The deadline for submission of the reports is 24 April 2017. The reporting period is from May 2014 to April 2017.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

The reporting format was agreed by the Standing Committee at its 40th Meeting (Bonn, November 2012) for mandatory use by Parties, for reports submitted to the Eleventh Meeting of the Conference of the Parties (COP11). The 45th meeting of the Standing Committee recommended the use of the same format for reports submitted to COP12, with necessary adjustments to take into account relevant COP11 decisions, in particular amendments to the Appendices and resolutions.

COP Resolution 9.4 adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. The CMS Family Online Reporting System (ORS) has been successfully implemented and used by AEWA in their last Meeting of the Parties (MOP 5, 2012) reporting cycle. CMS now offers the Convention’s Parties to use the ORS for submitting their national reports for the COP11 (2014) reporting cycle.

Please enter here the name of your country
› United Arab Emirates

Which agency has been primarily responsible for the preparation of this report?
› Ministry of Climate Change and Environment

Please list any other agencies that have provided input
› Environment Agency - Abu Dhabi,
Dubai Municipality,
Environment and Protected Areas Authority - Sharjah,
Fujairah Municipality,
Dibba Fujairah Municipality,
Environmental Protection Agency and Development - Ras Al Khaimah
I(a). General Information
Please enter the required information in the table below:

Party
Period covered
› This is the first report the UAE has submitted

Designated National Focal Point
Full name of the institution
› Ministry of Climate Change and Environment

Name and title of designated Focal Point
› Mona Alshamisi - Acting Director of Biodiversity Department

Telephone
› +971 4 2148 402

Fax
› +971 4 2655 822

E-mail
› Moalshamisi@moccae.gov.ae

Submission
Name and Signature of officer responsible for submitting national report
Name:
› Mona Alshamisi

Address:
› Deira
Abu Hail
Abu Hail Street P.O. Box 1509

Tel.:
› +971 4 2148 402

Fax:
› +971 4 2655 822

E-mail:
› Moalshamisi@moccae.gov.ae

Implementation
Competent Authority:
› Ministry of Climate Change and Environment
Environment Agency - Abu Dhabi,
Dubai Municipality,
Environment and Protected Areas Authority - Sharjah,
Fujairah Municipality,
Dibba Fujairah Municipality,
Environmental Protection Agency and Development - Ras Al Khaimah)

Relevant implemented legislation:

Other relevant Conventions/ Agreements (apart from CMS) to which your country is a Party:
› The Convention on Biological Diversity (CBD)
The Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES)
The Convention on Wetlands of International Importance (RAMSAR)
The Intergovernmental science-policy Platform on Biodiversity and Ecosystem Services (IPBES)
Convention on the conservation of wildlife and their Natural Habitats in the Countries of the Gulf Cooperation Council.

National policy instruments (e.g. national biodiversity conservation strategy, etc.):
› National Biodiversity Strategy and Action Plan (NBSAP)

CMS Agreements/MoU
Please indicate whether your country is part of the following Agreements/MoU. If so, please indicate the competent national institution

Wadden Sea Seals (1991)

**Involvement of other government departments/NGOs/private sector**

3. Has a national liaison system or committee been established in your country?
☑ Yes
› National technical Committee under UAE Climate Change and Environment Council

4. List the main non-governmental organizations actively involved in activities/initiatives for the conservation of migratory species in your country, and describe their involvement:
› Emirates Wildlife Society in association with WWF (EWS-WWF)
The International Fund for Animal Welfare (IFAW)
Emirates Marine Environmental Group (EMEG)

5. Describe any involvement of the private sector in the conservation of migratory species in your country:
› Emirates Airline - the Emirates Group is committed to acting sustainably in the interests of our customers, our business, the natural environment and the over 106 destinations we serve worldwide. Our commitment to the environment began well before it was fashionable, when we created the conservation area around the Al Maha Resort in 1999, and we went on to initiate the creation of the Dubai Desert Conservation Reserve in 2003, preserving Dubai's unique desert environment for future generations. Emirates has continued to support this imitative through the management and on-going sponsorship of this unique protected area.
I(b). Information about involved Authorities

Identify the ministry, agency/department or organization that is responsible for leading actions relating to Appendix I species

