CITES App I

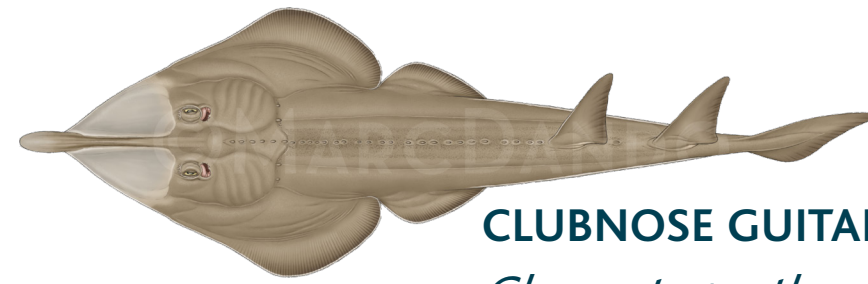

SMALLTOOTH SAWFISH
Pristis pectinata
CMS App I & II; Sharks MOU
CITES App I

CLOWN WEDGEFISH
Rhynchobatus cooki
CITES App II

DWARF SAWFISH
Pristis clavata
CMS App I & II; Sharks MOU
CITES App I

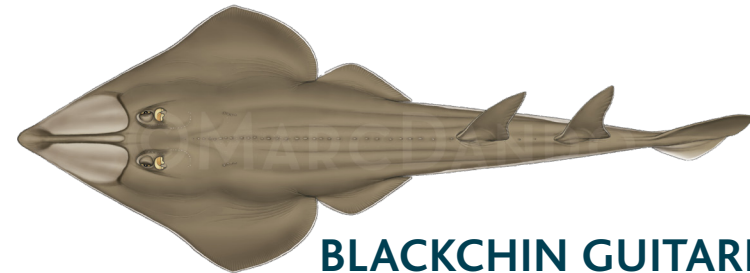

CLUBNOSE GUITARFISH
Glaucostegus thouin
CITES App II

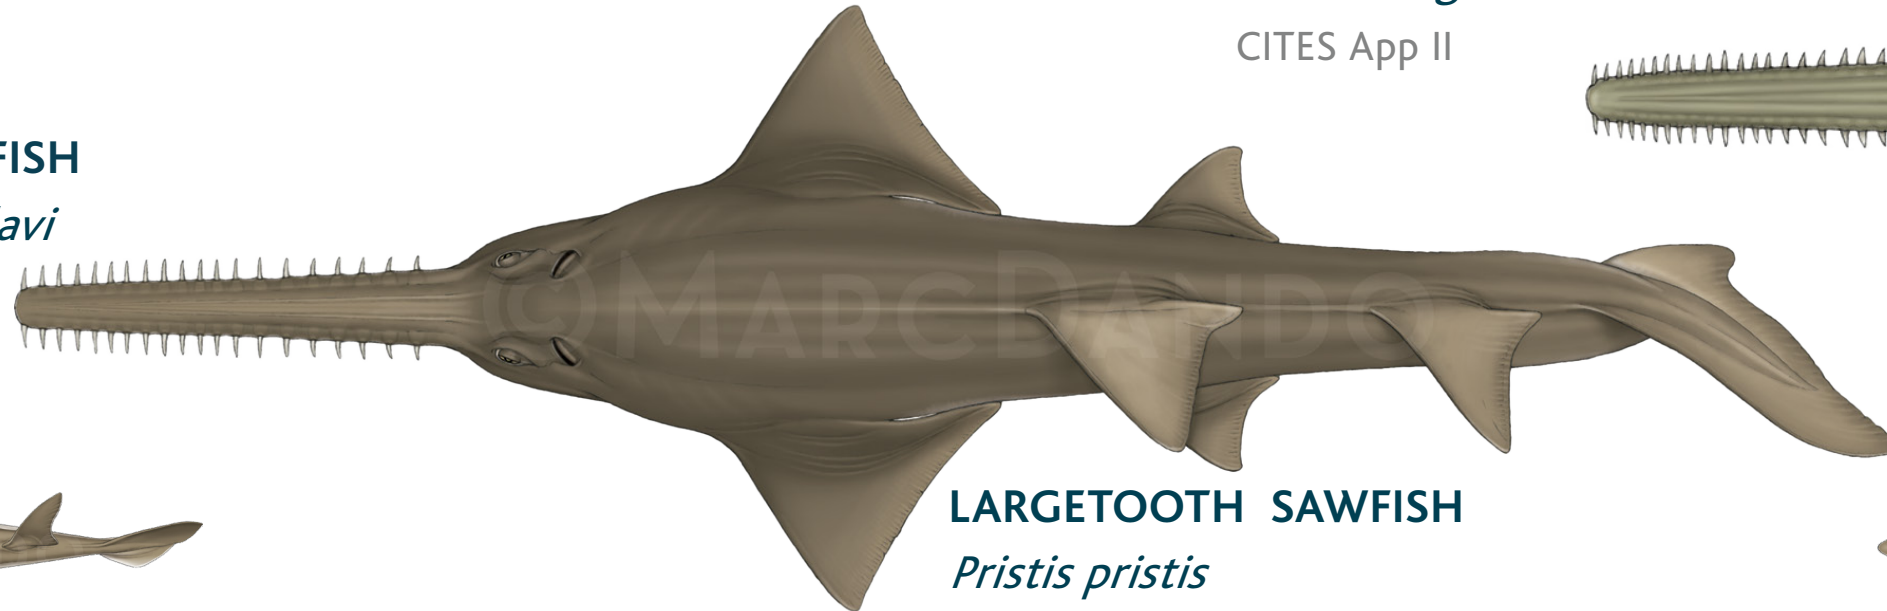

HALAVI GUITARFISH
Glaucostegus halavi
