreements relating to Terrestrial Mammal (other than bats) Species

1. In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Terrestrial Mammal (other than bats) Species?
☐ No

2. In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Terrestrial Mammal (other than bats) Species?
☐ No

4. Is the development of any CMS Agreement for Terrestrial Mammal (other than bats) Species, including Memoranda of Understanding, planned by your country in the foreseeable future?
☐ No

Questions on the development of new CMS Agreements relating to Bat Species

1. In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Bat Species?
☐ No

2. In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Bat Species?
☐ No

4. Is the development of any CMS Agreement for Bat Species, including Memoranda of Understanding, planned by your country in the foreseeable future?
☐ No

Questions on the development of new CMS Agreements relating to Fish

1. In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Fish?
☐ No

2. In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Fish?
☐ No

4. Is the development of any CMS Agreement for Fish, including Memoranda of Understanding, planned by your country in the foreseeable future?
☐ No

3. Listing of Migratory Species in Appendix II

1. Is your country a Range State for any migratory species that has an unfavourable conservation status, but is not currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation?

N.B.: States in which a species occurs as a vagrant (i.e. not “on its normal migration route”) should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.
☐ No

1a. Is your country taking any steps to propose the listing of this/these species in Appendix II?
☐ No
IV. National and Regional Priorities

1. What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues
  ☑ Medium

2. Are migratory species and their habitats addressed by your country's national biodiversity strategy or action plan?
  ☑ Yes

3. Does the conservation of migratory species currently feature in any other national or regional policies/plans (apart from CMS Agreements)
  ☑ Yes

3.1. If Yes, please provide details:
  › The national policy incorporates the protection of migratory species

3a. Do these policies/plans cover the following areas?

Exploitation of natural resources (e.g. fisheries, hunting, etc.)
  ☑ Yes
If Yes, please provide details
  › actions to reduce conflicts

Economic development
  ☑ Yes
If Yes, please provide details
  › Environmental assessment

Land-use planning
  ☑ Yes
If Yes, please provide details
  › Environmental assessment

Pollution control
  ☑ No

Designation and development of protected areas
  ☑ Yes

Development of ecological networks
  ☑ Yes

Planning of power lines
  ☑ Yes
If Yes, please provide details
  › Environmental assessment

Planning of fences
  ☑ Yes
If Yes, please provide details
  › Environmental assessment

Planning of dams
  ☑ Yes
If Yes, please provide details
  › Environmental assessment

4. Results - please describe the positive outcomes of any actions taken
Planning and protected areas designation improves protection of migratory species
V. Protected Areas

1. Are migratory species taken into account in the selection, establishment and management of protected areas in your country?
   ☑ Yes

1a. Please identify the most important national sites for migratory species and their protection status:
   › Hula Nature Reserve and Afek Nature reserve (birds); Mediterranean sea and shore (marine mammals and reptiles)

1b. Do these protected areas cover the following areas?

   Terrestrial
   ☑ Yes

   Aquatic
   ☑ Yes

   Marine
   ☑ Yes

1c. Identify the agency, department or organization responsible for leading on this action in your country:
   › INPA - Israel NAture and Parks Authority
VI. Policies on Satellite Telemetry

1. In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry?
☑ Yes

If yes what is the state of those projects
☑ on-going

Please provide details
› Migrating pelicans, storks and large birds; also wolves

2. Are any future conservation/research projects planned that will use satellite telemetry?
☑ Yes

3. Results - please describe the positive outcomes of any actions taken
› Monitoring in place
VII. Membership

1. Have actions been taken by your country to encourage non-Parties to join CMS and its related Agreements?
   ☑ No
VIII. Global and National Importance of CMS

1. Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation?
☑ Yes

2. Identify the agency, department or organization responsible for leading on this action in your country:
› Israel Nature and Parks Authority; Ministry of Environmental Protection;
IX. Mobilization of Resources

1. Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country?
   ☑ Yes

   If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
   › Actions and funding to reduce conflict with fish farms (waterbirds) and reducing electrocution (waterbirds and raptors);

2. Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition?
   ☑ No

3. Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)?
   ☑ No

4. Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species?
   ☑ Yes

   If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
   › Support Kenya Wildlife Service in establishing forensic DNA laboratory for combatting illegal elephant hunting.

5. Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country?
   ☑ No

6. Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country?
   ☑ No
X. Implementation of COP Resolutions and Recommendations

Please provide information about measures undertaken by your country relating to recent Resolutions and Recommendations since the last Report. For your convenience please refer to the list of COP Resolutions and Recommendations listed below:

**Resolutions**

**Electrocution of Migratory Birds (7.4 / 10.11)**
- Increase use of anti-electrocution equipment on electric poles

**Wind Turbines and Migratory Species (7.5)**
- Analysis of alternatives and cooperation with conservation agencies in choosing wind farm location

**Poisoning Migratory Birds (10.26)**
- Increase predator control to reduce agricultural damage which leads to poison baiting; reduce predator populations by collecting cattle carcasses;
Annex: Updating Data on Appendix II Species

1. The drop-down lists below contain the list of all species listed in Appendix II. New Parties which have acceded since COP10 in 2011 and Parties which did not submit a National Report in time in 2011 are requested to complete the entire form. Parties that did submit a timely report in 2011 are requested to review and update the data (e.g. new published distribution references and details concerning species added to Appendix II at COP9 and COP10).

Chiroptera

**Miniopterus schreibersii** (African populations)

Please choose the one that applies.
☑ Range State

Published distribution reference
› Regular monitoring

**Tadarida teniotis**

Please choose the one that applies.
☑ Range State

Published distribution reference
› Regular monitoring

Cetacea

**Tursiops truncatus** (Mediterranean population)

Please choose the one that applies.
☑ Range State

Published distribution reference
› Regular monitoring

Carnivora

**Arctocephalus australis**

Please choose the one that applies.
☑ Not a Range State

**Otaria flavescens**

Please choose the one that applies.
☑ Not a Range State

**Phoca vitulina** (Baltic and Wadden Sea populations)

Please choose the one that applies.
☑ Not a Range State

**Halichoerus grypus** (Baltic Sea populations)

Please choose the one that applies.
☑ Not a Range State

**Monachus monachus**

Please choose the one that applies.
☑ Range State

Published distribution reference
› Observed rarely. Last observation in Northern Israel in 2011

**Lycaon pictus**
Please choose the one that applies.
☑ Not a Range State

**Proboscidea**

**Loxodonta africana**

Please choose the one that applies.
☑ Not a Range State

**Loxodonta cyclotis**

Please choose the one that applies.
☑ Not a Range State

**Sirenia**

**Dugong dugon**

Please choose the one that applies.
☑ Not a Range State

**Trichechus manatus (Panama and Honduras)**

Please choose the one that applies.
☑ Not a Range State

**Trichechus senegalensis**

Please choose the one that applies.
☑ Not a Range State

**Trichechus inunguis**

Please choose the one that applies.
☑ Not a Range State

**Perissodactyla**

**Equus hemionus (includes E. onager)**

Please choose the one that applies.
☑ Range State

Published distribution reference
› Introduced and doing well

**Artiodactyla**

**Vicugna vicugna**

Please choose the one that applies.
☑ Not a Range State

**Cervus elaphus yarkandensis (Populations of Kazakhstan, Kyrgyzstan, Turkmenistan, Tajikistan, Uzbekistan and Afghanistan)**

Please choose the one that applies.
☑ Not a Range State

**Oryx dammah**

Please choose the one that applies.
☑ Extinct at National level

Published distribution reference
› Extinct in the wild. Breeding population ex-situ.
Gazella subgutturosa
Please choose the one that applies.
☑ Not a Range State

Procapra gutturosa
Please choose the one that applies.
☑ Not a Range State

Saiga tatarica
Please choose the one that applies.
☑ Not a Range State

Saiga borealis
Please choose the one that applies.
☑ Not a Range State

Ammotragus lervia
Please choose the one that applies.
☑ Not a Range State

Gazella gazella (Asian populations)
Please choose the one that applies.
☑ Range State

Published distribution reference
› Stable wild populations in many parts of the country. Subspecies G. g. acaciae is critically endangered (fewer than 20 individuals in the wild).

Pelecaniformes

Phalacrocorax nigrogularis
Please choose the one that applies.
☑ Not a Range State

Phalacrocorax pygmeus
Please choose the one that applies.
☑ Range State

Published distribution reference
› Increased nesting sites. Conflict with fish farmers.

Pelecanus onocrotalus (W. Palaearctic)
Please choose the one that applies.
☑ Range State

Published distribution reference
› Regular monitoring. Migrating pelicans - approx. 70,000 per year. Supplemental feeding of fish to prevent conflict with farmers and to assist birds in migration.

