

2014 NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

The deadline for submission of the reports is 1 May 2014. The reporting period is 15 June 2011 to 1 May 2014.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

Reporting format agreed by the Standing Committee at its 40th Meeting (Bonn, November 2012) for mandatory use by Parties, for reports submitted to the Eleventh Meeting of the Conference of the Parties (COP11) 2014.

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

COP Resolution 9.4 adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. The CMS Family Online Reporting System (ORS) has been successfully implemented and used by AEWA in their last Meeting of the Parties (MOP 5, 2012) reporting cycle. CMS now offers the Convention's Parties to use the ORS for submitting their national reports for the COP11 (2014) reporting cycle.

Please enter here the name of your country

> Syrian Arab Republic

Which agency has been primarily responsible for the preparation of this report?

> Ministry of State for Environment Affairs

Please list any other agencies that have provided input

- > • Ministry of Agriculture and Agrarian Reform (MAAR)
- General Commission for Agricultural Scientific Researches
- Ministry of high education / Aleppo & Tishreen Universities
- Syrian Society for Conservation of Wildlife (SSCW)

I(a). General Information

Please enter the required information in the table below:

Party

Date of entry into force of the Convention in your country
> 22/12/2002

Period covered
> 2011-2013

Designated National Focal Point

Full name of the institution
> Ministry of State for Environment Affairs

Name and title of designated Focal Point
> Roba Al Serhan

Mailing address

Submission

Name and Signature of officer responsible for submitting national report

Name:

> >Belal Al-hayek

Address:

> Ministry of State for Environment Affairs
 Syria-Damascus- YOUSEF AZMEH SEQ, P.O.BOX:3773

Tel.:

> >00963112321305/00963 947451588

Fax:

> >>00963112320568

E-mail:

> >bilalalhayk@yahoo.com/blalhayek75@gmail.com

Date of submission

> 30/05/2014

Implementation

Competent Authority:

> Ministry of State for Environment Affairs

Relevant implemented legislation:

- > • Environmental law no (12) year 2012
- Forest Law no (25) year 2007
- Hunting law no 152

Other relevant Conventions/ Agreements (apart from CMS) to which your country is a Party:

- > • African-Eurasian Migratory Water-Birds Agreement(AEWA)
- Agreement on the Conservation of Cetaceans of the Black Sea, Mediterranean Sea and Contiguous Atlantic (ACCOBAMS)

National policy instruments (e.g. national biodiversity conservation strategy, etc.):

- > 1- National Environmental Strategy, and the the environmental action plan for Syria.
- 2- National Strategy and Action Plan of Biodiversity, which adopted by the Higher Council of Environment Protection.
- 3- The National Action plan for land degradation and conserve the land.
- 4- The National Natural Reserve Conditions, which guid to establish the the protected areas.
- 5- National Strategy and Action Plan for Marine Biodiversity conservation –SAP-BIO 2002-2003. Four Action Plans resulted:
 - 1- National plan for the establishment and development of marine and coastal PAs.
 - 2- National plan for studying impact of invasive marine species and control for their effects.
 - 3- National plan for protection of sea turtles and their habitats on the Syrian coast.
 - 4- National plan for determining standards and specification of marine waters, and establishment of database for them.

Involvement of other government departments/NGOs/private sector

1. Which other government departments are involved in activities/initiatives for the conservation of migratory species in your country? (Please list.)

- > • Ministry of State for Environment Affairs
- Ministry of Agriculture and Agrarian Reform (MAAR)
- General Commission for Agricultural Scientific Researches
- Ministry of high education / Aleppo & Tishreen Universities
- NGOs
- Ministry of Water resources

2. If more than one government department is involved, describe the interaction/relationship between these government departments:

- > • Ministry of State for Environment Affairs: it puts the strategies and the action plans to protect the biodiversity especially the migratory species, nominates the reserve sites to announce them.
- Ministry of Agriculture and Agrarian Reform (MAAR): it is working on increase the number of protected areas along the line of bird migration.

- Ministry of water resources: it is working to conserve the wetlands especially, which is very important for migratory birds and announced by RAMSAR.
- Ministry of high education through its branches in all covernates: it does the required studies to define the threats on migratory species.
- Between all mentioned authorities there are coordination and cooperation

3. Has a national liaison system or committee been established in your country?

Yes

> >The committee was established from all governmental sectors and non-governmental organizations (NGOs) to collect all the information about the situation of migratory species.

4. List the main non-governmental organizations actively involved in activities/initiatives for the conservation of migratory species in your country, and describe their involvement:

> Syrian Society for Conservation of Wildlife (SSCW) that consists of specialists in all fields of biodiversity, especially migratory birds and constantly working with government department to conduct field surveys for the protection migratory species particularlybirds.

