

COP 15 - Experience Bonito and Pantanal

Accommodation: 2 nights at a hotel in Bonito with breakfast and pool.

Day 1: Gruta do Lago Azul + Rio Sucuri

Gruta do Lago Azul

Rio Sucuri

Gruta do lago Azul: The tour begins with a 200-meter interpretive trail to the cave, followed by a 300-step descent with handrails and rest stops. During the walk, the guide explains the cave's geological formations. The highlight is the intensely blue lake, 87 meters deep, which is home to albino shrimp and traces of extinct animals, such as the giant sloth.

Rio Sucuri: Considered one of the clearest rivers in the world, the Sucuri River offers a unique experience: initial training, a hike to the source, and an 1,800-meter float in incredibly transparent waters, teeming with underwater life and support throughout the entire journey.

Day 2: Cânions do Salobra

Amidst the hustle and bustle of daily life, taking a moment to immerse yourself in nature brings great benefits to both body and mind. The Salobra Canyons attraction is committed to sustainable tourism and provides an authentic and unforgettable experience in the Serra da Bodoquena, unlike anything you've ever experienced. Explore the canyon trails, discover details and swim in natural pools of clear water, or simply relax and appreciate the tranquility of this natural paradise.

Day 3: Farm San Francisco

Located in the Pantanal region of Miranda, Fazenda San Francisco is a great option for those visiting Bonito and wishing to experience the Pantanal. With rich biodiversity, the Day Use package includes lunch, afternoon snack, and two excursions: a photographic safari through the farm and protected areas, with bird, alligator, and mammal watching, and a boat trip through the Pantanal, with beautiful landscapes, wildlife, and the experience of catch-and-release piranha fishing.

Transportation: includes round-trip transportation (Campo Grande - Bonito hotel), and transportation to the tour locations.
