PROPOSALS FOR CONCERTED ACTIONS FOR THE TRIENNIUM 2026-2029

Background

1. Concerted Actions are priority conservation measures, projects or institutional arrangements undertaken to improve the conservation status of selected Appendix I and Appendix II species or selected groups of Appendix I and Appendix II species. [Resolution 12.28 \(Rev.COP14\) Concerted Actions](#) encourages the submission of proposals for Concerted Actions by Parties and other stakeholders using the template provided in Annex 2 to the Resolution.
2. Twelve Concerted Actions were ongoing in the intersessional period between COP14 and COP15. Step 6 in Annex 1 of the Resolution sets out the procedure for possible continuation of ongoing Concerted Actions. Proponents may propose the continuation of a Concerted Action in the subsequent intersessional period by providing a revised proposal, using the template for Concerted Actions. These should be submitted together with the report on the implementation of the ongoing Concerted Action by the deadline for COP documents with a scientific component.
3. By the deadline of 24 October 2025, eight proposals for new Concerted Actions and eight proposals for continuation of ongoing Concerted Actions were received by the Secretariat (see overview in Table 1). The proposals are made available as separate documents (UNEP/CMS/COP15/Doc.31.3.1 to UNEP/CMS/COP15/Doc.31.3.16).
4. Progress reports on implementation of Concerted Actions have been received for all Concerted Actions that are proposed for continuation, as summarized in UNEP/CMS/COP15/31.2 *Progress in the implementation of Concerted Actions*.
