The deadline for submission of the reports is 24 April 2017. The reporting period is from May 2014 to April 2017.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

The reporting format was agreed by the Standing Committee at its 40th Meeting (Bonn, November 2012) for mandatory use by Parties, for reports submitted to the Eleventh Meeting of the Conference of the Parties (COP11). The 45th meeting of the Standing Committee recommended the use of the same format for reports submitted to COP12, with necessary adjustments to take into account relevant COP11 decisions, in particular amendments to the Appendices and resolutions.

COP Resolution 9.4 adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. The CMS Family Online Reporting System (ORS) has been successfully implemented and used by AEWA in their last Meeting of the Parties (MOP 5, 2012) reporting cycle. CMS now offers the Convention’s Parties to use the ORS for submitting their national reports for the COP11 (2014) reporting cycle.

Please enter here the name of your country
› Czech Republic

Which agency has been primarily responsible for the preparation of this report?
› Ministry of Environment

Please list any other agencies that have provided input
› Krkonose National Park Administration
I(a). General Information
Please enter the required information in the table below:

**Party**

Date of entry into force of the Convention in your country
- 1 May 1994

Period covered
- 1 May 2014 to 30 April 2017

Territories to which the Convention applies
- Czech Republic

**Designated National Focal Point**

Full name of the institution
- Ministry of the Environment of the Czech Republic

Name and title of designated Focal Point
- Libuse Vlasakova, Senior Advisor

Mailing address
- Vrsovicka 65
  CZ-100 10 Praha 10

Telephone
- +420/267 122 372

Fax
- +420/267 310 328

E-mail
- libuse.vlasakova@mzp.cz

**Appointment to the Scientific Council**

Full name of the institution
- Krkonose National Park Administration

Name and title of contact officer
- Jiri Flousek, PhD.

Mailing address
- Dobrovskeho 3
  CZ-543 01 Vrchlabi

Telephone
- +420/499 456 212

Fax
- +420/499 422 095

E-mail
- jflousek@krnap.cz

**Submission**

Name and Signature of officer responsible for submitting national report

Name:
- Jan Šíma
  Director of the Department of Species Protection and Implementation of International Commitments

Address:
- Ministry of Environment
Implementation

Competent Authority:
› Ministry of the Environment of the Czech Republic

Relevant implemented legislation:
› Act 114/1992 on Nature Conservation and Landscape Protection

Other relevant Conventions/ Agreements (apart from CMS) to which your country is a Party:
› Ramsar Convention on Wetlands
CITES
Bern Convention
CBD
UNCCD - desertification

National policy instruments (e.g. national biodiversity conservation strategy, etc.):
› National biodiversity strategy 2016-2025
State programme of nature conservation and landscape protection (2010-2019)

CMS Agreements/MoU
Please indicate whether your country is part of the following Agreements/MoU. If so, please indicate the competent national institution

Involvement of other government departments/NGOs/private sector

1. Which other government departments are involved in activities/initiatives for the conservation of migratory species in your country? (Please list.)
   • Ministry of the Agriculture (partly)

2. If more than one government department is involved, describe the interaction/relationship between these government departments:
   • Ad hoc meetings.

3. Has a national liaison system or committee been established in your country?
   • Yes

   • The working group for implementation of CMS, AEWA, EUROBATS and MoUs on the Great Bustard and on Raptors has been established under the Ministry of the Environment that is a responsible body for implementation of these MEAs. NFP for CMS is responsible for coordination of the WG. Simultaneously there are two separate working groups just for the EUROBATS and for the MoU on Raptors; both coordinated by NFP for CMS as well. Once a year the meeting of NFPs of all MEAs is organised by NFP for CMS at the Ministry of the Environment to exchange information and evaluate progress in implementation of all conventions and to prepare and approve a working plan and projects for next year(s).
4. List the main non-governmental organizations actively involved in activities/initiatives for the conservation of migratory species in your country, and describe their involvement:

(1) Czech Society for Ornithology (CSO). It is an NGO of amateurs and professionals interested in conservation and research of birds. CSO is the Czech national partner of the BirdLife International (see www.birdlife.cz). Members of the CSO provide an expert support for implementation of the CMS, incl. AEWA and the MoU on the Great Bustard, and coordinate research and studies on CMS species. CSO is also responsible for general coordination of the Pan-European Common Bird Monitoring (for details see www.ebcc.info/pecbm.html).

(2) Bird Ringing Centre, National Museum Prague. It is a governmental institution that coordinates all bird-ringing activities in the Czech Republic and analyses and processes data on migratory birds.

(3) Czech Bat Conservation Trust (CESON). It is an NGO of professionals and amateurs interested in conservation and research of bats (see www.ceson.org). CESON provides expert's support for implementation of EUROBATS and organises European Bat Nights.

(4) Czech Union of Nature Conservationists (CSOP). It is an NGO of professionals and amateurs interested in nature conservation (see www.csop.cz). CSOP coordinates some programmes on biodiversity conservation at the national level.

4a. Please provide detail on any devolved government/overseas territory authorities involved.