1- Birds
› Ministry of Climate Change and Environment
   Environment Agency - Abu Dhabi,
   Dubai Municipality,
   Environment and Protected Areas Authority - Sharjah,
   Fujairah Municipality,
   Dibba Fujairah Municipality,
   Environmental Protection Agency and Development - Ras Al Khaimah

2- Aquatic Mammals
› Ministry of Climate Change and Environment
   Environment Agency - Abu Dhabi,
   Dubai Municipality,
   Environment and Protected Areas Authority - Sharjah,
   Fujairah Municipality,
   Dibba Fujairah Municipality,
   Environmental Protection Agency and Development - Ras Al Khaimah

3- Reptiles
› Ministry of Climate Change and Environment
   Environment Agency - Abu Dhabi,
   Dubai Municipality,
   Environment and Protected Areas Authority - Sharjah,
   Fujairah Municipality,
   Dibba Fujairah Municipality,
   Environmental Protection Agency and Development - Ras Al Khaimah

4- Terrestrial Mammals
› Ministry of Climate Change and Environment
   Environment Agency - Abu Dhabi,
   Dubai Municipality,
   Environment and Protected Areas Authority - Sharjah,
   Fujairah Municipality,
   Dibba Fujairah Municipality,
   Environmental Protection Agency and Development - Ras Al Khaimah

5- Fish
› Ministry of Climate Change and Environment
   Environment Agency - Abu Dhabi,
   Dubai Municipality,
   Environment and Protected Areas Authority - Sharjah,
   Fujairah Municipality,
   Dibba Fujairah Municipality,
   Environmental Protection Agency and Development - Ras Al Khaimah
II. Appendix I species

1. BIRDS

1.1 General questions on Appendix I bird species

1. Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)?
☑ Yes

If other legislation is relevant, please provide details:

1a. If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition?
☑ No

2. Identify any obstacles to migration that exist in relation to Appendix I bird species:
☑ Pollution
☑ Other
› illegal hunting and habitat destruction

2a. What actions are being undertaken to overcome these obstacles?
› Develop, review a new legislation and enforce law implementation by increase efforts in controlling and monitoring, also breeding and re-introduction of birds.

2b. Please report on the progress / success of the actions taken.
› Re-introduction programs in the UAE, North Africa, and central Asia

2c. What assistance, if any, does your country require in order to overcome these obstacles?
› Capacity Building and Information Exchange

3. What are the major pressures to Appendix I bird species (transcending mere obstacles to migration)?
☑ Other
› Urbanization

3a. What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour?
› Increase Protected Areas

3b. Please report on the progress / success of the actions taken.
› The UAE have ranked no.1 in marine protected areas according to Environmental performance index (EPI).

3d. What assistance, if any, does your country require to overcome these factors?
› Capacity Building and Information Exchange

1.2 Questions on specific Appendix I bird species

In the following section, using the table format below, please fill in each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

Species name: Aquila clanga

1. Please provide published distribution reference:

You have attached the following Web links/URLs to this answer.
http://ebird.org/ebird/barchart?r=AE&bmo=1&emo=12&byr=1900&eyr=2017&spp=grseaq1

2a. Summarise information on population size (if known):
2b. Summarise information on distribution (if known): stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
- Research
- Monitoring

**Species name: Aythya nyroca**

1. Please provide published distribution reference:

You have attached the following Web links/URLs to this answer.

2a. Summarise information on population size (if known): unclear

2b. Summarise information on distribution (if known): stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
  - Monitoring

4. If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
   - Lack of resources and prioritization

**Species name: Falco naumanni**

1. Please provide published distribution reference:

You have attached the following Web links/URLs to this answer.

2a. Summarise information on population size (if known): stable

2b. Summarise information on distribution (if known): stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
  - Monitoring

**Species name: Pelecanus crispus**

1. Please provide published distribution reference:

2a. Summarise information on population size (if known): unclear

2b. Summarise information on distribution (if known): not known

**Species name: Neophron percnopterus**
1. Please provide published distribution reference:

You have attached the following Web links/URLs to this answer.

http://ebird.org/ebird/barchart?r=AE&bmo=1&emo=12&byr=1900&eyr=2017&spp=egyvul1

2a. Summarise information on population size (if known):
☑ unclear

2b. Summarise information on distribution (if known):
☑ unclear

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Research
☑ Monitoring

**Species name: Aquila heliaca**

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):
☑ not known

2b. Summarise information on distribution (if known):
☑ not known

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring

**Species name: Chlamydotis undulata (Northwest African populations)**

1. Please provide published distribution reference:

You have attached the following Web links/URLs to this answer.
http://
http://

**Species name: Calidris tenuirostris**

1. Please provide published distribution reference:

You have attached the following Web links/URLs to this answer.
http://

2a. Summarise information on population size (if known):
☑ unclear

2b. Summarise information on distribution (if known):
☑ stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring

2. AQUATIC MAMMALS

2.1 General questions on Appendix I aquatic mammals
1. Is the taking of all Appendix I aquatic mammals species prohibited by the national implementing legislation cited in Table I(a) (General Information)?
☑ Yes

If other legislation is relevant, please provide details:
› Federal Law No. 23 of the year 1999 concerning Exploitation, protection and development of the living aquatic Resources in the state of United Arab Emirates, Cabinet Resolution No. (18) for the Year 2012 on the Sanctions for Violators of Regulatory Decrees related to Living Aquatic Resources and Fisheries Wealth.

1a. If the taking of Appendix I aquatic mammals species is prohibited by law, have any exceptions been granted to the prohibition?
☑ No

2. Identify any obstacles to migration that exist in relation to Appendix I aquatic mammals:
☑ By-catch

2a. What actions are being undertaken to overcome these obstacles?
› Raise awareness and develop conservation action plan.

2b. Please report on the progress / success of the actions taken.
› Marine population is stable.

2c. What assistance, if any, does your country require in order to overcome these obstacles?
› Capacity Building and Information Exchange.

3. What are the major pressures to Appendix I aquatic mammals species (transcending mere obstacles to migration)?
☑ Pollution

3a. What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger aquatic mammals species beyond actions to prevent disruption to migrating behaviour?
› Increase Marine protected Areas and awareness raising campaign.

3b. Please report on the progress / success of the actions taken.
› The UAE have ranked no. 1 in marine protected areas according to Environmental performance index (EPI).

3d. What assistance, if any, does your country require to overcome these factors?
› Information Exchange

2.2 Questions on specific Appendix I aquatic mammals
In the following section, using the table format below, please fill in each Appendix I aquatic mammals species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

**Species name: Balaenoptera musculus**

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):
☑ unclear

2b. Summarise information on distribution (if known):
☑ unclear

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring

**Species name: Balaenoptera physalus**

1. Please provide published distribution reference:
2a. Summarise information on population size (if known):
☑ not known

2b. Summarise information on distribution (if known):
☑ not known

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring

**Species name: Megaptera novaeangliae**

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):
☑ decreasing

2b. Summarise information on distribution (if known):
☑ stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring

**Species name: Physeter macrocephalus**

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):
☑ not known

2b. Summarise information on distribution (if known):
☑ not known

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Monitoring

3. **REPTILES**

3.1 General questions on Appendix I reptiles

1. Is the taking of all Appendix I reptiles species prohibited by the national implementing legislation cited in Table I(a) (General Information)?
☑ Yes

If other legislation is relevant, please provide details:

1a. If the taking of Appendix I reptiles species is prohibited by law, have any exceptions been granted to the prohibition?
☑ No

2. Identify any obstacles to migration that exist in relation to Appendix I reptiles species:
☑ By-catch

2a. What actions are being undertaken to overcome these obstacles?
› Species Rehabilitation

2b. Please report on the progress / success of the actions taken.
3. What are the major pressures to Appendix I reptiles species (transcending mere obstacles to migration)?

☑ Other

Other

Coastal Development

3a. What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger reptiles species beyond actions to prevent disruption to migrating behaviour?

Turtles monitoring. Declare two sites as IOSEA site network.

3b. Please report on the progress / success of the actions taken.

The UAE has achieved the international target of the Marine Protected Area, and developed action plans for the conservation of marine turtle.

3d. What assistance, if any, does your country require to overcome these factors?

Information Exchange

3.2 Questions on specific Appendix I reptiles

In the following section, using the table format below, please fill in each Appendix I reptiles species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

Species name: Caretta caretta

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):

☑ unclear

2b. Summarise information on distribution (if known):

☑ stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

☑ Monitoring

5. Describe any future activities that are planned for this species:

☑ Developing a National Action plan to conserve marine turtle.

