

**Format for reports of Parties on implementation of the
Convention on the Conservation of Migratory Species
of Wild Animals (revision of June 2003)**

Reporting format agreed by the Standing Committee at its 26th Meeting (Bonn, June 2003) for mandatory use by Parties, for reports submitted to the Eighth Meeting of the Conference of the Parties (COP8) (Nairobi, 2005).

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

Please refer to the separate instructions on completing the report. Parties are encouraged to respond to all questions, since it cannot be assumed that the absence of a response indicates that no activities taken have place in the current reporting period. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

Which agency has been primarily responsible for the preparation of this report? Federal Ministry for the Environment, Nature Conservation and Nuclear Safety, Germany List any other agencies that have provided input: Federal Agency for Nature Conservation

I(a). General Information

Please complete any unfilled boxes and amend and/or update as appropriate the information provided in the table below:

Reports submitted:	1988, 1991, 1994, 1997, 1999, 2002
Period covered by this report:	1 January 2002 – 31 December 2004
Date of entry into force of the Convention in Germany:	1 October 1984
Territory to which the Convention applies:	Germany and German vessels operating beyond territorial seas. (Before 3 October 1990 the Convention was in force for the Federal Republic of Germany only, but since that date the Convention has also been in force in the territory of the former German Democratic Republic)
Reservations (against species listings):	
Designated Focal Point: Dirk Schwenzfeier Federal Ministry for the Environment, Nature Conservation and Nuclear Safety Division N I 4 Robert-Schuman-Platz 3 53175 Bonn Germany Tel.: +49.1888.305.2611 Fax: +49.1888.305.2684 E-mail: dirk.schwenzfeier@bmu.bund.de	Appointment to the Scientific Council: Dr. Rainer Blanke Bundesamt für Naturschutz Konstantinstr. 110 53179 Bonn Germany Tel.: +49.228.8491.115 Fax: +49.228.8491.119 E-mail: blanker@bfm.de
Membership of the Standing Committee:	Not applicable

Competent authority:	Federal Ministry for the Environment, Nature Conservation and Nuclear Safety
Implementing legislation:	Federal Ordinance on Species Protection (Bundesartenschutzverordnung) (amended 2005) Federal Nature Conservation Act (Bundesnaturschutzgesetz) (2002) The nature conservation acts of the federal states (Länder) The hunting laws of the federal government and of the federal states (Länder)
Other relevant conventions/agreements (apart from CMS) to which Germany is a Party:	Council Directive 79/409/EEC on the conservation of wild birds (Birds Directive) Council Directive 92/43/EEC on the conservation of natural habitats and of wild fauna and Flora (Habitats Directive) Bern Convention, CITES, CBD
National policy instruments (e.g. national biodiversity conservation strategy, etc.):

I(b). Additional General Information

1	<p>Which other government departments are involved in activities/initiatives for the conservation of migratory species in your country? (Please list.)</p> <p>Federal Ministry for Consumer Protection, Food and Agriculture, Departments for Hunting and Fishery Affairs Ministries for the Environment and for Hunting and Fisheries on the level of the federal states (Länder)</p>
1a	<p>If more than one government department is involved, describe the interaction/relationship between these government departments:</p> <p>Cooperation on the level of the federal government takes place if species are concerned, which are under the hunting law in Germany (e.g. wildfowl) or which are interfered by fishery activities (e.g. marine mammals). The implementation of conservation measures is with the government departments of the federal states (Länder).</p>
2	<p>List the main non-governmental organizations actively involved in initiatives for the conservation of migratory species in your country, and describe their involvement:</p> <p>Dachverband Deutscher Avifaunisten (DDA), Deutscher Jagdschutz-Verband (DJV), EURONATUR, NABU (Naturschutzbund Deutschland e.V.), Whale and Dolphin Conservation Society (WDCS).</p> <p>See the National Report 2002 „Conservation status and protection of migratory species in Germany” for their involvement in CMS activities.</p>
3	<p>Describe any involvement of the private sector in the conservation of migratory species in your country:</p> <p>Volunteers participate in the conservation of migratory species through conservation implementation measures, monitoring surveys, amateur research and funding.</p>
4	<p>Note any interactions between these sectors in the conservation of migratory species in your country:</p> <p>There is close cooperation between governmental authorities, NGOs and private volunteers in many aspects of the conservation of migratory species in Germany. The most important fields of mutual exchange are: site and monitoring data, education, research results, and funding.</p>