(1) Nature Conservation Agency of the Czech Republic (AOPK) is a governmental body established by the Ministry of the Environment. Its main aim is to protect and conserve nature and landscape on the whole territory of the Czech Republic. The AOPK’s scope of operations includes namely:

- Monitoring the status, changes and trends in selected habitats and their types and in populations of specially protected wildlife species.
- Technical and expert support of the state administration performance, incl. methodological and expert activities.
- Performance of the state administration in nature conservation and landscape protection within the Protected Landscape Areas as well as on the rest of the country’s territory.
- Administration of the Nature Conservancy Central Register and the central governmental documentation on nature conservation and landscape protection.
- Design, development and management of the Nature Conservancy Information System.
- Administration of national subsidy programmes as well as some European Community funds serving to conserve nature and to protect landscape.
- Payment of financial compensations for the damages caused by specially protected animals and for loss of property in agriculture, forestry and fishpond management.
- State property management in the Specially Protected Areas.
- Awareness raising, communication and education in nature conservation and landscape protection.
- International cooperation in nature conservation and landscape protection (Scientific Authority of the CITES).

(2) Administrations of National Parks (4 NPs) - nature and landscape conservation, monitoring of status, changes and trends in selected habitats and populations of specially protected wildlife species.

(3) Administrations of Protected Landscape Areas (25 PLAs) - nature and landscape conservation, monitoring of status, changes and trends in selected habitats and populations of specially protected wildlife species.

5. Describe any involvement of the private sector in the conservation of migratory species in your country:

None.

6. Note any interactions between these sectors in the conservation of migratory species in your country:

None.
I(b). Information about involved Authorities

Identify the ministry, agency/department or organization that is responsible for leading actions relating to Appendix I species

1- Birds
   › Ministry of the Environment (Dept. Protection of Species and Implementation of International Commitments)
   Nature Conservation Agency
   Administrations of National Parks
   Administrations of Landscape Protected Areas
   Czech Society for Ornithology

2- Aquatic Mammals
   › Not relevant.

3- Reptiles
   › Not relevant.

4- Terrestrial Mammals
   › Ministry of the Environment (Dept. of Species Protection and Implementation of International Commitments)
   Nature Conservation Agency
   Administrations of National Parks
   Administrations of Landscape Protected Areas
   Czech Society for Bat Conservation

5- Fish
   › Not relevant.
II. Appendix I species

1. BIRDS

1.1 General questions on Appendix I bird species

1. Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)?
   ☑ Yes

If other legislation is relevant, please provide details:
   › No.

1a. If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition?
   ☑ No

2. Identify any obstacles to migration that exist in relation to Appendix I bird species:
   ☑ Electrocution
   ☑ Habitat destruction
   ☑ Wind turbines
   ☑ Other

   › Illegal killing and poisoning, poisoning from lead ammunition

2a. What actions are being undertaken to overcome these obstacles?
   › (1) Establishment of temporary protected areas where necessary.
   (2) A legislative obligation for energy enterprises (responsible for powerlines) to save all powerlines in the Czech Republic against electrocution till 6 June 2024.
   (3) National programme “Free Wings” (prepared and organized by the Czech Society for Ornithology) devoted to all illegal human activities negatively influencing bird populations (e.g. birds of prey, hunting, nest robberies, poisoning, trade etc.).
   (4) Development of the cooperation among the Ministry of the Environment, Ministry of Agriculture and Ministry of Interior on preservation and successful solution of cases of illegal poisoning of birds.

2b. Please report on the progress / success of the actions taken.
   › (1) Temporary protected area for the Great Bustard in the last/potential locality in South Moravia.
   (3) See www.karbofuran.cz.
   (4) Interministerial meetings are organised to find a suitable solution and steps against illegal poisoning of birds.

2c. What assistance, if any, does your country require in order to overcome these obstacles?
   › None.

3. What are the major pressures to Appendix I bird species (transcending mere obstacles to migration)?
   ☑ Other

   › Illegal killing and poisoning, poisoning from lead ammunition

3a. What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour?

   › National strategy to prevent poisoning and illegal killing of wild animals is under preparation. Final version should be prepared at the end of 2017. Also National strategy of Raptors Conservation is under preparation and will be completed at the end of 2017. Implementation of both strategies will start in 2018.

3b. Please report on the progress / success of the actions taken.
   › See 3a.

3c. Describe any factors that may limit action being taken in this regard:
   › Lack of financial resources for implementation of both strategies.

3d. What assistance, if any, does your country require to overcome these factors?
   › None at the moment.
1.2 Questions on specific Appendix I bird species

In the following section, using the table format below, please fill in each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

Species name: Acrocephalus paludicola

1. Please provide published distribution reference:
   › Stastny et al. 2006, Stastny & Hudec 2011, Flousek & Cepak 2013

You have attached the following documents to this answer.
Acrola in Czech Republic_Flousek Cepak 2013_cor.pdf - Aquatic warbler in the Czech Republic

You have attached the following Web links/URLs to this answer.
http://www.birds.cz/avif/

2a. Summarise information on population size (if known):
   ☑ decreasing
   › Regularly migrating species in low numbers (1-5 observations each year during the last five years 2012-16).