4a. Please provide detail on any devolved government/overseas territory authorities involved.

> >General commission for conservation and development the BADIA: It is responsible for manage the natural reserves in BADIA as (Bald ibes natural resarve

5. Describe any involvement of the private sector in the conservation of migratory species in your country:

> >XXXXXXXXXXXXXXXX

6. Note any interactions between these sectors in the conservation of migratory species in your country:

> >XXXXXXXXXXXXXXXX

I(b). Information about involved Authorities

Identify the ministry, agency/department or organization that is responsible for leading actions relating to Appendix I species

1- Birds

- > 1-Ministry of State for Environment Affairs
- 2-Ministry of Agriculture and Agrarian Reform (MAAR) in co-operation with its relevant national institutions
- 3-Ministry of water resources
- 4-Syrian Society for Conservation of Wildlife (SSCW)

2- Aquatic Mammals

- > -Ministry of State for Environment Affairs
- Ministry of high education / Aleppo&Tishreen Universities:
- High Institute of Marine Research
- High Institute of Environmental Research
- Syrian Society for Conservation of Wildlife (SSCW)
- Ministry of water resources

3- Reptiles

- > •Ministry of State for Environment Affairs
- Ministry of high education / Aleppo&Tishreen Universities
- Syrian Society for Conservation of Wildlife (SSCW)

4- Terrestrial Mammals

- > 1-Ministry of State for Environment Affairs
- 2-Ministry of Agriculture and Agrarian Reform (MAAR) in co-operation with its relevant national institutions
- 3-Syrian Society for Conservation of Wildlife (SSCW)

5- Fish

- > •Ministry of State for Environment Affairs
- Ministry of Agriculture and Agrarian Reform (MAAR) in co-operation with its relevant national institutions
- Ministry of high education / Aleppo&Tishreen Universities
- Ministry of water resources
- Syrian Society for Conservation of Wildlife (SSCW)

II. Appendix I species

1. BIRDS

1.1 General questions on Appendix I bird species

1. Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)?

Yes

If other legislation is relevant, please provide details:

> >The Wild Hunting regulation Decree 153 /1970 (which regulates the provisions of the Birds Hunting) protects wild birds.

1a. If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition?

No

2. Identify any obstacles to migration that exist in relation to Appendix I bird species:

Habitat destruction

2a. What actions are being undertaken to overcome these obstacles?

> • Declaration of many PAs
• Prevent hunting for five years to protect habitats.

2b. Please report on the progress / success of the actions taken.

> The Field Guide Book (Birds of Syria) (2008) published by the Syrian Society for Conservation of Wildlife in collaboration with Bird-Life International, and other organizations referred to 394 species of which are migratory, passing setters, visitors in summer or winter .In addition to wandering species or forced to change migration corridors or courses and resort to Syrian land in sometimes due to climatic changes. In the last years some new species of national Avi-Fauna were recorded.

2c. What assistance, if any, does your country require in order to overcome these obstacles?

> >financial support of projects in the field of protected areas habitats and training courses for hunters

3. What are the major pressures to Appendix I bird species (transcending mere obstacles to migration)?

Other (please specify)

> Illegal Hunting

3a. What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour?

> revision of the current Hunting Law to be updated

3b. Please report on the progress / success of the actions taken.

> Hunting Management Action Plan is being recently endorsed

3c. Describe any factors that may limit action being taken in this regard:

> >weak law enforcement, Civil Disturbance

3d. What assistance, if any, does your country require to overcome these factors?

> >Trainspecial staff and warden to implement the laws and to educate Hunters

1.2 Questions on specific Appendix I bird species

In the following section, using the table format below, please fill in each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

Species name: Pelecanus crispus

2b. Summarise information on distribution (if known):

decreasing

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

> Civil Disturbance

Species name: Geronticus eremita

2a. Summarise information on population size (if known):

decreasing

2b. Summarise information on distribution (if known):

stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

Identification and establishment of protected areas

> establishment of protected areas

Monitoring

Species protection

Habitat protection

5. Describe any future activities that are planned for this species:

> Close monitoring will continue, in Captivity Breeding, Supporting Local Groups and local community for its protection

Species name: Marmaronetta angustirostris

2a. Summarise information on population size (if known):

decreasing

2b. Summarise information on distribution (if known):

stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

Monitoring

Habitat restoration

5. Describe any future activities that are planned for this species:

> >Proposing an area of confirmed continuous presence at Mehemedeh to become as a protected area