CITES App II

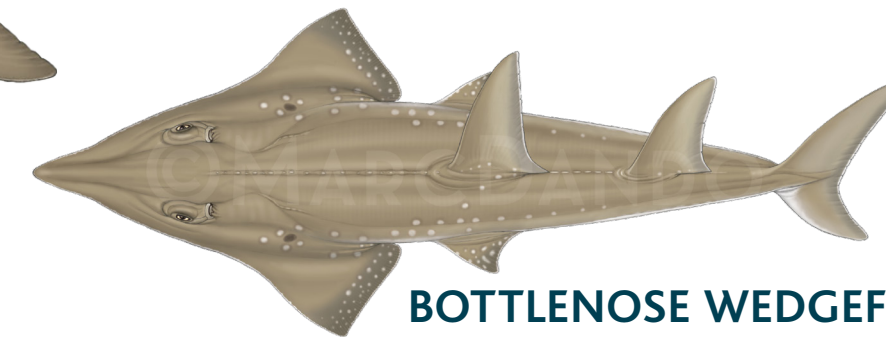

GREEN SAWFISH
Pristis zijsron
CMS App I & II; Sharks MOU
CITES App I

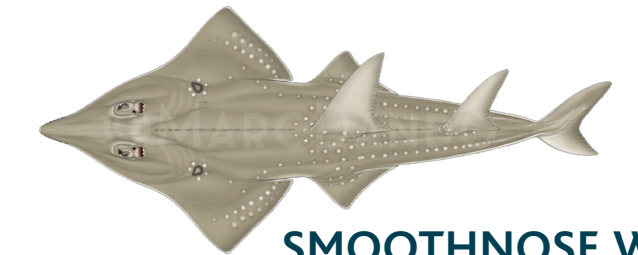

BLACKCHIN GUITARFISH
Glaucostegus cemiculus
CITES App II

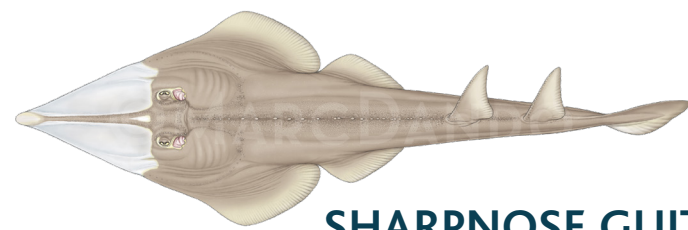

LARGETOOTH SAWFISH
Pristis pristis
CMS App I & II; Sharks MOU
CITES App I

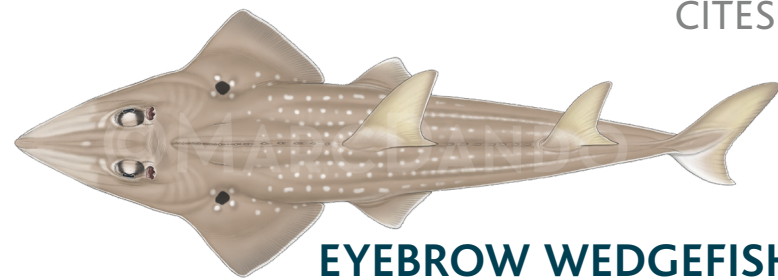

BOTTLENOSE WEDGEFISH
Rhynchobatus australiae