2b. Summarise information on distribution (if known):
   ☑ decreasing

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
   ☑ Monitoring
   › Covered by two regular national schemes (waterbird census, Breeding Bird Census Programme).
   ☑ Species protection
   › Not protected by national legislation (non-breeding species).
   ☑ Habitat protection
   › The most important stopover sites are included in wetlands of international importance (Ramsar sites) and most of them are protected by national legislation.

5. Describe any future activities that are planned for this species:
   › To sign the Memorandum of Understanding Concerning Conservation Measures for the Aquatic Warbler.

Species name: Anser erythropus

1. Please provide published distribution reference:
   › Hudec 1994, Hudec et al. 1995

You have attached the following Web links/URLs to this answer.
http://www.birds.cz/avif/

2a. Summarise information on population size (if known):
   ☑ not known
   › Regularly migrating and wintering species in small numbers: observations of 2-12 birds per year during the last five years 2012-2016 (already 12 birds in January to March 2017).

2b. Summarise information on distribution (if known):
   ☑ not known

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
   ☑ Monitoring
   › National waterbird census.
   ☑ Control hunting / poaching
   › Hunting prohibited.

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
Species name: *Aquila clanga*

1. Please provide published distribution reference:
   > Hudec et al. 1995, Hudec & Stastny 2005

You have attached the following Web links/URLs to this answer.

http://www.birds.cz/avif/

2a. Summarise information on population size (if known):
   - not known
   > Irregular visitor only; observations of single individuals (last accepted observation of one bird in 2015).

2b. Summarise information on distribution (if known):
   - not known

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
   - Control hunting / poaching
     > Hunting prohibited.

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
   > No specific activity prepared for this extremely rare species.

5. Describe any future activities that are planned for this species:
   > To sign the Memorandum of Understanding on the Conservation of Migratory Birds of Prey in Africa and Eurasia.

Species name: *Aquila heliaca*

1. Please provide published distribution reference:
   > Stastny et al. 2006, Cepak et al. 2008, Hora et al. 2010

2a. Summarise information on population size (if known):
   - increasing
   - stable

2b. Summarise information on distribution (if known):
   - stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
   - Monitoring
     > Regular monitoring of all breeding pairs.
   - Species protection
     > Not protected by national legislation (new breeding species for the country) but taken as a protected one.
   - Control hunting / poaching
     > Hunting prohibited.
   - Habitat protection
     > All nests in protected areas.

5. Describe any future activities that are planned for this species:
   > To sign the Memorandum of Understanding on the Conservation of Migratory Birds of Prey in Africa and Eurasia.

Species name: *Aythya nyroca*
1. Please provide published distribution reference:

You have attached the following Web links/URLs to this answer.
http://www.birds.cz/avif/

2a. Summarise information on population size (if known):
☑ not known
   › Rare species: regular occurrence in a breeding season (max. 1-2 pairs), irregular breeding (the last confirmed one in 2016); regularly wintering (not more than 5 birds each year in last five winters).

2b. Summarise information on distribution (if known):
☑ not known

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring
   › National waterbird census.
☑ Species protection
   › Protected by national legislation as a critically endangered species.
☑ Control hunting / poaching
   › Hunting prohibited.
☑ Habitat protection
   › The most important and potential breeding sites are designated as wetlands of international importance (Ramsar sites) and most of them are protected by national legislation.

5. Describe any future activities that are planned for this species:
› None.

**Species name: Branta ruficollis**

1. Please provide published distribution reference:
   › Hudec 1994, Hudec et al. 1995

You have attached the following Web links/URLs to this answer.
http://www.birds.cz/avif/

2a. Summarise information on population size (if known):
☑ not known
   › Regularly migrating and wintering species, probably not more than 3-5 birds per year wintering in the last five years 2012-16.

2b. Summarise information on distribution (if known):
☑ not known

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring
   › National waterbird census.
☑ Control hunting / poaching
   › Hunting prohibited.

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
   › No specific activity prepared for this very rare species.

5. Describe any future activities that are planned for this species:
› None.

**Species name: Emberiza aureola**
1. Please provide published distribution reference:
› Czech Republic is not the Range State for the species.

Species name: *Haliaeetus albicilla*

1. Please provide published distribution reference:
› Stastny et al. 2006, Cepak et al. 2008, Belka & Horal 2009, Hora et al. 2010

2a. Summarise information on population size (if known):
☑ increasing
› 100-110 breeding pairs in 2014, ca 200 wintering birds.

2b. Summarise information on distribution (if known):
☑ stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring
› Regular monitoring of the breeding population in all breeding localities.
☑ Species protection
› Protected by national legislation as a critically endangered species.
☑ Control hunting / poaching
› Hunting prohibited.
☑ Habitat protection
› Majority of nests in the Protected Landscape Areas. If not, temporary legislative protection for a given nest in a given breeding season is secured.

