- Benefited from TAG input
- Trial run underway; informal results to share at MOS3

The screenshot shows the 'CMS Online Reporting System' interface. At the top left is the CMS logo. The main title is 'CMS Online Reporting System'. Below the title is a navigation bar with 'Submission dashboard' and 'Administration dashboard'. Under 'Administration dashboard', there are links for 'Manage Questionnaires', 'New Questionnaire', 'Duplicate Questionnaire', and 'Manage Users'. The main content area is titled 'Raptors MOU National Report Form'. It contains a table of contents with sections: 'Introduction', 'I. ADMINISTRATIVE INFORMATION', 'II. HIGH-LEVEL SUMMARY OF KEY MESSAGES', 'III. RAPTOR CONSERVATION STRATEGIES AND EQUIVALENT DOCUMENTS', and 'IV. LEGAL PROTECTION OF SPECIES'. Each section has a corresponding icon (checkmark, plus, minus, or refresh). To the right of the table of contents is a large blue rectangular area, likely a placeholder for a logo or image. Below this area is the text: 'This is the National Report form for the Memorandum of Understanding (Raptors MOU). The purpose of the National Report is to provide information on your country's progress in implementing the MOU and its Action Plan as a whole. The proposed format provides a comparable way for each future Meeting of Signatories to report on their achievements of Signatories and other stakeholders, but also to provide a necessary minimum. A formal proposal to adopt the format will be considered by the Meeting of Signatories. The opportunity to launch it in its provisional form, so that up to date information can be provided, will be considered by the Meeting of Signatories. The Coordinating Unit of the Raptors MOU will compile and analyse the information provided. Reporting period To enable proper analysis, it is important that all respondents relate their information to the period between July 2020 and July 2021. On this occasion we are asking you to report on the period between July 2020 and July 2021. The results of which can be found in the first implementation survey, the results of which can be found in the first implementation survey, the results of which can be found in the first implementation survey.'