II. Appendix I species

1. BIRDS

1.1 General questions on Appendix I bird species

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I bird species: Federal Ministry for the Environment, Nature Conservation and Nuclear Safety, Division N I 4, Robert-Schuman-Platz 3, 53175 Bonn, Germany Federal Agency for Nature Conservation, Konstantinstr. 110, 53179 Bonn, Germany
2	Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes
2a	If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? <input checked="" type="checkbox"/> Yes If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)): The capture of single specimens was allowed for research purposes under the condition of careful handling and immediate release of the animals. Eggs of Great Bustards were taken for ex situ incubation and release of the chicks as part of a Species Conservation Programme.
3	Identify any obstacles to migration that exist in relation to Appendix I bird species: <i>Haliaeetus albicilla</i> is a frequent victim of wind turbines. From 1989 to November 2004 14 birds of this species were found dead struck by a turbine's wing. <i>Anser erythropus</i> is under threat to be shot at wintering sites in the federal state of Mecklenburg-Vorpommern due to misidentification.
3a	What actions are being undertaken to overcome these obstacles? Bird conservation aspects shall be taken into account when wind turbines are planned or built. Appropriate instruments of land management and planning are at hand, e.g. environmental impact assessments, databanks on bird occurrence, and regional conservation priorities. However, there still are locations with an unsatisfying application of the available instruments.
3b	What assistance, if any, does your country require in order to overcome these obstacles? Foreign assistance is not needed.
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))? Species specific habitat management and conservation programmes are implemented for Appendix I bird species in Germany: <i>Aythya nyroca</i> , <i>Haliaeetus albicilla</i> , <i>Otis tarda</i> , and <i>Acrocephalus paludicola</i> . In <i>Haliaeetus albicilla</i> a campaign is on the way to ban the use of lead shot in hunting, as eagles ingest the poison with carrion and die from it. In <i>Otis tarda</i> the reproductive success is encouraged by a special egg and offspring protection programme in Brandenburg. In <i>Anser erythropus</i> a German NGO is planning an international reintroduction project.
4a	Describe any factors that may limit action being taken in this regard: The legal status of <i>Haliaeetus albicilla</i> and <i>Otis tarda</i> , which are under the hunting law in Germany, sometimes is a problem for nature conservationists as they are not authorized to take dead or injured birds of huntable species. In many locations conservation actions are also limited by financial restrictions and the number of people prepared to work in the fields on a voluntary basis. The <i>Anser erythropus</i> reintroduction project suffers from a lack of funds and international support.
4b	What assistance, if any, does your country require to overcome these factors? Foreign assistance is not needed.

1.2 Questions on specific Appendix I bird species

The following section contains a table for each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species Haliaeetus albicilla</i> – Common Name(s) White-tailed Eagle	
1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes
2	Please provide published distribution reference: German CMS National Report 2002 “Conservation status and protection of migratory species in Germany” ; Gedeon, K., Mitschke, A. & Sudfeldt, C. (eds.) (2004): Brutvögel in Deutschland. Hohenstein-Ernstthal, 37 p.
3	Summarise information on population size, trends and distribution (if known): About 470 breeding pairs (2004); growing population with expanding distribution area.
4	Indicate (with an ‘X’) and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input checked="" type="checkbox"/> Research <input checked="" type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Species protection <input type="checkbox"/> Species restoration <input checked="" type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species: Activities indicated under paragraph 4 will go on.