Species name: Aythya nyroca

2b. Summarise information on distribution (if known):

stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

Monitoring

Species name: Oxyura leucocephala

2b. Summarise information on distribution (if known):

stable

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

> >Civil Disturbance

5. Describe any future activities that are planned for this species:

> >Close monitoring

Species name: Neophron percnopterus

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

> >Civil Disturbance

Species name: Aquila clanga

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

> >Civil Disturbance

Species name: Aquila heliaca

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

> >Civil Disturbance

Species name: Falco cherrug (except Mongolian populations)

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

> >Civil Disturbance

Species name: Falco vespertinus

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

> >Civil Disturbance

Species name: Chlamydotis undulata (Northwest African populations)

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

> >Civil Disturbance

Species name: Vanellus gregarius

2b. Summarise information on distribution (if known):

stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

Monitoring

Education/awareness rising

Species protection

Habitat protection

Species name: Serinus syriacus

2a. Summarise information on population size (if known):

stable

2b. Summarise information on distribution (if known):

stable

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

> >Civil Disturbance

Note:

the focus was on the species present in Syria and delete the species which not found

2. AQUATIC MAMMALS

2.1 General questions on Appendix I aquatic mammals

3d. What assistance, if any, does your country require to overcome these factors?

> Found in Syrian waters which Delphinus delphis was dead and his vision of offenders on the beach in the years 2004-2005-2007-2008 in different parts of the Syrian coast

There is no specific legislation in Syria, to protect the marine mammals, but the enforced law now is the Law No. 1964 (for protection of aquatic species)

Threats:

The main threats are:

- 1- Fishermen's nets
- 2- Lack of food for marine species
- 3- Pollution
- 4- Ship collision
- 5- The deliberate killing by fishermen

All of these threats were caused by a decrease and death of many cetaceans, in the Syrian coast following table shows the most important cetaceans that have been found dead and a guardian aground on the beach and in different parts of Syria:

In 2008 Syria developed a draft action plan for the protection of cetaceans (whales and dolphins) in collaboration with the RAC SPA suggested then the High Institute of Marine Research as the primary key for the development of research and plans for special protection in marine mammals, but until now there is no search for marine mammals and there is a lack of specialists in this field in Syria.

In Syrian waters abound, there are three areas where whales and dolphins, an area simplex (monk seals were seen several times in this area) - or birds - Baniyas. View more cetaceans dolphin Bottlenose dolphin is seen in the form of groups (by views fishermen) in the area of Baniyas

You have attached the following documents to this answer.

[Source.docx](#)

III. Appendix II Species

1. INFORMATION ON APPENDIX II SPECIES

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the Secretariat of each of the Agreement/MoUs to which your country is a Party.

AEWA (1999)

Date of last report:

> >2012

Period covered

> >2009-2011

2. QUESTIONS ON CMS AGREEMENTS

Questions on the development of new CMS Agreements relating to Bird Species

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Bird Species ?

Yes

If Yes, what is the current state of development?

> >Seeking final Governmental approval of joining Raptors MoU in order to endorse and sign the MoU.

Questions on the development of new CMS Agreements relating to Bat Species

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Bat Species ?

No

2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Bat Species ?

No

IV. National and Regional Priorities

1. What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues

Medium

2. Are migratory species and their habitats addressed by your country's national biodiversity strategy or action plan?

Yes

2.1. If Yes, please indicate and briefly describe the extent to which it addresses the following issues:

Conservation, sustainable use and/or restoration of migratory species

Minimizing or eliminating barriers or obstacles to migration

Research and monitoring of migratory species

3a. Do these policies/plans cover the following areas?

Exploitation of natural resources (e.g. fisheries, hunting, etc.)

Yes

If Yes, please provide details

> Hunting Laws and Hunting Management Action Plan

Economic development

Land-use planning

Yes

Pollution control

Yes

Designation and development of protected areas

Yes

Planning of power lines

Yes

If Yes, please provide details

> Guidelines for establishing new Power Lines and Energy Establishments are being in the process of preparation

Planning of fences

V. Protected Areas

1. Are migratory species taken into account in the selection, establishment and management of protected areas in your country?

Yes

If Yes, please provide details:

> >NBI PA was established specifically to the protection of the Species, Other sites such as Jabbul IBA as well as several IBAs were the basis for choosing some of the sites to be designated as PAs

1b. Do these protected areas cover the following areas?

Aquatic

Yes

Marine

Yes

1c. Identify the agency, department or organization responsible for leading on this action in your country:

> MAAR, MSEA

VI. Policies on Satellite Telemetry

1. In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry?

No

2. Are any future conservation/research projects planned that will use satellite telemetry?

Yes

If Yes, please provide details (including the expected timeframe for these projects):

> successful Breeding of North Bald Ibis will initiate attach tags for the fledged birds!!