5. Describe any future activities that are planned for this species:
› To sign the Memorandum of Understanding on the Conservation of Migratory Birds of Prey in Africa and Eurasia.

Species name: *Falco cherrug* (except Mongolian populations)

1. Please provide published distribution reference:

You have attached the following documents to this answer.
Falche ČR Beran etal 2012.pdf - Saker falcon in the Czech Republic 1999-2010
You have attached the following Web links/URLs to this answer.
Saker falcon in the Czech Republic in 2015

2a. Summarise information on population size (if known):
☑ decreasing
› Regularly breeding species: 6-10 pairs in 2016.
☑ stable

2b. Summarise information on distribution (if known):
☑ stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring
› Regular monitoring of breeding localities.
☑ Species protection
› Protected by national legislation as a critically endangered species.
☑ Control hunting / poaching
› Hunting prohibited.
☑ Habitat protection
› Support on some breeding localities (individual nest protection in agrocoenoses, nest boxes or nesting pads on powerline pylons).
☑ Other
5. Describe any future activities that are planned for this species:

- To prepare an action plan for the species in the Czech Republic.
- To sign the Memorandum of Understanding on the Conservation of Migratory Birds of Prey in Africa and Eurasia.

**Species name: Falco vespertinus**

1. Please provide published distribution reference:

You have attached the following Web links/URLs to this answer.

http://www.birds.cz/avif/

2a. Summarise information on population size (if known):

- decreasing

- Long-term decrease, the last confirmed breeding in 1973.
- Regular observations of tens of birds every year in the non-breeding period.

2b. Summarise information on distribution (if known):

- decreasing

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

- Monitoring
  - Collection of all observation data in the database of the CSO (see above).
- Species protection
  - Protected by national legislation as a critically endangered species.
- Control hunting / poaching
  - Hunting prohibited.

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

- No specific activity prepared for this rare species.

5. Describe any future activities that are planned for this species:

- To sign the Memorandum of Understanding on the Conservation of Migratory Birds of Prey in Africa and Eurasia.

**Species name: Otis tarda (Middle-European population)**

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):

- decreasing

- No breeding confirmed last years (the last one in 2006); irregular wintering (0-2 ind.).

2b. Summarise information on distribution (if known):

- decreasing

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

- Monitoring
  - Regular monitoring of the only suitable locality.
- Species protection
  - Protected by national legislation as a critically endangered species.
- Control hunting / poaching
  - Hunting prohibited.
☑ Habitat protection

› Temporary protected area established at the former breeding site in South Moravia, near the Czech-Austrian border. Important part of the site bought by the Czech Agency for Nature and Landscape Conservation. Management plan for the site prepared. Continuing informal co-operation with Austrian ornithologists aimed at protection of the species (future existence of the Czech population depends on vitality of the neighbouring population in Austria).

☑ Habitat restoration

› Negotiations with local farmers to manage their lands in “bustard-friendly” way.

☑ Other

› National single species action plan for the great bustard in the Czech Republic will be finished in 2017.

5. Describe any future activities that are planned for this species: None.

Species name: Coracias garrulus

1. Please provide published distribution reference:

You have attached the following Web links/URLs to this answer.

http://www.birds.cz/avif/

2a. Summarise information on population size (if known):

☑ decreasing

› No breeding confirmed since 1987 (or probably 1991). Single observations in the breeding season in 2013-15 (1 ad. bird only).

2b. Summarise information on distribution (if known):

☑ decreasing

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

☑ Monitoring

› Collection of all observation data in the database of the CSO (see above).

☑ Species protection

› Protected by national legislation as a critically endangered species.

☑ Control hunting / poaching

› Hunting prohibited.

Miscellaneous information or comments on Appendix I birds in general:

› None.

5. FISH

5.1 General questions on Appendix I fish species

1. Is the taking of all Appendix I fish species prohibited by the national legislation listed as being implementing legislation in Table I(a) (General Information)?

☑ Yes

If other legislation is relevant, please provide details:

› Czech Republic is not the Range State for any Appendix I fish species.

1a. If the taking of Appendix I fish species is prohibited by law, have any exceptions been granted to the prohibition?

☑ No

5.2 Questions on specific Appendix I fish species

In the following section, using the table format below, please fill in each Appendix I fish species, for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided...
in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

**Species name: Acipenser sturio**

1. Please provide published distribution reference:
   ☐ Czech Republic is not the Range State for the species.

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
   ☑ Identification and establishment of protected areas

**6. LISTING OF OTHER ENDANGERED MIGRATORY SPECIES IN APPENDIX I**

1. Is your country a Range State for any other endangered migratory species currently listed in Appendix I? (according to the latest IUCN red data list). N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.
   ☑ Yes

If Yes, please provide details:
   ☑ The Aquatic Warbler is regularly (even in very low numbers) migrating across the Czech Republic and there are several important stopovers of the species in the country. However, the Czech Republic is not still included among the Range States of the species, in spite of it was stressed several times in previous national reports.

You have attached the following documents to this answer.