<i>Species Anser erythropus</i> – Common Name(s) Lesser White-fronted Goose	
1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes
2	Please provide published distribution reference: Scott, D.A. & Rose, P.M. (1996): Atlas of Anatidae Populations in Africa and Western Eurasia. Wetlands International Publication 41, Wageningen, 336 p.
3	Summarise information on population size, trends and distribution (if known): <i>Anser erythropus</i> in an occasional winterer.
4	Indicate (with an ‘X’) and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input checked="" type="checkbox"/> Monitoring <input type="checkbox"/> Species protection <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration

	<input type="checkbox"/> Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species: Activities indicated under paragraph 4 will go on.

<i>Species Branta ruficollis</i> – Common Name(s) Red-breasted Goose	
1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes
2	Please provide published distribution reference: Scott, D.A. & Rose, P.M. (1996): Atlas of Anatidae Populations in Africa and Western Eurasia. Wetlands International Publication 41, Wageningen, 336 p.
3	Summarise information on population size, trends and distribution (if known): <i>Branta ruficollis</i> is a rare passage migrant and winterer.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input checked="" type="checkbox"/> Monitoring <input type="checkbox"/> Species protection <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species: Activities indicated under paragraph 4 will go on.

<i>Species Aythya nyroca</i> – Common Name(s) Ferruginous Pochard, Ferruginous Duck	
1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes
2	Please provide published distribution reference: Schneider-Jacoby, M. (2000): Freizeit und Entenschutz am Wasser – Sicherung der Brut- und Rastgebiete von Kolbenenten und Moorenten in Deutschland. Schriftenreihe für Landschaftspflege und Naturschutz 60: 81-93.
3	Summarise information on population size, trends and distribution (if known): <i>Aythya nyroca</i> is critically endangered in Germany with only 1-3 breeding pairs in the last years restricted to Lake Constance (Bodensee) in south-western Germany.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input checked="" type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Species protection <input type="checkbox"/> Species restoration <input checked="" type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other

5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species: Activities indicated under paragraph 4 will go on.

<i>Species Otis tarda</i> – Common Name(s) Great Bustard	
1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes
2	Please provide published distribution reference: German CMS National Report 2002 “Conservation status and protection of migratory species in Germany” ; Gedeon, K., Mitschke, A. & Sudfeldt, C. (eds.) (2004): Brutvögel in Deutschland. Hohenstein-Ernstthal, 37 p.
3	Summarise information on population size, trends and distribution (if known): <i>Otis tarda</i> is critically endangered in Germany with only 91-93 individuals (2004) nearly restricted to 3 sites.
4	Indicate (with an ‘X’) and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input checked="" type="checkbox"/> Research <input checked="" type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Species protection <input checked="" type="checkbox"/> Species restoration <input checked="" type="checkbox"/> Habitat protection <input checked="" type="checkbox"/> Habitat restoration <input checked="" type="checkbox"/> Other: Ex situ incubation of eggs and release of chicks to wild mothers to improve the reproductive success.
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species: Activities indicated under paragraph 4 will go on.

<i>Species Acrocephalus paludicola</i> – Common Name(s) Aquatic Warbler	
1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes
2	Please provide published distribution reference: German CMS National Report 2002 “Conservation status and protection of migratory species in Germany”.
3	Summarise information on population size, trends and distribution (if known): <i>Acrocephalus paludicola</i> is critically endangered in Germany with only 12-15 breeding pairs in the last years restricted to north-eastern Germany.
4	Indicate (with an ‘X’) and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input checked="" type="checkbox"/> Research <input checked="" type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Species protection <input type="checkbox"/> Species restoration <input checked="" type="checkbox"/> Habitat protection <input checked="" type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?

6	Describe any future activities that are planned for this species: Activities indicated under paragraph 4 will go on.
---	---

2. MARINE MAMMALS

2.1 General questions on Appendix I marine mammals

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed marine mammals: Federal Ministry for the Environment, Nature Conservation and Nuclear Safety, Division N I 4, Robert-Schuman-Platz 3, 53175 Bonn, Germany Federal Agency for Nature Conservation, Konstantinstr. 110, 53179 Bonn, Germany
2	Is the taking of all Appendix I marine mammals prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I marine mammals is prohibited by law, have any exceptions been granted to the prohibition? <input checked="" type="checkbox"/> Yes If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)): Dead marine mammals were taken for research purposes by authorized institutions.
3	Identify any obstacles to migration that exist in relation to Appendix I marine mammals: None
3a	What actions are being undertaken to overcome these obstacles?
3b	What assistance, if any, does your country require in order to overcome these obstacles?
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine mammal, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))? None
4a	Describe any factors that may limit action being taken in this regard:
4b	What assistance, if any, does your country require to overcome these factors?

