Original: English

15th MEETING OF THE CONFERENCE OF THE PARTIES
Campo Grande, Brazil, 23 – 29 March 2026
Agenda Item 16.2

**OVERVIEW OF THE WORKING GROUPS AND TASK FORCES
ESTABLISHED UNDER THE CMS SCIENTIFIC COUNCIL AND ITS SESSIONAL COMMITTEE**

(Prepared by the Secretariat)

Summary:

In line with Resolution 12.4 (Rev.COP14), paragraph 12, this document provides an overview of all CMS working groups and task forces under the Scientific Council and its Sessional Committee that are currently in effect.

OVERVIEW OF THE WORKING GROUPS AND TASK FORCES ESTABLISHED UNDER THE CMS SCIENTIFIC COUNCIL AND ITS SESSIONAL COMMITTEE

Background

1. Various working groups and task forces have been established by the Conference of the Parties or by the Sessional Committee of the Scientific Council (ScC-SC). The duration of most working groups is limited to a specific intersessional period between two meetings of the Conference of the Parties, but for some working groups and task forces their duration is open-ended.
2. Resolution 12.4 (Rev.COP14) *Scientific Council* sets up modalities and procedures for the functioning of the Scientific Council, and includes, in paragraph 12, a mandate to the Secretariat as follows:

“Requests the Secretariat to provide, for each meeting of the Conference of Parties, an overview of the working groups and task forces established under the CMS Scientific Council and its Sessional Committee”.

Summary of working groups and task forces

3. The 7th meeting of the Sessional Committee of the Scientific Council (ScC-SC7) reviewed the list of previously established working groups and established new working groups, which are listed respectively in Annex 1 and Annex 2. It also acknowledged that the Terms of Reference of any working group co-convened jointly with other partners should not be subject to change without consulting the relevant organizations. It further agreed that regular review of the working groups and an update of their Terms of Reference, as appropriate, is warranted.
4. Annex 1 contains an overview of existing working groups and task forces with an open-ended duration.
5. Annex 2 lists the working groups and task forces established under the Sessional Committee of the Scientific Council with a limited duration until COP15.

Recommended actions

6. The Conference of the Parties is recommended to:
 - a) take note of this document.