Species name: Chelonia mydas

1. Please provide published distribution reference:

2a. Summarise information on population size (if known):

☑ unclear

2b. Summarise information on distribution (if known):

☑ stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):

☑ Monitoring

5. Describe any future activities that are planned for this species:
Species name: Eretmochelys imbricata

1. Please provide published distribution reference:
   ➤ STATUS OF MARINE TURTLE CONSERVATION IN ABU DHABI EMIRATE

   You have attached the following Web links/URLs to this answer:

2a. Summarise information on population size (if known):
   ☑ stable

2b. Summarise information on distribution (if known):
   ☑ stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
   ☑ Monitoring

5. Describe any future activities that are planned for this species:
   ➤ Developing a National Action plan to conserve marine turtle.

5. FISH

5.1 General questions on Appendix I fish species

1. Is the taking of all Appendix I fish species prohibited by the national legislation listed as being implementing legislation in Table I(a) (General Information)?
   ☑ Yes

   If other legislation is relevant, please provide details:

1a. If the taking of Appendix I fish species is prohibited by law, have any exceptions been granted to the prohibition?
   ☑ No

2. Identify any obstacles to migration that exist in relation to Appendix I fish species:
   ☑ Other
   ➤ By-Catch

2a. What actions are being undertaken to overcome these obstacles?
   ➤ Awareness campaigns and The Ministerial Decree No. 500 requires the release of any shark caught accidently while taking all the necessary measures to protect them and ensure their survival. If the shark is dead, fishers are obliged to deliver the body to the competent authority for confiscation purposes.

2b. Please report on the progress / success of the actions taken.
   ➤ No appendix one listed sharks are found in the market.

2c. What assistance, if any, does your country require in order to overcome these obstacles?
   ➤ Capacity Building and Information Exchange.

3. What are the major threats to Appendix I fish species (transcending mere obstacles to migration)?
   ☑ Other
   ➤ by- catch

3a. What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger fish species beyond actions to prevent disruption to migrating behaviour?
   ➤ The UAE has established the National Sustainable Fisheries Program.
3b. Please report on the progress / success of the actions taken.
› Better understanding of fisheries stock.

3c. Describe any factors that may limit action being taken in this regard:
› over fishing

3d. What assistance, if any, does your country require to overcome these factors?
› Capacity Building and Information Exchange

5.2 Questions on specific Appendix I fish species
In the following section, using the table format below, please fill in each Appendix I fish species, for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

Species name: Pristis zijsron
1. Please provide published distribution reference:

2a. Summarise information on population size (if known):
☑ decreasing

2b. Summarise information on distribution (if known):
☑ unclear

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Species protection

Species name: Mobula thurstoni
1. Please provide published distribution reference:

2a. Summarise information on population size (if known):
☑ stable

2b. Summarise information on distribution (if known):
☑ stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Research

Species name: Mobula eregoodootenkee
1. Please provide published distribution reference:

2a. Summarise information on population size (if known):
☑ stable

2b. Summarise information on distribution (if known):
☑ stable

3. Indicate and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
☑ Research

6. LISTING OF OTHER ENDANERGED MIGRATORY SPECIES IN APPENDIX I
1. Is your country a Range State for any other endangered migratory species currently listed in Appendix I?
(according to the latest IUCN red data list). N.B.: States in which a species occurs as a vagrant (i.e. not “on its normal
migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.
☑ No

1a. Is your country taking any steps to propose listing any of these species?
☑ No
III. Appendix II Species

1. INFORMATION ON APPENDIX II SPECIES

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the Secretariat of each of the Agreement/MoUs to which your country is a Party.

IOSEA Marine Turtles MoU (2001)

Date of last report:
› 30 July 2014

Period covered:
› 2013 - 2014

Dugong MoU (2007)

Date of last report:
› 31/01/2017

Period covered:
› 2010-2016

2. QUESTIONS ON CMS AGREEMENTS

Questions on the development of new CMS Agreements relating to Bird Species

2. In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Bird Species?
☑ Yes

If Yes, please provide details:
› The UAE participated in the Saker Falcon (Falco cherrug) Global Action Plan (SakerGAP).

Questions on the development of new CMS Agreements relating to Marine Mammal Species

2. In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II Marine Mammal Species?
☑ Yes

If Yes, please provide details:
› The UAE hosted the Mos Meeting of Dugong.

3. LISTING OF MIGRATORY SPECIES IN APPENDIX II

1. Is your country a Range State for any migratory species that has an unfavourable conservation status, but is not currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation?