2.2 Questions on specific Appendix I marine mammals

The following section contains a table for each Appendix I marine mammal species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species</i> <i>Balaenoptera borealis</i> – Common Name(s) Coalfish Whale; Pollack Whale; Rudophi's Rorqual
--

1	Is your country a Range State for this species? <input checked="" type="checkbox"/> No
2	Please provide published distribution reference:
3	Summarise information on population size, trends and distribution (if known):
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input type="checkbox"/> Monitoring <input type="checkbox"/> Species protection <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:

Species *Balaenoptera physalus* – Common Name(s) Common Rorqual; Fin Whale; Finback; Fin-backed Whale

1	Is your country a Range State for this species? <input checked="" type="checkbox"/> No
2	Please provide published distribution reference:
3	Summarise information on population size, trends and distribution (if known):
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input type="checkbox"/> Monitoring <input type="checkbox"/> Species protection <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:

Species *Physeter macrocephalus* – Common Name(s) Sperm Whale

1	Is your country a Range State for this species? <input checked="" type="checkbox"/> No
2	Please provide published distribution reference:
3	Summarise information on population size, trends and distribution (if known):
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the

	reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input type="checkbox"/> Monitoring <input type="checkbox"/> Species protection <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:

3 MARINE TURTLES

3.1 General questions on Appendix I marine turtles

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed marine turtles: Federal Ministry for the Environment, Nature Conservation and Nuclear Safety, Division N I 4, Robert-Schuman-Platz 3, 53175 Bonn, Germany Federal Agency for Nature Conservation, Konstantinstr. 110, 53179 Bonn, Germany
2	Is the taking of all Appendix I marine turtles prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I marine turtles is prohibited by law, have any exceptions been granted to the prohibition? <input checked="" type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):
3	Identify any obstacles to migration that exist in relation to Appendix I marine turtles: None
3a	What actions are being undertaken to overcome these obstacles?
3b	What assistance, if any, does your country require in order to overcome these obstacles?
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine turtles, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))? None
4a	Describe any factors that may limit action being taken in this regard:
4b	What assistance, if any, does your country require to overcome these factors?

3.2 Questions on specific Appendix I marine turtles

4 TERRESTRIAL MAMMALS (OTHER THAN BATS)

4.1 General questions on Appendix I terrestrial mammals (other than bats)

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed terrestrial mammals (other than bats): Federal Ministry for the Environment, Nature Conservation and Nuclear Safety, Division N I 4, Robert-Schuman-Platz 3, 53175 Bonn, Germany Federal Agency for Nature Conservation, Konstantinstr. 110, 53179 Bonn, Germany
2	Is the taking of all Appendix I terrestrial mammals (other than bats) prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I terrestrial mammals (other than bats) is prohibited by law, have any exceptions been granted to the prohibition? <input checked="" type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):
3	Identify any obstacles to migration that exist in relation to Appendix I terrestrial mammals (other than bats): None
3a	What actions are being undertaken to overcome these obstacles?
3b	What assistance, if any, does your country require in order to overcome these obstacles?
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of terrestrial mammal (other than bats), including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))? None
4a	Describe any factors which limit action being taken in this regard:
4b	What assistance, if any, does your country require to overcome these factors?