Acrola in Czech Republic_Flousek Cepak 2013_cor.pdf

1a. Is your country taking any steps to propose listing any of these species?
   ☑ Yes

If yes, please provide details:
   ☑ The Czech Republic has requested several times to be listed among Range States of AW MoU. Without success up to now.

1b. What assistance/measures, if any, does your country require to initiate the listing of these species?
   ☑ To include the Czech Republic officially among the Range States of the Aquatic Warbler under the respective MoU.
III. Appendix II Species

1. INFORMATION ON APPENDIX II SPECIES

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the Secretariat of each of the Agreement/MoUs to which your country is a Party.

**EUROBATS (1994)**

Date of last report:
› July 2014

Period covered:
› 2010 - 2014

**AEWA (1999)**

Date of last report:
› May 2015

Period covered:
› 2012-2014

**Middle-European Great Bustard MoU (2001)**

Date of last report:
› 20 February 2013

Period covered:
› 21 September 2008 to 20 February 2013

**Birds of Prey (Raptors) MoU (2008)**

Date of last report:
› September 2015

Period covered:
› 2013-2015

2. QUESTIONS ON CMS AGREEMENTS

Questions on the development of new CMS Agreements relating to Bird Species

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Bird Species?

   ☑ No

2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Bird Species?

   ☑ No

3. If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrumentâ€™s development?

   ☑ No

4. Is the development of any CMS Agreement for Bird Species, including Memoranda of Understanding, planned by your country in the foreseeable future?

   ☑ No

Questions on the development of new CMS Agreements relating to Marine Mammal Species
1. In the current reporting period, has your country \textit{initiated} the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Marine Mammal Species? ☐ No

2. In the current reporting period, has your country \textit{participated} in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Marine Mammal Species? ☐ No

3. If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument’s development? > No.

4. Is the development of any CMS Agreement for Marine Mammal Species, including Memoranda of Understanding, planned by your country in the foreseeable future? ☐ No

\textbf{Questions on the development of new CMS Agreements relating to Marine Turtle Species}

1. In the current reporting period, has your country \textit{initiated} the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Marine Turtle Species? ☐ No

2. In the current reporting period, has your country \textit{participated} in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Marine Turtle Species? ☐ No

3. If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument’s development? > No.

4. Is the development of any CMS Agreement for Marine Turtle Species, including Memoranda of Understanding, planned by your country in the foreseeable future? ☐ No

\textbf{Questions on the development of new CMS Agreements relating to Terrestrial Mammal (other than bats) Species}

1. In the current reporting period, has your country \textit{initiated} the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Terrestrial Mammal (other than bats) Species? ☐ No

2. In the current reporting period, has your country \textit{participated} in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Terrestrial Mammal (other than bats) Species? ☐ No

3. If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument’s development? > No.

4. Is the development of any CMS Agreement for Terrestrial Mammal (other than bats) Species, including Memoranda of Understanding, planned by your country in the foreseeable future? ☐ No

\textbf{Questions on the development of new CMS Agreements relating to Bat Species}

1. In the current reporting period, has your country \textit{initiated} the development of any CMS Agreements,
including Memoranda of Understanding, to address the needs of Appendix II Bat Species?
☑️ No

2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Bat Species?
☑️ No

3. If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument’s development?
› No

4. Is the development of any CMS Agreement for Bat Species, including Memoranda of Understanding, planned by your country in the foreseeable future?
☑️ No

### Questions on the development of new CMS Agreements relating to Fish

1. In the current reporting period, has your country **initiated** the development of any CMS Agreements, including Memoranda of Understanding, to address the needs of Appendix II Fish?
☑️ No

2. In the current reporting period, has your country **participated** in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Fish?
☑️ No

4. Is the development of any CMS Agreement for Fish, including Memoranda of Understanding, planned by your country in the foreseeable future?
☑️ No

### 3. LISTING OF MIGRATORY SPECIES IN APPENDIX II

1. Is your country a Range State for any migratory species that has an unfavourable conservation status, but is not currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation?
N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.
☑️ No

1a. Is your country taking any steps to propose the listing of this/these species in Appendix II?
☑️ No

1b. What assistance, if any, does your country require to initiate the listing of this/these species?
› None.
IV. National and Regional Priorities

1. What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues
☑ High

2. Are migratory species and their habitats addressed by your country's national biodiversity strategy or action plan?
☑ Yes