CMS App II; Sharks MOU
CITES App II

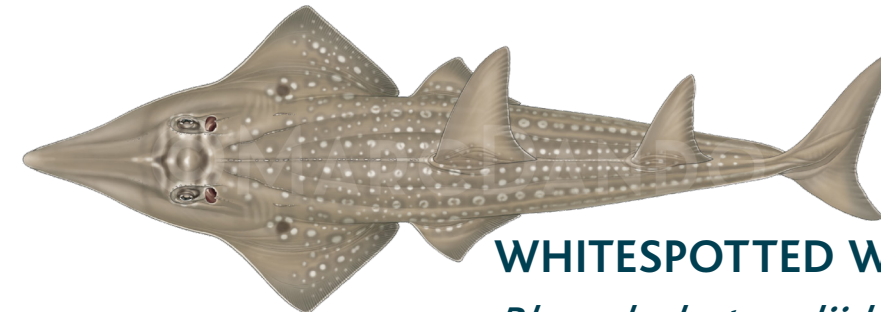

SMOOTHNOSE WEDGEFISH
Rhynchobatus laevis
CMS App II; Sharks MOU
CITES App II

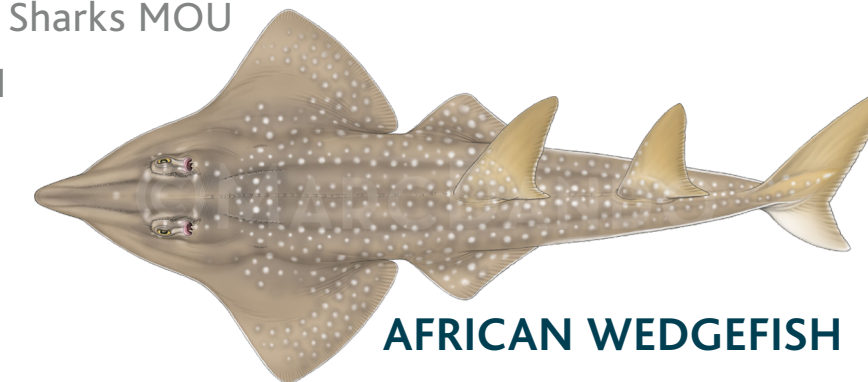

SHARPNOSE GUITARFISH
Glaucostegus granulatus
CITES App II

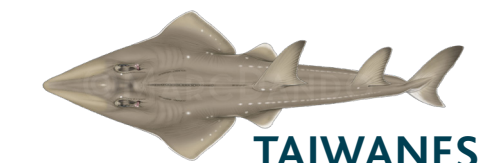

EYEBROW WEDGEFISH
Rhynchobatus palpebratus
CITES App II

WHITESPOTTED WEDGEFISH
Rhynchobatus djiddensis
CMS App II; Sharks MOU
CITES App II