4.2 Questions on specific Appendix I terrestrial mammals (other than bats)

5 BATS

5.1 General questions on Appendix I bats

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed bats: Federal Ministry for the Environment, Nature Conservation and Nuclear Safety, Division N I 4, Robert-Schuman-Platz 3,
---	--

	53175 Bonn, Germany Federal Agency for Nature Conservation, Konstantinstr. 110, 53179 Bonn, Germany
2	Is the taking of all Appendix I bats prohibited by the national implementing Legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I bats is prohibited by law, have any exceptions Been granted to the prohibition? <input checked="" type="checkbox"/> Yes If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)): Capture and handling was exceptionally allowed for research and marking purposes by authorized institutions and persons.
3	Identify any obstacles to migration that exist in relation to Appendix I bats: None
3a	What actions are being undertaken to overcome these obstacles?
3b	What assistance, if any, does your country require in order to overcome these obstacles?
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of bats, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))? None
4a	Describe any factors that may limit action being taken in this regard:
4b	What assistance, if any, does your country require to overcome these factors?

5.2 Questions on specific Appendix I bat species

6 OTHER TAXA

6.1 General questions on Appendix I species belonging to other taxa

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed species belonging to taxa not included in sections 1-5 above: Federal Ministry for the Environment, Nature Conservation and Nuclear Safety, Division N I 4, Robert-Schuman-Platz 3, 53175 Bonn, Germany Federal Agency for Nature Conservation, Konstantinstr. 110, 53179 Bonn, Germany
2	Is the taking of all Appendix I species belonging to taxa not included in sections 1-5 above, prohibited by the national legislation listed as being implementing legislation in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I species belonging to taxa not included in sections 1-5 above is prohibited by law, have any exceptions been granted to the prohibition? <input checked="" type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):
3	Identify any obstacles to migration that exist in relation to Appendix I species belonging to taxa not included in sections 1-5 above:

	None
3a	What actions are being undertaken to overcome these obstacles?
3b	What assistance, if any, does your country require in order to overcome these obstacles?
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species belonging to taxa not included in section 1-5 above, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))? None
4a	Describe any factors that may limit action being taken in this regard:
4b	What assistance, if any, does your country require to overcome these factors?

6.2 Questions on specific Appendix I species belonging to other taxa

7 LISTING OF OTHER ENDANGERED MIGRATORY SPECIES IN APPENDIX I

1	Is your country a Range State for any other endangered migratory species not currently listed in Appendix I? If Yes, please provide details:	<input checked="" type="checkbox"/> No
1a	Is your country taking any steps to propose listing any of these species? If Yes, please provide details:	<input checked="" type="checkbox"/> No
1b	What assistance, if any, does your country require to initiate the listing of these species?	

III. Appendix II Species

1. INFORMATION ON APPENDIX II SPECIES

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the secretariat each of the Agreement/MoUs to which your country is a Party.

GREAT BUSTARD MoU (2001)	
Date of last report: 26 May 2004	Period covered: Development until 2004
WADDEN SEA SEALS (1991)	
Date of last report: 28 June 2002	Period covered: From entry into force until June 2002
EUROBATS (1994)	
Date of last report: July 2003	Period covered: 2000 - 2003
ASCOBANS (1994)	
Date of last report: 31 March 2005	Period covered: 1 January – 31 December 2004
AEWA (1999)	
Date of last report: 18 September 2002	Period covered: 2000 - 2002
ALBATROSSES AND PETRELS (2001)	
Date of last report:	Period covered:

2. QUESTIONS ON CMS AGREEMENTS

2.1 Questions on the development of new CMS Agreements relating to birds

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bird species? If Yes, what is the current state of development?	<input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bird species? If Yes, please provide details: Signature of Great Bustard MoU and Aquatic Warbler MoU.	<input checked="" type="checkbox"/> Yes
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? None	
4	Is the development of any CMS Agreement for birds, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input checked="" type="checkbox"/> No

2.2 Questions on the development of new CMS Agreements relating to marine mammals

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine mammal species? If Yes, what is the current state of development?	<input checked="" type="checkbox"/> No
---	--	--

2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine mammal species? If Yes, please provide details:	<input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for marine mammals, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input checked="" type="checkbox"/> No

2.3 Questions on the development of new CMS Agreements relating to marine turtles

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine turtles? If Yes, what is the current state of development?	<input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine turtles? If Yes, please provide details:	<input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for marine turtles, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input checked="" type="checkbox"/> No