2.1. If Yes, please indicate and briefly describe the extent to which it addresses the following issues:
☑ Conservation, sustainable use and/or restoration of migratory species
› (1) Establishment of SPAs under the EU Birds Directive.
(2) Establishment of temporary protected areas where necessary.
(3) National programme “Free Wings” (prepared and organized by the Czech Society for Ornithology), concentrating on all illegal human activities negatively influencing bird populations (e.g. birds of prey: hunting, nest robberies, poisoning, trade etc.).
☑ Conservation, sustainable use and/or restoration of the habitats of migratory species, including protected areas
› See Chapter V on Protected areas.
☑ Actions to prevent, reduce or control factors that are endangering or are likely to further endanger migratory species (e.g. alien invasive species or by-catch)
› See further.
☑ Minimizing or eliminating barriers or obstacles to migration
› (1) Protection of birds against electrocution covered by the Czech National Council Act No. 114/1992 on Nature and Landscape Protection in wording of later amendments (§ 5a, para 6), and by the Energy Act No. 159/2009 (chapter 2, para 4) - a legislative obligation for energy enterprises (responsible for powerlines) to save all powerlines in the country against electrocution till 6 June 2024.
(2) Methodological instructions prepared by the Ministry of the Environment to standardize legislative procedures of competent authorities when evaluating wind turbine projects. Methodology for impact assessment of wind turbines on bats (to be agreed by the Ministry of the Environment).
(3) Methodology was finished in 2016 to determine and monitor important migration corridors of birds and bats in the Czech Republic.
☑ Research and monitoring of migratory species
☑ Transboundary co-operation

You have attached the following Web links/URLs to this answer.
Migration corridors of birds and bats in the Czech Republic

3. Does the conservation of migratory species currently feature in any other national or regional policies/plans (apart from CMS Agreements)
☑ Yes

3.1. If Yes, please provide details:
› Energy Policy, State Environmental Policy

3a. Do these policies/plans cover the following areas?

Exploitation of natural resources (e.g. fisheries, hunting, etc.)
☑ No

Economic development
☑ No

Land-use planning
☑ No

Pollution control
☑ No

Designation and development of protected areas
☑ Yes

If Yes, please provide details
› State Environmental Policy 2012-2020, State Programme on the Conservation of Nature and Landscape
(2009-2015)

Development of ecological networks
☑ Yes

If Yes, please provide details
› National, regional and local systems of ecological stability included in national legislation on nature and landscape protection (Act No. 114/1992 as amended).

Planning of power lines
☑ Yes

If Yes, please provide details
› Obligation for energy enterprises to save all powerlines against electrocution till 6 June 2024 (Act No. 158/2009).

Planning of fences
☑ No

Planning of dams
☑ No

Other
☑ No

4. Results - please describe the positive outcomes of any actions taken
› It is difficult to estimate positive outcomes of any actions taken. We hope all actions contribute to improvement of conservation status of migratory species in our country.
V. Protected Areas

1. Are migratory species taken into account in the selection, establishment and management of protected areas in your country?
☐ Yes

If Yes, please provide details:
› Special Protected Areas (SPA), declared according to the European Council Directive on the Conservation of the Wild Birds 79/409/EC, cover important breeding grounds and important sites of concentration of migrating and wintering birds (for species listed in the Annex I of the Birds Directive).
At present 41 SPAs are declared by individual decrees of the Government of the Czech Republic.
Altogether 1075 SCIs are included in the European list at present.

1a. Please identify the most important national sites for migratory species and their protection status:
› National Nature Reserve and SPA Lednicke ponds, SPA Nove Mlyny water reservoir, SPA Soutok-Tvrdonicko, Protected Landscape Area (PLA) and SPA Palava, PLA and SPA Trebonsko, SPA Doupovske Mts, SPA Ceskobudejovicke ponds, SPA Ceskolipsko-Dokeske sandstones and wetlands, etc.

1b. Do these protected areas cover the following areas?

Terrestrial
☐ Yes

If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas
› There are 41 SPAs that cover 703,430,12ha (8.91% area of the Czech Republic).

Aquatic
☐ Yes

If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas
› See terrestrial protected areas.

Marine
☐ No

1c. Identify the agency, department or organization responsible for leading on this action in your country:
› Czech Ministry of the Environment
Czech Agency of Nature Conservation and Landscape Protection

2. Results - please describe the positive outcomes of any actions taken
› Improvement of management of these areas and improvement of conservation status of species.
VI. Policies on Satellite Telemetry

1. In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry?
☑ Yes

If yes what is the state of those projects
☑ on-going

Please provide details
› (1) Return of the Golden Eagle in the Czech Republic - a project prepared for 2006-10 but four birds equipped for satellite telemetry still in 2011 and 2012 (two ind. each) and some others planned for 2014.
(2) Telemetry of the Corncrake - a project started in 2012 (2 birds equipped in 2012, 3 more in 2013, 5 birds planned for 2014).

You have attached the following Web links/URLs to this answer.
Bird Telemetry
The Return of the Golden Eagle in the Czech Republic

2. Are any future conservation/research projects planned that will use satellite telemetry?
☑ No

If Yes, please provide details (including the expected timeframe for these projects):
› Two more projects using satellite telemetry are planned for the red kite and the white stork.