IX. Mobilization of Resources

2. Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition?

No

3. Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)?

No

4. Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species?

No

6. Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country?

Yes

If Yes, please provide details (Indicate the migratory species that have benefited from these activities):

> >MSB Project to mainstream the conservation and protection activities for the targeted MSBs within the hunting and agriculture sectors

Annex: Updating Data on Appendix II Species

1. The drop-down lists below contain the list of all species listed in Appendix II. New Parties which have acceded since COP10 in 2011 and Parties which did not submit a National Report in time in 2011 are requested to complete the entire form.

Parties that did submit a timely report in 2011 are requested to review and update the data (e.g. new published distribution references and details concerning species added to Appendix II at COP9 and COP10).

Podicipediformes

Podiceps grisegena grisegena

Please choose the one that applies.

Range State

Order PASSERIFORMES, Family MUSCICAPIDAE

Acrocephalus arundinaceus

Choose the one that applies.

Range State

Acrocephalus griseldis

Choose the one that applies.

Range State

Acrocephalus melanopogon

Choose the one that applies.

Range State

Acrocephalus palustris

Choose the one that applies.

Range State

Acrocephalus schoenobaenus

Choose the one that applies.

Range State

Acrocephalus scirpaceus

Choose the one that applies.

Range State

Cercotrichas galactotes

Choose the one that applies.

Range State

Cettia cetti

Choose the one that applies.

Range State

Erithacus rubecula

Choose the one that applies.

Range State

Ficedula albicollis

Choose the one that applies.

Range State

Ficedula hypoleuca

Choose the one that applies.

Range State

Ficedula parva

Choose the one that applies.

Range State

Ficedula semitorquata

Choose the one that applies.

Range State

Hippolais languida

Choose the one that applies.

Range State

Hippolais olivetorum

Choose the one that applies.

Range State

Irania gutturalis

Choose the one that applies.

Range State

Locustella fluviatilis

Choose the one that applies.

Range State

Locustella luscinioides

Choose the one that applies.

Range State

Locustella naevia

Choose the one that applies.

Range State

Luscinia luscinia

Choose the one that applies.

Range State

Luscinia megarhynchos

Choose the one that applies.

Range State

Luscinia svecica

Choose the one that applies.

Range State

Monticola saxatilis

Choose the one that applies.

Range State

Monticola solitarius

Choose the one that applies.

Range State

Oenanthe cypriaca

Choose the one that applies.

Range State

Oenanthe deserti

Choose the one that applies.

Range State

Oenanthe finschii

Choose the one that applies.

Range State

Oenanthe hispanica

Choose the one that applies.

Range State

Oenanthe isabellina

Choose the one that applies.

Range State

Oenanthe leucopyga

Choose the one that applies.

Range State

Oenanthe oenanthe

Choose the one that applies.

Range State

Oenanthe pleschanka

Choose the one that applies.

Range State

Oenanthe xanthopyrna

Choose the one that applies.

Range State

Panurus biarmicus

Choose the one that applies.

Range State

Phoenicurus ochruros

Choose the one that applies.

Range State

Phoenicurus phoenicurus

Choose the one that applies.

Range State

Phylloscopus collybita

Choose the one that applies.

Range State

Phylloscopus orientalis

Choose the one that applies.

Range State

Phylloscopus sibilatrix

Choose the one that applies.

Range State

Phylloscopus trochilus

Choose the one that applies.

Range State

Regulus ignicapillus

Choose the one that applies.

Range State

Regulus regulus

Choose the one that applies.

Range State

Saxicola rubetra

Choose the one that applies.

Range State

Sylvia atricapilla

Choose the one that applies.

Range State

Sylvia borin

Choose the one that applies.

Range State

Sylvia communis

Choose the one that applies.

Range State

Sylvia conspicillata

Choose the one that applies.

Range State

Sylvia curruca

Choose the one that applies.

Range State

Sylvia melanocephala

Choose the one that applies.

Range State

Sylvia mystacea

Choose the one that applies.

Range State

Sylvia nana

Choose the one that applies.

Range State

Sylvia nisoria

Choose the one that applies.

Range State

Sylvia rueppelli

Choose the one that applies.

Range State

Turdus iliacus

Choose the one that applies.

Range State

Turdus merula

Choose the one that applies.

Range State

Turdus philomelos

Choose the one that applies.

Range State

Turdus pilaris

Choose the one that applies.

Range State

Turdus torquatus

Choose the one that applies.

Range State

Order ANSERIFORMES, Family ANATIDAE

Anas erythrorhyncha

Choose the one that applies.

Range State

Anas falcata

Choose the one that applies.

Range State