2.4 Questions on the development of new CMS Agreements relating to terrestrial mammals (other than bats)

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, what is the current state of development?	<input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, please provide details:	<input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for terrestrial mammals (other than bats), including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input checked="" type="checkbox"/> No

2.5 Questions on the development of new CMS Agreements relating to bats

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bat species? If Yes, what is the current state of development?	<input checked="" type="checkbox"/> No
---	--	--

2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bat species? If Yes, please provide details:	<input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for bats, including Memoranda of Understanding, planned by your country in the future? If Yes, please provide details:	<input checked="" type="checkbox"/> No

2.6 Questions on the development of new CMS Agreements relating to other taxa

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II species belonging to taxa not included in sections 1-6 above? If Yes, what is the current state of development?	<input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of species belonging to taxa not included in sections 1-6 above? If Yes, please provide details:	<input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for other taxa, including Memorandum of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input checked="" type="checkbox"/> No

3. LISTING OF MIGRATORY SPECIES IN APPENDIX II

1	Is your country a Range State for any migratory species that has an unfavourable conservation status, but is <u>not</u> currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation? If Yes, please provide details: Some migratory species of the bird families Strigidae (Owls) and Laniidae (Shrikes) are on the German Red List.	<input checked="" type="checkbox"/> Yes
1a	Is your country taking any steps to propose the listing of this/these species in Appendix II? If Yes, please provide details:	<input checked="" type="checkbox"/> No
1b	What assistance, if any, does your country require to initiate the listing of this/these species? None	

IV. National and Regional Priorities

1	What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues?	<input checked="" type="checkbox"/> Medium																																	
2	Are migratory species and their habitats addressed by your country's national biodiversity strategy or action plan? If Yes, please indicate and briefly describe the extent to which it addresses the following issues:	<input checked="" type="checkbox"/> No, such a plan is not in force																																	
	<input type="checkbox"/> Conservation, sustainable use and/or restoration of migratory species <input type="checkbox"/> Conservation, sustainable use and/or restoration of the habitats of migratory species, including protected areas <input type="checkbox"/> Actions to prevent, reduce or control factors that are endangering or are likely to further endanger migratory species (e.g. alien invasive species or by-catch) <input type="checkbox"/> Minimising or eliminating barriers or obstacles to migration <input type="checkbox"/> Research and monitoring of migratory species <input type="checkbox"/> Transboundary co-operation																																		
3	Does the conservation of migratory species currently feature in any other national or regional policies/plans (apart from CMS Agreements) If Yes, please provide details: The conservation of migratory species is part of the duties for the implementation of the Birds Directive and the Habitats Directive.	<input checked="" type="checkbox"/> Yes																																	
3a	Do these policies/plans cover the following areas (if Yes, please provide details): <table style="width: 100%; border: none;"> <thead> <tr> <th style="width: 10%; text-align: left;">Yes</th> <th style="width: 10%; text-align: left;">No</th> <th></th> </tr> </thead> <tbody> <tr> <td><input checked="" type="checkbox"/></td> <td></td> <td>Exploitation of natural resources (e.g. fisheries, hunting, etc.)</td> </tr> <tr> <td></td> <td><input checked="" type="checkbox"/></td> <td>Economic development</td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td></td> <td>Land-use planning</td> </tr> <tr> <td></td> <td><input checked="" type="checkbox"/></td> <td>Pollution control</td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td></td> <td>Designation and development of protected areas</td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td></td> <td>Development of ecological networks</td> </tr> <tr> <td></td> <td><input checked="" type="checkbox"/></td> <td>Planning of powerlines</td> </tr> <tr> <td></td> <td><input checked="" type="checkbox"/></td> <td>Planning of fences</td> </tr> <tr> <td></td> <td><input checked="" type="checkbox"/></td> <td>Planning of dams</td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td></td> <td>Other: Environmental impact assessments for plans and projects.</td> </tr> </tbody> </table>	Yes	No		<input checked="" type="checkbox"/>		Exploitation of natural resources (e.g. fisheries, hunting, etc.)		<input checked="" type="checkbox"/>	Economic development	<input checked="" type="checkbox"/>		Land-use planning		<input checked="" type="checkbox"/>	Pollution control	<input checked="" type="checkbox"/>		Designation and development of protected areas	<input checked="" type="checkbox"/>		Development of ecological networks		<input checked="" type="checkbox"/>	Planning of powerlines		<input checked="" type="checkbox"/>	Planning of fences		<input checked="" type="checkbox"/>	Planning of dams	<input checked="" type="checkbox"/>		Other: Environmental impact assessments for plans and projects.	
Yes	No																																		
<input checked="" type="checkbox"/>		Exploitation of natural resources (e.g. fisheries, hunting, etc.)																																	
	<input checked="" type="checkbox"/>	Economic development																																	
<input checked="" type="checkbox"/>		Land-use planning																																	
	<input checked="" type="checkbox"/>	Pollution control																																	
<input checked="" type="checkbox"/>		Designation and development of protected areas																																	
<input checked="" type="checkbox"/>		Development of ecological networks																																	
	<input checked="" type="checkbox"/>	Planning of powerlines																																	
	<input checked="" type="checkbox"/>	Planning of fences																																	
	<input checked="" type="checkbox"/>	Planning of dams																																	
<input checked="" type="checkbox"/>		Other: Environmental impact assessments for plans and projects.																																	