3. Results - please describe the positive outcomes of any actions taken
› (1) Golden Eagle - the project was successful (unsuccessful breeding attempts in 2010 and 2011, in 2013 the first successful breeding of the species after more than 100 years in the NE part of the country) but no special outcomes as regards satellite telemetry (Argos and gps-gsm used, incomplete data on bird movements presented on the web site mentioned above).
(2) Corncrake - no results yet (Argos used).
VII. Membership

1. Have actions been taken by your country to encourage non-Parties to join CMS and its related Agreements?
☑ No
VIII. Global and National Importance of CMS

1. Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation?
☑ Yes

If Yes, please provide details:
› A new project on conservation, research and sustainable use of wetlands (for 2014-2016) is planned to promote i.a. migratory birds listed in annexes of both the CMS and the AEWA.

Czech Society for Ornithology organises several actions every year to increase national and local awareness of migratory birds (e.g. a campaign “The Bird of the Year” - white and black storks in 2014; a spring programme for families with children "Welcome the Bird Song" devoted to migratory birds returning back to breeding sites; a pan-European project "Spring Alive" devoted to several migratory species; etc.).

Czech Bat Conservation Trust organises "International Night of the Bats" every year (the action is very successful, the number of participants increases every year).

2. Identify the agency, department or organization responsible for leading on this action in your country:
› Ministry of the Environment (Department of Conservation of Species and Implementation of International Agreements)
Czech Society for Ornithology
Czech Bat Conservation Trust

3. Results - please describe the positive outcomes of any actions taken
› Improvement of public awareness of migratory birds and bats in general, on the CMS and its agreements (e.g Eurobats) and relevant MoUs.
IX. Mobilization of Resources

1. Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country?
   ☑ Yes

   If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
   > E.g.:
   Financial support of actual mapping of (declining) breeding colonies of the Black-headed Gull in the Czech Republic, as the first step to their better conservation.
   Project of the Czech Society for Ornithology financing a creation of suitable breeding opportunities (concrete islands) for the Common Tern in gravel pits.

2. Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition?
   ☑ No

3. Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)?
   ☑ No

4. Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species?
   ☑ No

5. Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country?
   ☑ No

6. Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country?
   ☑ No
Annex: Updating Data on Appendix II Species

1. The drop-down lists below contain the list of all species listed in Appendix II. Parties which did not submit a National Report in 2014 are requested to complete the entire form. Parties that did submit a report in 2014 are requested to review and update the data (e.g. new published distribution references and details concerning species added to Appendix II at COP11).

2. All species of each of the Families below are listed in Appendix II. If your country is a Range State for any of the species in these Families, please indicate whether your country is a Range State or the species is extinct and, where appropriate, please provide published distribution references.

Order FALCONIFORMES, Family ACCIPITRIDAE
Accipiter gentilis
Choose the one that applies.
☑ Range State

**Accipiter nisus**

Choose the one that applies.
☑ Range State

**Aquila chrysaetos**

Choose the one that applies.
☑ Range State

**Aquila clanga**

Choose the one that applies.
☑ Range State

**Aquila heliaca**

Choose the one that applies.
☑ Range State

**Aquila pomarina**

Choose the one that applies.
☑ Range State

**Buteo buteo**

Choose the one that applies.
☑ Range State

**Buteo lagopus**

Choose the one that applies.
☑ Range State

**Circus aeruginosus**

Choose the one that applies.
☑ Range State

**Circus cyaneus**

Choose the one that applies.
☑ Range State

**Circus pygargus**

Choose the one that applies.
☑ Range State

**Haliaeetus albicilla**

Choose the one that applies.
☑ Range State

**Milvus migrans**

Choose the one that applies.
☑ Range State

**Milvus milvus**

Choose the one that applies.
☑ Range State
Pernis apivorus
Choose the one that applies.
☑ Range State

Order FALCONIFORMES, Family FALCONIDAE

Falco cherrug
Choose the one that applies.
☑ Range State

Falco columbarius
Choose the one that applies.
☑ Range State

Falco naumanni
Choose the one that applies.
☑ Extinct

Falco peregrinus
Choose the one that applies.
☑ Range State

Falco subbuteo
Choose the one that applies.
☑ Range State

Falco tinnunculus
Choose the one that applies.
☑ Range State

Falco vespertinus
Choose the one that applies.
☑ Range State

Order PASSERIFORMES, Family MUSCICAPIDAE

Acrocephalus arundinaceus
Choose the one that applies.
☑ Range State

Acrocephalus melanopogon
Choose the one that applies.
☑ Range State

Acrocephalus paludicola
Choose the one that applies.
☑ Range State

Acrocephalus palustris
Choose the one that applies.
☑ Range State

Acrocephalus schoenobaenus
Choose the one that applies.
☑ Range State
Acrocephalus scirpaceus
Choose the one that applies.
☑ Range State

Erithacus rubecula
Choose the one that applies.
☑ Range State

Ficedula albicollis
Choose the one that applies.
☑ Range State

Ficedula hypoleuca
Choose the one that applies.
☑ Range State

Ficedula parva
Choose the one that applies.
☑ Range State

Hippolais icterina
Choose the one that applies.
☑ Range State

Locustella fluviatilis
Choose the one that applies.
☑ Range State

Locustella luscinioides
Choose the one that applies.
☑ Range State

Locustella naevia
Choose the one that applies.
☑ Range State

Luscinia luscinia
Choose the one that applies.
☑ Range State

Luscinia megarhynchos
Choose the one that applies.
☑ Range State

Luscinia svecica
Choose the one that applies.
☑ Range State

Monticola saxatilis
Choose the one that applies.
☑ Extinct

Muscicapa striata
Choose the one that applies.
Oenanthe oenanthe
Choose the one that applies.
☑ Range State