N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.
☑ No
IV. National and Regional Priorities

1. What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues
   ☑ High

2. Are migratory species and their habitats addressed by your country's national biodiversity strategy or action plan?
   ☑ Yes

2.1. If Yes, please indicate and briefly describe the extent to which it addresses the following issues:
   ☑ Conservation, sustainable use and/or restoration of migratory species

3. Does the conservation of migratory species currently feature in any other national or regional policies/plans (apart from CMS Agreements)
   ☑ Yes

3.1. If Yes, please provide details:
   › The conservation of migratory species is part of our NBSAP as well as in the GCC wildlife and migratory species convention, fisheries management action plan

3a. Do these policies/plans cover the following areas?

Exploration of natural resources (e.g. fisheries, hunting, etc.)
   ☑ Yes

If Yes, please provide details
   › The NBSAP target:
     By 2021, at least 70% of important and vulnerable living marine resources are managed sustainably.
     By 2021, programmers developed and implemented to improve the conservation status of 70% of species most threatened by extinction.

Economic development
   ☑ Yes

If Yes, please provide details
   › The NBSAP target:
     By 2021, incentives, including subsidies, harmful to biodiversity are eliminated, phased out or reformed and positive incentives for the conservation and sustainable use of biodiversity are developed and applied considering social, economic and cultural implications.
     By 2021, there has been a 50% increase in the number of government-owned and non-government owned businesses implementing measures for sustainable production and consumption to minimize the impact on biodiversity in UAE.

Land-use planning
   ☑ Yes

If Yes, please provide details
   › The NBSAP target:
     By 2021, the rate of loss of natural habitats, including critical habitats, is reduced by 25%.
     By 2021, 50% of government-owned and of non-government-owned areas under agriculture, aquaculture and forestry are managed sustainably to ensure the conservation of biodiversity.

Pollution control
   ☑ Yes

If Yes, please provide details
   › By 2021, all land- and water-based pollution has been brought to levels not detrimental to sensitive ecosystem function and biodiversity.

Designation and development of protected areas
   ☑ Yes

If Yes, please provide details
   › The NBSAP target:
By 2021, 12% of terrestrial and 14% of coastal and marine areas are conserved through an effectively managed, ecologically representative network of protected areas, taking into account, as appropriate, connecting areas of particular importance to biodiversity and ecosystem services.

Development of ecological networks
☑ Yes

If Yes, please provide details

The NBSAP target:
By 2021, 12% of terrestrial and 14% of coastal and marine areas are conserved through an effectively managed, ecologically representative network of protected areas, taking into account, as appropriate, connecting areas of particular importance to biodiversity and ecosystem services.

Planning of power lines
☑ No

Planning of fences
☑ No

Planning of dams
☑ No

Other
☑ No
V. Protected Areas

1. Are migratory species taken into account in the selection, establishment and management of protected areas in your country?
   ☑ Yes

If Yes, please provide details:
   › Species conservation in protected Area is one of the pillars of National Management Effectiveness Assessment.

1a. Please identify the most important national sites for migratory species and their protection status:
   › Marawah Biosphere Reserve, Ras AlKhor wildlife sanctuary and Sir bu Nair.

1b. Do these protected areas cover the following areas?

Terrestrial
   ☑ Yes

If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas
   › UAE has 28 Terrestrial Protected areas accounting for 16.24% of its Terrestrial coverage.

Aquatic
   ☑ Yes

If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas
   › UAE has 15 Marine Protected areas accounting for 12.23% of its Marine coverage.

Marine
   ☑ Yes

If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas
   › UAE has 15 Marine Protected areas accounting for 12.23% of its Marine coverage.

1c. Identify the agency, department or organization responsible for leading on this action in your country:
   › Ministry of Climate Change and Environment

2. Results - please describe the positive outcomes of any actions taken
   › The status of Marine turtles improved, as well as dugongs and fish stock.
VI. Policies on Satellite Telemetry

1. In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry?
☑ Yes

If yes what is the state of those projects
☑ on-going

2. Are any future conservation/research projects planned that will use satellite telemetry?
☑ No
VII. Membership

1. Have actions been taken by your country to encourage non-Parties to join CMS and its related Agreements?
☑ Yes

If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.)
› The UAE have worked with the GCC wildlife convention secretariat to encourage other countries to join CMS.

