15<sup>th</sup> MEETING OF THE CONFERENCE OF THE PARTIES  
Campo Grande, Brazil, 23 – 29 March 2026  
Agenda Item 30.2

**PROPOSALS TO COP15 FOR AMENDMENT OF APPENDICES I AND II OF THE  
CONVENTION**

*(Prepared by the Secretariat)*

Summary:

This document summarizes proposals for the amendment of CMS Appendices submitted for consideration by the 15<sup>th</sup> meeting of the Conference of the Parties (COP15). The full text of all the proposals is made available to COP15 as separate documents.

The Conference of the Parties is expected to review the proposals for amendments to the Appendices and make decisions on their approval or rejection.

## PROPOSALS TO COP15 FOR AMENDMENT OF APPENDICES I AND II OF THE CONVENTION

### Background:

1. In accordance with the provisions of Article XI of the Convention, the Secretariat received proposals for amendments to Appendices I and II of the Convention for consideration by the 15<sup>th</sup> meeting of the Conference of the Parties (COP15). The species covered by the proposals are set out in Table 1 contained in the Annex of this document, along with the Parties proposing the amendment. Parties were advised of the proposals received through [Notification 2025/027](#) of 4 November 2025.
2. The proposals for amendment to the Appendices referred to above are accompanied by supporting statements based on the format agreed by COP12 (2017) and contained in Annex 2 to [Resolution 13.7 Guidelines for Preparing and Assessing Proposals for the Amendment of CMS Appendices](#). These proposals, including their supporting statements, have been translated and are provided to COP15 in the three working languages of the Convention as documents UNEP/CMS/COP15/Doc.30.2.1 to UNEP/CMS/COP15/Doc.30.2.17.
3. In accordance with Article XI, paragraph 3 of the Convention, and through Notification 2025/027, Parties were invited to communicate any comments on the proposals to the Secretariat by 22 January 2026. All comments received by that deadline will be compiled by the Secretariat as an addendum to this document.
4. Pursuant to paragraph 12 of Resolution 13.7, the Secretariat will consult other relevant intergovernmental bodies, including Regional Fisheries Management Organizations (RFMOs), that have a function in relation to any species subject to a proposal for amendment of the Appendices. Any comments resulting from these consultations will also be compiled by the Secretariat as an addendum to this document.
5. All the proposals will be examined by the 8<sup>th</sup> meeting of the Sessional Committee of the CMS Scientific Council (Bonn, 15 –18 December 2025) from a scientific and technical standpoint and advice will be provided to the Conference of the Parties in accordance with Article VIII, paragraph 5c) of the Convention. The Scientific Council's comments will be made available as addenda to the proposals for amendment of the Appendices on the [CMS website](#).
6. Details on the handling of comments and amendment of proposals can be found in Annex 1 to the [Report of the 48<sup>th</sup> meeting of the Standing Committee](#) (Bonn, 23-24 October 2018).

### Discussion:

7. The Secretariat received a total of 17 proposals to amend the Appendices, as outlined in the Annex to this document.
8. The proposal to include 22 gadfly petrel species, subspecies and geographic populations on Appendix I and II (document UNEP/CMS/COP15/Doc.30.2.5) includes two subspecies, *Pterodroma cookii cookii* and *Pterodroma cookii orientalis*. Their scientific names differ from the latest [HBW/BirdLife Taxonomic Checklist \(Version 10\)](#), which only recognizes the species *Pterodroma cookii*, without any subspecies. Pending the Decision by COP15 on standard nomenclature for birds (see document

UNEP/CMS/COP15/Doc.29.3 *Taxonomy and nomenclature*), and if the HBW/BirdLife Taxonomic Checklist (Version 10) is recognized as the CMS standard nomenclature for birds, the names of these subspecies may need to be adjusted to align with the applicable standard nomenclature.

Recommended actions

9. The Conference of the Parties is recommended to:
  - a) consider recommendations as to the migratory species to be included in Appendices I and II provided by ScC-SC8 as addenda to the proposals for amendment of the Appendices;
  - b) review the proposals for amendments to the Appendices; and
  - c) make decisions regarding the approval or rejection of each of the proposals.