Pelecanus crispus
Please choose the one that applies.
☑ Not a Range State

Ciconiiformes

Botaurus stellaris stellaris (W. Palaearctic)
Please choose the one that applies.
☑ Range State

Published distribution reference
 › Regular monitoring

**Ixobrychus minutus minutus (W. Palaearctic)**

Please choose the one that applies.
☑ Range State

Published distribution reference
 › Regular monitoring

**Ciconia nigra**

Please choose the one that applies.
☑ Range State

Published distribution reference
 › Regular monitoring

**Ciconia ciconia**

Please choose the one that applies.
☑ Range State

Published distribution reference
 › Regular monitoring

**Plegadis falcinellus**

Please choose the one that applies.
☑ Range State

Published distribution reference
 › Regular monitoring

**Platalea leucorodia**

Please choose the one that applies.
☑ Range State

Published distribution reference
 › Regular monitoring

**Falconiformes**

**Pandion haliaetus**

Please choose the one that applies.
☑ Range State

**Galliformes**

**Coturnix coturnix coturnix**

Please choose the one that applies.
☑ Range State

**Gruiformes**

**Porzana porzana (Populations breeding in the W Palaearctic)**

Please choose the one that applies.
☑ Range State
Porzana parva parva
Please choose the one that applies.
☑ Range State

Fulica atra atra (Mediterranean and Black Sea populations)
Please choose the one that applies.
☑ Range State

Crex crex
Please choose the one that applies.
☑ Range State

Grus spp
Please choose the one that applies.
☑ Range State

Published distribution reference
> Grus grus. Large ecotourism project at Agmon Lake for observing and protecting overwintering cranes (approx. 20,000 individuals).

Chlamydotis undulata (Asian populations)
Please choose the one that applies.
☑ Range State

Published distribution reference
> Regular monitoring

Otis tarda
Please choose the one that applies.
☑ Range State

Charadriiformes

Dromas ardeola
Please choose the one that applies.
☑ Range State

Glareola pratincola
Please choose the one that applies.
☑ Range State

Larus leucophthalmus
Please choose the one that applies.
☑ Range State

Sterna nilotica nilotica (West Eurasian and African populations)
Please choose the one that applies.
☑ Range State

Sterna hirundo hirundo (Populations breeding in the W Palaearctic)
Please choose the one that applies.
☑ Range State

Sterna albifrons
Please choose the one that applies.
☑ Range State

**Chlidonias niger niger**
Please choose the one that applies.
☑ Range State

**Chlidonias leucopterus** (West Eurasian and African populations)
Please choose the one that applies.
☑ Range State

**Rynchops flavirostris**
Please choose the one that applies.
☑ Range State

**Columbiformes**

**Streptopelia turtur turtur**
Please choose the one that applies.
☑ Range State

**Psittaciformes**

**Amazona tucumana**
Please choose the one that applies.
☑ Not a Range State

**Coraciiformes**

**Merops apiaster**
Please choose the one that applies.
☑ Range State

**Coracias garrulus**
Please choose the one that applies.
☑ Range State

**Testudinata**

**Cheloniidae spp**
Please choose the one that applies.
☑ Range State

Published distribution reference
› Extensive project to protect sea turtle nests and to rehabilitate injured sea turtles

**Dermochelyidae spp**
Please choose the one that applies.
☑ Range State

Published distribution reference
› Extensive project to protect sea turtle nests and to rehabilitate injured sea turtles

**Podocnemis expansa**
Please choose the one that applies.
☑ Not a Range State

**Crocodylia**
Crocodylus porosus
Please choose the one that applies.
☑ Not a Range State

Orectolobiformes
Rhincodon typus
Please choose the one that applies.
☑ Range State

Published distribution reference
› Protected in Israel. Appears annually in Israel's Red Sea coastal zone.

Lamniformes
Cetorhinus maximus
Please choose the one that applies.
☑ Not a Range State

Carcharodon carcharias
Please choose the one that applies.
☑ Not a Range State

Rajiformes
Manta birostris
Please choose the one that applies.
☑ Range State

Published distribution reference
› Protected in Israel. Large scale fishing in Gaza (near Israel) in February 2013

You have attached the following Web links/URLs to this answer.

2. All species of each of the Families below are listed in Appendix II. If your country is a Range State for any of the species in these Families, please indicate whether your country is a Range State or the species is extinct and, where appropriate, please provide published distribution references.

Order TESTUDINATA, Family CHELONIIDAE

Caretta caretta
Choose the one that applies.
☑ Range State

Chelonia mydas
Choose the one that applies.
☑ Range State

Eretmochelys imbricata
Choose the one that applies.
☑ Range State

Lepidochelys olivacea
Choose the one that applies.
☑ Range State
Order TESTUDINATA, Family DERMOCHELYIDAE

Dermochelys coriacea

Choose the one that applies.
☑ Range State