1a. Identify the agency, department or organization responsible for leading on this action in your country:
› Ministry of Climate Change and Environment
VIII. Global and National Importance of CMS

1. Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation?
☑ Yes

If Yes, please provide details:
› UAE is a Host of the CMS only office other than Bonn and it works with the team of CMS to increase awareness.

2. Identify the agency, department or organization responsible for leading on this action in your country:
› All competent authorities (Environment Agency - Abu Dhabi, Dubai Municipality, Environment and Protected Areas Authority - Sharjah, Fujairah Municipality, Dibba Fujairah Municipality, the Environmental Protection Agency and Development - Ras Al Khaimah)
IX. Mobilization of Resources

1. Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country?
☑ Yes

If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
› The UAE hosted signatory meetings and technical workshops for turtles, Dugongs, Sharks, Raptors, Birds in general.

2. Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition?
☑ Yes

If Yes, please provide details:
› The UAE Hosts The CMS office with a current budget of 7.3 million$

3. Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)?
☑ Yes

If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
› The UAE contributed in panthera project with a current budget of 8 billion $

4. Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species?
☑ Yes

If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
› Scientific Training in many countries such as, Morocco and Oman, and Establish breeding center in Kazakhstan and Morocco

5. Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country?
☑ No

6. Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country?
☑ No
X. Implementation of COP Resolutions and Recommendations

Please provide information about measures undertaken by your country relating to recent Resolutions and Recommendations since the last Report. For your convenience please refer to the list of COP Resolutions and Recommendations listed below:

**Strategic and Institutional Matters**

**Capacity Building Strategy (Res. 9.12 / Res. 10.6)**
- The UAE have co-financed and hosted a number of technical workshops under CMS, to raise the capacity building of the region; these include:
  - Saker Falcon Task Force - Stakeholders Workshop (Raptors MoU), 2013
  - Training Workshop on the Conservation of Sharks and Rays (Sharks MoU), 2014
  - Seagrass and Dugong Technical Workshop (Dugong MoU), 2017

**Strategic Plan for Migratory Species 2015-2023 (Res. 11.2)**
- The UAE has adopted a national biodiversity strategy and action plan which include national targets that are compatible with Aichi Targets and Strategic Plan for Migratory Species (SPMS).

**Financial and Administrative Matters and Terms of Reference for the Administration of the Trust Fund (Res. 11.1)**
- The UAE joined CMS recently, and has paid its annual contribution. In addition to that, the UAE hosts the largest CMS regional office in Abu Dhabi and funds its activity. In the duration of the four years (2016-2019) the UAE is funding CMS office with USD 7.3 million.

**Relationship between the CMS Family and the Civil Society (Res. 11.11)**
- N/A

**World Migratory Bird Day (Res. 11.9)**
- The UAE celebrated World Migratory Bird Day through a number of events and awareness campaigns, these include a Migratory bird day event hosted by Dubai Municipality as well as events carried our by Environment Agency Abu Dhabi, Sharjah's Environment and Protected Areas Agency, and other competent authorities.

**Outreach and Communication Issues (Res. 11.8)**
- N/A

**Development of CMS Agreements (Res. 11.12)**
- The UAE is party to the following CMS agreements:
  - Raptors MoU
  - IOSEA Marine Turtles MoU
  - Sharks MoU
  - Dugongs MoU

**Concerted and Cooperative Actions (Res. 11.13)**
- Species that occurred in the UAE range are protected by law, it's illegal to hunt them or take them from the wild as per Federal Law No. 24 for the year 1999 for the Protection and Development of the Environment and Federal Law No. 23 for the year 1999 concerning Exploitation, protection and development of the living aquatic Resources in the state of United Arab Emirates.

**Synergies and Partnerships / Cooperation with other Conventions (Res. 11.10)**
- The Ministry of Climate Change and Environment handles all of the biodiversity related multilateral conventions which ensure coherent and synergistic approaches across the conventions and increase effectiveness of national efforts.

**Future strategies of the CMS Family / “Future Shape” (Res. 10.9)**
- N/A
Annex: Updating Data on Appendix II Species

1. The drop-down lists below contain the list of all species listed in Appendix II. Parties which did not submit a National Report in 2014 are requested to complete the entire form. Parties that did submit a report in 2014 are requested to review and update the data (e.g. new published distribution references and details concerning species added to Appendix II at COP11).