Panurus biarmicus
Choose the one that applies.
☑ Range State

Phoenicurus ochruros
Choose the one that applies.
☑ Range State

Phoenicurus phoenicurus
Choose the one that applies.
☑ Range State

Phylloscopus collybita
Choose the one that applies.
☑ Range State

Phylloscopus sibilatrix
Choose the one that applies.
☑ Range State

Phylloscopus trochiloides
Choose the one that applies.
☑ Range State

Phylloscopus trochilus
Choose the one that applies.
☑ Range State

Regulus ignicapillus
Choose the one that applies.
☑ Range State

Regulus regulus
Choose the one that applies.
☑ Range State

Saxicola rubetra
Choose the one that applies.
☑ Range State

Saxicola torquata
Choose the one that applies.
☑ Range State

Sylvia atricapilla
Choose the one that applies.
☑ Range State
Sylvia borin
Choose the one that applies.
☑ Range State

Sylvia communis
Choose the one that applies.
☑ Range State

Sylvia curruca
Choose the one that applies.
☑ Range State

Sylvia nisoria
Choose the one that applies.
☑ Range State

Turdus iliacus
Choose the one that applies.
☑ Range State

Turdus merula
Choose the one that applies.
☑ Range State

Turdus philomelos
Choose the one that applies.
☑ Range State

Turdus pilaris
Choose the one that applies.
☑ Range State

Turdus torquatus
Choose the one that applies.
☑ Range State

Order ANSERIFORMES, Family ANATIDAE

Anas platyrhynchos
Choose the one that applies.
☑ Range State

Anas strepera
Choose the one that applies.
☑ Range State

Anser albifrons
Choose the one that applies.
☑ Range State

Anser anser
Choose the one that applies.
☑ Range State

Anser brachyrhynchus
Choose the one that applies.
☑ Range State

**Anser erythropus**

Choose the one that applies.
☑ Range State

**Anser fabalis**

Choose the one that applies.
☑ Range State

**Aythya ferina**

Choose the one that applies.
☑ Range State

**Aythya fuligula**

Choose the one that applies.
☑ Range State

**Aythya marila**

Choose the one that applies.
☑ Range State

**Aythya nyroca**

Choose the one that applies.
☑ Range State

**Branta bernicla**

Choose the one that applies.
☑ Range State

**Branta leucopsis**

Choose the one that applies.
☑ Range State

**Branta ruficollis**

Choose the one that applies.
☑ Range State

**Bucephala clangula**

Choose the one that applies.
☑ Range State

**Clangula hyemalis**

Choose the one that applies.
☑ Range State

**Cygnus columbianus**

Choose the one that applies.
☑ Range State

**Cygnus cygnus**

Choose the one that applies.
☑ Range State
Cygnus olor
Choose the one that applies.
☑ Range State

Melanitta fusca
Choose the one that applies.
☑ Range State

Melanitta nigra
Choose the one that applies.
☑ Range State

Mergellus albellus
Choose the one that applies.
☑ Range State

Mergus merganser
Choose the one that applies.
☑ Range State

Netta rufina
Choose the one that applies.
☑ Range State

Somateria mollissima
Choose the one that applies.
☑ Range State

Tadorna ferruginea
Choose the one that applies.
☑ Range State

Tadorna tadorna
Choose the one that applies.
☑ Range State

Order CHARADRIIFORMES, Family RECURVIROSTRIDAE

Himantopus himantopus
Choose the one that applies.
☑ Range State

Recurvirostra avosetta
Choose the one that applies.
☑ Range State

Order CHARADRIIFORMES, Family CHARADRIIDAE

Charadrius alexandrinus
Choose the one that applies.
☑ Range State
Charadrius dubius
Choose the one that applies.
☑ Range State

Charadrius hiaticula
Choose the one that applies.
☑ Range State

Charadrius morinellus
Choose the one that applies.
☑ Range State

Eudromias morinellus
Choose the one that applies.
☑ Range State

Pluvialis apricaria
Choose the one that applies.
☑ Range State

Pluvialis squatarola
Choose the one that applies.
☑ Range State

Vanellus vanellus
Choose the one that applies.
☑ Range State

Order CHARADRIIFORMES, Family SCOLOPACIDAE

Arenaria interpres
Choose the one that applies.
☑ Range State

Calidris alba
Choose the one that applies.
☑ Range State

Calidris alpina
Choose the one that applies.
☑ Range State

Calidris canutus
Choose the one that applies.
☑ Range State

Calidris ferruginea
Choose the one that applies.
☑ Range State

Calidris minuta
Choose the one that applies.
☑ Range State

Calidris temminckii

Party: Czech Republic
Choose the one that applies.
