MULTI-SPECIES ACTION PLAN FOR AMAZONIA MIGRATORY CATFISH
UNEP/CMS/COP15/Doc.25.6.5

(ScC-SC8 Agenda item 8.6.5)

GENERAL COMMENTS ON THE DOCUMENT

The Sessional Committee congratulated Brazil for the development of an excellent Multi-species Action Plan and noted how much work went in to its development.

A member noted that the timeframe in Decision 15.AA (a) to “Implement the actions included in the Multi-species Action Plan, in particular those identified as “short-term” within three years as a priority;” might be too short for significant implementation.

RECOMMENDATIONS TO COP15

The Scientific Council recommends to adopt the draft resolution, the draft Multi-Species Action Plan and draft decisions.