V. Protected Areas

1	Are migratory species taken into account in the selection, establishment and management of protected areas in your country? If Yes, please provide details: Important habitats of migratory species, especially waterbirds, bats and the harbour porpoise, are protected areas in accordance to Federal and regional Nature Conservation Acts, the Birds Directive and the Habitats Directive.	<input checked="" type="checkbox"/> Yes
1a	Do these protected areas cover the following areas? (If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas): Yes No	

	<input checked="" type="checkbox"/> Terrestrial <input checked="" type="checkbox"/> Aquatic <input checked="" type="checkbox"/> Marine
1b	Identify the agency, department or organization responsible for leading on this action in your country: The responsible authorities are at the level of the federal states (Länder). Only in terms of marine protected areas within the Exclusive Economic Area of German waters the Federal Agency for Nature Conservation is the responsible authority.

VI. Policies on Satellite Telemetry

1	In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (Indicate <i>inter alia</i> the scientific justification for the research, describe briefly the measures taken to ensure that risks to the welfare of individual animals and – in the case of severely depleted populations – to the species are minimised, and summarise the results obtained): In spring 2002 a PR campaign was launched following the migration of 6 White storks (<i>Ciconia ciconia</i>) from Africa to Germany. The birds were followed by satellite telemetry and daily reports about their flights were on TV, radio, newspapers and the internet.
2	Are any future conservation/research projects planned that will use satellite telemetry? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details (including the expected timeframe for these projects): If No, please explain any impediments or requirements in this regard:

VII. Membership

1	Have actions been taken by your country to encourage non-Parties to join CMS and its related Agreements? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.) The German Foreign Office carried out a demarche initiative in 2004. German embassies were instructed to raise the issue of joining CMS in 32 countries. Another 20 embassies were informed of this initiative.
1a	Identify the agency, department or organization responsible for leading on this action in your country:

VIII. Global and National Importance of CMS

1	Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation? <input checked="" type="checkbox"/> Yes If Yes, please provide details: By hosting the AEWA MOP 2 and CMS COP 7 in Bonn, 18-27 September 2002, and giving full support to the conferences it was intended <i>inter alia</i> to rise global public awareness of CMS.
2	Identify the agency, department or organization responsible for leading on this action in your country: Federal Ministry for the Environment, Nature Conservation and Nuclear Safety