AFRICAN WEDGEFISH
Rhynchobatus luebberti
CITES App II

TAIWANESE WEDGEFISH
Rhynchobatus immaculatus
CITES App II

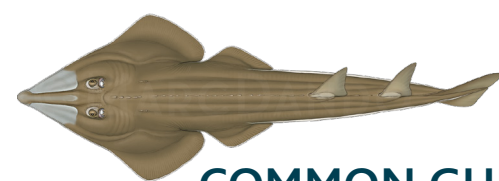

GIANT GUITARFISH
Glaucostegus typus
CITES App II

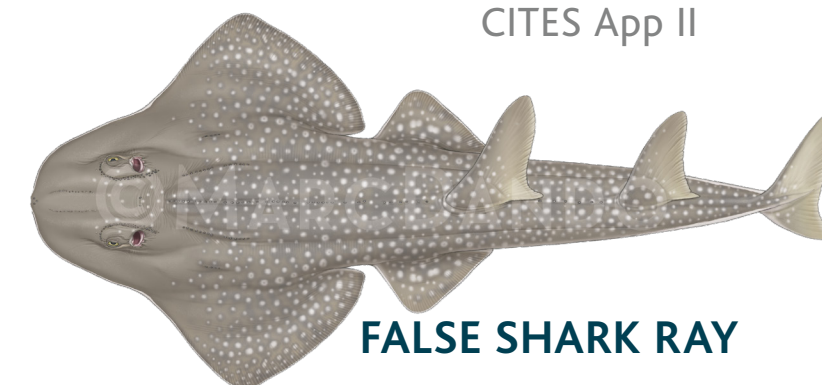

RHINO RAYS

LISTED ON INTERNATIONAL TREATIES

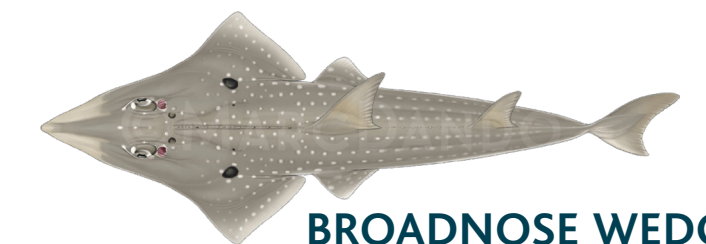

The order Rhinopristiformes is comprised of 68 species of banjo rays (Trygonorrhinidae), giant guitarfishes (Glaucostegidae), guitarfishes (Rhinobatidae), sawfishes (family Pristidae), and wedgefishes (Rhinidae). Referred to as 'Rhino Rays', they represent some of the most threatened marine species in the world. Due to their status and the urgent need for conservation actions, 23 of these species are listed on three international treaties: Convention on the Conservation of Migratory Species of Wild Animals (CMS), Memorandum of Understanding on the Conservation of Migratory Sharks (Sharks MOU), and Convention on International Trade in Endangered Species of Wild Flora and Fauna (CITES). A CMS Appendix I (App I) requires states to prohibit the taking of these species while an App II listing recognizes that they require international agreements for their conservation and management. A Sharks MOU listing indicates that a species has an unfavourable conservation status and would significantly benefit from collaborative international conservation action. A CITES App I listing prohibits the commercial trade of a species while an App II listing ensures that species can only be traded through a permitting system that requires an assessment of the sustainability of intended trade.

COMMON GUITARFISH
Rhinobatos rhinobatos
CMS App II; Sharks MOU

FALSE SHARK RAY
Rhynchorhina mauritaniensis
CITES App II

BROADNOSE WEDGEFISH
Rhynchobatus springeri
CITES App II

BOWMOUTH GUITARFISH
Rhina ancylostoma
CITES App II