IX. Mobilization of Resources

1	<p>Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p> <p>Funding of projects on small cetaceans:</p> <ul style="list-style-type: none"> - Contribution to SCANS-II (Estimation of the abundance of small cetaceans in European waters), - contribution to the development of a recovery plan for North Sea harbour porpoise, - research on harbour porpoise in the Baltic for the implementation of the Jastarnia Plan. <p>Analysis and evaluation of environmental factors affecting or limiting the breeding success of birds in wet grassland habitats.</p>
2	<p>Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details:</p> <p>In addition to funding CoP 7 (Bonn, 18-24 September 2002) Germany made each year voluntary financial contributions to CMS.</p>
3	<p>Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p> <p>Each year Germany made voluntary financial contributions to CMS, AEWA, ASCOBANS and EUROBATS.</p>
4	<p>Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p>
5	<p>Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p>
6	<p>Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p> <p>German projects on the conservation of threatened bird species (e.g. <i>Botaurus stellaris</i>) were funded by the European Commission under the LIFE programme.</p>

X. Implementation of COP Resolutions and Recommendations

Please summarize the measures undertaken by your country to implement the substantive, operational Resolutions and Recommendations adopted by the Conference of the Parties, where these have not been mentioned elsewhere in this report, giving particular emphasis to those identified below (as appropriate).

Resolutions

Resolution 6.2 – By-catch, and Recommendation 7.2 – Implementation of Resolution 6.2 on By-catch:

A project is funded to contribute to the elaboration of a recovery plan for *Phocoena phocoena* in the North Sea (see above).

Resolution 6.3 – Southern Hemisphere Albatross Conservation:

Resolution 7.2 – Impact Assessment and Migratory Species:

Resolution 7.3 – Oil Pollution and Migratory Species:

The German Wadden Sea area was declared as a Particularly Sensitive Sea Area in October 2002, being part of the first PSSA in Europe adopted by IMO. In 2003/2004 Germany also proposed its Baltic Sea waters to be declared as a PSSA.

Resolution 7.4 – Electrocutation of Migratory Birds:

The new Federal Nature Conservation Act from March 25th, 2002, states in Article 53: “To protect bird species, all newly constructed power poles and technical components of medium-voltage power lines shall be designed in such a way that birds are protected from electrocution. On existing power poles and technical components of medium-voltage power lines that pose a high risk to birds, the necessary measures to protect birds against electrocution shall be implemented within a period of ten years. The first and second sentences above shall not apply to the overhead power lines of the railways.”

Resolution 7.5 – Wind Turbines and Migratory Species:

A review by the German NGO NABU was funded to investigate the impact of wind turbines on birds and bats. The results highlight the most affected species and dangerous situations.

Research was funded to evaluate the impacts of off-shore wind turbines on marine mammals, migratory birds and fish.

In many cases environmental impact assessments were done within the process of local planning and erection of wind turbines.

Resolution 7.9 – Cooperation with Other Bodies and Processes:

Resolution 7.15 – Future Action on the Antarctic Minke, Bryde’s and Pygmy Right Whales under the Convention on Migratory Species:

Recommendations

Recommendation 7.5 – Range State Agreement for Dugong (*Dugong dugon*) Conservation:

Recommendation 7.6 – Improving the Conservation Status of the Leatherback Turtle (*Dermochelys coriacea*):

Recommendation 7.7 – America Pacific Flyway Programme:

Other resolutions/recommendations:

Other remarks:

A number of projects were funded to improve scientific and public information on migratory species in Germany, e. g:

Flight of the White Stork – following the birds' migration on TV and the internet;

European Celebration of the Bat in Berlin (in connection with the European Bat Night);

Implementation of a national waterbird monitoring scheme;

Bat migration in Central Europe – an atlas of bat ringing recoveries;

Analysis of the threats affecting particular animal species groups in Germany;

Annex: Questions on specific Appendix II species

The tables below contain the list of all species listed in Appendix II. Boxes have been checked to indicate the species for which your country is considered to be a Range State. Please amend the boxes where appropriate. (If you wish to provide further information on any of these species, please attach as an annex.) Please also provide published distribution references where available.

All species of each of the Families below are listed in Appendix II. If your country is a Range State for any of the species in these Families, please enter the species name in the first column, under the relevant Family heading. Please indicate (with a 'X') whether your country is a Range State or the species is extinct and, where appropriate, please provide published distribution references. (Space is provided for ten species in each Family. If additional lines are required, please attach the information as an annex.)
